TRPA Background Information:

TRPA was created when the governors and lawmakers in California and Nevada approved a bi-state compact that created a regional planning agency to oversee development at Lake Tahoe. In 1969, the United States Congress ratified the agreement and created the Tahoe Regional Planning Agency. The Agency is authorized under California law (California Government Code sections 66800 through 66801), Nevada law (NRS 277.190 through 227.200), and Federal law (PL 96-551).

TRPA is located on the border of the states of California and Nevada, between the Sierra Crest and the Carson Range. Approximately two-thirds of the region is in California, with one-third within the State of Nevada. The Tahoe Region contains an area of about 501 square miles, of which approximately 191 square miles comprise the surface waters of Lake Tahoe. Overlapping jurisdictions in California include the City of South Lake Tahoe, El Dorado County and Placer County. Overlapping jurisdictions in Nevada include Washoe County, Douglas County and Carson City. Tourism is the economic heartbeat of the region and visitors to the area far outnumber the year-round resident population of just over 55,000 people.

The mission of the TRPA is to “lead the cooperative effort to preserve, restore, and enhance the unique, natural, and human environment of the Lake Tahoe Region.” The Agency is the leading partner for plans and actions to preserve the environment of the Tahoe region. The Agency establishes transportation and land use policy. It works with local, regional, state, and federal organizations and governments to facilitate a cooperative approach in implementing these plans and programs.

TRPA is governed by a 15-member Board. California and Nevada each have seven members comprised of elected officials and governmental appointees. In addition, a non-voting member is appointed by the President of the United States of America. Further information can be obtained at the Agency’s website at www.trpa.gov
