CRIME	VICTIM
487 (a) PC	MAPES, JOHN

On 07/09/2020 at 1332 hours, I was dispatched to a theft report at 225 Rubicon Ave. in Homewood. Dispatch reported that the victim, (V) John Mapes, requested a telephone call to report that an unknown suspect stole his family's buoy.

At 1332 hours, I called (V) Mapes and he told me the following in summary:

(V) John Mapes' Statement

On 6/10/2020, Mapes originally reported the missing buoy to PCSO and was advised to check with the Tahoe Regional Planning Agency (TRPA) to see if they removed the buoy system for some reason before reporting the theft. Mapes checked with them and they apparently did not remove the buoy.

Sometime during the winter/spring of 2020, an unknown suspect stole his family's buoy ball with attached chain and concrete block from the Tahoe Pines buoy field. The buoy has been installed for fifty years or more and has been owned by their family who owns a house in the Tahoe Pines HOA (225 Rubicon Ave., Homewood).

Mapes believes the new homeowner of a lakefront "Alan Ennis" removed their buoy because it was the closest buoy to Mr. Ennis' brand new pier. Mapes believes his family's buoy was interfering with Mr. Ennis' access to his pier and wanted it gone.

On 6/6/2020, Mapes saw an amphibious barge on Mr. Ennis' lakefront property (4180 Ferguson Ave., Homewood) but he did not see a business name or CF number on the barge.

Mapes has knowledge that "BJ's Barge Service" has been known to remove buoy's at night.

Mapes stated that his family's buoy does not have a serial number or identification number on it since it was so old.

Last summer of 2019, High Sierra Marine serviced the buoy and marked the buoy's location with the following GPS coordinates: N39 6.261 W120 9.539

End of Statement

Reported By: Staley #105
Date: 07/09/2020

Approved By: _____

V-1 2/18

Mapes emailed me with the GPS coordinates, a written statement, and digital photos of the barge he saw and an aerial photo of where the buoy was located (via the GPS coordinates).

I later booked Mapes' statement, the GPS coordinates, and the photos into Evidence at the Tahoe substation.
