Dear Mr. Bryan:

This concerns your March 11, 2024, request for specific Department of the Army (DA) authorization to retain 1 existing mooring buoy located in Lake Tahoe, lakeward of 4100 Doe Avenue, Latitude 39.02735°, Longitude -120.11912°, Homewood, Placer County, California (Assessor Parcel Number: 085-161-014).

Based on the information you provided to this office on March 11, 2024, and October 7, 2009, and aerial photographs, we have determined that the property appears to have had a single buoy in place prior to December 18, 1968. In accordance with 33 CFR 330.3(b), this buoy was previously authorized by the Nationwide Permits issued on July 19, 1977. Therefore, because this buoy does not interfere with navigation in Lake Tahoe and has not been modified, we have determined no further DA authorization is required. Please note that if future plans would require modification to the existing buoy, you should contact our office for a determination on whether additional authorization is need.

Please note that this determination does not obviate the need to obtain other federal, state, or local permits, approvals, or authorizations required by law. It does not grant any property rights or exclusive privileges, nor does it authorize any injury to the property rights of others. Therefore, in addition to contacting other federal and local agencies, you should also contact state regulatory authorities to determine whether your structure may require other authorizations or permits.

We would appreciate your feedback on this action including your interaction with our staff and processes. For more information about our program or to complete our Regulatory Program national customer service survey, visit our website at www.spk.usace.army.mil/Missions/Regulatory.aspx.

Please refer to identification number SPK-1901-08932 in any correspondence concerning this project. If you have any questions, please contact Kirsten Grabreck at 1325 J Street Sacramento, California 95814-2922, by email at Kirsten.R.Grabreck@usace.army.mil, or telephone at 916-557-5353.

Sincerely,

Lisa M. Gibson
Chief, Special Projects Branch
