

# Tahoe Transportation District Activities

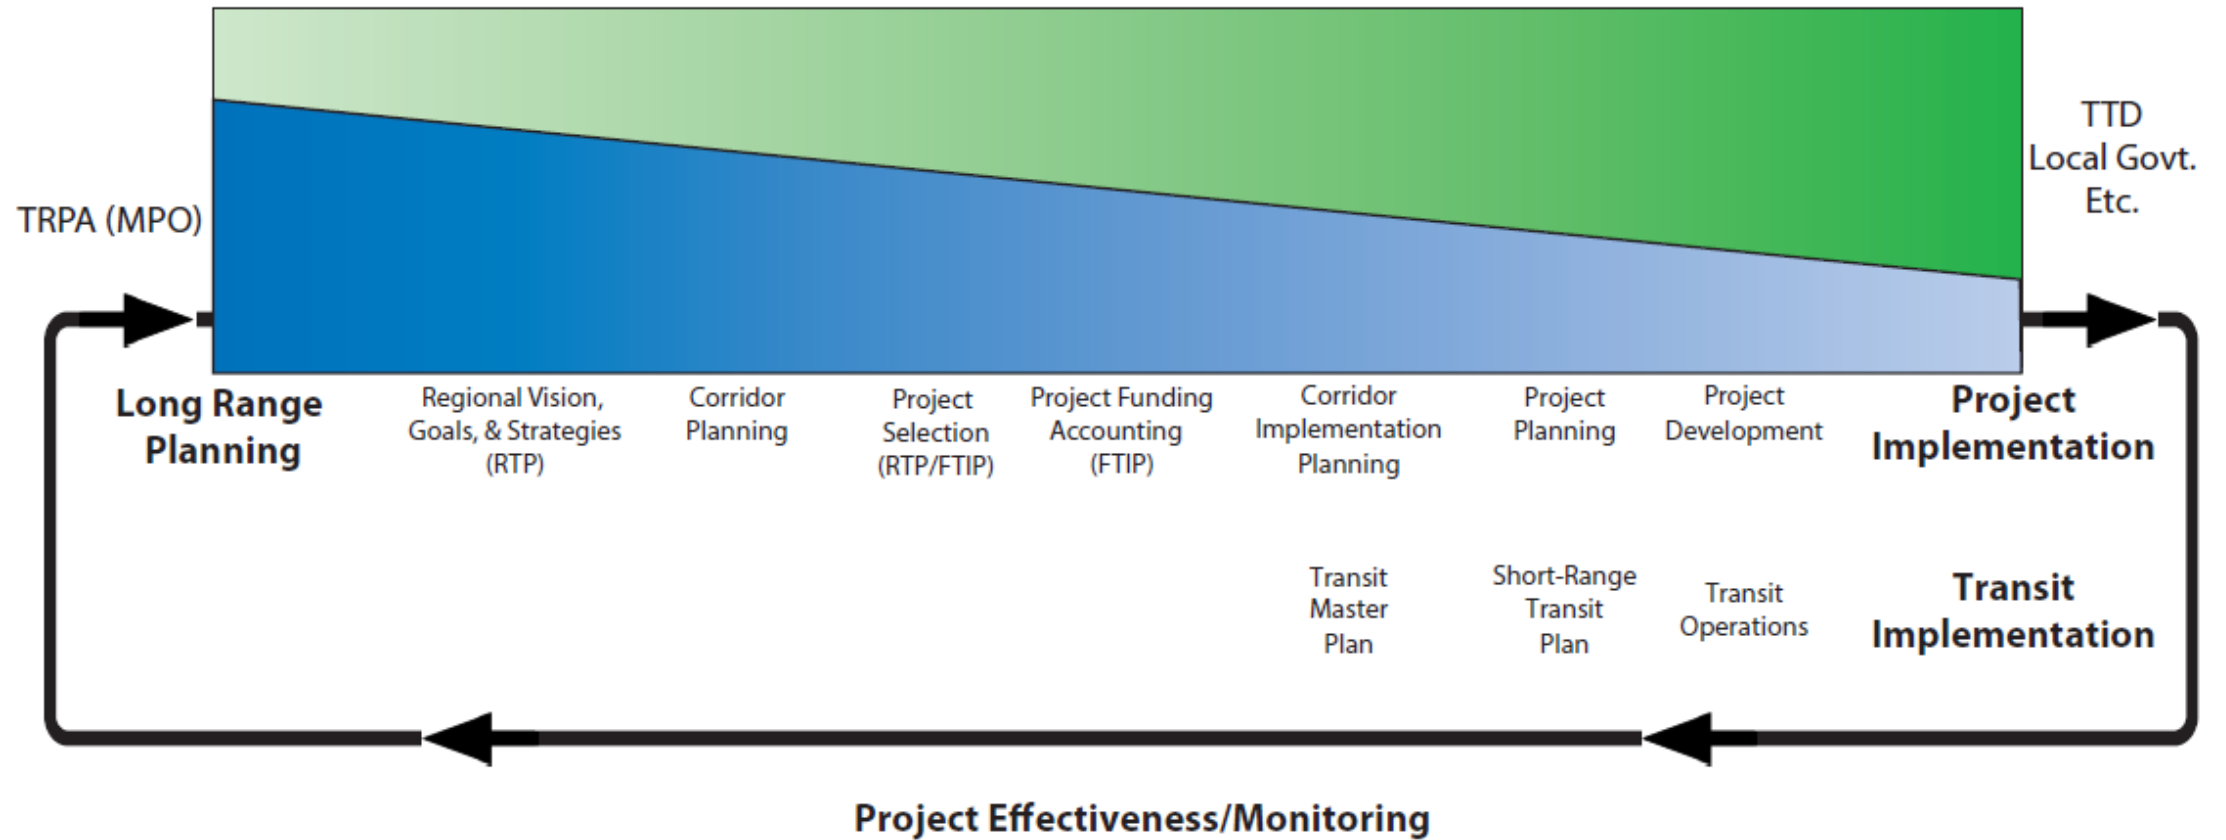

February 22, 2023

Environmental Improvement, Transportation and Public Outreach Committee

Item 4

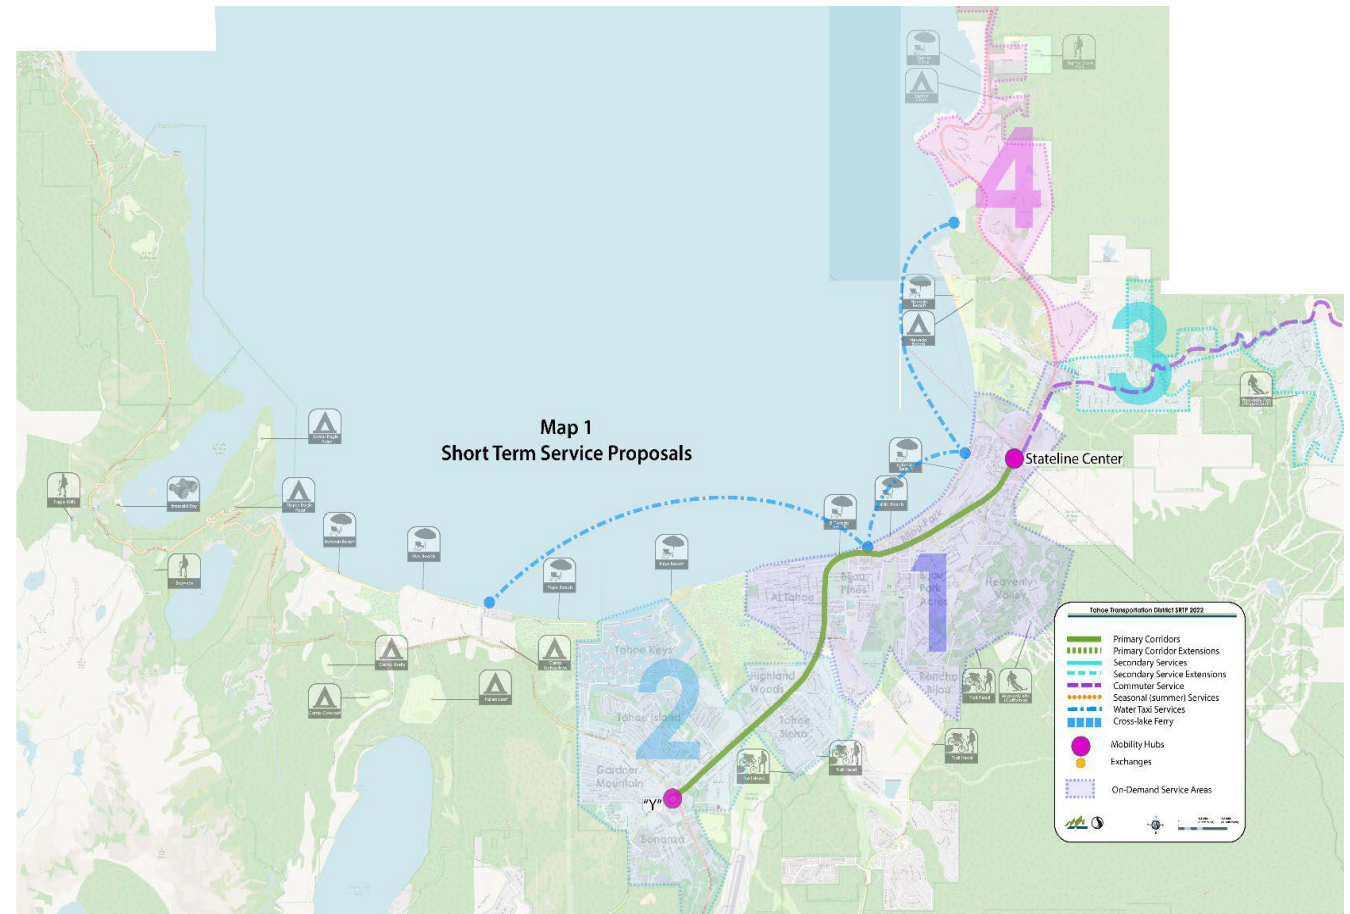

# Tahoe's Transportation Planning and Implementation Roles and Responsibilities Relationships

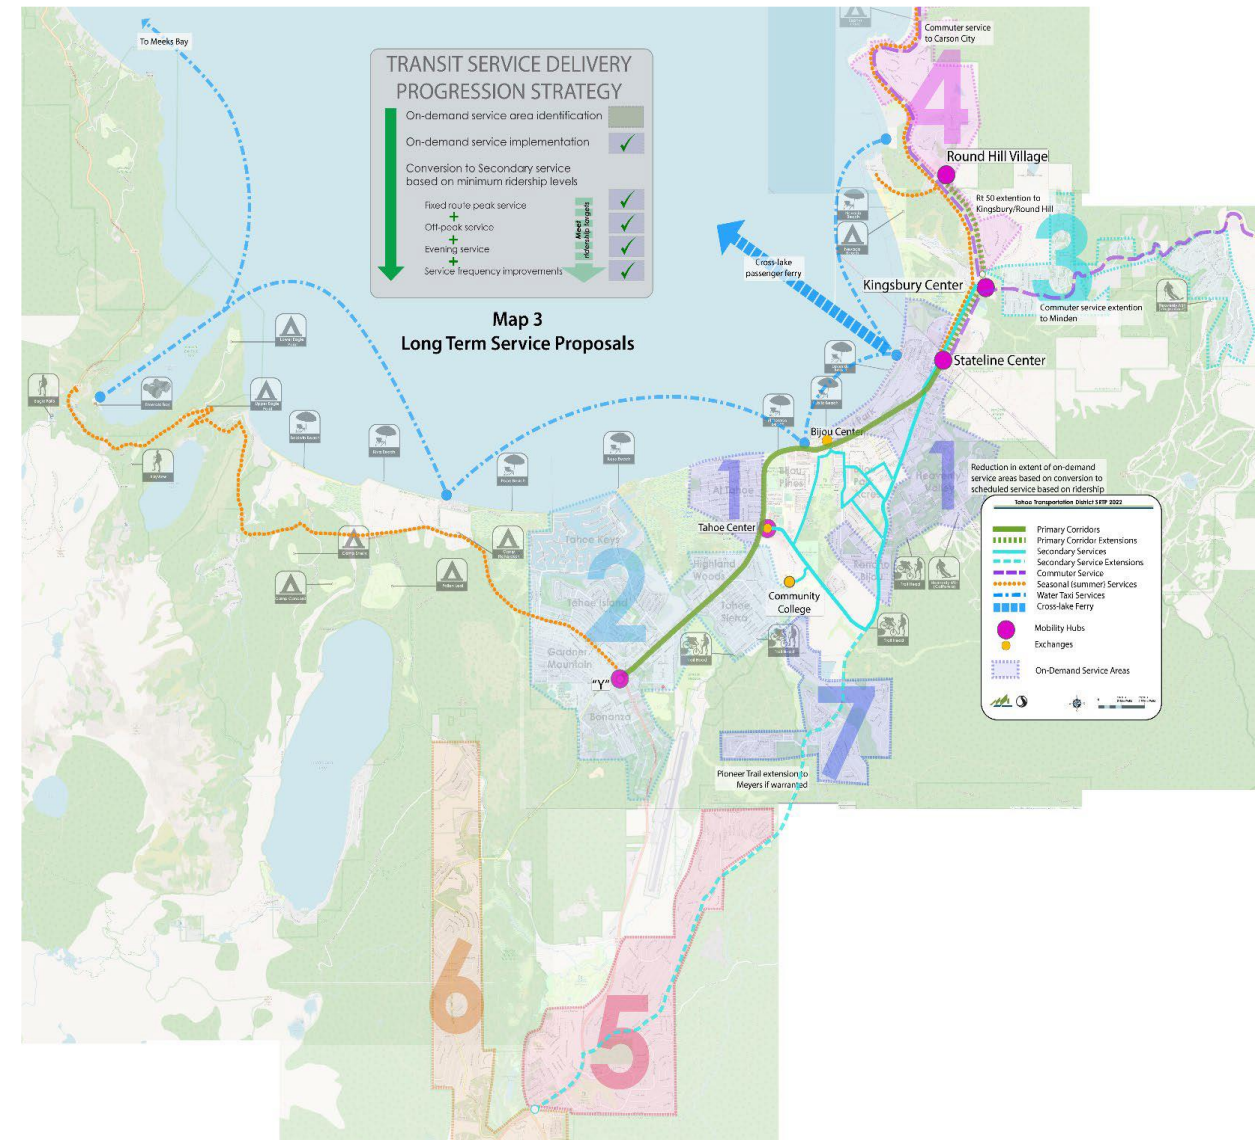

# Draft Short-Term Integrated Transit Service

- Concept integrates micro-transit with fixed-route service
- Under discussion with Technical Advisory Committee of TTD's with City of South Lake Tahoe, South Shore Transportation Management Association, TRPA, and Douglas County
- Discussion is part of TTD's update of the Short-Range Transit Plan

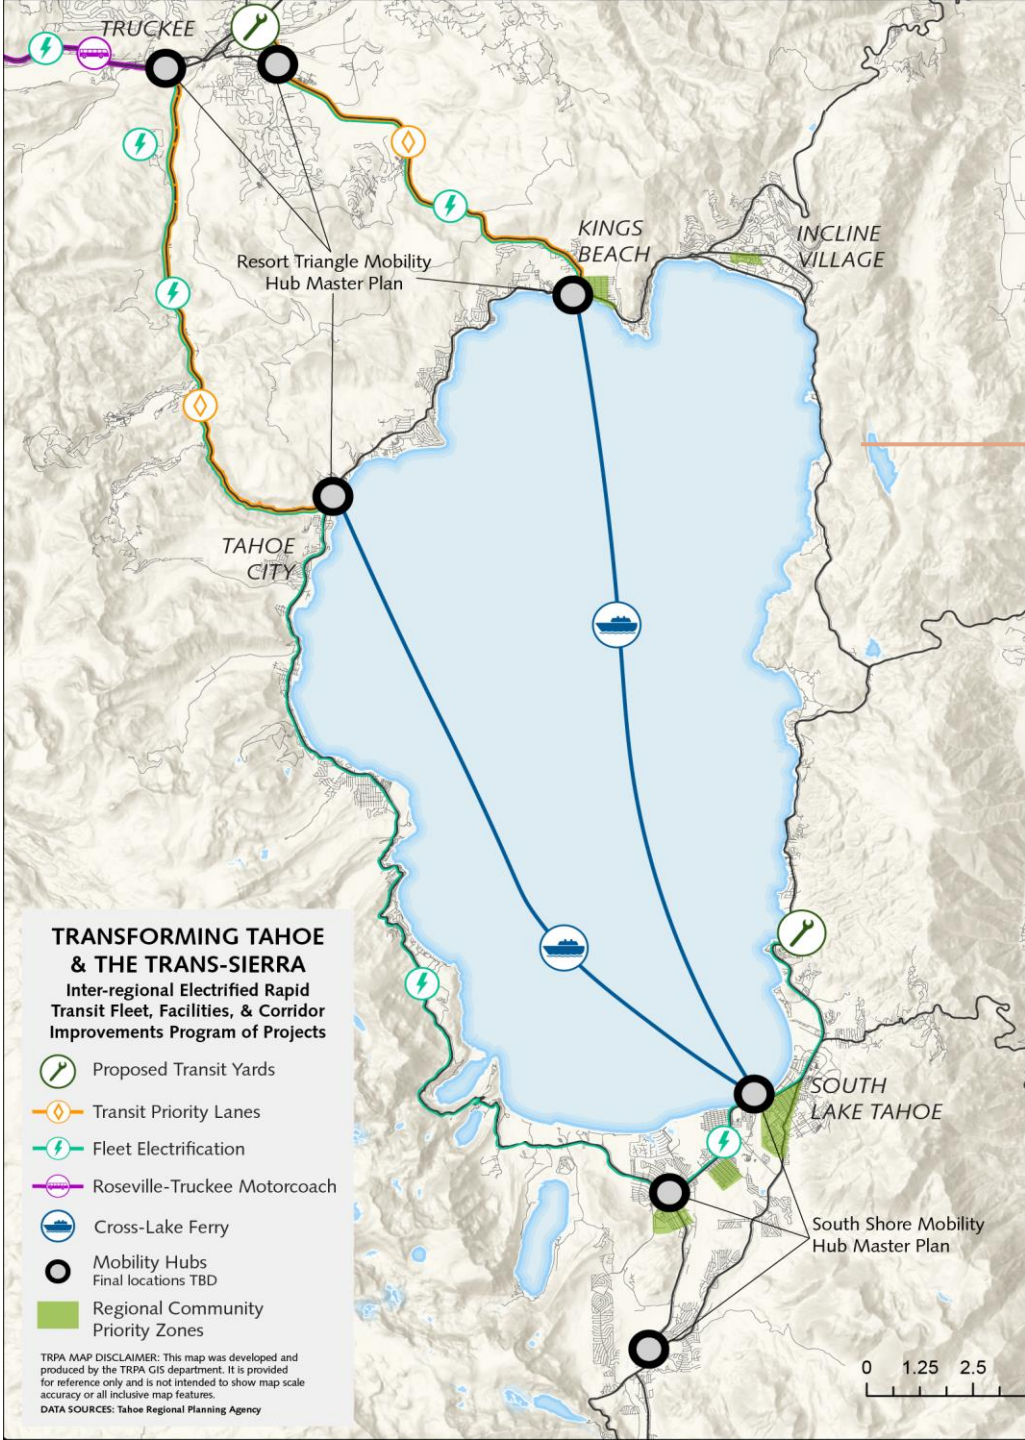

# Draft Potential Long-Term Integrated Transit Service

- This slide depicts a potential integrated micro and fixed route transit service option
- Seven micro-transit service zones servicing neighborhoods or “first/last mile”
- Main line or fixed route service on highways
- Concept is in development and will require partner agreement on funding support, so it is subject to change

# Transit Intercity Rail Capital Program Application (TIRCP)

- TTD submitted a TIRCP application to the California State Transportation Agency (CalSTA) on February 10, 2023
- A programmatic system application to be supported and implemented over the next ten years
- Includes five projects from the Bi-State Consultant list of priority projects and two additional
- The transit network and services would establish an inter-regional transit capability to major drive-up markets for the I-80, US-50, and Tahoe corridors
