**A. Contents of Area Plans**

1. **General**  YES  NO  NA

*Citation* 13.5.1

*Requirement* An Area Plan shall consist of applicable policies, maps, ordinances, and any other related materials identified by the lead agency, sufficient to demonstrate that these measures, together with TRPA ordinances that remain in effect, are consistent with and conform to TRPA's Goals and Policies and all other elements of the Regional Plan. In addition to this Section 13.5, additional specific requirements for the content of Area Plans are in subparagraph 13.6.5.A. The Memorandum of Understanding (MOU) that is associated with an approved Area Plan is a separate, but related, approval and is not part of the Area Plan.

*Response* The TAP consists of goals, policies, actions, projects, maps, ordinances, and related materials that conform to the Regional Plan. The adopted land use and zoning maps are consistent with Regional Plan Map 1, Conceptual Regional Land Use Map. No modifications to boundaries are proposed.

The proposed amendments make changes only to permissible uses of the Wood Creek Regulatory Zone in Appendix A of the TAP.

2. **Relationship to Other Sections of the Code**  YES  NO  NA

*Citation* 13.5.2

*Requirement* This section is intended to authorize development and design standards in Area Plans that are different than otherwise required under this Code. In the event of a conflict between the requirements in this section and requirements in other parts of the Code, the requirements in this section shall apply for the purposes of developing Area Plans. Except as otherwise specified, Code provisions that apply to Plan Area Statements (Chapter 11), Community Plans (Chapter 12), and Specific and Master Plans (Chapter 14) may also be utilized in a Conforming Area Plan. If an Area Plan proposes to modify any provision that previously applied to Plan Area Statements, Community Plans, or Specific and Master Plans, the proposed revision shall be analyzed in accordance with Code Chapters 3 and 4.

*Response* Under the proposed amendment, development and design standards comply with those prescribed in the Code. The only difference is that primary and secondary school use will be permitted with a special use permit, limited to parcels 3 acres in size are more within the Wood Creek Regulatory Zone.

1. Zoning Designations  YES  NO  NA

*Citation* 13.6.5.A.1

*Requirement* Identify all zoning designations, allowed land uses, and development standards throughout the plan area;

*Response* Section 110.220.275 in Appendix A to the TAP is being amended to add primary and secondary schools as a permissible use with a special use permit, limited to parcels 3 acres in size are more within the Wood Creek Regulatory Zone. No changes to existing zoning designation or development standards are proposed.

2. Regional Plan Policies  YES  NO  NA

*Requirement* Be consistent with all applicable Regional Plan Policies, including but not limited to the regional growth management system, development allocations and coverage requirements;

*Response* The Tahoe Area Plan contains goals and policies that are in alignment with Regional Plan policies. Regional Plan Land Use Policy 4.6 encourages the development of area plans that supersede existing plan area statements and community plans or other TRPA regulations to be responsive to the unique needs and opportunities of communities.

The proposed amendment is intended to facilitate the establishment of primary and secondary schools that are not otherwise provided for within the jurisdiction. The proposed amendment promotes the general welfare of the community, lessens traffic congestion by providing education to establish within the communities they serve, facilitates the adequate provision of schools, and promotes the social advantages gained from an appropriately regulated use of land.

*Citation* 13.6.5.A.6

*Requirement* Preserve the character of established residential areas outside of Centers, while seeking opportunities for environmental improvements within residential areas;

broad scope of public service and resource management uses. The primary vision for residential regulatory zones is to maintain safe and functional residentially focused regulatory zones, with development that contributes to the desired community character.

The amendment request proposes an acreage restriction to preserve the existing neighborhood character throughout the internal corridors of Wood Creek Regulatory Zone. Any applicant wishing to establish a school use within the amendment location would be required to obtain an approved special use permit. The special use permit process is a site-specific review of a use that requires special appraisal to determine if the uses have the potential to adversely affect other land uses, transportation systems, public facilities, or environmental resources in the vicinity. The special use permit process requires neighborhood notification, a neighborhood meeting, and a public hearing.
