TAHOE REGIONAL PLANNING AGENCY (TRPA) TAHOE METROPOLITAN PLANNING AGENCY (TMPO)AND TRPA COMMITTEE MEETINGS

NOTICE IS HEREBY GIVEN that on Wednesday, February 28, 2024, commencing no earlier than 10:45 a.m., on both Zoom and at the North Tahoe Events Center, 8318 N. Lake Blvd., Kings Beach, CA the Governing Board of the Tahoe Regional Planning Agency will conduct its regular business meeting.

Pursuant to TRPA Rules of Procedure, 2.16 Teleconference/Video Conference Meetings and Participation, Board members may appear in person or on Zoom. Members of the public may observe the meeting and submit comments in person at the above location or on Zoom. Details will be posted on the day of the meeting with a link to Zoom.

To participate in any TRPA Governing Board or Committee meetings please go to the Calendar on the https://www.trpa.gov/ homepage and select the link for the current meeting. Members of the public may also choose to listen to the meeting by dialing the phone number and access code posted on our website. For information on how to participate by phone, please see page 3 of this Agenda.

a.m., at the North Tahoe Events Center, and on Zoom, the TRPA Operations & Governance Committee will meet. The agenda will be as follows: 1) Approval of Agenda (action); 2) Approval of Minutes (action) (Pages 7); 3) Recommend approval of January Financials (action) (Page 27) (Staff: Chris Keillor); 4) Discussion and possible recommendation for adoption of 2024 Aquatic Invasive Species Watercraft Inspection Fee Schedule (action) (Page 49) (Staff: Dennis Zabaglo); 5) Upcoming Topics (Staff: Chris Keillor); 6) Committee Member Comments; Chair – Laine, Vice Chair – Diss, Aguilar, Bass, Gustafson, Hill; 7) Public Interest Comments

NOTICE IS FURTHER GIVEN that on **Wednesday**, **February 28**, **2024**, commencing **8:30 a.m.**, at the **North Tahoe Events Center**, and on **Zoom**, the **TRPA Legal Committee** will meet. The agenda will be as follows: **1)** Approval of Agenda (action); **2)** Approval of Minutes (action); **(Page 13) 3)** Closed Session with Counsel to Discuss Existing and Potential Litigation; **4)** Potential Direction Regarding Agenda Item No. 3 (action); **5)** Committee Member Comments; Chair – Williamson, Vice Chair – Aldean, Faustinos, Leumer, Rice; **6)** Public Interest Comments

NOTICE IS FURTHER GIVEN that on Wednesday, February 28, 2024, commencing no earlier than 9:15 a.m., at the North Tahoe Events Center, and on Zoom, the TRPA Transportation

Committee will meet. The agenda will be as follows: 1) Approval of Agenda (action); 2) Approval of Minutes (action) (Pages 17); 3) Election of Vice Chair (action) (Staff: Julie Regan); 4) Discussion and possible recommendation for endorsement of the Vision Zero Strategy (action) (Page 59) (Staff: Rachael Shaw); 5) Discussion and possible recommendation for adoption of the 2023 Federal Transportation Improvement Program Amendment No. 7 (action) (Page 81) (Staff: Judy Weber); 6) Transportation Committee Strategy Session (action) (Page 273) (Staff: Nick Haven & Michelle Glickert) 7) Committee Member Comments; — Chair Hill, Vice Chair — Open, Aguilar, Bass, Hays; Hoenigman; 8) Public Interest Comments

Julie W. Regan

Julie W. Regan,
Executive Director

This agenda has been posted at the TRPA office and at the following locations and/or websites: Post Office, Stateline, NV, North Tahoe Event Center, Kings Beach, CA, IVGID Office, Incline Village, NV, North Lake Tahoe Chamber/Resort Association, Tahoe City, CA, and Lake Tahoe South Shore Chamber of Commerce, Stateline, NV

TAHOE REGIO	DNAL PLANNING AGENCY
GOVER	RNING BOARD
North Tahoe Events Center	February 28, 2024
8318 N. Lake Blvd., Kings Beach, CA	No earlier than 10:45 a.m.

All items on this agenda are action items unless otherwise noted. Items on the agenda, unless designated for a specific time, may not necessarily be considered in the order in which they appear and may, for good cause, be continued until a later date.

Written Public Comment: Members of the public may email written public comments to 'publiccomment@trpa.gov'. We encourage you to submit written comments (email, mail, or fax) in advance of the meeting date to give our staff adequate time to organize, post, and distribute your input to the appropriate staff and representatives. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting. Late comments may be distributed and posted after the meeting. Please include the meeting information and agenda item in the subject line. For general comments to representatives, include "General Comment" in the subject line.

Verbal Public Comment: Public comments at the meeting should be as brief and concise as possible so that all who wish to participate may do so; testimony should not be repeated. The Chair of the Board shall have the discretion to set appropriate time allotments for individual speakers (usually 3 minutes for individuals and group representatives as well as for the total time allotted to oral public comment for a specific agenda item). No extra time for participants will be permitted by the ceding of time to others. In the interest of efficient meeting management, the Chairperson reserves the right to limit the duration of each public comment period to a total of 1 hour. Public comment will be taken for each appropriate action item at the time the agenda item is heard and a general public comment period will be provided at the end of the meeting for all other comments including agendized informational items.

Accommodation: TRPA will make reasonable efforts to assist and accommodate physically handicapped persons that wish to participate in the meeting. Please contact Marja Ambler at (775) 589-5287 if you would like to participate in the meeting and are in need of assistance. The meeting agenda and staff reports will be posted at https://www.trpa.gov/meeting-materials no later than 7 days prior to the meeting date. For questions please contact TRPA admin staff at virtualmeetinghelp@trpa.gov or call (775) 588-4547.

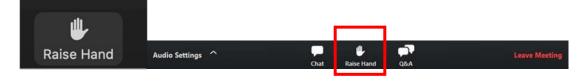

Zoom Webinar - Public Participation

To Participate Online:

- 1. Download the Zoom app on your computer, tablet, or smartphone.
 - The computer app can be downloaded here: https://us02web.zoom.us/client/latest/ZoomInstaller. exe
 - The tablet or smartphone app can be found in the app store on your device.
- 2. On the day of the meeting, join from the link or phone numbers posted under the appropriate meeting date and time on the TRPA website (www.trpa.gov).
- 3. Ensure that you are **connected to audio** either through your computer (provided it has amicrophone) or using your phone as a microphone/speaker. You can manage your audiosettings in the tool bar at the bottom of the Zoom screen.

4. At the appropriate time for public comments, you will be able to "raise your hand" by clickingon the Hand icon located on the bottom of your Zoom screen **OR by dialing *9 if you are on your phone**. With your hand raised, a TRPA staff member will unmute you and indicate that you can make your comment.

To Participate on the phone:

- 1. Dial the call-in number posted at the calendar event for the appropriate meeting(www.trpa.gov).
- 2. At the appropriate time for public comments, you will be able to "raise your hand" by dialing *9 if you are on your phone. With your hand raised, a TRPA staff member will unmute youand indicate that you can make your comment.

If you do not have the ability or access to register for the webinar, please contact TRPA admin staff at virtualmeetinghelp@trpa.org or (775) 588-4547.

TMPO CONSENT CALENDAR

Item	Action Re	questo	<u>ed</u>

2023 Federal Transportation Improvement Program Amendment Action/Approval Page 81
 No. 7

The consent calendar items are expected to be routine and non-controversial. They will be acted upon by the Board at one time without discussion. The special use determinations will be removed from the calendar at the request of any member of the public and taken up separately. If any Board member or noticed affected property owner requests that an item be removed from the calendar, it will be taken up separately in the appropriate agenda category. Four of the members of the governing body from each State constitute a quorum for the transaction of the business of the agency. The voting procedure shall be as follows: (1) For adopting, amending or repealing environmental threshold

carrying capacities, the regional plan, and ordinances, rules and regulations, and for granting variances from the ordinances, rules and regulations, the vote of at least four of the members of each State agreeing with the vote of at least four members of the other State shall be required to take action. If there is no vote of at least four of the members from one State agreeing with the vote of at least four of the members of the other State on the actions specified in this paragraph, an action of rejection shall be deemed to have been taken. (2) For approving a project, the affirmative vote of at least five members from the State in which the project is located and the affirmative vote of at least nine members of the governing body are required. If at least five members of the governing body from the State in which the project is located and at least nine members of the entire governing body do not vote in favor of the project, upon a motion for approval, an action of rejection shall be deemed to have been taken. A decision by the agency to approve a project shall be supported by a statement of findings, adopted by the agency, which indicates that the project complies with the regional plan and with applicable ordinances, rules and regulations of the agency. (3) For routine business and for directing the agency's staff on litigation and enforcement actions, at least eight members of the governing body must agree to take action. If at least eight votes in favor of such action are not cast, an action of rejection shall be deemed to have been taken.

Article III (g) Public Law 96-551 Tahoe Regional Planning Agency Governing Board Members: Chair, Cindy Gustafson, Placer County Supervisor Representative; Vice Chair, Hayley Williamson, Nevada At-Large Member; Francisco Aguilar, Nevada Secretary of State; Shelly Aldean, Carson City Supervisor Representative; Ashley Conrad-Saydah, California Governor's Appointee; Jessica Diss, Nevada Governor's Appointee; Belinda Faustinos, California Assembly Speaker's Appointee; Cody Bass, City of South Lake Tahoe Councilmember; Meghan Hays, Presidential Appointee; Alexis Hill, Washoe County Commissioner; Vince Hoenigman, California Governor's Appointee; Brooke Laine, El Dorado County Supervisor; Wesley Rice, Douglas County Commissioner; James Settelmeyer, Nevada Dept. of Conservation & Natural Resources Representative; Alexandra Leumer, California Senate Rules Committee Appointee.

TRPA/Zoom Webinar

January 24, 2024

Meeting Minutes

CALL TO ORDER AND DETERMINATION OF QUORUM

Chair Ms. Laine called the meeting to order at 8:32 a.m.

Members present: Ms. Bowman (for Mr. Aguilar), Ms. Diss, Ms. Gustafson, Ms. Hill, Mr. Hoenigman, Ms. Laine

APPROVAL OF AGENDA

Agenda approved.

II. APPROVAL OF MINUTES

November 15, 2023 Operations and Governance Committee Minutes

Minutes approved.

III. Recommend approval of December 2023 Audited Financial Statements

Mr. Chris Keillor, TRPA Finance Director, presented the item. He began by saying we are halfway through the year with no major liens against the budget. After a slow start, planning fees saw a good month in December. In addition, a few fee changes, in a package previously approved by the board, have now kicked in. And at the end of this month, the inflation adjustment across the board for fees will take effect.

Looking to the revenue side on slide 2, Mr. Keillor said the grant revenues are still very low at only 10%, but all grants are billed in arrears at the end of the quarter. We've also had a few grants, such as the large forest health grant that have only just got contracts against them, so we'll start to spend against that, but we are behind on that grant and some others. The only remaining money in the state revenue category is TSAC (Tahoe Science Advisory Council) money, which is billed on a cost reimbursement basis.

The expenditure side is shown on slide 3. Compensation is a little low because we still haven't filled the Attorney position, although there is a path forward on that. Contracts always tend to lag a bit, so no surprise that it's only at 25%, and everything else is pretty much on track.

Moving to cash flow charts on slide 5, Mr. Keillor said we are anticipating that the California Tahoe Conservancy (CTC) project will be executed soon. When that happens there will be a large transfer of mitigation funds to CTC. Mr. Keillor reminded everyone that under GASB 84, we are now required to report mitigation fund receipts and expenditures as revenue and expenses in our financial statements. This has a very distortional impact on the financial statements, so Mr. Keillor excludes

OPERATIONS AND GOVERNANCE COMMITTEE January 24, 2024

mitigation funds from the charts presented to the Operations Committee but does provide quarterly briefings. Mr. Keillor added that the they invest the mitigation funds, and any accrued interest increases the amount money available for projects.

Committee Comments

None.

Public Comment

None.

Motion

Mr. Hoenigman made a motion to recommend the Governing Board approve the December Financials

Ayes: Ms. Bowman, Ms. Diss, Ms. Gustafson, Ms. Hill, Mr. Hoenigman, Ms. Laine

Motion passed.

VI. <u>Tahoe Keys Mitigation Fund Request</u>

Ms. Shay Navarro, TRPA Watersheds and Water Quality Program Manager presented this item on the Tahoe Keys Property Owners Association (TKPOA) request to release Tahoe Keys Water Quality Mitigation Funds for the Tahoe Keys Lagoons Long-term Water Quality Improvement Project. Ms. Navarro also introduced Mr. Rick Lind, a consultant representing the TKPOA to help answer any questions.

Ms. Navarro said the Tahoe Keys, located in South Lake Tahoe was first established in the late 1950's by dredging and grading a portion of the Upper Truckee marsh to create a suburban residential development with 11 miles of backyard lagoons or waterways. The lagoons receive urban stormwater runoff and are more than 90% covered with aquatic invasive weeds, which negatively impact their water quality. The lagoon's water quality is also being impacted by climate change - Tahoe is seeing a greater fluctuation of extreme events between drought and flood conditions. Ms. Navarro explained that the Lagoons Long-term Water Quality Improvement Project aims to mitigate local and regional non-point source nutrient and pollutants that are inputted to the lagoons from the Tahoe Keys and South Lake Tahoe developments upstream.

This initial planning phase of the project aims to identify restoration and treatment strategies that would improve the circulation and water quality of the Tahoe Keys lagoons, reduce spread of aquatic invasive weeds, and reduce the risks and impacts to the adjacent and hydrologically connected Pope Marsh in Lake Tahoe. The project is complementary to the Tahoe Keys Control Methods Test and Green Infrastructure Planning projects that are happening in the Tahoe Keys. The requested funds would support stakeholder engagement and coordination, refinement of goals and objectives, analyzing existing conditions, identifying restoration and treatment opportunities and constraints, and initiating planning to formulate project alternatives.

Ms. Navarro said this initial planning phase has a three to five-year timeline and follows the EIP Stormwater Quality Improvement Committee project delivery process in formulating and evaluating an alternatives process – both were developed specifically for stormwater improvement projects.

Ms. Navarro provided some background on the Tahoe Keys Water Quality Mitigation Fund. This fund is money that was collected specifically from Tahoe Keys properties. It was created by the Californian Tahoe Regional Planning Agency and Lahontan Regional Water Quality Control Board (Lahontan), to mitigate the water quality impacts from development of the Tahoe Keys, and it

OPERATIONS AND GOVERNANCE COMMITTEE January 24, 2024

applied to construction of Tahoe Keys homes that were allowed to be built on the remaining lots after a change in the Keys land capability classification from stream environment zone (SEZ) to a man modified stream environment zone. TRPA and Lahontan previously released the majority of the principal fund in 2001 for EIP project implementation in the watershed that is upstream of the Tahoe Keys, but close to \$450,000.00 remains in mitigation fund interest.

Ms. Navarro said the TRPA Governing Board Policy Guidelines for the release of mitigation funds permits the use of mitigation fund interest for project planning. TRPA staff requests approval of the release of \$200,000.00 from the Tahoe Keys Water Quality Mitigation Fund interest for the Tahoe Keys Lagoon's Long-term Water Quality Improvement Project. \$100,000.00 will initiate planning of the project, and \$100,000.00 will provide match for grant funding. The account balance is sufficient to cover the request and release. The release will also supplement dedicated TKPOA funding that is generated through a property owner approved special assessment that shares a fund of the project.

Ms. Navarro said the project is consistent with Lahontan's waste discharge requirements for the Tahoe Keys, and aligns with the intent of the Tahoe Keys water quality mitigation fund to mitigate water quality from the development of the Tahoe Keys itself. The request is consistent with Environmental Improvement Program objectives, Regional Plan goals and policies, and the mitigation fund policy guidelines. Ms. Navarro added that staff had heard from board member Ms. Aldean with a request to amend condition 5 in the staff report, which currently reads; "upon written approval from TRPA, these funds may be reallocated to another project". Ms. Aldean wanted to add "within the Tahoe Keys".

Committee Comments

Ms. Laine said she agreed with Ms. Aldean's recommendation. Public Comment

None.

Motion

Mr. Hoenigman made a motion to recommend the Governing Board approve the release subject to the conditions in the staff report, including the amendment to condition 5 to add, "within the Tahoe Keys".

Ayes: Ms. Bowman, Ms. Diss, Ms. Gustafson, Ms. Hill, Mr. Hoenigman, Ms. Laine

IV. Quarterly Treasurer's Report

Mr. Keillor said the main highlight was that they had moved some money out of LAIF in anticipation of the CTC Project. He added that cash flow for the year has peaked and is now in decline. He said the investment pool is still fairly short and still heavily into Treasuries and into LAIF and LGIP. Mr. Keillor informed that the staff report includes an error on the pie chart (3% corporate is actually 5% corporate).

Referring to the charts on slide 10, Mr. Keillor said the chart on the left showed the distribution of the investments. In terms of maturities, it is very short. To a large extent the investment pools operate like money market funds - they're very short term because it's all cash management. Speaking to the chart on the right, Mr. Keillor said he had excluded government securities and only used the commercial. He added that it's a very small group of investments, but everything is within the investment policy.

This item was informational only.

V. <u>Annual Update by Principal Group Investment Advisor</u>

Mr. Keillor introduced Mr. Bruce Remington to present the item. Mr. Remington provided a brief economic overview, noting challenges faced throughout the year. He said initial concerns about rising rates and oil prices were prevalent, but the year concluded on a positive note economically. He said they anticipate a mild recession in the late first half of the year, with the market already factoring in much of the impact. He expressed concern about the situation in the Red Sea, and acknowledged the Federal Reserve's attempt to manage the situation. Mr. Remington highlighted the deceleration of inflation, resulting in a significant drop by the end of the year and subsequent decreases in bond yields. The good news is that the portfolio had a lot of funds locked up at higher yields over the past six months.

Mr. Remington noted that we are coming to the end of the tightening cycle, with the Fed and most central banks currently on hold. He added that the aggressive rate increases seen over the last 18-24 months, aimed at controlling inflation, are starting to come to an end. Mr. Remington said that the Fed is monitoring the next couple of months' data for inflation, growth, and volatility before making any decisions. He suggested that rate cuts may not happen until later in the year, emphasizing the data-dependent nature of these decisions.

As for equities, Mr. Remington said they are projecting a period of volatility between now and the middle of the year. He observed that the market is adjusting to slower growth but moderate inflation, with rate cuts in a slowing economy already priced into the market. He added that this is very much a bifurcated market, with the so-called "magnificent 7" (tech-oriented stocks) driving a significant portion of S&P returns. Mr. Reminton anticipates a potential improvement in performance for values, small cap, and mid-cap stocks in a broader market scenario.

Mr. Remington said they definitely had a significant sell-off but noted the positive impact of a well-structured portfolio, with an extremely short-term and high-quality orientation, leading to favorable outcomes during market volatility. He described the yield curve inversion and how the portfolio took advantage by purchasing high-quality, high-coupon bonds with longer maturities. Mr. Remington said he holds bonds to maturity, and plans for bonds with favorable coupons to roll off in the next couple of years. He noted increased stability in rates and mentions that spreads between corporates and treasuries are currently tight. Mr. Remington also highlighted the changing landscape of agency bonds, noting the reduced exposure due to the diminishing yield advantage and liquidity considerations.

Looking back to 2020, Mr. Remington discussed the yields on various financial instruments, noting the low returns on 2-year Treasury bonds (0.13%), money market, passbook savings, and bank accounts (all close to 0%). By 2021 there was some recovery, and by September 2022, inflation had gone from transitory to really embedded in the system, and the market reacted. By September 2023, 2-years had gone up to 5.04%. Mr. Remington described the impact on the portfolio's performance, noting the stability and positive outcomes due to a well-structured approach. Referring to cashflows as of September 30, 2023 for the quarter, Mr. Remington said they started at \$12 million and made \$114.000.00.

Mr. Remington ran through a breakdown of the portfolio's composition, highlighting significant holdings in Treasuries and high-quality corporate bonds. He also mentioned the avoidance of agency bonds due to tight spreads and discussed the careful selection of investment-grade corporates.

Looking to the portfolio's performance, Mr. Remington emphasizing positive returns against the blended benchmark, which was up 0.74, outperforming by 21 basis points. He added that the fiscal number is also good, and the one-year number was up 3.22%. Mr. Remington pointed out the impact of interest rate changes on the portfolio's performance and contrasted it with the broad market (Bloomberg US Aggregate Bond Index). He emphasized the portfolio's success in avoiding excessive volatility while delivering steady returns.

OPERATIONS AND GOVERNANCE COMMITTEE January 24, 2024

Mr. Remington said he hadn't changed the portfolio structure much since September 30th. He discussed the rationale behind staying short in the last couple of years, emphasizing the importance of maintaining liquidity, especially with the bulk of assets in LGIP and LAIF accounts. He highlighted the maturity distribution, with approximately 45% of the portfolio in the 0–1-year range and 44% in the 1-5 year range. He explained the positive returns of the portfolio over the last three years compared to the benchmark and the broader market (Bloomberg US Aggregate Bond Index).

Referring to what is in the portfolio right now, Mr. Remington highlighted that there were no triple B corporate bonds. He described key figures such as option adjusted yield, duration, and portfolio value. He expressed a desire to start stretching out maturities slightly longer to the 2–3-year range, if that meets the approval of the TRPA Board. Mr. Remington explored potential future adjustments and repositioning, and mentioned a desire to buy bonds again in 2025 to lock in the decent yields.

Mr. Keillor acknowledged the thoughtful structure of the portfolio, highlighting the strategy of buying smaller amounts of bonds at different intervals to mitigate reinvestment risk. He agreed with the idea of considering longer maturities given the perceived economic stability.

Committee Comment

Ms. Laine and Ms. Gustafson said they agreed that it was time to consider longer maturities, and thanked Mr. Remington for his presentation.

VII. <u>Upcoming Topics</u>

Mr. Keillor said they have not done a general increase in the AIS inspection decontamination fees for 5 years. The program is in good health financially, although we've taken some hits lately with the loss of a DBW grant. That's not a reflection on us or in the program. It's just that now everybody is fighting mussels in all the lakes and it's certainly fair for other people to get a shot at that money too. So we've lost a fair amount of money, and we're also seeing a lot of staffing pressures in the stations. We do have reserves, but we think it's time to get back into a regular cycle of annually reviewing and increasing those fees. That item will come before the committee and board next month for consideration.

Mr. Keillor added that they will get started on budgets for the coming year soon, with the item tentatively scheduled for May 2024. He said they had their first interim committee meeting yesterday with the State of Nevada. There was a lot of attendance, a lot of public comment. One of the issues that's coming up is people talking about whether or not we're as transparent as we should be. Mr. Keillor asked the committee to let him know if there is more they want to see. He said he's trying to strike a balance between burying you in minutia and giving you real information you can use.

In response to the AIS fees item, Ms. Gustafson said she would prefer to see regular smaller increases than waiting 5 years. In that time there's been a lot of cost increases just in labor, and she would like to see an annualized adjustment. Mr. Keillor explained that the way they had structured the program was for the fees and the state funds to cover the cost of the prevention program. But then they started picking up grant money that allowed them to bank funds. That's why they haven't been bringing new increases for the last 5 years because it didn't seem right to increase the fees when you're sitting on a pile of money. Now everything's working in the opposite direction, including the hourly inspector rate, which has doubled.

OPERATIONS AND GOVERNANCE COMMITTEE January 24, 2024

VIII. Committee Member Comments

None.

IX. Public Comments

None.

X. ADJOURNMENT

Ms. Gustafson made a motion to adjourn.

Ayes: [All]

Chair Laine adjourned the meeting at 9:28 a.m.

Respectfully Submitted,

Tracy Campbell Executive Assistant

Tracy Campbell

The above meeting was recorded in its entirety. Anyone wishing to listen to the recording of the above mentioned meeting may find it at https://www.trpa.gov/meeting-materials/. In addition, written documents submitted at the meeting are available for review. If you require assistance locating this information, please contact the TRPA at (775) 588-4547 or wirtualmeetinghelp@trpa.gov.

TAHOE REGIONAL PLANNING AGENCY LEGAL COMMITTEE

TRPA December 13, 2023 Zoom

Meeting Minutes

CALL TO ORDER AND DETERMINATION OF QUORUM

Chair Williamson called the meeting to order at 8:32 a.m. on December 13, 2023.

Members present: Mayor Bagwell, Ms. Williamson, Ms. Faustinos, Ms. Leumer, and Mr. Rice.

Members absent: None.

APPROVAL OF AGENDA

Mr. Marshall stated there were no changes proposed to the agenda.

Chair Williamson deemed the agenda approved as posted.

II. APPROVAL OF MINUTES

Ms. Faustinos made a motion to approve the October 25, 2023 Legal Committee meeting minutes as presented.

Motion carried by unanimous voice vote.

III. RESOLUTION OF ENFORCEMENT ACTION: GREENLEAF VENTURES CA LLC; UNAUTHORIZED DISTURBANCE TO SEZ, FAILURE TO INSTALL AND MAINTAIN CONSTRUCTION BMPs, AND MATERIAL DAMAGE TO TREES, 1650 IROQUOIS CIRCLE, EL DORADO COUNTY, CA, ASSESSOR'S PARCEL NUMBERS 034-171-003 AND 1654 IROQUOIS CIRCLE, EL DORADO COUNTY, CA, ASSESSOR'S PARCEL NUMBERS 034-171-002

Steve Sweet, TRPA Code Compliance Program manager, presented a violation case concerning Greenleaf Ventures California LLC, involving unauthorized disturbance, failure to install and maintain construction measures, and tree damage. The violation occurred across two properties in Eldorado County, marked by unauthorized construction access, significant disturbance to the stream environment zone, and damage to trees. The violations, not exempt under TRPA codes, included disturbance to the environment, improper tree protection fencing, unauthorized disturbance outside the construction zone, improper temporary measures, and material damage to trees. Greenleaf agreed to a \$25,000 penalty, restoration of disturbed areas, and future compliance with construction measures. They've already completed the restoration, which will be monitored to ensure vegetation establishment. Staff recommended the Governing Board approve the proposed settlement agreement.

December 13, 2023 **Committee Questions & Comments** None. **Public Comment** None. Ms. Faustinos made a motion to recommend the Governing Board approve the settlement agreement. Ayes: Mayor Bagwell, Ms. Williamson, Ms. Faustinos, Ms. Leumer, and Mr. Rice. Nays: None. Motion carried unanimously. IV. DISCUSSION AND RECOMMENDATION ON GENERAL COUNSEL PERFORMANCE REVIEW AND FY2023-24 SALARY INCREASE Angela Atchley presented the performance review of Mr. Marshall covering July 2022 to June 2023. The review involved a self-assessment by Mr. Marshall, circulated among select TRPA employees and governing board members, alongside an anonymous survey. Twenty-nine respondents evaluated Mr. Marshall's overall accomplishments and TRPA's core competencies. 47% of respondents rated Mr. Marshall as "exceptional" for overall accomplishments, and 37% marked him as "fully effective/achieved." The review highlighted positive aspects such as Mr. Marshall's specific hours for staff meetings, direct communication, handling legal issues, providing exceptional service as general counsel, and a strong understanding of TRPA laws. Comments from the survey commended Mr. Marshall's availability, guidance, support, and ability to steer board conversations in the right direction. Suggestions included maintaining good work, hiring additional staff, imparting knowledge, and focusing more on enforcement. Overall, the review was positive, and the presentation requested consideration for a proposed base pay adjustment for Mr. Marshall's performance during the mentioned period. **Public Comment** None.

Committee Comments/Questions

Chair Williamson expressed gratitude to John for his hard work and echoed the positive comments received. She commended his availability, calm demeanor, excellent leadership, direction, and legal advice. Chair Williamson thanked him for his contributions and offered him the opportunity to share any thoughts or comments if he wished.

LEGAL COMMITTEE

December 13, 2023

John Marshall reflected on the agency's recent increase in litigation, highlighting the success in resolving some cases while others remain pending. He acknowledged challenges in coordination and mentioned that staff and board advice and consultation had seen some difficulties, mainly due to a sense of disjointedness and challenges with external partnerships. Mr. Marshall emphasized the need to improve communication and reassess approaches to partnerships for future success. He expressed a commitment to focusing on improving agency performance and personal capabilities in the coming year. He also addressed concerns raised about the type and quality of information provided to the governing board, seeking feedback to strike the right balance between providing comprehensive information without overwhelming the recipients. Mr. Marshall invited feedback for improvement either privately or in other settings.

Mayor Bagwell inquired about the salary increase percentages and whether they were standard or flexible for staff at TRPA. Ms. Atchley responded, explaining that there isn't a fixed salary schedule but rather a range, and the increase percentages can vary annually. She also discussed issues related to salary ranges and mentioned defined contribution but expressed a wish to improve certain aspects of compensation.

Mr. Rice expressed his gratitude for working together over the past five years and praised Mr. Marshall's reliable counsel, stating that he's never been led astray by it. He expressed anticipation for continuing their collaboration over the next three years.

Ms. Faustinos made the motion to recommend the Governing Board approve the suggested pay increase for Mr. Marshall.

Ayes: Mayor Bagwell, Ms. Williamson, Ms. Faustinos, Ms. Leumer, and Mr. Rice.

Nays: None.

Motion carried unanimously.

V. CLOSED SESSION WITH COUNSEL TO DISCUSS EXISTING AND POTENTIAL LITIGATION

Ms. Faustinos made the motion to move into closed session.

Motion carried by unanimous voice vote.

Mayor Bagwell made the motion to move out of closed session.

Motion carried by unanimous voice vote.

VI. POTENTIAL DIRECTION REGARDING AGENDA ITEM NO. 5

No direction.

VII. COMMITTEE MEMBER COMMENTS

None.

VIII. PUBLIC INTEREST COMMENTS

Ellie Waller, a Douglas County resident, expressed concern about the Barton hole in the ground and its protection during the Douglas County area plan process. She highlighted worries about potential height increases and zoning changes for Barton before the area plan review is completed. Ellie sought guidance on how to ensure adequate protections for the property and address potential environmental issues.

VIII. ADJOURNMENT

Mr. Rice moved to adjourn.

Meeting adjourned at 9:14 a.m.

Respectfully Submitted,

Katherine Huston Paralegal

The above meeting was recorded in its entirety. Anyone wishing to listen to the recording may find it at https://www.trpa.gov/meeting-materials/. In addition, written documents submitted at the meeting are available for review. If you require assistance locating this information, please contact the TRPA at (775) 588-4547 or virtualmeetinghelp@trpa.gov.

TAHOE REGIONAL PLANNING AGENCY TRANSPORTATION COMMITTEE

TRPA December 13, 2023 Zoom

Meeting Minutes

CALL TO ORDER AND DETERMINATION OF QUORUM

Member Hoenigman called the meeting to order at 9:43 a.m. on December 13, 2023.

Members present: Mr. Aguilar, Mr. Friedrich, Ms. Hays, Ms. Hill, Mr. Hoenigman.

Members absent: None.

I. APPROVAL OF AGENDA

Ms. Regan stated there were no changes to the agenda.

Member Hoenigman deemed the agenda approved as posted.

II. ELECTION OF CHAIR AND VICE CHAIR

Mr. Hoenigman nominated Ms. Hill to be Chair and John Friedrich to be Vice Chair of the Transportation Committee.

Public Comment

None.

Mr. Aguilar made the motion to elect Ms. Hill to be Chair and John Friedrich to be Vice Chair of the Transportation Committee.

Ayes: Mr. Aguilar, Mr. Friedrich, Ms. Hays, Ms. Hill, Mr. Hoenigman.

Nays: None.

Motion carried.

III. TRPA TRANSPORTATION OVERVIEW

Julie Regan, TRPA's Executive Director, introduced the committee's inaugural meeting focused solely on transportation, a key aspect of the environmental improvement program. She highlighted the complexity of Tahoe's transportation challenges, influenced by the area's rural nature and high influx of visitors.

The transportation system faces issues due to its constraints, inadequate funding, and struggles to reduce dependency on private automobiles as mandated by the by-state compact. The

December 13, 2023

system's limitations impact the region's economy, quality of life, safety, environmental health, and mobility.

Regan emphasized the unique role of Tahoe as an NPO (Metropolitan Planning Organization) despite not meeting typical population criteria. She discussed the challenges associated with federal funding and the ongoing efforts to obtain recognition for visitation in population metrics.

She stressed that transportation has been a pressing concern within the community, necessitating action. The committee's goals would include discussions on funding, acknowledging the importance of the equity study and the recent recognition of the team's work with the Rosa Parks Diversity Leadership Award.

Ultimately, she welcomed the committee members and expressed a commitment to ensuring the committee's work is engaging, meaningful, and impactful.

Nick Haven, the MPO Director for TRPA's Transportation Program, outlined the significance of the committee and its partnership potential in addressing vital transportation issues. He expressed the intention to share information without overwhelming the committee and encouraged their input for advancing policy, projects, and funding.

Mr. Haven provided an overview of TRPA's role in transportation, explaining its comprehensive responsibilities as a metropolitan planning organization. TRPA aims to create a cohesive transportation vision that aligns regional and local priorities, involving various partners, local governments, and state DOTs.

He discussed TRPA's involvement in long-range transportation planning through the Regional Transportation Plan (RTP), corridor planning, project selection, funding allocations, and project monitoring. Haven emphasized the collaborative nature of TRPA's role, working closely with partners throughout different planning stages and project implementation.

Using a visual spectrum, he illustrated TRPA's involvement at different stages of transportation planning, highlighting the coordination among various partners for effective project development and implementation. Haven stressed the importance of this partnership throughout the transportation planning cycle, reflecting the integrated nature of TRPA's approach.

He concluded by indicating that while they wouldn't delve too deeply into topics during that session, future presentations would offer more context for the committee's decision-making process within this transportation framework.

Mr. Friedrich inquired about the intended role of the committee in shaping TRPA's planning, regional vision, goals, and strategies. He sought clarification beyond merely carrying out administrative actions or approvals, aiming to understand how the committee could actively contribute to informing and deliberating on the broader vision of the organization.

Nick Haven highlighted that the committee's timing is opportune as TRPA is in the process of updating its transportation plan. He emphasized the importance of the committee's input in shaping the strategies and goals related to transportation. Nick also mentioned that they would keep the committee updated on funding releases, seek their support in obtaining funding, provide updates on corridors, and showcase tangible progress on the ground to illustrate the

December 13, 2023

results of planning efforts. He expressed the intention to bring in partners to showcase successes and demonstrate the real-world impact of their planning initiatives.

John Hester explained the role of the committee, likening it to the Regional Planning Committee (formerly RPIC) that examines Regional Plan and code amendments. He specified that this new committee would primarily handle the review process for the Regional Transportation Plan and Sustainable Community Strategy updates, indicating that they would be the key group providing feedback and discussing these updates.

Julie Regan highlighted the committee's role as a partner bridging connections with the community, aiming to engage their constituencies more effectively in transportation matters. Additionally, she emphasized the significance of funding, noting Member Hayes' experience and connections in Washington, stressing the need to refine strategies for securing more infrastructure funding for Lake Tahoe.

Michelle Glickert, the Transportation Planning Program Manager, outlined the interconnectedness of various planning elements in transportation at Lake Tahoe. The Regional Transportation Plan (RTP) stood at the core, encompassing regional goals, a funding plan, a 20-year vision, and a project list developed through associated planning.

She touched on various programs feeding into the RTP, including active transportation plans, travel demand management, transit planning, technology integration, performance planning, corridor planning, public participation, and transportation equity.

Ms. Glickert also previewed upcoming topics for committee consideration, such as safety strategies, updates to the active transportation plan, federal transportation improvement amendments, and performance evaluations. Finally, she highlighted the role of the committee in overseeing the transportation planning and improvement teams' work for the next fiscal year, primarily focusing on RTP development and project implementation.

Mr. Friedrich inquired about opportunities for the committee to engage in the earlier stages of planning rather than just being presented with fully developed plans for approval. He sought ways for the committee to be involved in the formative stages of planning, akin to being part of the baking process of a cake rather than just being asked to approve the finished product.

Michelle Glickert emphasized that although the planning process may seem a bit advanced, there are ongoing collaborations with agency staff to shape various plans. She highlighted active meetings with public works groups to discuss project lists, potential policies, and new directions for upcoming plans like the Active Transportation Plan and the Safety Strategy. Ms. Glickert pointed out that while certain plans are in progress, the Regional Transportation Plan remains a focal point where committee involvement is crucial in merging all these initiatives.

Nick Haven added that while the planning efforts involve extensive information, the focus is on refining policy decisions rather than inundating the committee with extensive volumes of text. He highlighted the importance of these documents stemming from previous discussions within governing boards and EIP committees. Nick mentioned the Regional Transportation Plan (RTP) as an example, noting that instead of presenting finalized chapters, they aim to bring forth key policy decisions for discussion and refinement with the committee.

Julie Reagan, TRPA Executive Director, expressed the significance of engaging the committee

December 13, 2023

effectively and meaningfully, considering potential workshops to discuss transportation projects, funding, prioritization, and costs. She highlighted the significance of the constrained and unconstrained project lists within the \$2.5 billion regional transportation plan and proposed potential joint meetings with the Transportation District board, leveraging Member Hill's dual role. Julie emphasized openness to the committee's ideas and plans to return with concrete examples on how to utilize the committee's time effectively.

Commissioner Hill expressed interest in adopting goals for the committee, drawing from the approach used at the Tahoe Transportation District (TTD). Emphasizing the need for this committee to have specific objectives, she highlighted the importance of goal-setting, possibly in a workshop format. Additionally, she proposed aligning the committee's discussions with TTD's plans, specifically mentioning the short-range transit plan, aiming to ensure the committee is informed about TTD's initiatives and enhancing communication between TRPA and TTD.

IV. RECOMMEND ADOPTION OF THE 2024 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM (RTIP)

Nick Haven presented the Regional Improvement Program Funding, an administrative item recurring every two years through the state of California. This funding consists of a 75% regional and 25% interregional allocation. TRPA had an advance from eight years ago to fund Kings Beach commercial core improvements, which is now being paid off, leaving a remaining \$1.2 million. However, this amount isn't enough to fully fund a project or phase of work, so they plan to roll it over to couple with future allocations. The request made was to approve the Planning, Programming, and Monitoring (PPM) funding of \$165,000 over five years, which supports project tracking and administration, essential for budgeting and staff support. The proposed resolution would go to the governing board for approval before submission to Cal Trans and the California Transportation Commission.

Public Comment

Pamela Tsigdinos raised concerns regarding the committee's role in addressing the primary transportation challenge in the Tahoe Basin: facilitating evacuation during emergencies. She sought clarification on how this critical aspect would be integrated into the committee's responsibilities. Additionally, she highlighted the practicality of planning in a region often affected by icy and snowy conditions for up to six months, expressing the need for realistic transportation planning that acknowledges these challenges rather than simply emphasizing the creation of multiple paths.

TRPA Executive Director, Julie Regan addressed the concerns raised about evacuation during emergencies, highlighting the ongoing efforts to evolve discussions around fire evacuation. She mentioned that the Environmental Improvement Program would be holding briefings on Forest Health and the work of the Tahoe Fire and Fuels Team, integrating these aspects into transportation planning, safety, and regional transportation processes. Additionally, she acknowledged the challenge of ensuring year-round access to pathways, emphasizing the agency's goal to keep pathways accessible throughout the year despite the significant cost implications.

TRANSPORTATION COMMITTEE December 13, 2023

Commissioner Hill made a motion to recommend the TRPA Governing Board adopt Attachment A, Resolution 2023 - ____, approving the 2024 Regional Transportation Improvement Program.

Ayes: Mr. Aguilar, Mr. Friedrich, Ms. Hays, Ms. Hill, Mr. Hoenigman.

Nays: None.

Motion carried.

V. RECOMMEND APPROVAL OF THE FY 2023-2024 STATE OF GOOD REPAIR PROJECT LISTS FOR THE TAHOE TRANSPORTATION DISTRICT (TTD) AND TAHOE TRUCKEE AREAT REGIONAL TRANSIT (TART) AND AUTHORIZE THE ALLOCATION OF FY 2023-2024 TRANSPORTATION DEVELOPMENT ACT FUNDING FOR TTD, TART, AND TRPA.

Kira Richardson, TRPA Senior Transportation Planner, presented on the approval of Transportation Development Act (TDA) funds for administrative purposes to TRPA, and for transit capital and operations expenses for TTD and TART. She provided background information on the TDA, established in 1971 to fund transit capital and operations in California. The funds are derived from various sources such as a quarter-cent general sales tax, a statewide sales tax on gasoline, and the Road Repair and Accountability Act of 2017.

Kira explained the allocation breakdown for the last five fiscal years and the fluctuations in funding from different sources due to variations in gasoline purchases, sales taxes, and the relatively steady State of Good Repair funding. She highlighted the requirement for approving the State of Good Repair project list for fleet maintenance and vehicle purchases.

The presentation included a breakdown of TDA allocations for the fiscal year 2023 and 2024, with each fund source requiring its own resolution, along with an additional resolution for approving the State of Good Repair project lists. Kira invited questions after the presentation.

Committee Questions/Comments

John Friedrich inquired about the Local Responsibility Funds (LRF) and confirmed their status as unprogrammed to date. He acknowledged ongoing discussions regarding the potential use of these funds in the upcoming year, noting the flexibility in their allocation for the 2023-2024 budget period.

Ms. Richardson responded that there were ongoing discussions between the Tahoe Transportation District (TTD) and the South Shore Transportation Management Association regarding the potential allocation of a portion of their funding to support the expansion of micro transit on the South Shore. She clarified that although amendments to the claim application submitted by TTD could be made once funds are allocated, there was a procedural necessity to proceed with board approval for funding allocation to ensure timely payment from the state to the operator. Thus, the current timing was crucial for this procedural step.

Mr. Friedrich confirmed his understanding of the process, acknowledging the ongoing conversations and the flexibility regarding the allocation of funds. He highlighted that these discussions weren't finalized and emphasized that there was room for adjustments or changes as things progressed.

TRANSPORTATION COMMITTEE December 13, 2023 Public Comment

None.

Mr. Friedrich made a motion to recommend adoption the attached resolution (Attachment A) (Attachment A) approving the allocation of FY 2023-2024 Local Transportation Fund funds to the TRPA, TTD, and TART, attached resolution (Attachment B) approving the allocation of FY 2023-2024 State Transit Assistance funds to TTD and TART, attached resolution (Attachment C) approving the FY 2023-2024 State of Good Repair project lists submitted by the Tahoe-Truckee Area Regional Transit and Tahoe Transportation District, and attached resolution (Attachment D) approving the allocation of FY 2023-2024 State of Good Repair funds to TTD and TART.

Ayes: Mr. Aguilar, Mr. Friedrich, Ms. Hays, Ms. Hill, Mr. Hoenigman.

Nays: None.

Motion carried.

VI. RECOMMEND APPROVAL TO ALLOCATE FISCAL YEAR 2023/24 CALIFORNIA TRANSIT AND INTERCITY RAIL CAPITAL PROGRAM AND ZERO EMISSION TRANSIT CAPITAL PROGRAM FUNDING

Nick Haven discussed the recent allocation of emergency funding by the state of California to boost transit agencies' recovery post-COVID. This funding aims to support transit services, enhance ridership, and focus on electrification. The allocated funds consist of two components: the Transit and Intercity Rail Capital Program and the Zero Emission Transit Capital Program.

He outlined the allocation of approximately \$5.7 million for the Tahoe region through this funding, highlighting its significance for transit electrification and service enhancements. Nick highlighted the focus areas for funding, including supporting emerging services like micro transit, investing in charging infrastructure, and transitioning to electric vehicles.

He emphasized the need for comprehensive operational analysis (COA) to support service planning, grant applications, and transit improvements. Additionally, he explained the strict timing and reporting requirements for these funds and the necessity of meeting the submission deadline by December 31st to the California State Transportation Agency.

Mr. Haven stressed that while this allocation was for one year, there would be ongoing efforts to secure funding for subsequent years, promising continued updates and proposals for future funding cycles.

Committee Questions/Comments

Chair Hill expressed excitement about the recent developments, particularly in partnership with Plaster regarding microtransit. They highlighted the opportunity for Placer [County] to move forward with vehicle procurement, expressing appreciation for the team's efforts in making this happen. Chair Hill emphasized the significance of this progress, deeming it a potential gamechanger as they aim to reduce costs associated with microtransit by owning their own vehicles.

December 13, 2023

John Friedrich sought clarification on the flexibility of funding allocation, specifically mentioning the \$3 million intended for micro transit vehicle procurement infrastructure for TDD. He inquired whether the ultimate recipient of that funding could extend beyond TDD, possibly redirecting to SSTMA or the City for vehicle purchases. Friedrich emphasized the need to confirm the fluidity of the ultimate recipient, ensuring it wasn't pre-programmed.

Nick Haven responded that the actual recipient of the funding needs to align with the guidelines, indicating that the eligible entities receiving funds should be the ones designated by TRPA. While TTD might initially purchase the rolling stock, agreements could enable its use for micro transit elsewhere. Mr. Haven emphasized the intent to procure vans for micro transit on the south shore and suggested that operating agreements might facilitate this process.

John Friedrich restated that currently, there's no existing plan for a distinct micro transit operation directly under SSTMA's purview?

Carl Hasty, District Manager for TTD, highlighted several reasons for considering the use of funds. One crucial aspect involves ensuring TDA funds support the existing transit service. There's an ongoing effort to integrate the South Shore micro transit service with TTD's operations. This integration involves exploring funding avenues, especially for essential transit services like pair transit. Discussions revolve around the flexibility the district has in finding an arrangement that benefits all involved parties, aiming for an integrated approach that combines assets to optimize micro transit services and enhance overall integration.

John Friedrich emphasized the availability of funds to electrify and expand fleets. He highlighted ongoing discussions with SSTMA, the city, and other stakeholders about programming the available 3 million dollars within specified buckets. The focus is on determining how these funds can be utilized to meet operational needs, aligning efforts toward this goal.

Mr. Hasty agreed and reiterated that he doesn't have the final details yet but that is how TTD is looking at various solutions.

Chair Hill highlighted the upcoming discussions within the TTD board throughout the next year, emphasizing their focus on programming available funds and the relationships between TTD, the city, and TMA. Chair Hill acknowledged that TTD is currently the sole entity able to procure these funds, there's ongoing dialogue regarding the flexibility of allocating these resources. There's a collective effort to align various aspects, including available funds for micro-transit, optimizing their use to provide the desired coverage for the community's needs. The emphasis lies on flexibility in approaching these discussions and decisions.

Public Comment

Gavin Feiger, representing the Leage to Save Lake Tahoe, highlighted SSTMA's commitment to developing microtransit on the South Shore. Collaborating with partners like the city and TTD, they're focused on expanding and electrifying services in the region. They're set to expand the service in mid-January, aligning efforts with Douglas County and the city's matching funds. They've secured grants for infrastructure like an overnight charger powered by solar energy, emphasizing the transition to electric vehicles. Gavin expressed confidence in their partnership dynamics and operational models, anticipating more vehicles and electric ones on the roads by the next summer, appreciating the funding and support.

December 13, 2023

Ellie Waller emphasized the need to address microtransit coverage issues in Douglas County, particularly pointing out that the current service zones don't adequately cover the area. She highlighted the involvement of a county commissioner, Charlotte Hales, in the South Shore Transportation Management group and expressed concerns about the imbalance in service compared to the funding contributions coming from Douglas County.

Marta Michilizzi inquired about the efficiency and performance of electric vehicles in Tahoe's cold weather conditions, noting the emphasis on electric vehicles and expressing curiosity about available data regarding their functionality in such climates.

Ann Nichols raised concerns about the lack of a financial analysis regarding transit services, citing Placer County's comprehensive study on ridership and usage. She emphasized the need for transparency regarding the public's responsibility and questioned the allocation of costs, such as transportation for ski area employees and teenagers' use of micro-transit for daily trips, which she noted cost around \$17 per ride. She expressed a desire for a more detailed discussion and information regarding this financial aspect beyond Placer County's analysis.

Nick Haven responded to some of the public comments and acknowledged the complexities of electric vehicle (EV) adoption in the Tahoe area due to factors like topography and access requirements. He highlighted TTD's experience with heavy-duty EV buses, acknowledging that full electrification might not be immediately feasible given vehicle availability and suitability for the terrain. He assured a methodical approach to electrification by TART and TTD. Regarding the South Shore micro-transit, he mentioned the potential cost reduction once the organization owns its vehicles and suggested checking the South Shore TMA for available metrics on their service performance, indicating that similar data could be accessed upon request.

Mr. Friedrich highlighted his experience with electric vehicles (EVs) in the area, referencing the Lake Tahoe Unified School District's operation of electric school buses. He emphasized the increasing presence of EVs, including medium and heavy-duty vehicles, in mountain communities, stating his personal experience with EVs since 2014 without any incidents. Mr. Friedrich noted slight battery capacity reductions in cold weather but assured that route planning compensates for this. He discussed the performance similarities between EVs and traditional vehicles, citing all-wheel drive capabilities and strong torque. Additionally, he mentioned the availability of funding and incentives like California's HVIP program, providing economic benefits for transitioning to EV ownership.

Mr. Friedrich made a motion to adoption of Resolution 2023-__ as shown in Attachment A.

Ayes: Mr. Aguilar, Mr. Friedrich, Ms. Hays, Ms. Hill, Mr. Hoenigman.

Nays: None.

Motion carried.

VII. UPCOMING TOPICS

Michelle Glickert revisited a previously displayed slide and welcomed suggestions or additional input from the committee members regarding the agenda and plans for the upcoming year. She encouraged board members to contribute, ask questions, or

December 13, 2023

propose any additions or modifications to the agenda for discussion.

V. COMMITTEE MEMBER COMMENTS

None.

VI. PUBLIC INTEREST COMMENTS

Ellie Waller expressed anticipation for the revival of the bi-state consultation on transportation that occurred in 2017, led by the directors of Nevada's Department of Conservation and Natural Resources and California's Secretary of Natural Resources. Ms. Waller emphasized the importance of their input at the committee level and urged their appearance before this committee or any regional discussions regarding the 777 funding framework. She voiced concerns about the substantial financial commitment required from local jurisdictions over two decades, particularly emphasizing the need for transparent legislative processes, especially in Douglas County where significant backlog maintenance in transportation and roads exists. Ms. Waller looked forward to robust discussions and detailed consultations at both local and committee levels.

Carl Hasty, representing the Tahoe Transportation District, extended a warm welcome to the committee, highlighting their focus on transportation matters. He emphasized their commitment as a bi-state partner exclusively dedicated to transportation issues. Mr. Hasty noted the significant overlap in board membership between the two entities and expressed a desire for increased dialogue, especially as they approach discussions in the spring about future plans. Additionally, he mentioned the upcoming fiftieth anniversary of public transit initiation at Lake Tahoe in 2024, signifying an opportune moment to reflect on past achievements and look ahead to future endeavors.

Cindy Gustafson expressed the importance of the committee seeking presentations from various jurisdictions to comprehend the complexities between TMAs, transit operations, and the expansion of micro mass transit due to bus driver shortages. She highlighted the significant contributions from ski areas to funding transportation projects through TOT and TBID funds, totaling over 4.5 million dollars recently allocated by the Board of Supervisors. Ms. Gustafson emphasized understanding how each jurisdiction surpasses the private share of funding for transportation initiatives.

Ms. Hill acknowledged the support for microtransit from various organizations like the North Lake Tahoe Tourism Board, RSCBA, and Washoe County. She expressed anticipation for discussions with IVGID due to their involvement in a ski resort.

TRANSPORTATION COMMITTEE December 13, 2023 VII. ADJOURNMENT

Mr. Friedrich moved to adjourn.

Meeting adjourned at 11:11 a.m.

Respectfully Submitted,

Katherine Huston Paralegal

The above meeting was recorded in its entirety. Anyone wishing to listen to the recording may find it at https://www.trpa.gov/meeting-materials/. STAFF REPORT

Date: February 21, 2024

To: TRPA Governing Board

From: TRPA Staff

Subject: January Financial Statements, Fiscal Year 2024

Summary and Staff Recommendation:

We are seven months, or 64% of the way into fiscal year 2024. So far, everything is going according to plan. Contract expenditures lag, but that is normal.

Staff recommends acceptance of the January Financial Statements for Fiscal Year 2024.

Required Motion:

In order to accept the Financial Statements, the Governing Board must make the following motion based on the staff report:

1) A motion to accept the January 2024 Financial Statements

In order for the motion to pass, an affirmative vote of any eight Board members is required.

Background:

The first seven months (64%) of the fiscal year are now complete. Revenues are 54% of the annual budget, and expenditures are 39% of the budget. Planning Fees are ahead of last year and 6% over the three-year average. Grant revenues are billed in arrears, so they lag, leaving us in a small negative position.

YTD Revenues and Expenses

Revenues are 54% of the budget. TRPA recognizes revenue when billed, so the states' contributions are shown in their entirety. Expenditures over the rest of the fiscal year will offset the revenue received up front. Tahoe Science Council billings account for the remaining unrealized state revenue. Those are cost reimbursement and are billed in arrears. Current Planning fees are ahead of the three-year average. Current Planning Fees are 106% of the average for the prior 3 years and are at 54% of the budget. The annual inflation increase for planning fees was implemented at the end of January and will start showing up in February. AIS fees are 62% of the budget. Shoreline fees are 35% of the budget, but buoy renewal fees are not due until June. We did bill TKPOA for their mooring fees and that is why Shoreline is so high at this point in the year. Grants revenues are at 25% of the budget. Two major EIP grants from the

US Forest Service have been slow to ramp up, bringing all these numbers down. We forecast \$3.2M in contract expenditures against those grants, but none of that has been spent yet. We still have not billed all our Transportation grants for the 2^{nd} quarter.

Expenditures are 33% of the budget. Compensation expenses are at 54% of the annual budget, which is expected due to vacancies. We have filled our Legal vacancies. Contract expenses have risen to 28% of the budget and will continue to close the gap in the months ahead. This is held back by the USFS grants. Our debt service payment in December included both principle and capital, so it amounts to 70% of the budget. An interest payment is due in June.

Year to date we have taken in \$1.3M in mitigation fees and disbursed \$0.9M through the end of January. We transferred \$3.7M in Excess Coverage Mitigation Fees to CTC in February, and that will show up in next month's reports.

Tahoe Regional Planning Agency

Fiscal YTD January 2024

Revenue	State & Local	Fees	Grants	Total
Fees for Service	11,200	2,760,505		2,771,705

Net	4,447,970	86,672	(342,603)	4,192,039

^{*} Excludes mitigation funds

TRPA Balance Sheet

TRPA's Balance Sheet remains strong due to billing both State's contributions at the beginning of the fiscal year. Nevada's contribution was received in August and California funds were received in September. TRPA spends down the annual state funds throughout the fiscal year. Total assets

OPERATIONS & GOVERNANCE COMMITTEE AGENDA ITEM NO. 3 & CONSENT CALENDAR ITEM NO. 1 decreased by \$0.1M with Grant billings mostly offsetting expenditures. Liabilities increased by \$0.6M due to increased collection of mitigation funds. Net assets are \$27.3M, mostly due to having the state funds on hand at the beginning of the fiscal year plus \$9.0M of Mitigation and Securities deposits and \$3.8M of Grants.

Tahoe Regional Planning Agency

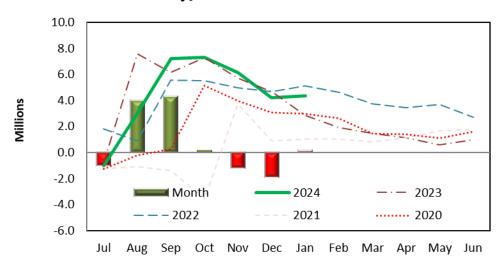

Balance Sheet @1-31-24

	TRPA	Grants	Trust	Total
Cash & Invest	9,873,711	3,031,495	23,472,115	36,377,321
A/R	215,397	817,001		1,032,398
Current Assets	160,753			160,753
LT Assets	8,313,592			8,313,592
Total Assets	18,563,453	3,848,496	23,472,115	45,884,064
A/P	13,616	(4,001)		9,615
Benefits	989,143			989,143
Deferred Rev	54,459	42,091		96,550
Deposits	154,024	2,845		156,869
LT Debt	7,972,000			7,972,000
Mitigation			1,585,463	1,585,463
Securities			7,458,988	7,458,988
Total Liabilities	9,183,242	40,934	9,044,451	18,268,628
Net Position	9,380,211	3,807,561	14,427,664	27,615,436

Cash Flow

Net Cash flow was a positive \$0.1M for the month. Cash receipts totaled \$2.1M, \$1.5M from Grant billings and the balance from planning fees. Disbursements were \$2.0M, 10% higher than the five-year average for January. Increased funding from LTRA is driving this.

Monthly/Cumulative Cash Flow

When reading the detailed reports (attached), be aware that fund balances may not be intuitive. Negative balances mean revenues exceeded expenses. Positive fund balance occurs when expenses exceed revenue. This reflects the formatting in our accounting system.

Contact Information:

For questions regarding this agenda item, please contact Chris Keillor at (775) 589-5222 or ckeillor@trpa.gov.

To submit a written public comment, email publiccomment@trpa.gov with the appropriate agenda item in the subject line. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting.

STAFF REPORT

Date: February 21, 2024

To: TRPA Governing Board

From: TRPA Staff

Subject: Adoption of 2024 Watercraft Inspection Fee Schedule

Staff Recommendation:

Staff recommends that the Governing Board adopt the proposed Resolution (Attachment A) containing the 2024 Watercraft Inspection Fee Schedule.

Required Motion:

In order to approve the proposed 2024 Watercraft Inspection Fee Schedule, the Governing Board must make the following motion based on the staff report:

I. A motion to adopt the proposed Resolution 2024-____, (Attachment A) approving the 2024 Watercraft Inspection Fee Schedule.

In order for the motion to pass, an affirmative vote of any eight members of the Board is required.

Project Description/Background:

In 2008, TRPA initiated the Aquatic Invasive Species (AIS) Watercraft Inspection Program (Program) to prevent the introduction and spread of aquatic invasive species (AIS) into the waters of the Lake Tahoe Region. The Program serves as a national model and is a tremendous success with no new invasions detected since the Program began, until the recent discovery of New Zealand mudsnails in September 2023. The TRPA has a unique relationship with the Tahoe Resource Conservation District (Tahoe RCD) in that they are TRPA's primary partner in the AIS Program overall, but also a contractor to implement the inspection Program and has been doing so since the Program began.

The TRPA Code (63.4) allows for the collection of fees from the boating public as a long-term funding source for the Program that complements public funds. The Code also states that the TRPA Governing Board approves the fee schedule annually. The Program utilizes two different stickers to indicate that a boat has paid the appropriate fee for that season: one for boats that are exclusively used on Lake Tahoe ("Tahoe Only"), and one for boats launching on Lake Tahoe and in other bodies of water outside of the Region ("Tahoe In and Out"). The Program also allows for a Single Inspection Pass with a reduced rate that is valid for one inspection at the inspection station and seven consecutive days of seal inspections at launch ramps. In addition to the annual sticker fees, the Program charges for each decontamination performed. The decontamination fee can be avoided if boaters adhere to the "Clean, Drain and Dry" practice the Program promotes. Decontamination fees are based on how many "systems" need to be decontaminated because they were not "Clean, Drained and Dry." (A system is a bilge, engine, hull, trailer, live well, etc.)

To ensure the continued success and sustainability of the Program, TRPA staff are proposing an increase to the fee schedule for the 2024 season.

The proposed fee schedule increases for inspections include:

- Tahoe Only sticker- increase \$5.
- Tahoe In/Out stickers and Single Inspection passes- increase \$10 for watercraft under 17 feet and personal watercraft.
- Tahoe In/Out stickers and the Single Inspection passes- increase \$15 for watercraft over 17 feet.

The proposed fee schedule for decontaminations includes a modification based on the number of systems that require decontamination, increasing the categories from two to three:

- Single system decontamination- increase \$5.
- Two and three systems (new category)- the current category is more than one system, with the fee of \$50. The proposed fee for 2-3 systems is a \$10 increase from the current schedule.
- More than four systems (new category)- the current category is more than one system, with the fee of \$50. The proposed fee for four or more systems is a \$60 increase from the current schedule.

		2024	Amount
Inspection Fees	2023	2024 Proposal	of increase
Tahoe Only	45	50	5
In/Out: PWC & up to 17	60	70	10
In/Out: 17 and up	100	115	15
Single: PWC & up to 17	55	65	10
Single: 17 and up	80	95	15

Decontamination Fees	2023		
Decontamination (single system, jet ski)	25	30	5
Decontamination (2-3 systems)	50	60	10
Complex Decontamination (4 or more systems)		110	110
Ballast Boats (in addition)			
Drained Ballasts	25	30	5
Undrained Ballasts	50	60	10
Attached Mussels	250	350	100

Supporting Information

Several factors weighed into the proposal to increase fees for 2024 including staff wages, grant funding, and general cost increases to operate the Program.

Sticker fees have not had a significant increase in several years, although the structure of the fee schedule has been adapted to address the factors listed above.

Sticker Fee Increase Recent History

Inspection fees:

- Tahoe Only stickers increased by \$3 in 2019.
- Tahoe In/Out and Single Inspection pass increased by \$5 in 2021.

Decontamination fees:

- Single system decontaminations and personal watercraft decontaminations increased \$5 in 2022.
- Multiple system decontaminations increased \$10 in 2021.
- In 2022, the program added a decontamination category for ballast tanks, both drained and undrained.
- The attached mussel fee last increased in 2021 from \$200 to \$250.

The AIS sticker sales remained steady between 2019 and 2023, providing a consistent revenue source.

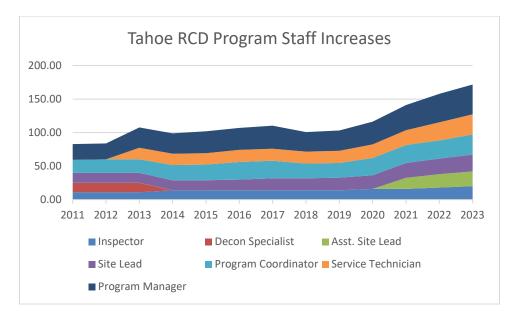

The primary reason for fee increases is to more accurately reflect the amount of work required to conduct inspections and decontaminations. Watercraft are becoming more complicated, requiring more expertise, time, and resources to inspect and decontaminate.

For the last several years labor rates have risen, creating increases in programmatic costs associated with performing inspections and decontaminations and administering the Program. Seasonal inspector wages increased from \$14 in 2019 to \$20 in 2023 to keep up with regional wages and attract valuable staff. Year-round supervisory staff wages have increased as well to maintain an appropriate separation between positions. Seasonal inspectors are supervised by assistant site supervisors and site supervisors. Program staff then implement the Program and supervise the stations.

Inspector Wages- 2016-2023

In addition to the wage increases and in reaction to the recent discovery of New Zealand mudsnails, the Program plans to hire roving inspectors to interact and educate the non-motorized audience. The roving inspectors are new positions and will be strategically located around the lake to interact with as many recreationists as possible. This role fills a gap in reaching the non-motorized users and will further assist in preventing the introduction of all AIS.

Until recently, the Program has successfully competed for grants from the California Division of Boating and Waterways (CA DBW) since 2014. The Program has received approximately \$400,000 each annual cycle, thus totaling \$400,000 in Program funds each year. (Each grant award is for two years.) The Program was not awarded the grant for the 2023 grant cycle. The loss of these funds accounts for an approximately 16% reduction to the overall AIS Prevention Program budget and a 25% reduction to the Tahoe RCD contract.

The Program was not awarded the grant for the 2023 grant cycle due to several factors, the most likely of which being that the CA DBW prioritizes prevention program development over developed prevention programs such as our Watercraft Inspection Program. In addition, funding becomes more competitive each year as more prevention programs are developed in California, ultimately helping to protect Lake Tahoe waters.

The Watercraft Inspection Program has healthy reserves but is operating at a deficit without the grant funding, a deficit made larger by the continued rise in wages and Program costs. The Program annually assesses these costs and discusses options to decrease expenses. Long-term solutions may include smaller graduated increases to fees to address the deficit. The annual budget is estimated at \$2,414,000, of which \$1,569,722 pays the Tahoe RCD contract, comprising 65% of the overall Program budget. Within the Tahoe RCD budget, 74% is reserved for staffing, both seasonal and year-round.

The proposed fee schedule shown in *Exhibit 1* does not include the \$12 Shoreline Program fee approved by the Governing Board in October 2018. The Shoreline Program fees do not cover costs of the AIS inspections; rather, they contribute to, among other items, control and monitoring of existing species in Lake Tahoe that can be spread by boats to other areas of the lake. The Shoreline fees are collected at the time of sale of the AIS sticker.

Environmental Review:

None necessary.

Regional Plan Compliance:

The proposed action complies with all requirements of the TRPA Goals and Policies, Plan Area Statements, and Code of Ordinances, including all required findings in Chapter 6 of the TRPA Code of Ordinances.

Contact Information:

For questions regarding this Agenda item, please contact Thomas Boos at (775) 589-5240 or tboos@trpa.gov.

To submit a written public comment, email publiccomment@trpa.gov with the appropriate agenda item in the subject line. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting.

Attachment A

Resolution

TAHOE REGIONAL PLANNING AGENCY TRPA RESOLUTION NO. 2024 –

RESOLUTION AMENDING THE WATERCRAFT INSPECTION FEE AMOUNT AND SCHEDULE, EFFECTIVE FEBRUARY 2024 THROUGH DECEMBER 2024

WHEREAS, the introduction of aquatic invasive species such as quagga and zebra mussels pose a threat to the integrity of the Lake Tahoe Region's ecosystem, recreation, water purveyance systems and economy in general; and

WHEREAS, Subparagraph 63.4.2.E of the TRPA Code of Ordinances as amended April 2011 requires that an owner and/or operator of a Boat Ramp (excluding Marine Railway Systems) or other Boat Launch Facility shall close any ramp or facility if the provisions of Subparagraphs 63.4.2.(A)-(C) are not met in order to prevent the launching of motorized watercraft; and

WHEREAS, Subparagraph 63.4.2.A of the TRPA Code of Ordinances as amended April 2011 further requires that all motorized Watercraft shall be inspected by TRPA or its designee prior to launching into the waters of the Lake Tahoe Region to detect the presence, and prevent the introduction of, aquatic invasive species; and

WHEREAS, Subparagraph 63.4.2.B of the TRPA Code of Ordinances as amended April 2011 further requires that all Watercraft inspected pursuant to Subparagraph 63.4.2.A shall be subject to decontamination if determined necessary by the TRPA or its designee; and

WHEREAS, Subparagraph 63.4.2.D of the TRPA Code of Ordinances as amended April 2011 further states that Inspections and decontaminations performed pursuant to Section 63.4 are subject to a fee related to the costs of performing such services and other Watercraft inspection program costs; and

WHEREAS, Subparagraph 63.4.2.D of the TRPA Code of Ordinances as amended April 2011 further states that the TRPA Governing Board will review and approve the fee amount and schedule annually; and

WHEREAS, during the April 2011 Board meeting, the TRPA Governing Board adopted Resolution 2011-07 making watercraft subject to a fee for inspection, decontamination and other program costs; and

WHEREAS, the Watercraft Inspection plan for 2024 requires a combination of public and private funding currently estimated at \$2,414,000 to inspect and decontaminate motorized watercraft; and

WHEREAS, state funding from both California and Nevada has been secured to support aquatic invasive species inspections for 2024; and

WHEREAS, the Governing Board of the Tahoe Regional Planning Agency on September 24, 2008 directed staff to bring to the Board for consideration an equitable fee schedule; and

NOW, THEREFORE, BE IT RESOLVED that the Governing Board of the Tahoe Regional Planning Agency that the amount and schedule of the aquatic invasive species inspection fee effective January 2024 through December 2024 be as shown in Exhibit 1; (Attached)

day of February 2024, by the following vote:

STAFF REPORT

Date: February 21, 2024

To: TRPA Governing Board

From: TRPA Staff

Subject: Presentation on the Vision Zero Strategy and possible recommendation for endorsement of

the Vision Zero Strategy

Summary and Staff Recommendation:

Staff will present a summary of the final Vision Zero Strategy. Staff recommends endorsement of the 2024 Vision Zero Strategy with a resolution committing to a goal of zero fatalities and serious injuries by 2050. This timeline aligns with the Nevada Department of Transportation in their commitment to zero fatalities by 2050 and the California Department of Transportation in their commitment to zero fatalities and serious injuries by 2050.

Required Motions:

In order to adopt the resolution, the Board must make the following motion(s), based on the staff report:

1) A motion to endorse the 2024 Vision Zero Strategy, including a resolution committing to a goal of zero fatalities and serious injuries by 2050, as shown in Attachment A and Exhibit 1.

In order for the motion to pass, an affirmative vote of any eight members is required.

Project Description/Background:

The 2024 Vision Zero Strategy is a roadway safety plan, updated from the 2019 Lake Tahoe Region Safety Strategy. The strategy seeks to support and accelerate the achievement of the 2020 Linking Tahoe: Regional Transportation Plan (2020 RTP) safety goals and inform the upcoming Regional Transportation Plan update. Vision Zero is a strategy that seeks to eliminate all traffic fatalities and severe injuries, while increasing safe, healthy, and equitable mobility for all. From 2013 to 2021, there were 41 fatalities and 183 life-changing serious injuries on Tahoe's roadways, according to latest crash data reported by state and local law enforcement agencies. TRPA has a role in achieving significant reductions in these numbers and improving the safety of our region through safety planning, stakeholder coordination, regional policies, and setting and reporting on federally mandated safety performance targets. A key aspect of Vision Zero and condition of funding eligibility is an official public commitment by the governing body to an eventual goal of zero roadway fatalities and serious injuries with a timeline. Staff propose a goal of achieving zero fatalities and serious injuries on roadways in the Tahoe Basin by 2050, as shown in Attachment A.

To develop this strategy, staff evaluated the most recent nine years of complete crash data (2013 – 2021) available for the California and Nevada portions of the Tahoe Region. The strategy includes a

breakdown of crashes by year, month, weather, travel mode, lighting, crash types, and primary crash factors. TRPA also developed the <u>Lake Tahoe Crash Data Dashboard</u> as a tool for stakeholders and the public to view crash data trends easily and transparently. The data analysis informed the identified strategies, proposed policies, and a project list to help transportation partners across the Lake Tahoe Region improve safety for all road users. Thirty candidate locations were identified for future transportation safety improvements, based on crash data analysis, equity considerations, and a bicycle level of traffic stress analysis. From this list, eight locations were highlighted as regionally significant priority projects. Potential safety countermeasures, cost estimates, and equity analyses were developed for each of the eight priority projects.

Vision Zero emphasizes the importance of collaboration with local governments, state agencies, law enforcement, advocacy groups, and the public. The strategy development was guided by a Technical Advisory Committee (TAC) with representatives from over twenty agencies, including state and local agencies, advocacy groups, fire departments, and law enforcement agencies. From April to September 2023, outreach in English and Spanish gathered input from more than 400 people at community events and 320 survey respondents.

The Vision Zero Strategy is meant to be a living document that will be used long after endorsement by the TRPA Governing Board. We will be updating crash data on the <u>Vision Zero Website</u> annually, with transparent reporting on progress towards reducing roadway fatalities and serious injuries. We will analyze safety metrics through annual federal performance measure reporting and in the Transportation Performance Report, which will be published every two years. We will also provide biennial updates to the Governing Board, with an opportunity for public input.

Policy Recommendations

The strategy looks at safety policies in the 2020 RTP and recommends minor revisions for consideration in the 2025 Regional Transportation Plan. The revisions are mostly tied to the updated Lake Tahoe Countermeasures Toolbox, to ensure the proven safety countermeasures are considered in the design of future projects and in corridor planning. The strategy also includes proposed policies from the Transportation Equity Study, unanimously endorsed by the Governing Board in July 2023. The strategy highlights proposed equity policies that elevate transportation safety for all.

Environmental Review:

Environmental review for the proposed projects will be completed on a project specific basis by the implementing agencies.

Public Comment:

The strategy was available for a 14-day public comment period from January 19th through February 2nd, during which 17 comments were received. The public and stakeholders were supportive of the strategy and efforts to make the roads safer for all road users. Comments received were primarily project specific. Based on comments, the final strategy includes an expanded section on the speed-related and driving under the influence crashes in Chapter 2.3: Analysis of Contributing Factors. The role of the Tahoe Transportation Implementation Committee was clarified in Chapter 1.2: TRPA's Role in Safety, and updates were made to the Lake Tahoe Countermeasures Toolbox (Appendix A), with the addition of driveway consolidation.

Contact Information:

For questions regarding this agenda item, please contact Rachael Shaw, Associate Transportation Planner, at (775) 589-5267 or rshaw@trpa.gov. To submit a written public comment, email publiccomment@trpa.gov with the appropriate agenda item in the subject line. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting.

Attachment A
Resolution 2024-___

TAHOE REGIONAL PLANNING AGENCY TRPA RESOLUTION NO. 2024—

RESOLUTION IN SUPPORT OF THE GOAL OF ACHIEVING ZERO FATALITIES AND SERIOUS INJURIES ON ROADWAYS IN THE TAHOE BASIN BY 2050 AND ENDORSEMENT OF VISION ZERO TO ACHIEVE THIS GOAL.

WHEREAS, according to data from the National Highway Traffic Safety Administration, each year approximately 40,000 people are killed in traffic collisions in the United States; and

WHEREAS, from 2013 to 2021, 41 people died and 183 suffered serious injuries on roads in the Tahoe Region; and

WHEREAS, a basic tenet of Vision Zero is that fatal and serious crashes are not inevitable, and death and serious injury are not an acceptable cost for using our public roadway system; and

WHEREAS, the Vision Zero Strategy provides a framework for reducing traffic deaths and serious injuries through a data-driven approach; and

WHEREAS, TRPA is dedicated to work with local and state jurisdictions to implement countermeasures and projects that aim to significantly reduce deaths and serious injuries on Tahoe roads; and

WHEREAS, Vision Zero supports the Regional Transportation Plan/Sustainable Communities Strategy goal of Safety; and

WHEREAS, a commitment to Vision Zero considers and supports equity, as low-income communities and communities of color carry a disproportionate burden of traffic-related injuries and fatalities in the U.S.; and

WHEREAS, the Tahoe Basin joins other regions, counties, and cities across the Nation in a commitment to Vision Zero, an evidence-backed approach with demonstrated success; and

WHEREAS, TRPA joins the Nevada Department of Transportation in their commitment to zero fatalities by 2050; and

WHEREAS, TRPA joins the California Department of Transportation in their commitment to zero fatalities and serious injuries by 2050;

NOW, THEREFORE, BE IT RESOLVED that the Governing Board of the Tahoe Regional Planning Agency adopts a goal of eliminating traffic deaths and serious injuries by 2050 and endorses the Vision Zero Strategy as an approach to achieving this goal.

PASSED and ADOPTED by the Governing Board of the Tahoe Regional Planning Agency thi	s

STAFF REPORT

Date: February 21, 2024

To: TRPA Governing Board

From: TRPA Staff

Subject: Notice of Preparation for Joint Environmental Impact Report/Environmental Impact

Statement for Proposed Boatworks Redevelopment Project; 740, 760, and 790 North Lake Boulevard, Tahoe City, Placer County, California; APNs 094-090-001, -033, -036, -

042, and 065; TRPA File # ERSP2022-0953

Summary:

Boatworks at Tahoe LLC (project applicant) is requesting approval of various discretionary entitlements in support of the proposed Boatworks at Lake Tahoe project (proposed project), located on a 3.8-acre site at the eastern gateway to Tahoe City. The proposed project would redevelop the existing Boatworks Mall, the Inn at Boatworks, and El Dorado Savings Bank building with a mixed-use development that includes hotel lodging, residential condominiums (to be included in the hotel pool), and independent commercial spaces and spa. The hotel component will also include food and beverage, conference facilities and other amenities that are accessory to the hotel. The project would be served by underground parking (both valet and self-park) and proposes to reduce the current encroachment into the stream environment zone (SEZ) on the project site.

Placer County and the Tahoe Regional Planning Agency (TRPA) are planning to prepare a joint Environmental Impact Report /Environmental Impact Statement (EIR/EIS) for the proposed project that will serve as an EIR prepared by Placer County pursuant to the California Environmental Quality Act (CEQA) and the State CEQA Guidelines and an EIS prepared by TRPA pursuant to its Compact, Code of Ordinances (Code), and Rules of Procedure.

In accordance with State CEQA Guidelines, Section 15082, and TRPA Rules of Procedure, Section 6.9, a notice of preparation (NOP) has been issued to inform agencies and interested parties that an EIR/EIS will be prepared for the proposed project. The purpose of a NOP is to provide sufficient information about the proposed project and its potential environmental impacts to allow agencies and interested parties the opportunity to provide meaningful comments regarding the scope and content of the EIR/EIS, including mitigation measures that should be considered and alternatives that should be evaluated.

Advisory Planning Commission Discussion:

The NOP was placed on the Advisory Planning Commission (APC) agenda for February 14, 2024. At the meeting, the project team provided the APC an overview of the proposed project and solicited input on the scope and content of the proposed EIR/EIS from APC members and the public.

Contact Information:

For questions regarding this agenda item, please contact Brandy McMahon, Local Government Coordinator, at (775) 589-5274 or bmcmahon@trpa.gov. To submit a written public comment, email publiccomment@trpa.gov with the appropriate agenda item in the subject line. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting.

To submit written public comment on the NOP, please refer to the NOP.

Email: bmcmahon@trpa.gov

Placer County and the Tahoe Regional Planning Agency (TRPA) are preparing a joint Environmental Impact Report/Environmental Impact Statement (EIR/EIS) for the proposed Boatworks at Tahoe project. This joint document that will serve as an EIR prepared by Placer County pursuant to the California Environmental Quality Act (CEQA) and the State CEQA Guidelines, and an EIS prepared by TRPA pursuant to its Compact, Code of Ordinances (Code), and Rules of Procedure. This notice meets the CEQA and TRPA noticing requirements for a Notice of Preparation (NOP) to provide responsible agencies and interested persons with sufficient information to make meaningful responses as to the scope and content of the EIR/EIS. Your timely comments will ensure an appropriate level of environmental review for the project.

PROJECT DESCRIPTION: Boatworks at Tahoe LLC (project applicant) is requesting approval of various discretionary entitlements in support of the proposed Boatworks at Lake Tahoe redevelopment project (proposed project). The proposed project would redevelop the existing Boatworks Mall, the Inn at Boatworks and El Dorado Savings Bank building with a mixed-use development that includes hotel lodging, residential condominiums (to be included in the hotel pool), and independent commercial spaces and spa. The hotel component will also include food and beverage, conference facilities and other amenities that are accessory to the hotel. The project would be served by underground parking (both valet and self-park) and proposes to reduce the current encroachment into the stream environment zone (SEZ) on the project site.

PROJECT LOCATION: 740, 760, and 790 North Lake Boulevard, Tahoe City, County of Placer. The existing site is commonly known as Boatworks Mall, Boatworks commercial condominium, and The Inn at Boatworks.

For additional information regarding the project, please contact Heather Beckman at (530) 388-6484 or HBeckman@placer.ca.gov. For TRPA specific questions, please contact Brandy McMahon at (775) 589-5274 or bmcmahon@trpa.gov. A copy of the NOP is available for review at the Placer County Community Development Tahoe

office (775 North Lake Boulevard, Tahoe City), the Placer County Community Development Auburn office (3091 County Center Drive, Auburn), TRPA offices (128 Market Street, Stateline, Nevada), the Tahoe City Library (740 N. Lake Boulevard, Tahoe City), on the Placer County website, and TRPA's Lake Tahoe Info Parcel Tracker as follows:

Placer County: https://www.placer.ca.gov/9561/Boatworks-at-Lake-Tahoe-Environmental-Im

TRPA: https://parcels.laketahoeinfo.org

(Enter the TRPA File # *ERSP2022-0953* in the top right-hand corner of the webpage to review the NOP and other documents associated with the application)

NOP Comment Period: Written comments should be submitted at the earliest possible date, but not later than 5:00 p.m. on **Thursday, February 29, 2024,** to Shirlee Herrington, Environmental Coordination Services, Community Development Resource Agency, by mail at 3091 County Center Drive, Suite 190, Auburn, CA 95603; phone (530) 745-3132; fax: (530) 745-3080; or cdraecs@placer.ca.gov.

NOP Scoping Meeting: In addition to the opportunity to submit written comments, an NOP scoping meeting will be held in person and virtually via Zoom to inform interested parties about the proposed project, and to provide agencies and the public with an opportunity to provide comments on the scope and content of the EIR/EIS. TRPA will also include the NOP on the TRPA Advisory Planning Commission agenda and Governing Board agenda (consent calendar) at their February meetings. Further information on the date and time of the scoping meeting and TRPA meetings is provided below.

TRPA Advisory Planning Commission	EIR/EIS Scoping Meeting on the Boatworks at Lake Tahoe Project	TRPA Governing Board
 Tuesday, February 14, 2024 Meeting will begin at 9:30 a.m. but is not time certain. 	Monday, February 26, 2024★ 4:00 to 6:00 p.m.	 Wednesday, February 28, 2024 Meeting will begin at 8:00 a.m. but is not time certain.
In-Person: TRPA Offices, 128 Market Street, Stateline, NV Virtual: Virtual meeting information will be available with meeting materials posted at https://www.trpa.gov/events/ up to 1 week prior to the meeting.	In-Person: Tahoe City Public Utility District 221 Fairway Drive, Tahoe City Virtual: Zoom: https://placer-ca- gov.zoom.us/j/99615438857 Phone: 888 788 0099 Webinar ID: 996 1543 8857	In-Person: TRPA Offices, 128 Market Street, Stateline, NV Virtual: Virtual meeting information will be available with meeting materials posted at https://www.trpa.gov/events/ up to 1 week prior to the meeting.

PROJECT LOCATION AND SURROUNDING USES

The Boatworks at Lake Tahoe project site is located at 740, 760, and 790 North Lake Boulevard, Tahoe City, California within the County of Placer (Figure 1). The existing site is commonly known as Boatworks Mall, Boatworks commercial condominium, and The Inn at Boatworks. The site is south of the SR 28/Jackpine Street intersection and forms the eastern gateway to Tahoe City. The site is an estimated 120 miles east of Sacramento, California, and 50 miles southwest of Reno. The site is situated on assessor's parcel numbers (APNs) 094-090-001, -033, -036, -042, and 065. The project site is located within the Greater Tahoe City Mixed-Use Town Center overlay of the Placer County Tahoe Basin Area Plan.

The existing site includes two buildings with 46,112 sq. ft. of commercial leasable space and a 34-room motel building, with one manager unit (Figure 2). The existing buildings vary from one to three stories. There are 176 existing on-site parking spaces.

The site is generally bounded by SR 28 to the north, with Placer County offices located directly across SR 28; the Tahoe City Marina development to the west and south; and Safeway to the east. The Lakeside Trail and Lake Tahoe generally front the property to the south. No changes to the Lakeside Trail Easement are contemplated.

PROJECT CHARACTERISTICS

Boatworks at Tahoe LLC's vision for the project involves creating a high-quality lodging and condominium complex with community serving retail that connects to other existing pedestrian friendly retail along SR 28 that is consistent with the character of Tahoe City.

The proposed project (Figure 3) involves demolishing the existing 45- and 65-year-old buildings at the site, realigning the SR 28 access driveway, and adding a service access driveway on SR 28 to support redevelopment of the project site with the following:

- ▶ 79 hotel lodging units (64 standard guest rooms and 15 suites with full in-room amenities, with unit sizes ranging from 480 to 1,440 square feet (sq. ft.) and an average room size of 565 sq. ft.;
- ▶ 29 residential condo-hotel units (2- and 3-bedroom units, with unit sizes ranging from 1,700 to 2,000 sq. ft.). Each condominium will have one lock-off totaling 29 lock-offs, for a grand total of 58 units;
- ▶ 6,228 sq. ft. of conference facilities;
- ▶ a 11,530 sq. ft. full-service spa;
- swimming pools/hot tubs;
- a guest fitness center;
- ▶ 5,485 sq. ft. of food and beverage outlets;
- ▶ 7,063 sq. ft. of commercial retail space fronting SR 28; and
- ▶ 56,194 sq. ft. of underground parking (155 spaces).

Owners of the condominiums would be restricted to a maximum stay of up to 90 nights per year. The condominium units would be subject to transient occupancy taxes (TOT) for those nights where the condominiums are rented to the public.

The two proposed buildings are designed to include classic gables, stepping massing, and accessibility to pedestrian connections on- and off-site. The buildings are designed to include natural stone, wood, metal, and glazing and range from one to four stories, with a maximum height of 56 feet as allowed for mixed-use development located within town centers.

The project includes the following trip-reducing features: amenities that support active transportation (e.g., employee changing facilities, employee lockers, and bicycle parking and storage); bicycles for use by lodge guests; on-site

electric vehicle charging stations; and private and public transit connectivity/shuttles to recreational and sightseeing opportunities.

The project site is approximately 75 percent covered with existing impermeable pavement and structures and is located on lands designated as land capability district (LCD) 6, except along the eastern site boundary and a portion of the site fronting Lake Tahoe where lands are designated LCD 1b/stream environment zone (SEZ) and Backshore/1b. The proposed project proposes enhancements to the on-site SEZ on the eastern edge of the site at Bliss Creek. Enhancements would include removal of coverage in the SEZ and creating a buffer between the SEZ and development, removing existing trash and debris as part of ongoing maintenance and removing invasive weeds to support native vegetation communities. Further SEZ enhancements could include removing existing conifers, treating bank instability using revegetation and bioengineering solutions, and integrating formal multi-use trail crossings to eliminate user-defined trails.

Preliminarily, the project would be estimated to generate about 40 new full-time equivalent (FTE) positions. Employee housing mitigation for the project would be provided through an off-site property acquisition, consisting of existing housing or through the applicant's payment of in-lieu fees pursuant to Placer County's Affordable Housing and Employee Accommodation Ordinance and consistent with Placer County General Plan Policy C-2.

The project is designed to be consistent with the existing TRPA Regional Plan, TRPA Code of Ordinances, Placer County Tahoe Basin Area Plan and Placer County Zoning Ordinance, including the proposed 155 underground parking spaces that would avoid interception with the seasonal groundwater table. It is noted that Placer County has approved amendments to the Area Plan that allow exceptions to TRPA Code Section 33.3.6 related to groundwater interception for projects in Town Centers if the project is designed to prevent adverse off-site groundwater impacts. If the Area Plan amendment for exceptions to groundwater interception for projects in Town Centers is approved by the TRPA Governing Board (hearing date anticipated in winter 2024), the EIR/EIS will evaluate another project option that would increase the subsurface parking by 20 spaces.

PROJECT OBJECTIVES

Objectives of the proposed project, as stated by the project applicant, include the following:

- ▶ Redevelop the Boatworks Mall site in a way that contributes to TRPA threshold attainment as envisioned in the TRPA Regional Plan and Tahoe Basin Area Plan;
- ▶ Provide high-quality tourist accommodations and amenities located in Tahoe City;
- Promote economic growth through the creation of additional jobs, increased property and transit occupancy (TOT) taxes, sales tax and other positive economic outcomes for the local and surrounding communities;
- Create a project that can fund environmental improvements and is sensitive to scale and massing of the project site and Tahoe City;
- Act as a catalyst project to assist in the economic revitalization of Tahoe City;
- ► Create a project that maintains the project site's locally accessible recreation opportunities and connectivity to pedestrian, bicycle, and multi-modal transportation opportunities;
- ▶ Enhance site circulation and improve pedestrian safety and traffic flow;
- ▶ Build an energy efficient and environmentally sensitive project by using green building design and operating the facility according to green hotel standards; and
- ▶ Reduce impervious surfaces in the Bliss Creek SEZ and improve water quality, including capturing fine sediment and reducing the current encroachment into the Bliss Creek SEZ.

PROBABLE ENVIRONMENTAL EFFECTS

The EIR/EIS will include project-level analysis of potential impacts of the Boatworks at Lake Tahoe project. Resource topics requiring project-specific analysis for the proposed project will include scenic resources; geology, soils, land capability, and coverage; hydrology and water quality; transportation; air quality; greenhouse gas emissions; noise; archaeological, historical, and tribal cultural resources; population and housing; and utilities and service systems as described in more detail below. All other resource topics are assumed to be scoped out of the detailed analysis, addressed through application of County and TRPA Code requirements, and dismissed with a brief discussion and analysis. Issues dismissed from detailed evaluation for the proposed project, and the rationale for dismissal, will be included in the EIR/EIS for topics including agricultural and forestry resources; biological resources; energy; hazards, hazardous materials, and risk of upset; land use; mineral resources; public services; recreation; and wildfire. The rationale for dismissal of these topics from detailed evaluation will include tiering from the analysis in the Tahoe Basin Area Plan EIR/EIS in addition to other supporting documentation, as applicable.

The following subject areas include potential environmental effects that will be analyzed in the EIR/EIS.

Scenic Resources. The proposed project would be visible from SR 28 and Lake Tahoe. Key scenic concerns include increased height and visual mass on the redeveloped site. The EIR/EIS will evaluate scenic impacts of the project alternatives in accordance with the State CEQA Guidelines, Chapter 66 of the TRPA Code, the adopted TRPA Scenic Resource Threshold Standards, local and regional plans/design guidelines, height limits and findings, and nighttime views in the area. The evaluation will characterize the existing conditions and the project's impact on the applicable scenic roadway travel unit, shoreline travel unit, scenic resources, recreation areas and bike paths, as well as community character. The impact analysis will utilize visual simulations of the project from viewpoints along SR 28, the Lakeside Trail, and Lake Tahoe. Mitigation measures (temporary and permanent) will be proposed, if needed.

Geology, Soils, Land Capability, and Coverage. Implementation of the proposed project would involve excavation, grading, placement of fill material, and construction of new lodging units, residential condominium units, and associated amenities, including underground parking. Potential environmental effects related to soils and geology, land capability, seismic hazards, slope stability, erosion, and paleontological resources will be described in the EIR/EIS. The analysis will describe coverage impacts based on comparison of existing land coverage calculations by parcel and proposed coverage for the project. Mitigation measures (temporary and permanent) will be proposed, if needed.

Hydrology and Water Quality. The clarity of Lake Tahoe is world-renowned and is at the heart of the scenic beauty and attractiveness of the Region to residents and visitors alike. The lake's designation as an Outstanding National Resource Water (ONRW) affords it the highest level of protection under the anti-degradation policy of the US Environmental Protection Agency (EPA). Lake clarity continues to be a regulatory focus in the Tahoe Region. The project site abuts the Tahoe City Marina on Lake Tahoe and a portion of the Bliss Creek SEZ. As described above under "Project Characteristics," the proposed project would enhance the on-site Bliss Creek SEZ by removing coverage and creating a buffer to development in addition to other proposed SEZ enhancements. The proposed project also includes underground parking.

The EIR/EIS will include project-level analysis of the hydrologic effects of the proposed project, including impacts relative to existing and proposed impervious surfaces, the potential for increased runoff, and the ability of existing and proposed drainage facilities to convey runoff. The proposed project will be evaluated in terms of potential sources of water quality pollutants, with particular emphasis on nutrient and sediment loads transported off-site to Lake Tahoe and Bliss Creek, and their control (e.g., proposed best management practices) relative to existing conditions and Lake Tahoe Basin regulations and standards. This will include an assessment of source and treatment controls over a range of hydrologic conditions, consistent with the Lake Tahoe and Truckee River Total Maximum Daily Loads. Potential impacts associated with excavation for the underground parking as it relates to interference with groundwater flows and consistency with TRPA and Placer County regulations will be assessed in the EIR/EIS. Mitigation measures (temporary and permanent) will be proposed, if needed.

Transportation. Implementation of the proposed project could impact traffic on SR 28 through the increase in density of uses at the site or changes to site access. As summarized above under "Project Characteristics," the project includes

trip-reduction features that support active transportation; thus, providing opportunities to reduce motorized vehicle use and encouraging bicycle and transit use. Construction and implementation of the proposed project would generate short-term construction-related traffic. Long-term traffic impacts will also be discussed in the context of General Plan/TBAP conformity. The transportation analysis will include identification of major roadways and intersections in the project area and an TRPA and SB 743-compliant vehicle miles traveled (VMT) analysis. Effects on local circulation patterns will also be discussed in these locations. Mitigation measures (temporary and permanent) will be proposed, if needed.

Air Quality. The project would involve temporary construction emissions and generation of fugitive dust. It would also generate temporary construction traffic in the area, contributing pollutants to the region. The EIR/EIS will include an assessment of ambient air quality conditions as well as short-term (i.e., construction) air quality impacts and long-term (i.e., operational) regional air pollutant emissions. The assessment of long-term air quality impacts will consider anticipated greenhouse gas (GHG) emission reductions and other air quality benefits resulting from any potential reduction in VMT and replacement of existing antiquated stationary greenhouse gas sources. Mitigation measures (temporary and permanent) will be proposed, if needed.

Greenhouse Gas (GHG) Emissions. Implementation of the proposed project has the potential to increase GHG emissions from vehicles and operation of the new facilities that may be an increase over existing conditions. The EIR will evaluate potential GHG impacts using the latest widely accepted modeling tool. Anticipated GHG emissions and temporary construction GHG emissions will be assessed and described. Mitigation measures (temporary and permanent) will be proposed, if needed.

Noise. The EIR/EIS will assess potential short-term (i.e., construction) noise impacts relative to sensitive receptors and their potential exposure. Noise levels of specific construction equipment will be determined and resultant noise levels at nearby receptors (at given distances from the source) will be calculated. Long-term (i.e., operational) noise impacts, including increased noise from increased use of the project site by the hotel lodging units, residential condominiums, and associated outdoor and rooftop amenities at the project site will be assessed. Mitigation measures (temporary and permanent) will be proposed, if needed.

Archaeological, Historical, and Tribal Cultural Resources. The EIR/EIS will provide an overview of project area prehistory, ethnography and history, a discussion of documented cultural resources in the project area, and the potential impacts to these and unrecorded sites, features or objects, and suitable measures designed to mitigate potential impacts. The project-level analysis of the proposed project will include a site-specific archaeological and architectural review. The evaluation methodology for the EIR/EIS will include archival research, field reconnaissance, and eligibility determination for listing on the National Register of Historic Places (National Register) and/or California Register of Historical Resources (California Register) for any heritage properties identified. Mitigation measures (temporary and permanent) will be proposed, if needed.

Population and Housing. The project would increase employment opportunities at the site and the corresponding demand for employee housing. It is understood that the proposed project would be required to offset the new employee demand for housing consistent with Placer County General Plan Policy C-2 that requires new development in the Tahoe Basin to house 50 percent of the full-time equivalent employees generated by the development. This section will discuss the combined effects of the project on population, employment, and housing. The impact analysis will address whether the project would alter the location, distribution, density, or growth rate of population planned for the Tahoe region. The EIR/EIS will include analysis of the approach the applicant will use (e.g., in lieu fee, off-site acquisition and deed restriction, or new construction) to meet the County's inclusionary housing requirements.

Utilities and Service Systems. The utilities and service systems section of the EIR/EIS will evaluate impacts on the existing water supply and wastewater treatment and distribution infrastructure, power, and solid waste collection and disposal from the proposed intensification of development on the project site compared to existing conditions. Mitigation measures (temporary and permanent) will be proposed, if needed.

ALTERNATIVES

The EIR/EIS will evaluate a range of alternatives to the proposed Boatworks at Lake Tahoe project in accordance with Section 15126.6 of the State CEQA Guidelines, the TRPA Rules of Procedure, and Section 3.7.2 of the TRPA Code. In accordance with Section 15126.6 of the State CEQA Guidelines, an EIR must "describe a range of reasonable alternatives to the project, or to the location of the project, which would feasibly attain most of the basic objectives of the project but would avoid or substantially lessen any of the significant effects of the project and evaluate the comparative merits of the alternatives." As required by CEQA, the EIR/EIS will evaluate a No Project Alternative.

Aside from the No Project Alternative, the County and TRPA have not yet determined the additional action alternatives to the project to be evaluated in the EIR/EIS. However, the EIR/EIS will consider up to two additional action alternatives to the proposed project in addition to the No Project Alternative. One of the action alternatives would likely reduce the height of the proposed project by one floor while retaining as many of the project's proposed units and uses as possible. The second action alternative would likely reduce the density of the proposed redevelopment of the project site, reconfigure the proposed mix of uses, and incorporate a shared site access driveway with the Tahoe City Marina.

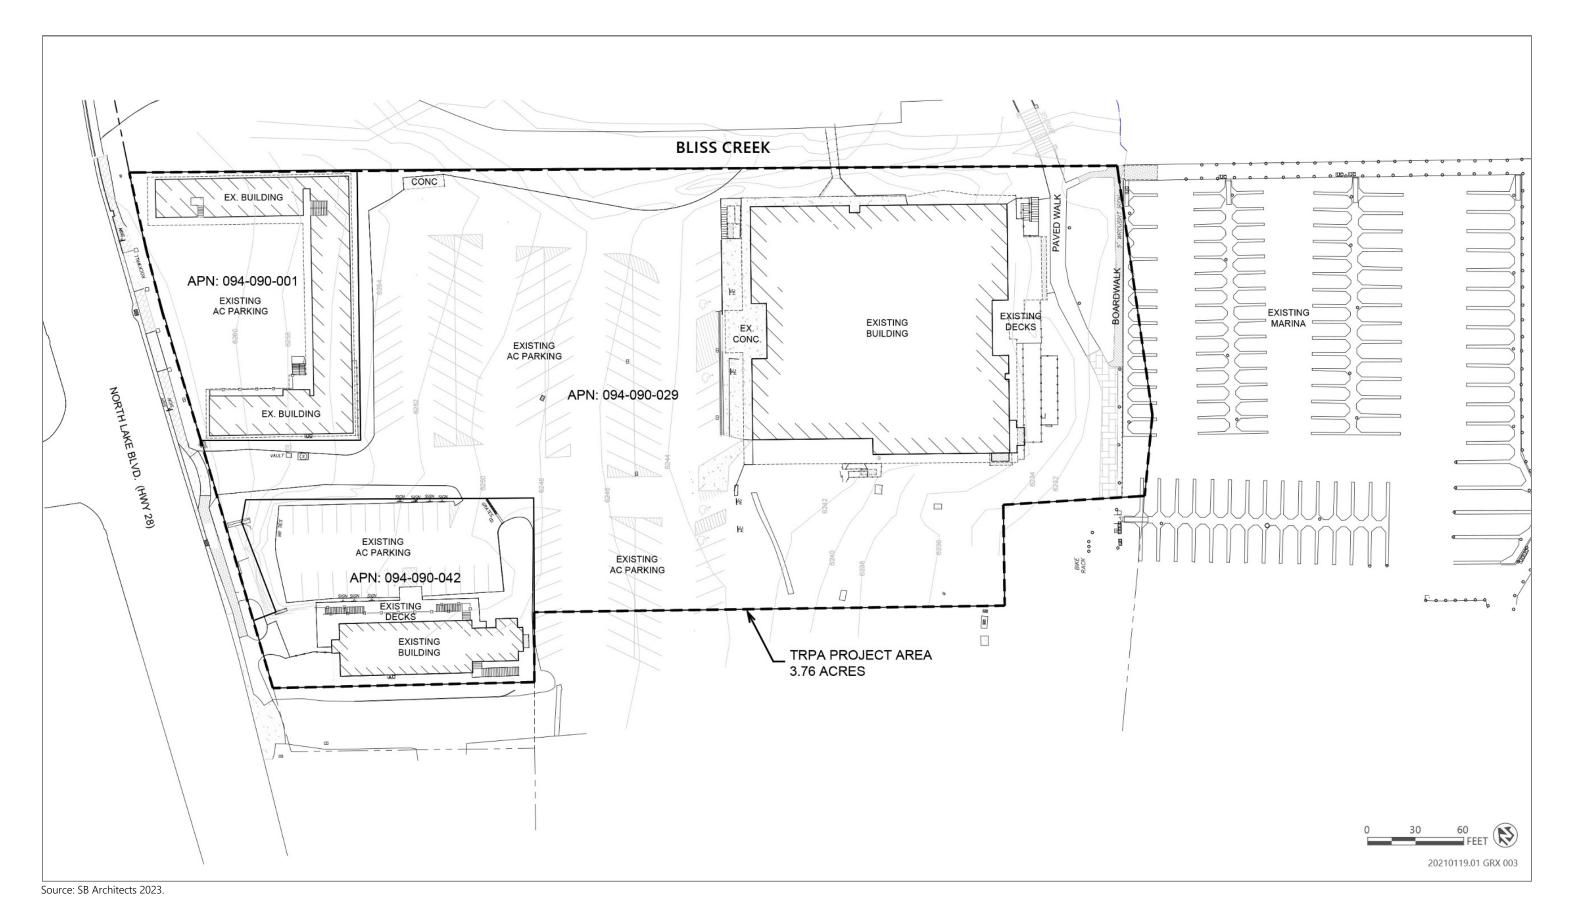

Comments pertaining to alternatives that should be considered in the EIR/EIS are invited. Once the alternatives are identified, the impacts of the alternatives will be analyzed relative to the proposed project, consistent with the requirements of CEQA, the TRPA Rules of Procedure, and TRPA Code.

STAFF REPORT

Date: February 21, 2024

To: TMPO Governing Board

From: TRPA Staff

Subject: Adoption of the 2023 Federal Transportation Improvement Program Amendment 7

Summary and Staff Recommendation:

Staff recommends adoption of the 2023 Federal Transportation Improvement Program (FTIP) Amendment No. 7 as presented.

Required Motion:

In order to adopt the proposed resolution, the Board must make the following motion(s), based on the staff report:

A motion to adopt Resolution 2024-__ as set forth in Attachment A

In order for motion to pass, an affirmative vote of any eight Board members is required.

<u>Tahoe Transportation Commission Recommendation:</u>

On February 07, 2024, the Tahoe Transportation Commission recommended approval of the 2023 FTIP Amendment No. 7 to the Tahoe Metropolitan Planning Organization (TMPO) Governing Board.

Project Description/Background:

Tahoe Regional Planning Agency (TRPA), in its role as the TMPO, prepares and adopts a Transportation Improvement Program (TIP) at least every two years, including a California TIP (FTIP includes all projects) and Nevada TIP (includes only projects in the state). The 2023 FTIP is a four-year financially constrained list of transportation projects that are reasonably expected to be funded between federal fiscal years 2023 and 2026. Any transportation project receiving federal funds, considered regionally significant, or requiring a federal action must be included in the document. Projects must also be consistent with and included in the adopted Regional Transportation Plan. An amendment is a revision to the FTIP that involves a major change to a project. This may include the addition or deletion of a project, a change in project cost greater than 50 percent of the total project cost, or a change in project scope. Amendment No. 7 adds an additional project; Corridor Coordination to the 2023 Federal Transportation Improvement Program. See Exhibit 1 to Attachment A.

The Tahoe Transportation District has requested to add the Corridor Coordination project to the 2023 FTIP. The Corridor Coordination program proposes support for corridor implementation across multiple jurisdictions, land management agencies, and stakeholders to streamline the delivery process of corridor-based projects. It will provide support for coordinating necessary project agreements, MOU's,

financing and funding, planning, design, implementation, and post construction operations and maintenance activities. This coordination effort will result in project delivery.

The project budget is \$120,000 annually for five years totaling \$600,000. Current funding is through Nevada's Surface Transportation Block Grant (STBG) and will go towards supporting the implementation of the SR28 Central Corridor for the first three years. Additional future funds will need to be sought out to support additional corridor coordination in future years. The following shows the FTIP programming details.

Corridor Coordination (CTIPS ID 220-0000-0174)

- Implementing Agency: Tahoe Transportation District (TTD)
- Description: Project will support corridor coordination of multiple jurisdictions, land management agencies, and stakeholders for corridor-based projects along SR28, SR89, and US50. Estimated Project Cost \$600,000. Completion Year 2029.
- Funding: FFY 2024 Nevada STBG \$300,000 and TTD General Fund \$16,000

Performance Measures:

The 2012 federal transportation authorization legislation, 'Moving Ahead for Progress in the 21st Century' (MAP-21) established new requirements for Metropolitan Planning Organizations (MPOs) around performance management and reporting to ensure the most efficient investment of federal transportation funds. The most recent federal transportation legislative package, the Infrastructure Investment and Jobs Act of 2021 (IIJA), carries forward these performance-based planning requirements.

To incorporate the federal performance requirements into the FTIP, the MPO is required to show that the FTIP makes progress towards achieving the region's federal performance targets. The federal performance measures have been a part of the Regional Transportation Plan since 2017, incorporated into goals, policies and planning documents. The federal performance measures defined by the Federal Highway Administration are categorized into three performance management (PM) focus areas; PM1 - Transportation Safety, PM2 - National Highway System (NHS) Pavement and Bridge Condition and PM3 - NHS Performance, Interstate System Freight Movement and Congestion Mitigation and Air Quality Program. These performance targets will be achieved through the implementation of investment priorities, through the programming of transportation projects in the 2023 FTIP, this amendment, and subsequent FTIP amendments and administrative modifications.

The Corridor Coordination will support the implementation of corridor projects supporting PM1, Transportation Safety for all users and aligned RTP Goal increasing safety and security for all users. The corridor projects will improve roadway conditions and help alleviate conflicts that occur between pedestrians and vehicles on the roadways and with the vehicles parking versus those traveling through. Additionally, adding parking management, transit, and bicycle and pedestrian improvements to provide safer crossings and travel space for pedestrians and bicyclists.

Public Comment:

Amendment No. 7 was released on January 31, 2024 for a seven (7) day public comment period as required by the TMPO Public Participation Plan. The item was opened for public comment at the February 07, 2024 Tahoe Transportation Commission Board meeting. No comments were received.

Contact Information:

For questions regarding this agenda item, please contact Judy Weber, Associate Transportation Planner, at (775) 589-5203 or jweber@trpa.gov.

To submit a written public comment, email publiccomment@trpa.gov with the appropriate agenda item in the subject line. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting.

Attachment A TMPO Resolution No. 2024- ____

TAHOE METROPOLITAN PLANNING ORGANIZATION TMPO RESOLUTION NO. 2024 -

ADOPTION OF AMENDMENT No. 7 TO THE TMPO 2023 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Tahoe Metropolitan Planning Organization (TMPO) is the designated metropolitan planning organization for the Lake Tahoe Region as defined by the Transportation Equity Act for the 21st Century; and

WHEREAS, the 2023 TMPO Federal Transportation Improvement Program (FTIP) has been developed in accordance with the Infrastructure Investment and Jobs Act (IIJA) and 23 CFR 450; and

WHEREAS, the 2020 Regional Transportation Plan for the Lake Tahoe Region describes a transportation system envisioned for the horizon years and was adopted as a financially constrained plan by the TMPO Board on April 28, 2021; and

WHEREAS, the 2023 FTIP is consistent with the transportation system and financial plan described in the current Regional Transportation Plan; and

WHEREAS, the 2023 FTIP is financially constrained by year and includes a financial plan that demonstrates which projects can be implemented using committed funds; and

WHEREAS, the 2023 FTIP includes all regionally significant transportation projects to be funded from local, state, or federal resources; and

WHEREAS, the 2023 FTIP has been developed under TMPO policies for community input and interagency consultation procedures; and

WHEREAS, during the life of the program, it is sometimes necessary to amend the program to reflect changes in project costs, scopes, or schedules, or to add new projects; and

WHEREAS, the 2023 FTIP is now in need of amendment; and

WHEREAS, the 2023 FTIP Amendment No. 7 adds a new project; Corridor Coordination that meets all applicable transportation planning requirements per 23 Code of Federal Regulations Part 450: and

WHEREAS, on February 07, 2024 the Tahoe Transportation Commission recommended the TMPO Governing Board adopt the 2023 FTIP Amendment No. 7.

NOW, THEREFORE, BE IT RESOLVED, that the Governing Board of the Tahoe Metropolitan Planning Organization adopts this resolution approving the 2023 FTIP Amendment No. 7 as described in Exhibit 1 hereto.

BE IT FURTHER RESOLVED, that TMPO staff is hereby directed and authorized to work with California Department of Transportation, the Nevada Department of Transportation, the Federal Highway Administration, and the Federal Transit Administration to make whatever technical changes or corrections are needed to the format and organization of the document to obtain its approval by these agencies.

PASSED AND ADOPTED by the Governing Board Wednesday, February 28, 2024 by the following	of the Tahoe Metropolitan Planning Organization this vote:
Ayes:	
Nays:	
Absent:	
	Cindy Gustafson, Chair

NOTICE OF SEVEN (7) DAY PUBLIC COMMENT PERIOD

2023 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM Amendment No. 7

This announcement is being initiated as required by the Tahoe Metropolitan Planning Organization's Public Participation Plan to provide public notification of changes that have been proposed to the 2023 Federal Transportation Improvement Program (FTIP). The public comment period commences on January 31, 2024 and closes February 7, 2024 at 5:00 p.m. A public hearing will be held on February 7, 2024 at the Tahoe Transportation Commission meeting prior to the close of the comment period.

Amendment No. 7 document is available upon request or can be accessed online at: https://www.trpa.gov/transportation/

Please submit comments to:

Amendment No. 7 programs an additional project into the 2023 Federal Transportation Improvement Program.

Tahoe Transportation District (TTD): <u>Corridor Coordination</u>
 This project proposes support for corridor coordination across multi-jurisdictional and land management project stakeholders for corridor-based projects located on SR28, SR89, and US50. Short-term funds will go towards supporting the implementation of the SR28 Central Corridor projects. Total Project Cost \$600,000. Completion Year 2029.

Please direct any questions regarding this notice to Judy Weber at (775) 589-5203.

STAFF REPORT

Date: February 21, 2024

To: TRPA Governing Board

From: TRPA Staff

Subject: A Public Hearing to Consider Approval of Economic Sustainability and Housing Amendments

to Placer County's Tahoe Basin Area Plan

Summary and Staff Recommendation:

Placer County will provide an overview of the proposed amendments to the Tahoe Basin Area Plan (TBAP). Staff find that the proposed amendments conform with the Regional Plan and will have no significant environmental impact beyond the impact already analyzed and mitigated in the 2016 TBAP EIR/EIS. Staff seeks Governing Board discussion and asks the Governing Board to consider approval of the proposed area plan amendment with the TRPA-recommended text changes detailed in Exhibit A to this staff report.

Required Motions:

To adopt the proposed amendments to the Tahoe Basin Area Plan, the Board must make the following motions:

- A motion to approve the Required Findings, as described in Attachment D, including a Finding of No Significant Effect, for adoption of the Area Plan amendment as described in the staff summary; and
- A motion to adopt Ordinance 2024-___, amending Ordinance 2021-02, to amend the Tahoe Basin Area Plan as shown in Attachment C and including the changes detailed in Exhibit A to the staff report.

An affirmative vote of a majority of each state's delegation is required for a motion to pass.

Project Description/Background:

Since the 2012 Regional Plan Update, TRPA has encouraged local jurisdictions to develop area plans to replace the former local planning documents: plan area statements and community plans. Area plans are collaborative documents which become a component of both the Regional Plan and the city or county's comprehensive plan. They represent a paradigm shift for TRPA since they enable TRPA to transition its focus to regional issues while allowing local jurisdictions greater autonomy to define and manage their own local land use.

The TRPA Governing Board approved the TBAP on January 25, 2017. The plan encompasses Placer County's entire jurisdiction in the Tahoe Basin. The plan includes two town center districts to accommodate mixed-use and higher density development in the area: the Tahoe City and Kings Beach

Town Center Districts. The proposed TBAP amendments focus on specific changes to facilitate appropriate development and redevelopment in these town center districts along with standards and policies applying across the plan area.

Placer County's proposed amendment package is intended to provide a systematic approach to encouraging desired investment (i.e., environmentally and economically beneficial redevelopment and affordable workforce housing) to the Tahoe portion of Placer County by analyzing and adaptively managing the Area Plan's goals and policies and implementing regulations. The following key studies completed between 2019 and 2022 and a robust stakeholder engagement process serve as the basis for this proposed amendment package:

- <u>Tahoe Basin Town Center Economic Sustainability Needs Analysis</u> (2019)
- Placer County Tahoe Basin Town Center Economic Sustainability Analysis (2020)
- Baseline Report for the Tahoe Basin (2021)
- Community Report for the Tahoe Region (2022)
- Envision Tahoe Prosperity Playbook (2022)

Placer County is proposing a comprehensive package of amendments to TBAP policies and implementing regulations based on the studies listed above and stakeholder engagement.

Proposed Policy Amendments:

- Sustainable town center redevelopment and protection of scenic resources
- Expanded hardening, green waste, and defensible space incentives
- High-speed broadband and childcare facilities to meet the needs of local workers
- Allocation and conversion of TRPA development rights to maximize community benefit
- Frontage improvements including, sidewalks, curb, gutters, and parking management
- Development of mixed-use, business park, and light industrial space in town centers
- Public art by local artists
- Adaptive reuse of underutilized properties
- Development of affordable, moderate, and achievable housing

Proposed Implementing Regulation Amendments (presented below in categories and in more detail within Attachment C):

- Mobile vending
- Streamlined permitting for uses within a defined maximum square footage
- Building length and height
- Groundwater interception
- Parking exemptions
- Setbacks, articulation, massing, and parking requirements for deed-restricted housing
- Incentives for affordable housing
- Inclusionary zoning for new condominium subdivisions in Town Centers
- Street frontage improvements
- Signs
- Shorezone permitting
- Other miscellaneous cleanup

Placer County staff have held workshops with the Placer County Planning Commission, North Lake Tahoe Resort Association, North Tahoe Business Association, and Tahoe City Downtown Association to refine this amendment package. The proposed amendments were presented to the Placer County Planning Commission on August 10, 2023. An ordinance adopting the amendments was approved by the Placer County Board of Supervisors on October 31, 2023 (Attachment A). The Advisory Planning Commission (APC) unanimously recommended adoption of the amendments at their December 6, 2023, meeting and the Regional Planning Committee recommended adoption on January 24, 2024. County staff provided a detailed summary of the proposed amendments included as Attachment B to this packet. Additionally, County staff provided a status report on the implementation of the TBAP (Attachment K) and a detailed response to public comments (Attachment M).

Environmental Review:

Placer County submitted an Initial Environmental Checklist (IEC) pursuant to Chapter 3: Environmental Documentation of the TRPA Code of Ordinances and Article VI of the Rules of Procedure (Attachment E). TRPA staff completed a review of the IEC and submitted revisions to Placer County staff. The IEC finds that the proposed amendments would not result in significant effects on the environment.

Regional Plan Compliance:

TRPA staff completed a Regional Plan Conformance Review Checklist (Attachment F) and determined that the proposed amendment is in conformance with the Regional Plan. Recommendations of the APC and RPC will be considered by the Governing Board in determining whether to find the Area Plan amendment in compliance with the Regional Plan.

Contact Information:

For questions regarding this agenda item, please contact Jacob Stock, AICP, Senior Planner, at (775) 589-5221 or jstock@trpa.gov.

THE FOREGOING INSTRUMENT IS A CORRECT COPY OF THE ORIGINAL ON FILE IN THIS OFFICE ATTEST

MEGAN WOOD

Clerk of the Board of Supervisors, County

of Placer, State of California

Signed and approved by me after its passage.

Chairperson, Board of Supervisors

Clark et daid Board

WHEREAS, the Tahoe Basin Area Plan and Implementing Regulations (TBAP) were adopted by the Placer County Board of Supervisors on December 6, 2016, and by the Tahoe Regional Planning Agency on January 25, 2017; and

WHEREAS, the TBAP was amended by the Board of Supervisors on December 15, 2020, to further support workforce housing needs in the Tahoe Basin; and

WHEREAS, in 2019, the County contracted with BAE Urban Economics, Inc. to prepare the Placer County Tahoe Basin Town Center Economic Sustainability Needs Analysis to identify the causal forces and the financial feasibility needs/gaps behind the lack of private investment, and to

identify potential local government regulatory updates and incentives that could be tailored to attract environmentally and economically beneficial re-investment in the County's Tahoe Basin Town Centers; and

WHEREAS, the amendments to the TBAP are in response to the Placer County Tahoe Basin Town Center Economic Sustainability Needs Analysis, which recommended process, policy, and code improvements to facilitate development, scale back requirements, and better understand and alleviate constraints and challenges in the development process, including zoning and building requirements and fees, collaborating with TRPA, updating parking standards and creating parking districts, and increasing workforce housing allowances; and

WHEREAS, the Tahoe Prosperity Center prepared and released several reports documenting the economics of the Tahoe Basin from Fall 2021 to Summer 2022: the Baseline Report for the Tahoe Basin in September 2021, the Community Report for the Tahoe Region in March 2022, and the Envision Tahoe Prosperity Playbook in June 2022; and

WHEREAS, the amendments to the TBAP respond to the Tahoe Prosperity Center's reports, which include action goals and tactical approaches aimed at improving the economic viability of the Tahoe Basin; and

WHEREAS, the amendments to the TBAP aim to further implement existing policies aimed at supporting additional housing at affordable price levels, construction of workforce housing, and providing assistance for economic development and environmental redevelopment, including the following:

Policy SE-P-3 Opportunities for economic development outside Town Centers should be pursued in a manner consistent with the Regional Plan.

Policy SE-P-4 Whenever feasible, Placer County should provide assistance to property owners seeking to complete projects on priority redevelopment sites through public-private partnerships and other forms of assistance.

Policy SE-P-5 Placer County supports efforts to promote environmental redevelopment in mixed use areas within and outside Town Centers, including the Village Centers identified in this Area Plan.

Policy SE-P-6 Continue efforts to address the existing job-housing imbalance and provide additional housing at affordable price levels should be pursued.

Policy HS-P-6 Pursue TRPA-Certified Local Governing Moderate-Income Housing Programs pursuant to Sections, 52.3.4 and 52.3.6 of the TRPA Code of Ordinances to provide additional opportunities for deed-restricted affordable and moderate income housing.

Policy HS-P-7 Evaluate housing needs in the region in coordination with TRPA. Consistent with Regional Plan Housing Policy HS-3.1, update TRPA policies and ordinances as necessary to achieve state, local and regional housing goals. Future housing efforts should seek to remove identified barriers preventing the construction of necessary affordable housing in the region including, but not limited to, workforce and moderate-income housing, secondary residential units and long-term residency in motel units.

WHEREAS, the Board further finds that the amendments to the TBAP are consistent with the applicable requirements of State law, and are in compliance with the provisions of the General Plan, including but not limited to the following:

- ➤ Policy 1.B.2. The County shall encourage the concentration of multi-family housing in and near downtowns, village centers, major commercial areas, and neighborhood commercial centers.
- > Policy A-4. The County shall encourage mixed-use and transit-oriented development projects where housing is provided in conjunction with compatible non-residential uses.
- > Policy A-7. The County shall encourage the development of multi-family dwellings in locations where adequate infrastructure and public services are available.
- ➤ Policy B-7. The County shall facilitate expanded housing opportunities that are affordable to the workforce of Placer County.
- ➤ Policy H-1. The County shall promote housing opportunities for all persons regardless of race, religion, color, ancestry, national origin, sex, disability, family status, income, sexual orientation, or other barriers that prevent choice in housing.

WHEREAS, the amendments to the TBAP include revisions intended to further support workforce housing needs in the Tahoe Basin and to encourage environmentally beneficial redevelopment in Town Centers; and

WHEREAS, the work program for the amendments to the TBAP involved public outreach that included multiple public meetings, including two information presentations and one action item presentation to the Placer County - North Tahoe Regional Advisory Committee, a Planning Commission workshop, presentations before the North Tahoe Community Alliance (formerly known as the North Tahoe Resort Association), the Tahoe City Downtown Association, and the North Tahoe Business Association; and

WHEREAS, an addendum to the Placer County Tahoe Basin Area Plan and Tahoe City Lodge Project Environmental Impact Statement/Environmental Impact Report (Area Plan EIR) (certified and adopted by the Placer County Board of Supervisors on December 6, 2016, California State Clearinghouse #2014072039; and adopted by the Tahoe Regional Planning Agency (TRPA) on January 25, 2017), was prepared pursuant to CEQA Guidelines Section 15164 and Placer County Environmental Review Ordinance Section 18.20.110, and was adopted by the Board on

WHEREAS, on August 10, 2023, the Planning Commission held a noticed public hearing pursuant to Placer County Code Chapter 17, Article 17.58, Section 17.58.200(E)(1) and Article 17.60, Section 17.60.140 to consider the amendments to the TBAP, and pursuant to Placer County Code Chapter 17, Article 17.60, Section 17.60.090(C), the Planning Commission has made recommendations to the Board related thereto; and

WHEREAS, notice of a public hearing was given in compliance with Placer County Code Chapter 17, Article 17.60, Section 17.60.140, and on _______, the Board held the duly noticed public hearing pursuant to Placer County Code Chapter 17, Article 17.60, Section 17.60.090(D) to consider the recommendations of the Planning Commission and to receive public input regarding the amendments to the TBAP; and

WHEREAS, the Board finds the amendments to the TBAP will serve to protect and enhance the health, safety, and general welfare of the communities within the Tahoe Basin portion of Placer County and the County as a whole; and

WHEREAS, notice of all hearings required has been given and all hearings have been held as required by County ordinance and State law.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE COUNTY OF PLACER that the Tahoe Basin Area Plan is hereby repealed in its entirety and replaced with the Tahoe Basin Area Plan as set forth in Exhibit 1.

BE IT FURTHER RESOLVED that this resolution shall take effect and be in full force upon the effective date of the Ordinance to repeal and replace the Tahoe Basin Area Plan Implementing Regulations.

EXHIBIT 1

Placer County Tahoe Basin Area Plan

WHEREAS, an addendum to the Placer County Tahoe Basin Area Plan and Tahoe City Lodge Project Environmental Impact Statement/Environmental Impact Report (Area Plan EIR) (certified and adopted by the Placer County Board of Supervisors on December 6, 2016, California State Clearinghouse #2014072039; and adopted by the Tahoe Regional Planning Agency (TRPA) on January 25, 2017), was prepared pursuant to CEQA Guidelines Section 15164 and Placer County Environmental Review Ordinance Section 18.20.110, and was adopted by the Board on

WHEREAS, on August 10, 2023, the Planning Commission held a noticed public hearing pursuant to Placer County Code Chapter 17, Article 17.58, Section 17.58.200(E)(1) and Article 17.60, Section 17.60.140 to consider the amendments to the TBAP Implementing Regulations, and pursuant to Placer County Code Chapter 17, Article 17.60, Section 17.60.090(C), the Planning Commission has made recommendations to the Board related thereto; and

WHEREAS, notice of a public hearing was given in compliance with Placer County Code Chapter 17, Article 17.60, Section 17.60.140, and on _______, the Board held the duly noticed public hearing pursuant to Placer County Code Chapter 17, Article 17.60, Section 17.60.090(D) to consider the recommendations of the Planning Commission and to receive public input regarding the amendments to the TBAP Implementing Regulations; and

WHEREAS, the Board finds the amendments to the TBAP Implementing Regulations will serve to protect and enhance the health, safety, and general welfare of the communities within the Tahoe Basin portion of Placer County and the County as a whole; and

WHEREAS, notice of all hearings required has been given and all hearings have been held as required by County ordinance and State law.

NOW, THEREFORE, THE BOARD OF SUPERVISORS OF THE COUNTY OF PLACER ORDAINS AS FOLLOWS:

Section 1: The Placer County Tahoe Basin Area Plan Implementing Regulations are hereby repealed in its entirety and replaced with the Tahoe Basin Area Plan Implementing Regulations as set forth in Exhibit 1.

Section 2: This ordinance shall take effect and be in full force thirty (30) days after the date of its passage. The Clerk is directed to publish this ordinance, or a summary thereof, within fifteen (15) days in accordance with Government Code section 25124.

Signed and approved by me after its passage.

ard of Supervisors

WHEREAS, the Tahoe Basin Area Plan and Implementing Regulations (TBAP) were adopted by the Placer County Board of Supervisors on December 6, 2016, and by the Tahoe Regional Planning Agency on January 25, 2017; and

WHEREAS, Placer County Code, Chapter 12, Article 12.08, "Street Improvements," identifies where street frontage and access improvements are required countywide, describes county review and approval processes, and restricts building permit issuance until requirements are met; and

WHEREAS, Section 12.08.020 describes where street improvements are required, and subdivision (A) identifies old zoning designations that are no longer in use and need to be updated to reflect current community and area plan zoning areas, including the TBAP; and

WHEREAS, an amendment to Section 12.08.020 is sought to remove outdated zoning area references, clarify where Countywide street improvements are required, and to add single-family detached dwellings as subject to street improvement requirements to align with Tahoe Basin Area Plan pedestrian mobility goals; and

WHEREAS, an addendum to the Placer County Tahoe Basin Area Plan and Tahoe City Lodge Project Environmental Impact Statement/Environmental Impact Report (Area Plan EIR) (certified and adopted by the Placer County Board of Supervisors on December 6, 2016, California State Clearinghouse #2014072039; and adopted by the Tahoe Regional Planning Agency (TRPA) on January 25, 2017), was prepared pursuant to CEQA Guidelines Section 15164 and Placer County Environmental Review Ordinance Section 18.20.110, and under PRC Section 21080.17 and CEQA Guidelines Section 15282 subsection (h), CEQA does not apply to the adoption of an ordinance by a city or county to implement the provisions of Section 65852.2 of the Government Code (the state accessory dwelling unit law); and

WHEREAS, the Board finds the proposed Ordinance containing an amendment to Placer County Code Chapter 12, Article 12.08, Section 12.08.020 will serve to protect and enhance the health, safety, and general welfare of the communities within the Tahoe Basin portion of Placer County and the county as a whole; and

WHEREAS, notice of all hearings required has been given and all hearings have been held as required by County ordinance and State law.

NOW, THEREFORE, THE BOARD OF SUPERVISORS OF THE COUNTY OF PLACER ORDAINS AS FOLLOWS:

Section 1: Placer County Code, Chapter 12, Article 12.08, Section 12.08.020 is amended as follows:

12.08.020 Improvements required.

A. Street improvements shall not be required for-in areas that allow for commercial, industrial, business park, office and professional, highway service, motel, resort, airport, multi-family, and mixed use. sSingle-family residential detached dwellings are excluded except within the Tahoe Basin Area Plan zoning districts where street improvements are specifically required but shall be required in the following zoned areas: R-2, R-3, C-1, C-2, C-1 and 2, C-3, C-4, M, M-P, S-C, APT and HS, whether or not combined with any other district.

Section 2: This ordinance shall take effect and be in full force thirty (30) days after the date of its passage. The Clerk is directed to publish this ordinance, or a summary thereof, within fifteen (15) days in accordance with Government Code Section 25124.

Attachment B Placer County Staff Report

TO: TRPA Governing Board DATE: February 28, 2024

FROM: Crystal Jacobsen, Acting Community Development Resource Agency Director

BY: Emily Setzer, Principal Planner and Stacy Wydra, Principal Planner

SUBJECT: Tahoe Basin Area Plan – Economic Sustainability and Housing Amendments

ACTIONS REQUESTED

1. Conduct a public hearing to consider the following items:

- a. Recommendation to adopt the Addendum and the Errata to the Tahoe Basin Area Plan Environmental Impact Report.
- b. Recommendation to adopt a Resolution approving amendments to the Tahoe Basin Area Plan policy document.
- c. Recommendation to adopt an Ordinance amending the Tahoe Basin Area Plan implementing regulations.
- d. Recommendation to adopt an Ordinance amending Placer County Code, Chapter 12, Article 12.08, Section 12.08.020(A).
- 2. Close the public hearing, take tentative action on the above and continue the item to October 31, 2023 at 2:00pm for final action.

BACKGROUND

Planning Services Division staff proposes changes to the Placer County Tahoe Basin Area Plan (TBAP) to promote economic sustainability and production of new housing. Staff recommends that the Board of Supervisors (Board) consider adoption of a Resolution and Ordinance to repeal and replace the TBAP in its entirety and adoption of an Ordinance amending Placer County Code Chapter 12, Article 12.08, Section 12.08.020(A) to remove outdated zoning area references, clarify where countywide street improvements are required, and to add single-family detached dwellings as subject to street improvement requirements to align with TBAP pedestrian mobility goals. The proposed replacement of the TBAP would amend Parts 2.6, 2.7, 3.4, 3.5, 4.3, 4.7 and 8.2 of the TBAP, and Chapters 1, 2, and 3 of the TBAP Implementing Regulations to refine policy and code sections aimed at supporting workforce housing, as well as encouraging lodging and mixed-use redevelopment in Town Centers. The amendment package focuses on diversifying land uses across a variety of sectors, streamlining land use processes and reducing barriers for new businesses in the Town Centers, and providing additional opportunities for a greater variety of housing types, including workforce housing, throughout North Tahoe.

Tahoe Basin Area Plan

As stated, the TBAP was originally adopted by the Board on December 6, 2016, and by the Tahoe Regional Planning Agency (TRPA) Governing Board on January 25, 2017. The TBAP replaced all previous community plans, general plans, land use regulations, development standards and guidelines, and Plan Area Statements within the Tahoe Basin. The TBAP includes both a Policy document and an Implementing Regulations document, which serves as the zoning code for the Tahoe Basin.

Area plans are a central part of the TRPA Lake Tahoe Regional Plan and an important strategy to accelerate attainment of TRPA environmental thresholds. The TBAP sets forth the regulations that implement the Lake Tahoe Regional Plan in the Placer County portion of the Lake Tahoe region. Since adoption of the TBAP, the State of California has passed housing legislation in each legislative session that limits the ability of local governments to regulate housing development. State Housing laws have sought to reduce and limit local permitting processes, moving toward a ministerial approval model for housing in an effort to reduce barriers to housing production. The State laws obligate local government to undertake updates in their housing plans and plan for growth, among other requirements. Also, since the TBAP adoption, multiple efforts have been underway to address the lack of redevelopment and revitalization of the Town Centers and Village Centers.

Purpose of Proposed Amendments

The proposed TBAP amendments are targeted at economic development and housing in response to 1) a lack of new development/redevelopment, particularly lodging, in the Town Centers, 2) a lack of workforce housing, and 3) a decreasing population.

Although North Tahoe has undergone significant public infrastructure investment and community and governing body approval of comprehensive plans and visions for the future, the Tahoe City and Kings Beach Town Centers have yet to see significant private sector investment resulting in projects in the ground. A few sizable, proposed redevelopment projects in the Town Centers have been proposed in the past year and are in the planning stages; however, even those projects are struggling to meet various onerous existing TBAP development standards.

Due to the lack of high-quality lodging in the Town Centers, lodging has shifted to the neighborhoods in the form of short-term rentals. This, in combination with second homes, has drastically decreased the availability of workforce housing. The North Tahoe region has seen very few new multifamily workforce or "missing middle" housing projects, defined as house-scale buildings with multiple units in walkable environments, often targeted at those who earn above the typical 60 percent Area Median Income limits deemed as "affordable" but still can't afford to purchase homes in the region.

East Placer currently has approximately 19,000 residential units, 12 percent of which are owner-occupied fulltime, 15 percent are used as short-term rentals, while the remaining 73 percent sit mostly vacant as private vacation homes/second homes, some of which are used as long-term rentals. The North Tahoe-Truckee Regional Housing Implementation Plan prepared for the Mountain Housing Council in October 2021 estimated that about one third of North Tahoe and Truckee's housing was used for workforce housing, which combines housing used as long-term rentals and housing owned and occupied by local workers.

In addition, the 2020 American Community Survey five-year estimates predict that only eight percent of the housing units in the Tahoe Truckee Unified School District geographical boundary (which covers North Tahoe and Truckee) are renter-occupied. The lack of housing options has led to a decrease in population. In the Placer County portion of the Tahoe Basin, the population decreased by 2,000 residents between 2000 and 2020. This lack of year-round economic stability has made it challenging for businesses to thrive.

Since adoption of the TBAP, a variety of studies have been released that connect the regional economic base with workforce housing needs in the Tahoe-Truckee region. Two of these studies, the Placer County Tahoe Basin Town Center Economic Sustainability Needs Analysis (Attachment I) conducted by Placer County and BAE Urban Economics, Inc. (BAE) in 2019, as well as a series

of economic reports collectively called "Envision Tahoe" released by the Tahoe Prosperity Center (Attachment H), are included with this report package and further discussed below.

Additionally, many community groups have commented about the desire for quality hotels in the Town Centers, ways to make the approval process for small business start-ups more simplified, and the overwhelming demand for workforce housing. These groups include the North Lake Tahoe Resort Association, the North Tahoe Business Association, the Tahoe City Downtown Association, and the Mountain Housing Council. The overall theme has centered around shifting lodging from short-term rentals in residential neighborhoods to quality hotels in Town Centers, creating vibrant Town Centers with a unique sense of place, and the need for a variety of workforce housing units.

Placer County Tahoe Basin Town Center Economic Sustainability Needs Analysis In 2019, the Placer County Executive Office (CEO) contracted with a real estate advisory consulting firm BAE Urban Economics to identify the causal forces and the financial feasibility needs/gaps behind the lack of private sector investment, and to identify potential local government regulatory updates and incentives that could be tailored and utilized to attract environmentally and economically beneficial re-investment in the Town Centers. BAE was also asked to develop recommendations to address a number of issues identified in the analysis. The results of BAE's analysis were incorporated into the Placer County Tahoe Basin Town Center Economic Sustainability Analysis, finalized in March 2020. The analysis examined four prototypes of projects that had been trending or which the County would prefer to see built:

- 1. Mixed-Use Residential
- 2. For-Sale Residential Condominium
- 3. Limited-Service Hotel
- 4. Full-Service Condotel

Based on a range of factors, the only prototype that proved within the range of market acceptable financial feasibility was the For-Sale Residential Condominium. It is important to note that while the TBAP allows this type of use in the Town Centers, area residents do not believe it is consistent with either the Kings Beach or Tahoe City vision documents, which preceded the TBAP. Barriers to investment in desired development types include:

- High construction material and labor costs
- High cost to meet parking requirements
- Utility costs
- Infeasible employee housing requirement
- Uncertain and prolonged entitlement and construction permitting process
- Complex and prescriptive regulatory requirements
- Detailed and expensive plan sets required for pre-entitlement
- Vehicle miles traveled (VMT) thresholds
- Town Center incentives not designed for smaller infill projects
- Lack of catalyst, proof of concept, projects
- Lack of available parcels large enough for development
- Anticipated developer and lender caution about a real estate market dip

The report's recommendations were built around four broad findings outlined in the document:

- 1. High Cost of Development
- Uncertainty, Risk and Indirect Costs Associated with a Complex Entitlement and Permitting Process
- 3. Complex and Prescriptive Requirements Hinder Project Feasibility
- 4. Local Conditions Create Perception of Increased Risk

Staff recommended a multi-pronged approach in moving forward with the concepts proposed in the BAE study including the following:

- 1. Updates to the North Lake Tahoe Economic Incentives Program to include a Transient Occupancy Tax (TOT) incentive program, addition of TRPA development rights, and an enhanced infrastructure finance district.
- Process, policy, and code improvements to facilitate development, scale back requirements, and better understand and alleviate constraints and challenges in the development process, including zoning and building requirements and fees, collaborating with TRPA, updating parking standards and creating parking districts, and increasing workforce housing allowances.
- 3. Relaxing workforce housing mitigation and allocate funding to implement programs to attract and retain permanent residents.

Since that time, staff has made significant strides towards implementing the improvements outlined in the study including:

- CEO staff updated the North Lake Tahoe Economic Incentives Program (Incentives Program) in June 2022.
- CDRA and CEO staff are coordinating on amendments to the Incentives Program to include an allocation and priority process for distribution of TRPA development rights.
- CDRA staff is evaluating the creation of Enhanced Infrastructure Finance Districts, particularly for the Kings Beach "Grid" neighborhood, to complete frontage improvements such as sidewalks.
- CDRA staff brought forward programs such as the Workforce Housing Preservation Program (adopted by the Board on February 26, 2021, and launched Summer 2021) and the Lease to Locals Program (adopted by the Board on July 26, 2022, and launched August 1, 2022) to facilitate down payment assistance while preserving housing for the workforce and to incentivize long-term rentals.
- CDRA staff also brought forward an updated Affordable Housing and Employee Accommodation Ordinance, adopted by the Board on October 27, 2020, and a fee, most recently approved on April 19, 2022.

Envision Tahoe

The Tahoe Prosperity Center prepared and released several reports documenting the economics of the Tahoe Basin from Fall 2021 to Summer 2022: the Baseline Report for the Tahoe Basin in September 2021, the Community Report for the Tahoe Region in March 2022, and the Envision

Tahoe Prosperity Playbook in June 2022. The three documents focused on a number of key findings for the Tahoe Basin as a whole:

• Population:

- Tahoe's 20-year population decline changed direction in 2019 and population growth accelerated in 2020 but is still lower than the population count in 2000.
- K-12 public school enrollment data shows an overall decline in student population over the past five years, including the pandemic years.
- The number of residents with advanced degrees has steadily increased over the past 10 years, suggesting a knowledgeable and skilled talent pool is available to be tapped in Tahoe to support existing and/or new businesses.

Housing Availability & Affordability:

- The total number of housing units increased in the Basin 1.35 percent from 2010 to 2020.
- The median average income in Tahoe is \$53,165 while real estate reports show the median home price in January 2022 has risen to \$950,000.

Economy:

- Tahoe's economic base has become more concentrated in a few areas since 2010. Three industry clusters (and the businesses that support them) contribute 95 percent of all economic output in the Tahoe Basin: visitor services, environmental innovation, and health and wellness. All three sectors experienced flat or declining job growth and economic output over the past 10 years.
- Visitor-related businesses increased from 40 percent to 62 percent of all economic activity in the Basin over the past 10 years, is subject to wide seasonal swings in employment, and is highly susceptible to disruption.
- Construction has seen a steady increase in jobs over the past 10 years. Since 2010, construction has grown by 57 percent to more than 4,000 jobs today, or 12 percent of the job base. Like tourism, construction is subject to boom and bust cycles driven by economic swings and available consumer spending.
- With the rise of economic, social, and environmental disruptions caused by climate change, pandemics, and rapid economic and technological shifts, the importance of economic diversification is rising as a central element in economic development planning at the regional, state, and national level.

The Envision Tahoe Prosperity Playbook focuses on four action goals and tactical approaches: *Action Goals:*

- 1. Strengthen key industries: Support tourism-related job shift to sectors such as health and wellness and environmental innovation.
- 2. Build skill pathways for upward mobility: Explore ways to build region-wide skills programs and curriculums.
- 3. Jump start the innovation system: Support entrepreneurship and local chambers and business associations to help launch new businesses.
- 4. Shape the enabling environment: Quantify the business and community advantages that could result from a well-coordinated branding and global marketing strategy focused on health, wellness, recreation and the outdoors, environmental innovation,

and the connections between them; and energize and scale up present conversations about improved public-private sector alignment and shared governance across the Tahoe-Truckee region.

Tactical Approaches:

- 1. Accelerate workforce housing in the Tahoe-Truckee region.
- 2. Improve and fund Tahoe transportation and mobility.

Outreach and Stakeholder Engagement

The proposed TBAP amendments have been informed from years of ongoing feedback from a variety of stakeholders and community groups in the region, including:

- North Tahoe Business Association Board and its Economic Vitality Committee
- Tahoe City Downtown and its Business Advocacy Committee
- North Tahoe Community Alliance
- Mountain Housing Council
- TRPA Living Working Group
- Applicants to the Community Development Resource Agency
- Planner feedback from customer interactions

Additionally, staff sought input from seven professionals from the Tahoe Basin business and development community, including designers/architects, small business owners, and developers, regarding their experiences bringing forward new business and/or development in the Town Centers and to formulate potential modifications. Staff met with those individuals from May to June in 2021 to better understand the factors that contribute to the lack of investment, development and/or redevelopment in the Town Centers and to gain a better understanding regarding their experiences related to the development and/or processing of a project within the Town Centers. Staff documented their feedback which included topics such as processing barriers, strict development standards and/or required site improvements, zoning restrictions, etc. The proposed amendments of the TBAP are intended to address as many of these topics as possible.

Staff also presented these amendments to the following groups to conduct outreach and seek feedback:

- Placer County Planning Commission informational workshop September 22, 2022
- North Lake Tahoe Resort Association October 5, 2022
- North Tahoe Regional Advisory Council informational item October 13, 2022
- North Tahoe Business Association October 17, 2022
- Tahoe City Downtown Association October 18, 2022
- North Tahoe Regional Advisory Council workshop November 9, 2022 (see summaries below)
- North Tahoe Regional Advisory Council action item November 30, 2022 (see summaries below)
- Planning Commission Hearing December 8, 2022 (see summary below)

- TRPA Regional Plan Implementation Committee informational workshop December 14, 2022
- TBAP Community Workshop March 9, 2023
- TBAP Town Hall Meeting August 1, 2023

North Tahoe Regional Advisory Council Meeting Overview

On October 13, 2022, and November 9, 2022, staff presented the proposed TBAP amendments as an informational item to the North Tahoe Regional Advisory Council (NTRAC). At the November 9, 2022, NTRAC meeting, 26 members of the public provided comments on the proposed amendments. Of the 26 members who spoke, 15 of them provided positive comments in support of the amendments proposed. Comments included support for frontage improvements, including addressing sidewalks; parking for both developments and enforcement (overflows into neighborhoods); concerns that density is increasing; address short term rentals impacts; fire impacts and evacuation; the need for walkability; the need for housing; the need for workforce housing and deed restrictions extended beyond 50 years; acknowledgement that these amendments target small businesses and the challenges that they face; concerns with the height amendments and exceptions; impact fees and hinderance to development - should consider different fees for difference projects/number of units; short term rentals impacting the neighborhoods; balance of environmental improvements and development; concerns with existing boarded-up buildings and difficulty for redevelopment of existing structures; provide incentives to make it easier to build smaller homes, more affordable; majority of housing inventory is large, second homes; consider utilizing campgrounds as alternative for housing opportunities (during the winter months); process is difficult and challenging; need to require workforce housing first; discourage more population; need to improve incentives; support for mixed-use development, tiny houses, community kitchens; need for RV parks year-round; exemptions of coverage need to be considered; concerns with mobile vendors and noise impacts; wealth and inequality is the bigger issue; concerns with environmental impacts to existing conditions; need to look at transportation issues; cannot continue to do nothing, need to make some changes.

The proposed TBAP amendments were brought forward for recommendation at the November 30, 2022, NTRAC meeting, where six of the eight NTRAC members voted in support of a recommendation of approval with a few considerations:

- Height: Remain at 56-FT with allowance of additional height for appurtenances and roof-top uses.
- Consider Transition Zones: Between Town Center and Adjoining Residential Zone Districts.
- Review of Fire Evacuation and Egresses Updates to the 2016 review.
- Efforts to support redevelopment over new development.
- Development Right Manual. Requested community input, develop a program, i.e., Stakeholder Working Group.

Planning Commission Overview and Modifications to the Proposal

On December 8, 2022, the Planning Commission considered the TBAP Amendment package. Due to substantial public comment received, the meeting largely focused on building height and length and perceived density increases. The Planning Commission voted (5 Yes, 0 No, 2 Absent) to continue the item to a future date. Commissioners Woodward and DeMattei were absent from the meeting.

After the Planning Commission meeting, increases to height and length allowances were eliminated from this Amendment proposal (see Building Length and Building Height sections below). Transition Zones currently exist within the TBAP, and no changes are proposed to those existing zones. However, in both Town Centers, building length transitions have been incorporated to ensure compatibility with residential zone districts. Buildings are proposed to be a maximum of 75 feet on all parcel frontages directly facing residential zone districts (see Building Length section below). An Addendum was prepared for the proposed amendments and the review of Fire Evacuation and Egresses was evaluated. The Addendum concluded that these proposed Amendments would not hamper emergency response or evacuation plans and would result in a less than significant impact, in accordance with the TBAP Environmental Impact Report (EIR) (pgs. 18-23). The Amendments are focused on the redevelopment of our Town Centers and those efforts are demonstrated through the proposed amendments. Lastly, the County will conduct a public process for the Development Right Manual when that work program is initiated.

At the August 10, 2023 Planning Commission hearing, the Planning Commission considered the proposed TBAP Amendment package with revisions. Thirty-five (35) members of the public commented on the proposed TBAP Amendments. Comments received included but were not limited to cumulative impacts, traffic, transportation, parking, wildfire evacuation, housing. Commissioner Woodward expressed concerns about the Addendum, asking questions about the cumulative analysis. In response, an Errata was prepared. Commissioner Ronten had questions regarding density, however, after staff responded to his questions, he expressed satisfaction with the analysis of the Addendum and support of the goals to reinvest and shift development into Town Centers. Commissioner Dahlgren commented on the amendments noting they were minor in nature and not significant and was satisfied with the analysis of the Addendum. Following deliberations, the Planning Commission voted (5 Yes, 0 No, 2 Absent) to recommend approval to the Board. Commissioners Herzog and DeMattei were absent from the meeting.

Implementation Report

As a result of comments received regarding the implementation of the TBAP, staff have prepared the Implementation Report, Attachment K, summarizing the county's efforts to implement the TBAP, the TRPA Regional Plan and to achieve regional goals. The report outlines the County's implementation efforts related to: transportation and mobility, housing, Total Daily Maximum Load, and the TBAP goals and policies, implementation plan, and mitigation measures identified in the TBAP EIR.

Placer County Board of Supervisors

The Board of Supervisors unanimously approved the amendments on October 31, 2023.

TRPA Regional Planning Committee

The RPC recommended approving the amendments on January 24, 2024, with five members voting approval and one absent.

Overview of Proposed Area Plan Changes

The proposed TBAP Amendments are targeted at the final recommendations related to process, policy, and code improvements identified in the Placer County Tahoe Basin Town Center Economic Sustainability Needs Analysis, and are particularly focused on lodging, mixed-use, and workforce housing. The amendments also focus on diversifying land uses across a variety of sectors, with the intent of diversifying the business sector and a variety of housing types, as identified in the Envision

Tahoe reports. Therefore, the proposed amendments are designed to round out the implementation of recommendations outlined in the study, particularly focused on process, policy and code improvements to facilitate and encourage revitalization projects in the Town Centers and workforce housing throughout North Tahoe.

1. Tahoe Basin Area Plan - Policy Document Proposed Amendments

To align the Area Plan policies with updated regional and County goals, additional policies and revisions have been included to the following sections: Scenic Resources, Vegetation, Socio Economic, Land Use, Mixed-use, Town Centers, Community Design, Redevelopment, and Housing. The policies are based off recommendations in the BAE study as well as community feedback and regional partner goals. A summary is provided below.

- <u>Scenic Resources</u>: These policy amendments are intended to support the evaluation of scenic requirements to achieve private reinvestment in Town Centers targeted for redevelopment and/or new development in a manner that improves environmental conditions, creates a more efficient, sustainable and less auto-dependent land use pattern, and provides for economic opportunities.
- <u>Vegetation</u>: A new policy was added to support implementation of new or expanded home hardening programs (i.e., replacing wood shake roofs to protect structures from falling embers during a wildfire), green waste, and defensible space incentive and/or rebate programs.
- <u>Socio Economic</u>: Policies were added to support high-speed broadband infrastructure capacity and to support childcare facilities to meet the needs of the local workforce. Policy was also added to address the prevention of blight.
- <u>Land Use</u>: Policies were added to support the development of a reservation and conversion manual for the allocation and conversion of TRPA development rights. Policies were added to address land uses in the Town Centers. Policies are included to support funding sources for a frontage improvement implementation plan to achieve the Area Plan infrastructure and streetscape features such as sidewalks, curbs, and gutters, as well as implementing parking management plans, community-wide snow storage plans, and development of a reservation and conversion manual as described below.
- <u>Mixed-use</u>: Policies have been added to support the development of mixed-use, business park, and light industrial space and encourage residential components in industrial and commercial development.
- <u>Town Centers</u>: New policies have been added that would allow groundwater interception for mixed-use projects in Town Centers, supporting simplified permit processes for mixed-use projects, encouraging active ground floor uses, facilitating mobile vendors and food trucks in Town Centers, supporting the retention and expansion of businesses within the North Tahoe-Truckee region, supporting relocations of industrial and public utility land uses in the Town Centers to free up Town Center sites, as well as supporting parking maximums and creative parking solutions.
- <u>Community Design</u>: Policies to support and promote local artists and public art in North Tahoe have been included.
- Redevelopment: New policies to support and encourage adaptive reuse of vacant or underutilized retail and office space, support redevelopment of aging lodging products and encourage revitalization and creation of new high-quality lodging, allow multipurpose and flexible gathering spaces in private and public parking areas where events could be held

during off-peak hours, expedite building permit processes, and support the development of new business innovation space and flexible light industrial spaces to diversify the local economy.

• Housing: Additional policies have been included to support streamlining affordable, moderate, and achievable housing, require that 50 percent of units converted from multifamily to condominiums be deed restricted to affordable, moderate or achievable housing, address the job-housing imbalance in the region, monitor and track housing data in the region, and to support adaptive management of the short-term rental inventory to balance housing availability with short-term rentals as new lodging products are added to the region. Policies have been added to explore opportunities for local worker overnight camping in public and private parking lots, as well as to support local worker housing to be constructed above public and private parking lots.

Additionally, planned environmental improvement projects have been modified to support coordination with TRPA to address Town Center development as it relates to TRPA scenic standards and to develop a reservation and conversion manual to guide the conversion and allocation of TRPA development rights in North Lake Tahoe by prioritizing them towards the most community-benefitting and high priority projects that align with the policies in this Area Plan and the Lake Tahoe Regional Plan.

Changes are also proposed to the Area Plan Implementing Regulations document, including amendments in Chapters 1) Introduction and General Provisions, 2) District Standards, as well as 3) Area-Wide Standards and Guidelines. A summary of the proposed Implementing Regulations amendments are described below.

2. Tahoe Basin Area Plan - Implementing Regulations Proposed Amendments

Town Centers:

Mobile Vendors

On September 17, 2018, the Governor signed Senate Bill 946 (the "Safe Sidewalk Vending Act"), which establishes requirements for local regulation of sidewalk vending. The law became effective January 1, 2019. The purpose of SB 946 is to legalize and decriminalize sidewalk vending across the state. SB 946 defines "sidewalk vendor" as a person who sells food or merchandise from a pushcart, stand, display, pedal-driven cart, wagon, showcase, rack or other nonmotorized conveyance, or from one's person, on a public sidewalk or other pedestrian path. A sidewalk vendor can be "a roaming sidewalk vendor," which is defined as moving from place to place and stopping only to complete a transaction, or "a stationary vendor," which is defined as vending from a fixed location. SB 946 applies only to public sidewalks and paths, not private property. The law allows local authorities to adopt regulations governing sidewalk vending or amend existing regulations. If the local authority wishes to regulate sidewalk vending, those regulations need to be consistent with SB 946. A local authority may adopt additional requirements regulating the time, place, and manner of sidewalk vending if the requirements are directly related to objective health, safety, or welfare concerns, including a sidewalk vending permit or valid business license, as well as a valid California Department of Tax and Fee Administration seller's permit. Placer County has not adopted additional sidewalk vending laws and current County Code is not compliant with SB 946.

In the Tahoe Basin, mobile vendors such as sidewalk vendors and food trucks have been considered outdoor retail sales per the TRPA Code of Ordinances, which required a minor

use permit under the TBAP. As of the time of publishing the BAE study, the North Tahoe area had not seen the establishment of many new brick and mortar food related businesses in the past decade. While a few have experienced success by starting as a food truck and transitioning later to a commercial space, staff had heard anecdotally that the use permit process significantly deterred these types of businesses from starting in the area. The proposed amendments would allow food trucks and mobile vendors in the Town Centers and would comply with SB 946 requirements. These uses still require approval through the County's Environmental Health division. These amendments are intended to simplify and facilitate food related startup businesses to strengthen the economic vitality of the Town Centers while being compatible with State law.

Land Use Allowances

The Town Centers currently require use permits for a variety of land uses that are commonly desired in a Town Center to promote walkability and support a year round economy. These include the following:

- Hotels, Motels and other Transient Dwelling Units
- Eating and drinking facilities
- Building materials and hardware stores
- Repair services

The proposed amendments would allow certain land uses based on a certain maximum square footage. To calculate these size thresholds, staff used the maximum square footage listed for each land use in the TRPA Project Impact Assessment (PIA) which calculates maximum sizes based on the vehicle miles traveled for each land use type. For example, a hotel may be allowed in certain Town Center zone districts based on the maximum size threshold as specified in the PIA. Additionally, the proposed amendments separate eating and drinking facilities into subcategories based off the traffic generation rates found in the Institute of Transportation Engineers Manual (Drinking Place, Fast Casual Restaurant, Quality Restaurant, High-Turnover Sit-Down Restaurant, and Fast-Food Restaurant without Drive Thru Window) to allow a specified maximum commercial floor area for each type of facility listed in the use tables. If the maximums differ from the PIA, the PIA threshold would take precedence. The goal of these changes is to incentivize new lodging products, restaurants, retail, and local-serving land uses and encourage these types of land uses in the Town Centers.

Building Length

Following the December 8, 2022 Planning Commission meeting, staff removed the additional building height and length allowances in the Town Centers. Any future projects that would like to request additional building height and/or length would have to be analyzed through a separate TBAP amendment process.

Tables 2.04.A-4, Building Form Guidelines for the Greater Tahoe City Mixed-Use Subdistricts, and 2.04.B-4, Building Form Guidelines for the North Tahoe East Mixed-Use Subdistricts of the Area Plan, have been revised to further clarify building modulation requirements, ensure compatibility between mixed use and residential zone districts, and to define maximum building lengths for proposed structures in the mixed-use Town Center zone districts in Kings Beach and to add maximum building lengths in Tahoe City where there were no existing maximums.

- Building length is reduced in MU-TOR near Stateline from 350 feet to 200 feet to align with maximum building lengths in other mixed-use subdistricts.
- In Greater Tahoe City Mixed-Use Subdistricts, maximum building length has been added where there was none before to align with development standards in North Tahoe East Mixed-Use Subdistricts.
- In both Town Centers, building length transitions have been incorporated to ensure compatibility with residential zone districts. Buildings are proposed to be a maximum of 75 feet on all parcel frontages directly facing residential zone districts.
- Building modulation requirements for any buildings over 75 feet wide have been refined to make the requirements in North Tahoe East Mixed-Use Subdistricts align with those in the Greater Tahoe City Mixed-Use Subdistricts, and to clarify the use of facades, modulations, and other articulation features.

Building Height

A potential amendment to increase building height (from the existing allowed 56 feet to 72.7 feet) and length allowances of up to 500 feet in the Town Centers was originally suggested. At the March 9, 2023 workshop the proposed height allowances were decreased to a maximum of 61 feet. To be eligible for the extra height and building length, projects would have been required to construct deed restricted achievable housing, at least one public art component, and comply with scenic and design standards. Following that workshop, due to a majority of feedback that was not supportive of extra building height or length, staff removed those height and building length increases from this set of amendments.

Section 2.09, Overlay Districts, of the TBAP has been revised in coordination with TRPA staff to allow for a few adjustments to building height. These changes are intended to provide flexibility in the number of stories and clarity to maximum building heights in Special Planning Area Overlay Districts. All projects would still be required to comply with TRPA scenic thresholds.

- The TBAP currently includes maximum height in both feet and number of stories.
 The amendments dictate maximum building height by feet rather than by the
 number of stories (e.g., 56 feet in Core Areas instead of four stories and 46 feet in
 Transition Areas instead of three stories). The maximum height in feet remains the
 same.
- 2. The maximum height in Special Planning Areas has been added to provide clarity.
 - a. In the Tahoe City Western Entry Special Planning Area, maximum height on the mountainside has been adjusted to match that of the Core Areas, 56 feet, due to its location in front of a tall ridgeline and that parcels in that area have been identified as potential housing opportunity sites.
 - b. Height maximums matching the Transition Areas have been added to the Tahoe City River District Special Planning Area where there were none before, matching those of the Transition Areas.
 - c. Height maximums have been specified for the portion of the Tahoe City Golf Course Special Planning Area that is not within a Core or Transition Area, matching those of the Transition Areas.

- d. Height maximums have been specified for the Truckee River Corridor Special Planning Area where there were none before, matching those of the Transition Areas.
- e. Height maximums have been specified for the Kings Beach Entry Special Planning Area where there were none before, matching those of the Transition Areas.
- f. Height maximums have been specified for the North Stateline Special Planning Area where there were none before, matching those of the Transition Areas.

Groundwater

To facilitate the redevelopment desired in Town Centers and allow for below grade parking which reduces coverage, the proposed amendments include exceptions to groundwater interception to projects proposing below grade parking. When such exceptions are granted, the applicant must demonstrate that the project impacts have been mitigated to be equal to or better than the original impacts.

Parking

On February 9, 2021, the Board approved a two-year pilot parking exemption program for the North Lake Tahoe Town Centers. The purpose was to support exemptions to parking requirements to spur redevelopment in the Town Centers and support strategies identified in the Resort Triangle Transportation Plan (RTTP), which was approved by the Board in October 2020, and which outlines strategies to increase mobility and reduce VMT in the Tahoe region. The pilot parking exemption program allows for the following:

- Expands eligible applicants to include all development/redevelopment proposed in Town Centers.
- Allows for tourist accommodation and residential uses to be considered in the program, whereas these uses currently were previously excluded.
- Removes the existing limitation in the Area Plan that project sites eligible for the exemption shall be 25,000 square feet or less.
- Expands financial mitigations beyond establishment of a transit County Service
 Area Zone of Benefit to include financial support for transit service enhancements
 or other alternative transportation projects that support multi-modal transportation
 and/or strategies noted in the RTTP.

At the end of the two-year period, staff agreed to bring forward permanent TBAP amendments for consideration that support RTTP strategies and provide permanent expanded parking exemptions for Town Center development. Therefore, the proposed amendments have incorporated these changes to permanently provide greater flexibility for property owners and businesses in Town and Village Centers and to encourage alternative modes of transportation.

Housing:

Opticos Missing Middle Recommendations

On January 18, 2021, missing middle housing consulting firm, Opticos, provided recommendations to TRPA, on how to better facilitate missing middle housing development

in the Tahoe Basin (Attachment I). The Tahoe-Truckee region's housing stock predominantly consists of single-family housing with a handful of affordable lower-income apartments. To facilitate more development of missing middle housing, such as smaller homes, townhouses, duplexes and triplexes, which are intended to be more affordable by design for middle income worker whose incomes exceed affordable rental income limits but cannot afford the majority of houses on the open market, staff incorporated the following recommendations into the proposed amendments:

- Removing setbacks and articulation and massing requirements which limit building square footage and are not possible to enforce over time. Such requirements are challenging to implement because the setbacks are based on the interior land use, which can change over time. For example, a mixed-use building may be built in the Town Center that includes commercial on the second floor and would require a smaller setback than residential uses. However, a future owner could want to convert that commercial use to residential and would therefore require a greater setback than would be infeasible to create.
- Reducing or removing parking requirements for residential multifamily. The proposed amendments would 1) reduce multifamily parking standards to better align with single-family parking standards and 2) reduce single-family parking standards to accommodate smaller single-family development. Per Opticos, these changes would make multifamily less burdensome and costly to develop. For example, Opticos states that changing the required number of parking spaces from one to two per unit increases the average monthly rent per bedroom from \$993 to \$1,404 and the income required for affordability from \$36,000 to \$51,000.
- Including multifamily as an allowed use. Opticos recommends that an easier process be provided for multifamily projects by preparing standards with enough clarity and predictability about what the standards will generate.
- Density. Opticos has had economists tell them that in order to sustain neighborhood- serving shops and services within a short walking distance, a rule of thumb is that the immediate area (5-to-10-minute walking distance) have an overall density of 16 units per acre. While the proposed amendments do not increase the overall density in any zone districts, the amendments do refine minimum lot size and width which has prohibited projects from achieving the maximum density.
- Reducing minimum lot width. Opticos recommends reducing lot widths to better
 accommodate small lot development which is more affordable by design, and
 which would accommodate attached multifamily such as duplexes, triplexes, and
 fourplexes. The proposed amendments include reduced minimum lot widths for
 certain zone districts. Similarly, staff also removed minimum lot area per dwelling
 unit in all residential zone districts to accommodate smaller dwelling units.

Preferred Affordable, Moderate and Achievable Areas

The TBAP included 21 zone districts that were listed as Preferred Affordable, Moderate and Achievable Areas but did not include any development standards to incentivize or encourage the production of housing. In most of these zone districts, multifamily required a minor use permit while single family housing was allowed. In these zone districts the following changes have been proposed:

- Where not otherwise allowed, the proposed amendments would allow multifamily and employee housing if 100 percent of units are deed restricted to affordable, moderate or achievable housing per TRPA Code of Ordinances Chapter 90: Definitions, for achievable, moderate income or affordable housing. This is intended to encourage development of multifamily housing by reducing costs and time delays associated with use permits.
- In seven residential zone districts listed as Preferred Affordable, Moderate and Achievable Areas, the minimum lot size was reduced to 2,904 square feet to accommodate existing densities of 15 dwelling units per acre and minimum lot widths were reduced to 25 feet to accommodate smaller lots that are more affordable by design, and which match existing lot sizes in many areas of the Area Plan. Side setbacks were also reduced to five feet minimum, except when adjoining another unit on adjacent property, which would require zero feet on one side and 10 feet on the other to accommodate duplex style developments.

Town Center: Single Family Land Use

The TBAP allowed single-family development in Town Centers, if already existing. Previous development proposals have spurred considerable community feedback opposing new single-family development in Town Centers. The proposed amendments would only allow new single-family over one unit, including townhomes and condominiums, if single-family encompasses 25 percent or less of the entire project or if at least 50 percent of the single-family residential units are deed restricted to affordable, moderate or achievable housing per TRPA Code of Ordinances Chapter 90: Definitions, for achievable, moderate-income or affordable housing. The intent is to facilitate mixed-use development and allow some single-family units to offset costs of workforce housing or commercial uses while still achieving the goals of the Area Plan and community.

Tiny Houses

The proposed amendments refer to the countywide housing code amendments that were adopted by the Board on June 14, 2022, to allow for tiny houses as primary or accessory dwelling units as well as employee housing and tiny house communities. Moveable tiny houses and moveable tiny house communities would comply with definitions and development standards in Placer County's Zoning Ordinance. Staff has coordinated with TRPA to determine that the County regulates these uses in the Tahoe Basin rather than TRPA.

Miscellaneous Housing Cleanups

In the Fairway Tract Northeast Subdistrict, multiple family density was adjusted from eight to 15 dwelling units per acre to clean up inconsistency with the already existing density allowances for similar zone districts. In all other residential subdistricts, the density allowances for employee housing and multiple family housing were the same.

Other:

Street Frontage Improvements

Street Frontage Improvements are requirements of the Tahoe City Mixed-Use Subdistricts, North Tahoe East Mixed-Use Subdistricts, and the North Tahoe West Mixed-Use Subdistricts. The proposed amendments are designed to provide consistency throughout the Area Plan in identifying the requirements of street frontage improvements and to also provide reference to the applicable standards contained in the Area Plan, i.e., Section 3.06 "Streetscape and

Roadway Design Standards" and Table 3.06.A "Future Streetscape and Roadway Design Characteristics". Specifically, amendments are sought to Placer County Code Chapter 12, Article 12.08, Section 12.8.020A, to add single-family detached dwellings, as subject to street improvements requirements, to align with the TBAP pedestrian mobility goals.

The revisions to Section 3.06 and Table 3.06.A, specifically, will provide clarity to project applicants which is intended to result in fewer design exceptions and variance requests. Minor changes were made to the text of the TBAP to eliminate redundancy and/or to provide clarity and consistency. For example, in the Kings Beach Residential zone district, street frontage improvements were required of commercial or multifamily developments but not of single-family, which further incentivized development of second homes rather than multifamily or new commercial development. The proposed amendments would require streetscape and frontage improvements of all development as identified in Table 3.06.A. CDRA staff intends to bring forward a comprehensive sidewalk improvement financing plan to offset the costs and burdens on individual development at a later date.

Signs

The proposed amendments eliminate the sign regulations contained in the TBAP under Section 3.11 and direct the reader to refer to the TRPA Code of Ordinance Chapter 38 "Signs." This amendment is intended to simplify signage requirements and will make the TBAP consistent with the TRPA Code of Ordinances, thereby eliminating the need for future amendments to the TBAP should the TRPA modify Chapter 38 of the Code of Ordinance.

Shorezone

The proposed amendments to the TBAP are intended to reflect the changes made to Placer County Code Chapter 12, Article 12.32, "Lake Tahoe Shorezone" adopted by the Board in February of 2021. In August 2019, TRPA amended its Code of Ordinances, including shorezone regulations contained in Chapters 80 through 85. With the 2019 amendment, Section 12.32 of the Placer County Code was no longer in alignment with TRPA and contained conflicting permitting requirements. Therefore, staff proposed a complete replacement of the original ordinance with updated ordinance text to eliminate duplicate permitting processes, align with the TRPA ordinance, limit the County's permitting role, and primarily rely on the Memorandum of Understanding between the California State Lands Commission and TRPA for shorezone related permitting. While the shorezone is primarily governed by TRPA and the State Lands Commission, the proposed amendments reflect the changes adopted by the Board in February of 2021. These comprise adding text to reference the Placer County Code Article 12.32 "Lake Tahoe Shorezone" and adjusting the applicable land use table to notify the reader that certain accessory structures shall also comply with the requirements of Article 12.32.

Miscellaneous Cleanup

The proposed amendments also included several "cleanups" recommended by staff that are intended to provide more clarity across the document and address typos or other minor errors.

Tahoe Regional Planning Agency – Initial Environmental Checklist

In addition to the Addendum and Errata prepared for CEQA, draft documents: an Initial Environmental Checklist, Compliance Measures, a Conformity Checklist and Findings were prepared for the Amendments to comply with the environmental review requirements of the TRPA.

RECOMMENDATIONS

Based on the discussion and analysis in this report, staff recommends that the Board approve the following items:

- Adopt the Addendum and Errata to the Tahoe Basin Area Plan EIR prepared for the project as set forth in Attachment D and Attachment E, respectively, and supported by the following findings:
 - A. The Placer County Tahoe Basin Area Plan and Tahoe City Lodge Project Environmental Impact Statement/Environmental Impact Report (Area Plan EIR) (certified and adopted by the Placer County Board of Supervisors on December 6, 2016, California State Clearinghouse #2014072039; and adopted by the Tahoe Regional Planning Agency on January 25, 2017), and Addendum and Errata to the Area Plan EIR have been considered prior to approval of this project. Together they are determined to be adequate to serve as the environmental documentation for this project and satisfy all the requirements of CEQA. The Addendum to the Area Plan EIR did not raise important new issues about the significant effects on the environment.
 - B. The Addendum and the Errata to the Area Plan EIR were prepared pursuant to CEQA Guidelines Section 15164 and Placer County Environmental Review Ordinance Section 18.20.110. Pursuant to CEQA Guidelines Section 15162 through 15164, no changes have occurred in the amendments or to existing circumstance that would warrant additional environmental analysis for the TBAP Amendments requested.
 - C. The proposed amendments to the TBAP modify policies to achieve housing and Town Center redevelopment which were already considered under the TBAP and therefore the policy changes would not have the potential to cause a significant effect on the environment.
 - D. Under PRC Section 21080.17 and CEQA Guidelines Section 15282 subsection (h), CEQA does not apply to the adoption of an ordinance by a city or county to implement the provisions of Section 65852.2 of the Government Code (the state accessory dwelling unit law). The proposed amendments implement Government Code Section 65852.2 and 65852.22 within unincorporated Placer County in a manner that is consistent with the requirements of state law.
- 2. Adopt a Resolution approving amendments to the Tahoe Basin Area Plan policy document based on the following findings:
 - A. The proposed amendments to the Tahoe Basin Area Plan policy document are consistent with the objectives, policies, general land uses and programs specified in the Placer County General Plan and Tahoe Basin Area Plan, and the amendments are internally consistent with the remaining provisions of the 2017 approved Tahoe Basin Area Plan. Specifically these amendments will address process, policy, and code improvements to facilitate development, scale back requirements, and better understand and alleviate constraints and challenges in the development process, including zoning and building requirements and fees, collaborating with TRPA, updating parking standards and creating parking districts, and increasing workforce housing allowances; will include action goals and tactical approaches aimed at improving the economic viability of the Tahoe Basin; and contains amendments aimed to further implement existing policies aimed at supporting additional housing at affordable price levels, construction of workforce housing, and providing assistance for economic development and environmental redevelopment and are consistent with the goals, objectives

and policies of the Placer County General Plan and the Tahoe Basin Area Plan since they are in accordance with the following:

- i. TBAP Policy SE-P-3. Opportunities for economic development outside Town Centers should be pursued in a manner consistent with the Regional Plan.
- ii. TBAP Policy SE-P-4. Whenever feasible, Placer County should provide assistance to property owners seeking to complete projects on priority redevelopment sites through public-private partnerships and other forms of assistance.
- iii. TBAP Policy SE-P-5. Placer County supports efforts to promote environmental redevelopment in mixed-use areas within and outside Town Centers, including the Village Centers identified in this Area Plan.
- iv. TBAP Policy SE-P-6. Continue efforts to address the existing job-housing imbalance and provide additional housing at affordable price levels should be pursued.
- v. TBAP Policy HS-P-6. Pursue TRPA-Certified Local Governing Moderate-Income Housing Programs pursuant to Sections, 52.3.4 and 52.3.6 of the TRPA Code of Ordinances to provide additional opportunities for deed-restricted affordable and moderate-income housing.
- vi. TBAP Policy HS-P-7. Evaluate housing needs in the region in coordination with TRPA. Consistent with Regional Plan Housing Policy HS-3.1, update TRPA policies and ordinances as necessary to achieve state, local and regional housing goals. Future housing efforts should seek to remove identified barriers preventing the construction of necessary affordable housing in the region including, but not limited to, workforce and moderate-income housing, secondary residential units and long-term residency in motel units.
- vii. General Plan Policy 1.B.2. The County shall encourage the concentration of multifamily housing in and near downtowns, village centers, major commercial areas, and neighborhood commercial centers.
- viii. Housing Element Policy HE-A-2. The County shall continue efforts to streamline and improve the development review process based on object design standards, and to eliminate any unnecessary delays in the processing of development applications.
- ix. Housing Element Policy HE-A-3. The County shall strive to remove barriers to new housing production including advancing adaptive policies, regulations, and procedures, as well as addressing market constraints as admissible.
- x. Housing Element Policy HE-A-4. The County shall encourage mixed-use and transitoriented development projects where housing is provided in conjunction with compatible non-residential uses.
- xi. Housing Element Policy HE A-6. The County shall encourage the development of multifamily dwellings in locations where adequate infrastructure and public services are available.
- xii. Housing Element Policy HE-B-1. The County shall facilitate expanded housing opportunities that are affordable to the workforce of Placer County.
- xiii. Housing Element Policy HE-G-1. The County shall promote housing opportunities for all persons regardless of race, religion, color, ancestry, national origin, sex, disability, family status, income, sexual orientation, or other barriers that prevent choice in housing.
- xiv. Housing Element Policy HE-E-2. The County shall encourage the TRPA to strengthen the effectiveness of existing incentive programs for the production of affordable housing and encourage Accessory Dwelling Units.
- B. The Area Plan as amended is not within the area of any airport land use plan.

- C. Notices of all hearings required by Section 17.60.140 have been given and all hearings required pursuant to Section 17.58.200 have been held.
- 3. Adopt an Ordinance approving amendments to the Tahoe Basin Area Plan Implementing Regulations based on the following findings:
 - A. The proposed amendments to the Tahoe Basin Area Plan Implementing Regulations are consistent with Placer County General Plan and Tahoe Basin Area Plan. Specifically these amendments are in response to the Placer County Tahoe Basin Town Center Economic Sustainability Needs Analysis, which recommended process, policy, and code improvements to facilitate development, scale back requirements, and better understand and alleviate constraints and challenges in the development process, including zoning and building requirements and fees, collaborating with TRPA, updating parking standards and creating parking districts, and increasing workforce housing allowances; responds to the Tahoe Prosperity Center's reports, which include action goals and tactical approaches aimed at improving the economic viability of the Tahoe Basin; and aim to further implement existing policies aimed at supporting additional housing at affordable price levels, construction of workforce housing, and providing assistance for economic development and environmental redevelopment consistent with the goals, objectives and policies of the Placer County General Plan and the Tahoe Basin Area Plan since they are in accordance with the following:
 - i. TBAP Policy SE-P-3. Opportunities for economic development outside Town Centers should be pursued in a manner consistent with the Regional Plan.
 - ii. TBAP Policy SE-P-4. Whenever feasible, Placer County should provide assistance to property owners seeking to complete projects on priority redevelopment sites through public-private partnerships and other forms of assistance.
 - iii. TBAP Policy SE-P-5. Placer County supports efforts to promote environmental redevelopment in mixed-use areas within and outside Town Centers, including the Village Centers identified in this Area Plan.
 - iv. TBAP Policy SE-P-6. Continue efforts to address the existing job-housing imbalance and provide additional housing at affordable price levels should be pursued.
 - v. TBAP Policy HS-P-6. Pursue TRPA-Certified Local Governing Moderate-Income Housing Programs pursuant to Sections, 52.3.4 and 52.3.6 of the TRPA Code of Ordinances to provide additional opportunities for deed-restricted affordable and moderate income housing.
 - vi. TBAP Policy HS-P-7. Evaluate housing needs in the region in coordination with TRPA. Consistent with Regional Plan Housing Policy HS-3.1, update TRPA policies and ordinances as necessary to achieve state, local and regional housing goals. Future housing efforts should seek to remove identified barriers preventing the construction of necessary affordable housing in the region including, but not limited to, workforce and moderate-income housing, secondary residential units and long-term residency in motel units.
 - vii. General Plan Policy 1.B.2. The County shall encourage the concentration of multifamily housing in and near downtowns, village centers, major commercial areas, and neighborhood commercial centers.
 - viii. Housing Element Policy HE-A-2. The County shall continue efforts to streamline and improve the development review process based on object design standards, and to eliminate any unnecessary delays in the processing of development applications.

- ix. Housing Element Policy HE-A-3. The County shall strive to remove barriers to new housing production including advancing adaptive policies, regulations, and procedures, as well as addressing market constraints as admissible.
- x. Housing Element Policy HE-A-4. The County shall encourage mixed-use and transitoriented development projects where housing is provided in conjunction with compatible non-residential uses.
- xi. Housing Element Policy HE-A-6. The County shall encourage the development of multi-family dwellings in locations where adequate infrastructure and public services are available.
- xii. Housing Element Policy HE-B-1. The County shall facilitate expanded housing opportunities that are affordable to the workforce of Placer County.
- xiii. Housing Element Policy HE-G-1. The County shall promote housing opportunities for all persons regardless of race, religion, color, ancestry, national origin, sex, disability, family status, income, sexual orientation, or other barriers that prevent choice in housing.
- xiv. Housing Element Policy HE-E-2. The County shall encourage the TRPA to strengthen the effectiveness of existing incentive programs for the production of affordable housing and encourage Accessory Dwelling Units.
- B. The proposed amendments to the Tahoe Basin Area Plan Implementing Regulations are consistent with and implement the Area Plan, as approved in 2017 and as herein amended.
- C. The proposed amendments to the Tahoe Basin Area Plan Implementing Regulations will implement the Tahoe Basin Area Plan policies and goals and will ensure orderly development of the Plan Area.
- 4. Adopt an Ordinance amending the Placer County Code, Chapter 12, Article 12.08, Section 12.08.020(A).

Attachment C TRPA Adopting Ordinance

TAHOE REGIONAL PLANNING AGENCY ORDINANCE 2024-__

AN AMENDMENT TO ORDINANCE NO. 2021-02 TO ADOPT TAHOE BASIN AREA PLAN AMENDMENTS

The Governing Board of the Tahoe Regional Planning Agency (TRPA) does ordain as follows:

Section 1.00	<u>Findings</u>	
1.10	It is desirable to amend TRPA Ordinance 2021-02 by amending the Tahoe Basin Area Plan to further implement the Regional Plan pursuant to Article VI (a) and other applicable provisions of the Tahoe Regional Planning Compact.	
1.20	The Tahoe Basin Area Plan amendments were the subject of an Initial Environmental Checklist (IEC), which was processed in accordance with Chapter 3: <i>Environmental Documentation</i> of the TRPA Code of Ordinances and Article VI of the Rules of Procedure. The Tahoe Basin Area Plan amendments have been determined not to have a significant effect on the environment and are therefore exempt from the requirement of an Environmental Impact Statement (EIS) pursuant to Article VII of the Compact.	
1.30	The Advisory Planning Commission (APC) and the Governing Board have each conducted a noticed public hearing on the proposed Tahoe Basin Area Plan amendments. The APC has recommended Governing Board adoption of the necessary findings and adopting ordinance. At these hearings, oral testimony and documentary evidence were received and considered.	
1.40	The Governing Board finds that the Tahoe Basin Area Plan amendments adopted hereby will continue to implement the Regional Plan, as amended, in a manner that achieves and maintains the adopted environmental threshold carrying capacities as required by Article V(c) of the Compact.	
1.50	Prior to the adoption of these amendments, the Governing Board made the findings required by TRPA Code of Ordinances Section 4.5, and Article V(g) of the Compact.	
1.60	Each of the foregoing findings is supported by substantial evidence in the record.	
Section 2.00	TRPA Code of Ordinances Amendments	
	Ordinance 2021-02 is hereby amended by amending the Tahoe Basin Area Plan as set forth in the exhibits to this ordinance.	
Section 3.00	Interpretation and Severability	

The provisions of this ordinance amending the TRPA Code of Ordinances adopted hereby shall be liberally construed to affect their purposes. If any section, clause, provision or portion thereof is declared unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance and the amendments to the Regional Plan Package shall not be affected thereby. For this purpose, the provisions of this ordinance and the amendments to the Regional Plan Package are hereby declared respectively severable.

Section 4.00 Effective Date

The provisions of this ordinance amending the Tahoe Basin Area Plan shall become effective on adoption.

PASSED AND ADOPTED by the Tahoe Regional Planni	0 0 ,
at a regular meeting held on, 2024, by the fo	Showing vote.
Ayes:

Attachment D Findings

REQUIRED FINDINGS FOR AN AMENDMENT TO PLACER COUNTY'S TAHOE BASIN AREA PLAN

This document contains required findings per Chapters 3, 4, and 13 of the TRPA Code of Ordinances (Code) for the amendments to Placer County's Tahoe Basin Area Plan (Area Plan):

<u>Chapter 3 Findings</u>: The following finding must be made prior to amending the Area Plan:

1. Finding: The proposed Area Plan amendments could not have a significant effect

on the environment and a finding of no significant effect shall be

prepared in accordance with TRPA's Rules of Procedure.

Rationale: Based

Based on the completed Initial Environmental Checklist (IEC), no significant environmental impacts have been identified as a result of the proposed amendments. The IEC was prepared to evaluate the potential environmental impacts of the proposed amendments and tiers from programmatic analyses contained in the following environmental review documents:

- Placer County Tahoe Basin Area Plan and Tahoe City Lodge Project Environmental Impact Statement/Environmental Impact Report (Area Plan EIS/EIR) (California State Clearinghouse (SCH) Number 20140720039)
- Tahoe Regional Plan Update Environmental Impact Statement (RPU EIS) (California SCH Number 2007092027; Nevada SCH Number E2008-124)

These program-level environmental documents include regional cumulative scale analyses and a framework of mitigation measures that provide a foundation for subsequent, site-specific environmental review documents as individual planning, redevelopment and other projects are proposed. The IEC is tiered from the Area Plan EIS/EIR and RPU EIS in accordance with Section 6.12 of the TRPA Rules of Procedure. The Area Plan EIS/EIR and RPU EIS are programmatic environmental documents prepared pursuant to Article VI of the TRPA Rules of Procedure (Environmental Impact Statements) and Chapter 3 (Environmental Documentation) of the TRPA Code.

The RPU EIS evaluates a comprehensive plan that establishes growth limits, provides policy direction, and enacts development and environmental standards. The Area Plan EIS/EIR evaluates a comprehensive land use plan that implements the Regional Plan and includes greater specificity within the Placer County portion of the Tahoe Region. The Area Plan EIS/EIR analyzes full implementation of uses and physical development proposed under the Area Plan, and it identifies measures to mitigate the significant adverse program-level and cumulative impacts associated with that growth. The Area Plan is an

element of the growth that was anticipated in the 2012 Tahoe Regional Plan Update RPU and evaluated in the 2012 RPU EIS. By tiering from the Area Plan EIS/EIR and RPU EIS, the IEC relies on these documents for the following:

- background and setting information for environmental topic areas,
- regional growth-related issues,
- issues that were evaluated in sufficient detail in the Area Plan EIS/EIR or RPU EIS for which there is no significant new information or change in circumstances that would require further analysis, and
- assessment of cumulative impacts.

Nothing in the IEC in any way alters the obligations of Placer County or TRPA to implement the mitigation measures adopted as part of the Area Plan or RPU, as documented in the Area Plan EIS/EIR or RPU EIS. Consequently, Placer County would adhere to all applicable adopted mitigation measures required by the Area Plan and Regional Plan as a part of the proposed Area Plan amendments.

Adoption of the proposed amendments would amend policies in the TBAP Policy document and the Area Plan Implementing Regulations. The proposed Area Plan amendments focus on process, policy, and code improvements to support appropriate lodging, mixed-use developments, and a variety of housing types, including workforce housing. The amendments also focus on diversifying land uses, with the intent of streamlining planning processes and increasing the diversity of business and housing types. Therefore, the proposed amendments are designed to implement recommendations outlined in the Economic Sustainability Needs Assessment, particularly those focused on process, policy, and code improvements that will facilitate and streamline revitalization projects in the Town Centers and workforce housing throughout North Tahoe. Taken together, these changes seek to accelerate implementation of the goals and policies of the Regional Plan. The proposed Area Plan Policy document changes are summarized in Table 1 of the IEC and the proposed Area Plan Implementing Regulations are summarized in Table 2 of the IEC. The effects of these amendments were evaluated in detail in the IEC and found to be less than significant.

All aspects of the Regional Plan, Area Plan, and TRPA Code not specifically affected by the proposed amendments would continue to apply throughout the plan area. As such, future projects proposed within the plan area would be required to comply with all applicable provisions of the TRPA Code, including requirements for site development, growth management, and resource management and protection, as well as

applicable TRPA standard conditions of approval. Proposed projects within the plan area would be reviewed through applicable TRPA and CEQA environmental review requirements and, if necessary, project revisions or mitigation measures necessary to avoid significant environmental impacts would continue to be required as a condition of approval.

Chapter 4 Findings:

The following findings must be made prior to amending the Area Plan:

1. Finding:

The proposed Area Plan amendments are consistent with, and will not adversely affect implementation of the Regional Plan, including all applicable goals and policies, community plans/plan area statements, the TRPA Code, and other TRPA plans and programs.

Rationale:

The Area Plan consists of a Policy document and Implementation Regulations (ordinances) that conform to the Regional Plan. The adopted land use and zoning maps are consistent with Regional Plan Map 1, Conceptual Regional Land Use Map. No modifications to the Area Plan boundaries are proposed.

The proposed amendments to the Area Plan were prepared in conformance with the substantive and procedural requirements of the Regional Plan goals and policies, as implemented through TRPA Code, Chapter 13, "Area Plans." The Area Plan is consistent with the Tahoe Regional Plan and TRPA Code, as shown in the Area Plan Finding of Conformity Checklist and as demonstrated in the IEC. The proposed amendments focus on process, policy, and code improvements to support appropriate lodging, mixed-use developments, and a variety of housing types, including workforce housing. The amendments also focus on diversifying land uses, with the intent of streamlining planning processes and increasing the diversity of business and housing types.

Pursuant to TRPA Code Section 4.4.2, TRPA considers, as background for making the Section 4.4.1.A through C findings, the proposed project's effects on compliance measures (those implementation actions necessary to achieve and maintain thresholds), supplemental compliance measures (actions TRPA could implement if the compliance measures prove inadequate to achieve and maintain thresholds), the threshold indicators (adopted measurable physical phenomena that relate to the status of threshold attainment or maintenance), additional factors (indirect measures of threshold status, such as funding levels for Environmental Improvement Program [EIP] projects), and interim and target dates for threshold achievement. TRPA identifies and reports on threshold compliance measures, indicators, factors, and targets in the threshold evaluation reports prepared pursuant to TRPA Code, Chapter 16, "Regional Plan and Environmental Threshold Review."

TRPA relies upon a project's accompanying environmental documentation, staff's professional analyses, and prior plan level documentation, including findings and environmental documentation, to reach the fundamental conclusions regarding a project's consistency with the Regional Plan and thresholds. A project that is consistent with all aspects of the Regional Plan and that does not adversely affect any threshold is, by definition, consistent with compliance measures, indicators, and targets.

To increase its analytical transparency, TRPA has prepared worksheets related specifically to the TRPA Code Section 4.4.2 considerations, which set forth the 222 compliance and supplemental compliance measures. Effects of the proposed project (here the amendments to support appropriate lodging, mixed-use developments, and a variety of housing types, including workforce housing, and that are intended to streamline planning processes and increase the diversity of business and housing types) on these items, if any, are identified and to the extent possible described.

TRPA cannot identify target dates, status, and trends for some threshold indicators because of a lack of available information. TRPA may still determine whether the project will affect the TRPA Code Section 4.4.2 considerations (and ultimately consistency with the Regional Plan and impact on thresholds) based on the project's specific environmental impacts related to those threshold indicators.

Based on the IEC prepared for the proposed amendments, Area Plan EIS, Area Plan findings made by the TRPA Governing Board, TRPA Code Section 4.4.2 staff analyses, and using applicable measurement standards consistent with the available information, the proposed amendments will not adversely affect applicable compliance and supplemental compliance measures, indicators, additional factors, and attainment of targets by the dates identified in the 2019 Threshold Evaluation. The Area Plan incorporates and/or implements relevant compliance measures, and with implementation of the measures with respect to development within the Area Plan, the effects are not adverse, and with respect to some measures, are positive.

TRPA anticipates that implementation of the proposed amendments could accelerate threshold gains to the extent that it leads to environmental redevelopment in an aging town center.

Section 4.4.2.B also requires TRPA to disclose the impact of the proposed project on its cumulative accounting of units of use (e.g., residential allocations, commercial floor area, tourist accommodation units). The proposed Area Plan amendments do not affect the cumulative accounting of units of use as no additional residential, commercial, tourist, or recreation allocations are proposed or allocated as part of the Area Plan amendments. The proposed amendments promote diversifying land uses, with the intent of streamlining planning processes and increasing the diversity of business and housing types. The proposed process, policy, and code improvements will facilitate and streamline revitalization projects in the Town Centers and

workforce housing throughout North Tahoe but would not increase the number of allowable units of use in the plan area.

Similarly, TRPA Code Section 4.4.2.C requires TRPA to confirm whether the proposed project is within the remaining capacity for development (e.g., water supply, sewage, electrical service) identified in the environmental documentation for the Regional Plan. The amendments do not affect the amount of the remaining capacities available, identified and discussed in the RPU EIS. The Area Plan does not allocate capacity or authorize any particular development.

TRPA therefore finds that the amendments are consistent with and will not adversely affect implementation of the Regional Plan, including all applicable goals and policies, community plans, plan area statements, the TRPA Code, and other TRPA plans and programs.

2. Finding:

The proposed Area Plan amendment will not cause the environmental threshold carrying capacities to be exceeded.

Rationale:

As demonstrated in the completed IEC, no significant environmental effects were identified as a result of the proposed amendments, and the IEC did not find any thresholds that would be adversely affected or exceeded. As found above, the Area Plan, as amended, is consistent with the Regional Plan.

TRPA reviewed the proposed amendments in conformance with the adopted Threshold Standards and 222 compliance measures and supplemental compliance measures. The amendments will not adversely affect applicable compliance measures, indicators, additional factors, and supplemental compliance measures and target dates as identified in the 2019 Threshold Evaluation indicator summaries. Pursuant to Chapter 13 of the TRPA Code, TRPA will monitor all development projects within the Area Plan through quarterly and annual reports. These reports will be used to evaluate the status and trend of the thresholds every 4 years.

The proposed Area Plan amendments do not affect the cumulative accounting of units of use as no additional residential, commercial, tourist, or recreation allocations are proposed or allocated as part of the Area Plan amendments. The proposed amendments promote diversifying land uses, with the intent of streamlining planning processes and increasing the diversity of business and housing types. The proposed process, policy, and code improvements will facilitate and streamline revitalization projects in the Town Centers and workforce housing throughout North Tahoe but would not increase the number of allowable units of use in the plan area.

The amendments do not affect the amount of the remaining capacity available, as the remaining capacity for water supply, sewage collection and treatment, recreation and vehicle miles travelled have been identified and evaluated in the Area Plan EIS/EIR. No changes to the overall capacity are proposed in the proposed amendments. TRPA therefore finds that the amendments will not cause the thresholds to be exceeded.

3. Finding:

Wherever federal, state, or local air and water quality standards apply for the Region, the strictest standards shall be attained, maintained, or exceeded pursuant to Article V(d) of the Tahoe Regional Planning Compact.

Rationale:

Based on the following: (1) Area Plan Amendments IEC, (2) Area Plan EIS/EIR, and (3) the 2019 Threshold Evaluation Report, adopted by the Governing Board, no applicable federal, state, or local air and water quality standard will be exceeded by adoption of the amendment. The proposed amendments do not affect or change the federal, state, or local air and water quality standards that apply to the Region. Projects developed under the Area Plan will meet the strictest applicable air quality standards and implement water quality improvements consistent with TRPA Best Management Practices (BMPs) requirements, the Lake Tahoe Total Maximum Daily Load (TMDL), Middle Truckee River Watershed TMDL, and the County's Pollutant Load Reduction Plan (PLRP). Federal, state, and local air and water quality standards remain applicable for all parcels in the Area Plan, thus ensuring environmental standards will be achieved or maintained pursuant to the Bi-State Compact.

The proposed amendments to Policy TC-P-10 in the Area Plan and Section 3.09 of the Implementing Regulations would allow groundwater interceptions for mixed-use projects proposing below-grade parking. When such exceptions are granted, the applicant would be required to demonstrate that the project's impacts have been mitigated to be equal to or better than the original impacts from the proposed project. This policy would strengthen the intent of the Area Plan to condense development in Town Centers and limit impermeable surfaces at street level. The revised policy was guided by Section 33.3.6 of the TRPA Code of Ordinances for mixed use projects in Town Centers.

The amendments to policies and implementing regulations would support implementation of the goals and policies in the existing Area Plan by continuing to promote compact redevelopment of Town Centers and minimizing the environmental impacts from development on water quality and habitat. The amendments that would allow groundwater interception for mixed-use projects would require design approaches to ensure the project does not interfere with groundwater flow or quality. Because these policies would further support implementation of the land use patterns identified in the Area Plan while maintaining regional water quality, the amendments would not result in any new or more severe impacts to water quality.

4. Finding:

The Regional Plan and all of its elements, as amended, achieves and maintains the thresholds.

Rationale:

I. Introduction

In 1980, Congress amended the Compact to accelerate the pace of environmental progress in the Tahoe region by tasking TRPA with adopting a regional plan and implementing regulations that protect the unique national treasure that is Lake Tahoe. First, Article V(b) required that TRPA, in collaboration with Tahoe's other regulatory agencies, adopt "environmental threshold carrying capacities"

("thresholds" or "standards") establishing goals for a wide array of environmental criteria, including water quality, air quality, and wildlife. Second, Article V(c) directed TRPA to adopt a "regional plan" that "achieves and maintains" the thresholds, and to "continuously review and maintain" implementation of the plan.

The 1980 Compact inaugurated an era of establishing and enforcing rigorous controls on new development. In 1982, TRPA adopted the necessary thresholds for the Tahoe Region. These thresholds are a mix of both long- and short-term goals for the Tahoe Region. The Region was "in attainment" of a number of these thresholds shortly after the adoption of the Regional Plan and remains in attainment today. Other thresholds address more intractable problems; for example, TRPA established numeric water quality standards that, even under best-case conditions, could not be attained for decades. See, e.g., League to Save Lake Tahoe v. Tahoe Reg'l Planning Agency, 739 F. Supp. 2d 1260, 1265 (E.D. Cal. 2010).

The second phase in this process was establishing a regional plan that, when implemented through rules and regulations, would ultimately "achieve and maintain" the thresholds over time. In 1987, following years of negotiation and litigation, TRPA adopted its Regional Plan. The 1987 Regional Plan employed a three-pronged approach to achieve and maintain the adopted environmental thresholds. First, the plan established a ceiling on development in Tahoe and restricted the placement, timing, and extent of new development. Second, the plan sought to prevent new harm to the environment as well as repair the environmental damage caused by existing development, particularly for projects that pre-dated TRPA's existence (i.e., correcting the "sins of the past"); to this end, the plan created incentives to redevelop urbanized sites under more protective regulations and to transfer development out of sensitive areas that would then be restored. Third, TRPA adopted a capital investment program that was largely, but not exclusively, publicly funded to achieve and maintain thresholds by improving infrastructure and repairing environmental damage. In 1997, TRPA replaced this program with its EIP. In subsequent years, TRPA generated investments of well over \$1 billion in public and private money to restore ecosystems and improve infrastructure under the EIP. Recent litigation confirmed that the Regional Plan as established in 1987 and subsequently amended over time will achieve and maintain the adopted environmental thresholds. Sierra Club v. Tahoe Reg'l Planning Agency, 916 F.Supp.2d 1098 (E.D. Cal. 2013) [Homewood litigation].

Regional Plan Update Process

Even though implementation of the 1987 Regional Plan would achieve and maintain the thresholds, in 2004 TRPA began public outreach and analysis of the latest science and monitoring results to identify priority areas in which the Regional Plan could be comprehensively strengthened to accelerate the rate of threshold attainment. TRPA's policymakers realized that the challenges facing the region differed from those confronting the agency when it adopted its original Regional Plan in 1987. Uncontrolled new growth that had been the primary threat decades earlier had been brought into check by the strict growth limitations in the 1987 Regional Plan. Today's problems differed, resulting from the continuing deterioration and lack of upgrades

to existing "legacy" development. In essence, to make the greatest environmental difference, the Tahoe region needed to fix what was already in place. In addition, TRPA realized some existing land-use controls could be improved to remove barriers to redevelopment that would address ongoing environmental degradation caused by sub-standard development constructed before TRPA had an adopted Regional Plan or even came into existence. Land use regulations and public and private investment remain essential to attaining the thresholds for Lake Tahoe.

Furthermore, TRPA recognized that the social and economic fabric of the Tahoe Region could not support the level of environmental investment needed. The economic foundation of gaming had fallen away, and the level of environmental investment needed could not be supported solely by an enclave of second homes for the wealthy. Businesses and the tourism sector were faltering. Affordable housing and year-round jobs were scarce. Local schools were closing, and unemployment was unusually high. In light of these realities, TRPA sponsored an ongoing outreach program to obtain input on how to advance TRPA's environmental goals. Between 2004 and 2010, TRPA conducted over 100 public meetings, workshops, and additional outreach. More than 5,000 people provided input regarding their "vision" for TRPA's updated Regional Plan. Based on this input, TRPA identified a number of priorities to be addressed by the updated Regional Plan, including:

- 1. Accelerating water quality restoration and other ecological benefits by supporting environmental redevelopment opportunities and EIP investments.
- 2. Changing land-use patterns by focusing development in compact, walkable communities with increased alternative transportation options.
- Transitioning to more permitting by local governments to create "one-stop" and "one permit" for small to medium sized projects, where local government wanted to assume these duties.

On December 12, 2012, TRPA's 9-year effort culminated with the approval of the RPU.

Regional Plan Update Amendments

The RPU uses multiple strategies targeting environmental improvements to accelerate achieving and maintaining threshold standards in the Region. First, the RPU maintained both regulatory and implementation programs that have proven effective in protecting Lake Tahoe's environment. TRPA's regional growth control regulatory system, strict environmental development standards, and inter-agency partnerships for capital investment and implementation (e.g., EIP) remain in place.

Second, the RPU promotes sensitive land restoration, redevelopment, and increases the availability of multi-modal transportation facilities. The implementation of the RPU will facilitate transferring existing development from outlying, environmentally sensitive areas into existing urbanized community centers. The RPU provides incentives so that private capital can be deployed to speed this transformation.

Third, the RPU authorizes the area plan process for communities and land management agencies in the Tahoe Region to eliminate duplicative and unpredictable land use regulations that deterred improvement projects. Area plans, created pursuant to Chapter 13 of the TRPA Code, also allow TRPA and local, state, federal, and tribal governments to expand the types of projects for which local, state, federal, and tribal governments apply TRPA rules to proposed projects within the Tahoe Region. After approval of an area plan by TRPA, this process allows a single government entity to review, permit, and inspect projects in their jurisdiction. All project approvals delegated to other government entities may be appealed to TRPA for final decision. In addition, the performance of any government receiving delegated authority will be monitored quarterly and audited annually to ensure proper application of TRPA rules and regulations.

As noted above, a variety of strategies in the Regional Plan will work together to accelerate needed environmental gains in the categories where threshold benefits are most needed – water quality, restoration of sensitive lands, scenic quality advances in developed scenic units, and efforts to continue maintenance and attainment of air quality standards. Area plans that include "Centers" play a key role in the Regional Plan's overall strategy by activating environmental redevelopment incentives (e.g., increases in density and height) that also provide the receiving capacity for transfers of units from sensitive lands.

The next section of this finding establishes how the Amended Placer County Tahoe Basin Area Plan fulfills the role anticipated by the RPU and the expected threshold gain resulting from its implementation.

II. Area Plan Amendment and Threshold Gain

The proposed Area Plan amendments would maintain programs in the existing Area Plan that could accelerate threshold gain, including water quality restoration, scenic quality improvement, and other ecological benefits. To the extent that the amendments lead to environmental redevelopment in aging town centers, it would accelerate threshold gain. An increase in redevelopment will likewise increase the rate of threshold gain by accelerating the application of controls designed to enhance water quality, air quality, soil conservation, and scenic quality improvements.

As described in more specific detail below, the amendments will have a potentially beneficial effect on multiple threshold areas.

A. Water Quality

The 2019 Threshold Evaluation found that the trend in reduced lake clarity has been slowed. The continued improvement is a strong indication that the actions of partners in the region are contributing to improved clarity and helping TRPA attain one of its signature goals.

The proposed revisions to Policy TC-P-10 in the Area Plan and Section 3.09 of the Implementing Regulations will allow groundwater interceptions for mixed-use projects proposing below-grade parking. When such exceptions are granted, the

applicant would be required to demonstrate that the project's impacts have been mitigated to be equal to or better than the original impacts from the proposed project. This policy would strengthen the Area Plan's intent to condense development in Town Centers and limit impermeable surfaces at street level. The revised policy was guided by Section 33.3.6 of the TRPA Code of Ordinances for mixed-use projects in Town Centers.

The amendments to policies and implementing regulations would support implementation of the goals and policies in the existing Area Plan by continuing to promote compact redevelopment of Town Centers and minimizing the environmental impacts from development on water quality and habitat. The amendments that would allow groundwater interception for mixed-use projects would require design approaches to ensure the project does not interfere with groundwater flow or quality. Because these revised policies would further support implementation of the land use patterns identified in the Area Plan while maintaining regional water quality.

Potential environmental redevelopment within the amended Area Plan will result in accelerated water quality benefits. Each redevelopment project is required to comply with strict development standards, including water quality BMPs and coverage mitigation requirements, and will provide additional opportunities for implementing area wide water quality systems.

B. Air Quality

The 2019 Threshold Evaluation found that the majority of air quality standards are in attainment and observed changes suggest that conditions are improving or stable. Actions implemented to improve air quality in the Tahoe Region occur at the national, state, and regional scale. The US Environmental Protection Agency has established vehicle tail-pipe emission standards and industrial air pollution standards. These actions have resulted in substantial reductions in the emissions of harmful pollutants at state-wide and national scales and likely have contributed to improvement in air quality at Lake Tahoe. At a regional scale, TRPA has established ordinances and policies to encourage alternative modes of transportation and to reduce vehicle idling by prohibiting the creation of new drive-through window establishments and limiting idling during project construction.

Facilitating projects within the approved area plans is an integral component in implementing regional air quality strategies and improvements at a community level. (TRPA Goals and Policies: Chapter 2, "Land Use"). The Area Plan was adopted to implement and achieve the environmental improvement and redevelopment goals of the Regional Plan, and the proposed amendments would further that goal. A primary function of the Amended Area Plan is to consolidate applicable local and regional plans to facilitate implementation of the Regional Plan. Because implementation of the Area Plan would lead to implementation of the Regional Plan, it would directly contribute to achieving and maintaining the air quality threshold.

TRPA's 2020 RTP includes an analysis of its conformity with the California State Implementation Plan to ensure that the RTP remains consistent with state and local

air quality planning work to achieve and/or maintain the national ambient air quality standards (NAAQS). The proposed amendments do not propose substantial changes to land use assumptions and would not change the conformity determination by state regulators.

The proposed Area Plan amendments would not change the development potential within the plan area, so the location, amount, and type of construction activities within the plan area would not change substantially. Operational emissions would also not change substantially because the Area Plan Amendments would not change air quality regulatory requirements, increase vehicle use, or alter the amount or type of development possible within the plan area. The proposed amendments could affect the land use pattern by encouraging redevelopment of Town Centers; promoting mixed-use projects; encouraging shared parking; encouraging affordable, moderate, or achievable housing; allowing food trucks and mobile vendors; and supporting the Resort Triangle Transportation Plan. Taken together, these changes would encourage more concentrated development within Town Centers with less development outside of the Town Centers. This land use pattern would create residences near commercial uses and potentially generate the shorter trip lengths and reduce vehicle miles traveled (VMT) needed to meet the Air Quality Thresholds.

C. Soil Conservation

The 2019 Threshold Evaluation found negligible change in the total impervious cover in the Region over the last 5 years and the majority of soil conservation standards in attainment. While the permitting process of partners has been effective in focusing development on less sensitive lands and encouraging removal of impervious cover from sensitive areas, there is still much work to be done. Plans for large scale stream environment zone (SEZ) restoration, recent improvements in the development rights program, and implementation of the area plans will continue to help achieve SEZ restoration goals.

As summarized in Table 3-1 of the IEC, the plan area exceeds the amount of coverage allowed in land capability districts 1b and 2. This indicates that future redevelopment would be required to implement excess land coverage mitigation strategies and relocation of development from sensitive land consistent with the Regional Plan. Furthermore, redevelopment permitting would require these properties to incorporate modern site design standards, including landscaping, BMPs, and setbacks. These standards would likely result in the removal of existing land coverage for properties that are overcovered. Any projects on over-covered parcels implemented within the amended Area Plan would include excess land coverage mitigation. The coverage limits and policies in the proposed Area Plan would not be changed by the proposed amendments and the proposed developed allocation system would clarify allowable coverage for future projects. This would support attainment of TRPA Threshold Standards related to land coverage consistent with the limits allowed by the land capability and Individual Parcel Evaluation System systems. Therefore, the amendments will help to accelerate threshold gain through soil conservation.

D. Scenic Quality

The 2019 Threshold Evaluation found that scenic gains were achieved in developed areas along roadways and scenic resources along the lake's shoreline, the areas most in need of additional scenic improvement. Overall, 93 percent of the evaluated scenic resource units met the threshold standard and no decline in scenic quality was documented in any indicator category.

TRPA-designated scenic travel units within the Area Plan include those along State Route (SR) 89, SR 28, and Lake Tahoe. The proposed amendments to Area Plan policies and Implementing Regulations include clarification of existing scenic requirements, support for public art, and slightly more compact development within Town Centers, due to incentives for affordable housing, changes to setbacks, and allowances for tiny homes. Most of the existing design standards would continue to apply, which have been demonstrated to result in improved scenic quality and community character as older, non-conforming development is replaced with new buildings consistent with current standards (TRPA 2023). Therefore, it is reasonable to expect that redevelopment under the Area Plan, as amended, would continue to result in incremental improvements in scenic quality and a built environment that is consistent with the community character. Any subsequent projects carried out under the amended Area Plan would be required to make project-specific findings, as well as the Chapter 4 threshold findings and Chapter 37 height findings in the TRPA Code.

Consistent with the Regional Plan, the Area Plan allows for changes in the built environment through use of remaining allocations, use of newly authorized allocations, and implementation of design standards and guidelines and Code provisions that ultimately affect the form of new development and redevelopment. The Area Plan implements, and is consistent with, the provisions of the Regional Plan (such as increased density and height in community centers) intended to incentivize redevelopment, while protecting scenic resources. The Area Plan Area-wide Standards and Guidelines (Implementing Regulations, Chapter 3) are designed to guide development that would reflect the character of the area, protect viewsheds, and substantially improve the appearance of redevelopment projects.

E. Vegetation

The 2019 Threshold Evaluation found that vegetation in the Region continues to recover from the impacts of legacy land use. The majority of vegetation standards that are currently not in attainment relate to common vegetation in the Region. This finding is consistent with those of past threshold evaluations. As the landscape naturally recovers from the impacts of historic logging, grazing, and ground-disturbance activities over the course of this century, many of the standards are expected to be attained.

The plan area includes extensive undeveloped areas primarily characterized by the dominant vegetation habitat types of Sierran Mixed conifer, Jeffery pine (*Pinus jeffreyi*), white fir (*Abies concolor*), and perennial grasslands. The urban zones are along the shoreline and lower canyons surrounded by mixed conifer forests. The

proposed Area Plan amendments would not change land use classifications or allow new uses that would be more likely to require vegetation removal. These amendments would facilitate more concentrated redevelopment in existing Town Centers, which could reduce the potential for development on vacant lands containing native vegetation because a higher proportion of future growth would likely occur in already developed Core Areas. The proposed amendments would not alter or revise the regulations pertaining to native vegetation protection during construction. Consistent with existing conditions, individual projects implemented under the Area Plan are required to comply with Section 33.6, "Vegetation Protection During Construction," of the TRPA Code. Protective requirements include installation of temporary construction fencing, standards for tree removal and tree protection, standards for soil and vegetation protection, and revegetation of disturbed areas.

The proposed amendments would not result in direct tree or vegetation removal. Future projects are subject to project-level environmental review and the removal of native, live, dead, or dying trees must be implemented consistent with Chapter 61, "Vegetation and Forest Health," of the TRPA Code.

F. Recreation

The 2019 Threshold Evaluation found that land acquisition programs and the Lake Tahoe EIP have contributed to improved access and visitor and resident satisfaction with the quality and spectrum of recreation opportunities. Partner agencies have improved existing recreation facilities and created new ones, including providing additional access to Lake Tahoe, hiking trailheads, and bicycle trails. Today's emerging concerns are transportation access to recreation sites and maintaining quality recreation experiences as demand grows, concerns that may require the Region to revisit policies and goals for the recreation threshold standards.

The plan area contains numerous recreational opportunities within its boundaries. Tahoe City Public Utility District (TCPUD) and North Tahoe Public Utility District (NTPUD) manage recreation facilities throughout the plan area, including beaches, day-use areas, lakeside parks, hiking and biking trails, and boat launch facilities. Some of the other agencies and organizations that contribute to the development and management of recreational facilities within the plan area include the US Forest Service, California Tahoe Conservancy, California Department of Parks and Recreation, Tahoe Rim Trail Association, Tahoe Fund, and the County.

The proposed amendments do not alter regulations related to recreation or approve changes to existing recreation facilities that would affect access or visitor and resident satisfaction with the quality and spectrum of recreation opportunities.

Although the proposed Area Plan amendments could modestly increase the pace of construction within the plan area, they would not increase the potential for growth in the plan area beyond that which could already occur under the existing Area Plan. As such, because potential future growth in the plan area is limited, the demand for recreation facilities would not substantially increase. The existing Area Plan already includes appropriate strategies to provide additional recreation capacity consistent

with demand. The proposed Area Plan amendments do not approve any projects that would affect recreation demand or capacity and all future projects would be assessed for their impact on access to or the quality of existing recreation opportunities.

The approval of any project proposing the creation of additional recreational capacity would be subject to subsequent project-level environmental review and permitting and, if applicable, would be subject to the Persons At One Time (PAOT) system of recreation allocations administered by TRPA as described in Section 50.9, "Regulation of Additional Recreation Facilities," of the TRPA Code. No additional PAOTs are proposed by the amendment.

In addition, the existing Area Plan is consistent with applicable plans that guide existing and proposed recreation uses, which would be unchanged.

G. Fisheries

While the 2019 Threshold Evaluation found standards for fisheries to generally be in attainment, the standards focus on physical habitat requirements that may not reflect the status of native fish populations. Recent population surveys in Lake Tahoe suggest significant declines in native fish species in parts of the nearshore. Declines are likely the result of impacts from the presence of aquatic invasive species in the lake. While efforts to prevent new invasive species from entering the lake have been successful, mitigating the impact of previously introduced existing invasive species remains a high priority challenge. Invasive species control projects are guided by a science-based implementation plan. Ensuring native fish can persist in the region and the restoration of the historic trophic structure to the lake will likely require partners to explore novel methods to control invasive species and abate the pressure they are placing on native species. Climate change driven shifts in the timing and form of precipitation in the Region pose a longer-term threat to native fish that may need to be monitored.

BMPs required for project development would improve water quality and thus could contribute to improved riparian and lake conditions in receiving water bodies. The Area Plan amendments will not alter the resource management and protection regulations, Chapters 60 through 68 of the TRPA Code. Chapter 63, "Fish Resources," includes the provisions to ensure the projection of fish habitat and provide for the enhancement of degraded habitat. Development within the Area Plan could benefit the fisheries threshold through goals and policies aimed at the restoration of SEZs and implementation of BMPs.

H. Wildlife

The 2019 Threshold Evaluation found that 12 of the 16 wildlife standards are in attainment. Over 50 percent of the land area in the Tahoe region is designated for protection of listed special-status species. Populations of special interest species are either stable or increasing.

Future redevelopment projects in the Area Plan would be subject to project-level environmental review and permitting at which time the proposals would be required

to demonstrate compliance with all federal, state, and TRPA regulations pertaining to the protection of animal species in accordance with Section 62.4 of the TRPA Code. Therefore, implementation of the proposed amendments would not result in the reduction in the number of any unique, rare, or endangered species of animals, including waterfowl.

I. Noise

The 2019 Threshold Evaluation found that ambient noise levels in seven of nine land-use categories are in attainment with standards, but because of the proximity of existing development to roadways just two of seven transportation corridors are in attainment with ambient targets. Due to insufficient data, status determinations were not possible for nearly half of the single event noise standards. Limited noise monitoring resources were prioritized towards collecting more robust information to analyze ambient noise standards, which are more conducive to influence by management actions than are single event sources. TRPA continues to update and evaluate its noise monitoring program to ensure standards are protective and realistically achievable.

As discussed in the IEC, the Area Plan amendments would not alter noise policies and the adopted TRPA CNEL threshold standards, and Regional Plan noise policies would continue to be applied. Future projects within the plan area would be evaluated at a project level and Placer County or TRPA would enforce CNEL standards on a project-by-project basis pursuant to the noise limitations in TRPA Code Chapter 68, "Noise Limitations." Through the project-level analysis, TRPA or Placer County would only approve projects that can demonstrate compliance with TRPA's threshold standards (i.e., CNEL standards). The existing Area Plan CNEL standards are consistent with the TRPA's threshold standards; thus, future projects under the amendments would only be approved by TRPA or Placer County if they can demonstrate compliance with these CNEL standards.

III. Conclusion

Based on the foregoing: completion of the IEC, previously certified Area Plan EIR/EIS, and the findings made on January 25, 2017, TRPA finds the Area Plan, as amended by the project achieves and maintains the thresholds. As described above in more detail, the Area Plan as amended actively promotes threshold achievement and maintenance by (1) potentially incentivizing environmentally beneficial redevelopment, (2) requiring the installation of BMP improvements for all projects in the Area Plan, (3) requiring conformance with the Area-wide Standards and Guidelines that will result in improvements to scenic quality and water quality, (4) facilitating redevelopment in proximity to alternative modes of transportation to reduce VMT; and (5) incorporating projects identified in the County's PLRP to guarantee the assigned reductions necessary to meet water quality objectives. In addition, as found in Chapter 4 Findings 1 through 3 and the Chapter 13 Findings, no element of the proposed amendments interferes with the efficacy of any of the other elements of the Area Plan. Thus, the Regional Plan, as amended by the Amended

Area Plan, will continue to achieve and maintain the thresholds.

Chapter 13 Finding: The following findings must be made prior to amending the Area Plan:

1. Finding: The proposed Area Plan amendment is consistent with and furthers the goals and policies

of the Regional Plan.

Rationale: Regional Plan Land Use Policy 4.6 encourages the development of area plans that

supersede existing plan area statements and community plans or other TRPA regulations to be responsive to the unique needs and opportunities of communities. The proposed Area Plan amendments were found to be consistent with the goals and policies of the Regional Plan and would accelerate implementation of Regional Plan goals and policies, as described in the Area Plan Finding of Conformity Checklist (Attachment F to the staff summary), and as described in Chapter 4, Finding #1, above.

The finding of no significant effect based on the IEC can be found on the subsequent page.

CONFORMITY REVIEW

Review Stage: Final Review - After Local Adoption

Conformity Review Date: November 15, 2023

TRPA Reviewer: Jacob Stock

HEARING DATES

Lead Agency Approval: October 31, 2023

APC: December 6, 2023

RPIC: December 13, 2023

Governing Board: January 27, 2024

Appeal Deadline: N/A

MOU Approval Deadline: N/A

CHARACTERISTICS

Geographic Area and

Description:

The Placer County Tahoe Basin Area Plan addresses that portion of Placer County that is also within the jurisdiction of TRPA, encompassing an area of 46,162 acres (72.1 square miles) that includes the communities of Kings Beach/Stateline, Tahoe City, Carnelian Bay, Dollar Point, Sunnyside, Homewood, Tahoe Vista,

and Tahoma.

Land Use Classifications: Residential, Recreation, Mixed-Use, Tourist, Backcountry,

Conservation, Town Center

Area Plan Amendment Summary:

The proposed Area Plan amendments focus on process, policy, and code improvements to support appropriate lodging, mixed-use developments, and a variety of housing types, including workforce housing. The amendments also focus on diversifying land uses, with the intent of streamlining planning processes and increasing the diversity of business and housing types. Therefore, the proposed amendments are designed to implement recommendations outlined in the Economic Sustainability Needs Assessment, particularly those focused on process, policy, and code improvements that will facilitate and streamline revitalization projects in the Town Centers and workforce housing throughout North Tahoe. Tables 1 through 3 summarize the proposed amendments to the Tahoe Basin Area Plan (TBAP) policy document, implementing regulations, and height and building length limits in Town Centers, respectively.

Table 1. Summary of Proposed Policy Document Changes

Area Plan Element	Proposed Change	Summary of Change
Scenic Resources	Changed policy language in policies SR-P-3, SR-P-4, and added policy SR-P-10.	The policy amendments are intended to support the evaluation or reevaluation of scenic requirements to facilitate private reinvestment in Town Centers targeted for redevelopment and/or new development under the Area Plan. The intent is to generate development that improves environmental conditions, creates a more efficient, sustainable, and less auto-dependent land use pattern, and provides for economic opportunities.
Vegetation	Changed policy language in policy VEG-P-6 and added policy VEG-P-7	A new policy was added to support implementation of new or expanded hardening, green waste, and defensible space incentive and/or rebate programs.
Socio-Economic	Removed policy SE-P-5 and added policies SE-P-6 and SE-P-7	Former Policy SE-P-5 was removed from the Area Plan, which related to addressing the job-housing imbalance and providing housing at various affordable levels. Policies were added to support high-speed broadband infrastructure capacity and to support childcare facilities to meet the needs of the local workforce.
Land Use	Added policies LU-P-19, LU-P-20, LU-P-21, LU-P-22, and LU-P-23.	New policies were added to help achieve the objectives of the Placer County North Lake Tahoe Economic Development Incentive Program, which prioritizes development rights to the most community-benefitting projects that align with the Area Plan and Regional Plan. Policies were added to support the allocation and conversion of TRPA development rights, and to address land uses in the Town Centers. Policies were also included to support funding sources for a frontage improvement implementation plan to achieve area plan infrastructure such as sidewalks, curbs, and gutters, as well as implementing parking management plans and developing a reservation and conversion manual for development rights.
Mixed Use	Added policies MU-P-7, MU-P-8, and MU-P-9.	Policies were added to ensure the availability and development of mixed use, business park, and light industrial space, and to encourage potential residential components in such development.
Town Centers	Changed policy language in policy TC-P-5, and added policies TC-P-10, TC-P-11, TC-P-12, TC-P-13, TC-P-14, TC-P-15, TC-P-16, TC-P-17, TC-P-18, and TC-P-19.	New policies were added that would allow groundwater interception for mixed-use projects in Town Centers, supporting streamlined permit processes for mixed use projects, encouraging active ground floor uses, facilitating mobile vendors and food trucks in Town Centers, supporting the retention and expansion of businesses from the North Tahoe-Truckee region, supporting relocations of industrial and public utility land uses in

Area Plan Element	Proposed Change	Summary of Change
		the Town Centers to free up Town Center sites, as well as supporting parking maximums and other parking solutions.
Community Design	Added policies CD-P-14, CD-P-15, CD-P-16, and CD- P-17.	Policies to support and promote local artists and public art in North Tahoe were included.
Redevelopment	Added policies DP-P-5, DP-P-6, DP-P-7, DP-P-8, DP-P-9, DP-P-10, and DP-P-11.	New policies support and encourage adaptive reuse of vacant or underutilized retail and office space, support redevelopment of aging lodging products and encourage revitalization and creation of new high-quality lodging, allow multipurpose and flexible gathering spaces in private and public parking areas where events could be held during off-peak hours, expedite building permit processes, and support the development of new business innovation space and flexible light industrial spaces to diversify the local economy.
Housing	Added policies HS-P-8, HS-P-9, HS-P-10, HS-P-11, HS-P-12,	Additional policies were included to support streamlining affordable, moderate, and achievable housing, require that 50 percent of units converted from multifamily to condominiums be deed restricted to affordable, moderate or achievable housing, address the job-housing imbalance in the region, monitor and track housing data in the region, and support adaptive management of the short-term rental inventory to balance housing availability with short-term rentals as new lodging products are added to the region.

Table 2. Summary of Proposed Implementing Regulations Changes

Proposed Change	Summary of Change
Global changes to the Implementing Regulations to adopt and incorporate the TRPA Shorezone Ordinances.	The proposed amendments to the area plan are intended to reflect the changes made to Placer County Code Chapter 12, Article 12.32, "Lake Tahoe Shorezone" adopted by the Board of Supervisors in February of 2021. In August 2019, TRPA amended its Code of Ordinances, including shorezone regulations contained in Chapters 80 through 85.
Additions have been made to Chapter 1.04 Administration, Design Review Required for Commercial, Tourist Accommodation, and Multi-Family Dwelling Residential Development, and All Development in Designated Scenic Areas. Tourist Accommodation was added to the review requirement and an exemption was added.	Tourist Accommodation development has been added and would therefore be subject to Design Review. Multi-Family Residential Development with 15 units or fewer and not in a designated scenic area is exempt from the Design Review requirements under this part. Additionally, the process for Design Review has been modified to provide for lesser environmental review if project is exempt per applicable CEQA Guidelines exemptions or other California streamlining exemptions.
Residential Subdistrict Development Standards revised to reduce or remove setbacks, articulation, massing requirements, minimum lot widths, and minimum lot area.	Setbacks and articulation and massing requirements limiting building capacity would be removed and/or reduced. The proposed amendments would also include reduced minimum lot widths for some zone districts. The minimum lot area per dwelling unit in all residential zone districts would also be removed to accommodate smaller dwelling units. In seven of the 21 residential zone districts listed as Preferred Affordable, Moderate and Achievable Areas, the minimum lot size was reduced to 2,904 square feet to accommodate existing densities of 15 dwelling units per acre, and minimum lot widths were reduced to 25 feet to accommodate smaller lots that can promote smaller and more affordable houses, and which match existing lot sizes. Street side setbacks for corner lots are introduced. Side setbacks were also reduced to 5 feet minimum, except when adjoining another unit on

Proposed Change	Summary of Change
	adjacent property, which would require 0 feet on one side and 10 feet on the other to accommodate duplex-style developments.
Residential Subdistrict Land Use Regulations revised to change multiple family and multi-person dwellings and employees housing to an Allowed Use.	In the 21 residential zone districts listed as Preferred Affordable, Moderate, and Achievable Areas, where not otherwise allowed by right, the proposed amendments would allow multifamily and employee housing by right with no use permit if 100 percent of units are deed restricted to affordable, moderate, or achievable housing per TRPA Code of Ordinances Chapter 90: Definitions, for achievable, moderate-income, or affordable housing. This is intended to encourage development of multifamily housing by reducing costs and time delays associated with use permits and provide clear standards and requirements that must be met.
Mixed-Use Districts Tables 2.04.A-1 for Greater Tahoe City Mixed Use and 2.04.B-1 and North Tahoe East Residential Uses	Multifamily, multi-person, and employee housing would be allowed by right if 100% of the units are deed restricted to affordable, moderate, or achievable housing per TRPA Code of Ordinances Chapter 90: Definitions, for achievable, moderate-income or affordable housing. New attached single-family residential units of more than one unit, would only be allowed if single family encompasses 25% or less of the entire project or if at least 50% of the units are deed restricted to affordable, moderate or achievable housing per TRPA Code of Ordinances Chapter 90: Definitions, for achievable, moderate-income or affordable housing.
Mixed-Use Districts Tables 2.04.A-3 for Greater Tahoe City Mixed Use and 2.04.B-3 and North Tahoe East	Side and rear setbacks were reduced to 0 ft to encourage mixed use development in the Town Centers.
Table 2.04.A-4, Building Form Guidelines for the Greater Tahoe City Mixed-Use Subdistricts has been revised.	Revisions refine maximum building lengths for proposed structures in the mixed-use Town Center zone districts in Tahoe City where there were no existing maximums. These changes are proposed to assist in guiding building design and massing. See Table 2-3, below.
Table 2.04.B-4, Building Form Guidelines for the North Tahoe East Mixed-Use Subdistricts has been revised.	Revisions refine maximum building lengths for proposed structures in the mixed-use Town Center zone districts in Kings Beach. These changes are proposed to assist in guiding building design and massing. See Table 2-3, below.
Section 2.09, Overlay Districts, has been revised to clarify building height standards.	The proposed changes below incorporate clarifications on maximum height allowances in Town Centers and transition areas. All projects would still be required to comply with TRPA scenic requirements.
Land Use Regulations for Mixed-Use Subdistricts have been revised.	Amendments would allow food trucks and mobile vendors in Town Centers as an allowed use in compliance with Senate Bill (SB) 946. SB 946 established requirements for local regulation of sidewalk vending, legalizing sidewalk vending across the state. The proposed amendments would also offer an avenue to some types of land uses that currently require use permits to be pursued as an allowed use if below a defined maximum square footage. The following land uses would be eligible: Hotels, Motels, and other Transient Dwelling Units
	Eating and drinking facilities
	Building materials and hardware stores
	Repair services
	Additionally, the proposed amendments separate eating and drinking facilities into subcategories based on the Institute of Transportation Engineers Manual (Drinking Place, Fast Casual Restaurant, Quality Restaurant, High-Turnover Sit-Down Restaurant, and Fast-Food Restaurant without Drive Thru Window) to allow a specified maximum commercial floor area for each type of facility listed in the use table.

Proposed Change	Summary of Change
	The goal of these changes is to incentivize and streamline new lodging products, restaurants, retail, and local-serving land that would strengthen the year-round economic vitality of Town Centers and make the Implementing Regulations compatible with state law.
Section 3.01, "Permissible Uses," has been amended to incorporate Moveable Tiny Houses.	The proposed amendments refer to the countywide housing code amendments that were adopted by the Board of Supervisors on June 14, 2022, to allow for tiny houses as primary or accessory dwelling units as well as employee housing and tiny house communities. Moveable tiny houses and moveable tiny house communities would comply with definitions and development standards in Placer County's Zoning Ordinance.
Section 3.06 "Streetscape and Roadway Design Standards" and Table 3.06.A "Future Streetscape and Roadway Design Characteristics" have been revised.	The proposed amendments are designed to provide consistency throughout the Area Plan in identifying the requirements of street frontage improvements and to provide reference to other applicable standards contained in the area plan. The proposed amendments would require street frontage improvements of all development. Minor changes were made to the text to eliminate redundancy and provide clarity and consistency.
Section 3.07, "Parking and Access," has been revised to permanently adopt the parking pilot program for North Lake Tahoe Town Centers.	These changes support exemptions to parking and spur redevelopment in the Town Centers and support strategies identified in the Resort Triangle Transportation Plan (RTTP), which was approved by the TRPA Board of Supervisors in October 2020 and outlines strategies to increase mobility and reduce VMT in the Tahoe region. Changes include: Expanding eligible applicants to include all development/redevelopment proposed in Town Centers. Allowing further collaboration with tourist accommodation and residential uses to be considered.
	Removing the existing limitation in the area plan that project sites eligible for the exemption shall be 25,000 square feet or less.
	Expanding financial mitigations beyond establishment of a transit County Service Area Zone of Benefit to include financial support for transit service enhancements or other alternative transportation projects that support multi-modal transportation and/or strategies noted in the RTTP.
	Revised single-family and multi-family dwelling parking requirements.
Section 3.09, "Design Standards and Guidelines," has been revised to include exceptions for groundwater interception.	The proposed amendment exempts groundwater interception to projects proposing below-grade parking. When such exceptions are granted, the applicant must demonstrate that the project impacts have been mitigated to be equal to or better than the original impacts. This amendment is intended to facilitate the redevelopment desired in Town Centers and allow for below-grade parking, which reduces coverage. The proposed amendments would restrict new attached single family in Town Centers of over one unit, including townhomes and condominiums, if single family encompasses 25 percent or less of the entire project or if at least 50 percent of the single-family residential units are deed restricted to affordable, moderate, or achievable housing per TRPA Code of Ordinances Chapter 90: Definitions, for achievable, moderate-income, or affordable housing. The intent is to facilitate mixed use development and allow some single family to offset costs of workforce housing or commercial uses while still achieving the goals of the area plan and community.
Section 3.11, "Signs," has been removed.	Updates refer to the TRPA Code of Ordinance Chapter 38 "Signs." This amendment is intended to streamline signage requirements and will make the Basin Area Plan consistent with the TRPA Code of Ordinances, thereby eliminating the need for future amendments to the area plan should TRPA modify Chapter 38 of the Code of Ordinance.

Table 3. Updates to Building Length and Height in Town Centers

Proposed Change	Summary of Change		
Building Length – Kings Beach Town Center	Building length is reduced in MU-TOR from 350 ft to 200 ft. To ensure compatibility with residential zone districts, any buildings directly facing residential zone districts are proposed to be a maximum of 75 ft long.		
Building Length – Tahoe City Town Center	Building length transitions have been incorporated where there were none before to ensure consistency between Kings Beach and Tahoe City mixed use zone districts. To ensure compatibility with residential zone districts, any buildings directly facing residential zone districts are proposed to be a maximum of 75 ft long.		
Building Height – Town Centers	The maximum building height is currently measured in stories, which would change to feet (e.g., 56 feet instead of four stories). Maximum building heights have been incorporated for the special planning area overlay districts where there were none before.

Α.	CONTENTS OF AREA PLANS
----	------------------------

1.	General		\square NO	$\square N/A$
- .	U CHCI di	Ľ ILJ	\Box	

Citation 13.5.1

Requirement

An Area Plan shall consist of applicable policies, maps, ordinances, and any other related materials identified by the lead agency, sufficient to demonstrate that these measures, together with TRPA ordinances that remain in effect, are consistent with and conform to TRPA's Goals and Policies and all other elements of the Regional Plan. In addition to this Section 13.5, additional specific requirements for the content of Area Plans are in subsection 13.6.5.A. The Memorandum of Understanding (MOU) that is associated with an approved Area Plan is a separate, but related, approval and is not part of the Area Plan.

Notes

The Placer County Tahoe Basin Area Plan (TBAP) consists of applicable policies, maps, ordinances, and related materials that conform to the Regional Plan. These policies, maps, and ordinances were developed with the specific intent of conforming with the Regional Plan. Development of the TBAP included close collaboration between Placer County and TRPA staff, members of the public, and other stakeholders over approximately five years. TRPA determined that TBAP was in conformance with the Regional Plan and adopted the existing TBAP in December 2016.

The proposed amendments focus on process, policy, and code improvements to support appropriate lodging, mixed use, and workforce housing within the TBAP plan area.

2. R	elationship to Other Sections of the Code	\boxtimes YES	\square NO	□ N/A
------	---	-----------------	--------------	-------

Citation 13.5.2

Requirement

This section is intended to authorize development and design standards in Area Plans that are different than otherwise required under this Code. In the event of a conflict between the requirements in this section and requirements in other parts of the Code, the requirements in this section shall apply for the purposes of developing Area Plans. Except as otherwise specified, Code provisions that apply to Plan Area Statements (Chapter 11), Community Plans (Chapter 12), and Specific and Master Plans (Chapter 14) may also be utilized in a Conforming Area Plan. If an Area Plan proposes to modify any provision that previously applied to Plan Area

Statements, Community Plans, or Specific and Master Plans, the proposed revision shall be analyzed in accordance with Code Chapters 3 and 4.

Notes

The existing TBAP modified provisions that previously applied to Plan Area Statements and Community Plans consistent with Code Section 13.5.2. The proposed amendments include targeted revisions to include substitute development and design standards including standards related to setbacks, building length, lot size. These changes have been evaluated in an Initial Environmental Checklist consistent with the Tahoe Regional Planning Compact, Chapter 3 of the Code of Ordinances, and the rules of procedure.

B. Development and Community Design Standards

Area plans shall have development standards that are consistent with those in Table 13.5.3-1

COMPLETE STREETS

12. **Complete Streets**

 \boxtimes YES \square NO \square N/A

Citation 13.5.3

Requirement

Within Centers, plan for sidewalks, trails, and other pedestrian amenities providing safe and convenient non-motorized circulation within Centers, as applicable, and incorporation of the Regional Bike and Pedestrian Plan.

Notes

The TBAP conforms with the complete streets provisions of Section 36.5, and provides additional requirements to implement complete street concepts. The TBAP includes streetscape design standards (See TBAP Implementing Regulations Section 3.06), development standards that require complete street improvements with new development and substantial alteration of existing properties (see TBAP Implementing Regulations Sections 2.04.A.4.a; 2.04.B.4.a; 2.04.C.4.a; and 2.04.D.4.a), as well as design guidelines that promote street frontage designs that are compatible with complete streets concepts (see PCTBAP Implementing Regulations Section 2.04.A.5.a and 2.04.B.5.a). The TBAP amendments include additional polices to support funding sources for a frontage improvement implementation plan to achieve area plan infrastructure such as sidewalks, curbs, and gutters, as well as implementing parking management plans (See Implementing Regulations 3.06).

C. ALTERNATIVE DEVELOPMENT STANDARDS AND GUIDELINES AUTHORIZED IN AREA PLANS

1. Alternative Comprehensive Coverage Management System

 \square YES \square NO \boxtimes N/A

Citation 13.5.3.B.1

Requirement An Area Plan may propose a comprehensive coverage management system as an alternative to the parcel-level coverage requirements outlined in Sections 30.4.1 and 30.4.2, provided that the alternative system shall: 1) reduce the total coverage and not increase the cumulative base allowable coverage in the area covered by the comprehensive coverage management system; 2) reduce the total amount of coverage and not increase the cumulative base allowable coverage in Land Capability Districts 1 and 2; and 3) not increase the amount of coverage otherwise allowed within 300 feet of high water of Lake Tahoe (excluding those areas landward of Highways 28 and 89 in Kings Beach and Tahoe City Town Centers within that zone). For purposes of this provision, "total" coverage is the greater of existing or allowed coverage.

Notes

The TBAP does not propose an alternative comprehensive coverage management system. Future development of an alternative development comprehensive coverage management system would require an amendment to the TBAP and approval by TRPA.

2. **Alternative Parking Strategies**

Citation 13.5.3.B.2

Requirement

An Area Plan is encouraged to include shared or area-wide parking strategies to reduce land coverage and make more efficient use of land for parking and pedestrian uses. Shared parking strategies may consider and include the following:

- Reduction or relaxation of minimum parking standards;
- Creation of maximum parking standards;
- Shared parking;
- In-lieu payment to meet parking requirements;
- On-street parking;
- Parking along major regional travel routes;
- Creation of bicycle parking standards;
- Free or discounted transit;
- Deeply discounted transit passes for community residents; and
- Paid parking management

Notes

The TBAP amendments include parking strategies intended to reduce land coverage, make more efficient use of land, and encourage non-auto transportation modes (See TBAP Implementing Regulations 3.06 and 3.09.B.1.e). These changes support exemptions to parking and spur redevelopment in the Town Centers and support strategies identified in the Resort Triangle Transportation Plan, which was approved by the TRPA in October 2020 and outlines strategies to increase mobility and reduce VMT. Other specific parking strategies include, allowing groundwater interception in mixed use projects for underground parking options which follows TRPA Section 33.3.6.A.2 (see TBAP Implementing Regulations Section 3.07.A.3 and Table 3.07.A-1).

3. **Areawide Water Quality Treatments and Funding** Mechanisms

☐ YES ☐ NO ☒ N/A

 \boxtimes YES \square NO \square N/A

Citation 13.5.3.B.3

Requirement An Area Plan may include water quality treatments and funding mechanisms in lieu of certain site-specific BMPs, subject to the following requirements:

- Area-wide BMPs shall be shown to achieve equal or greater effectiveness and efficiency at achieving water quality benefits to certain site-specific BMPs and must infiltrate the 20-year, one-hour storm.;
- Plans should be developed in coordination with TRPA and applicable state agencies, consistent with applicable TMDL requirements;
- Area-wide BMP project areas shall be identified in Area Plans and shall address both installation and ongoing maintenance;
- Strong consideration shall be given to areas connected to surface waters;
- Area-wide BMP plans shall consider area-wide and parcel level BMP requirements as an integrated system;
- Consideration shall be given to properties that have already installed and maintained parcel-level BMPs, and financing components or area-wide BMP plans shall reflect prior BMP installation in terms of the charges levied against

- projects that already complied with BMP requirements with systems that are in place and operational in accordance with applicable BMP standards; and
- Area-wide BMP Plans shall require that BMPs be installed concurrent with development activities. Prior to construction of area-wide treatment facilities, development projects shall either install parcel-level BMPs or construct areawide improvements.

Notes

The existing TBAP does not include an area-wide water quality treatment programs in-lieu of site-specific BMPs. The proposed amendments do not propose any changes to water quality treatment programs in-lieu of site-specific BMPs. The proposed amendments do not change provisions regarding BMPs.

4. **Alternative Transfer Ratios for Development Rights**

☐ YES ☐ NO ☒ N/A

13.5.3.B.4 Citation

Requirement Within a Stream Restoration Plan Area as depicted in Map 1 in the Regional Plan, an Area Plan may propose to establish alternative transfer ratios for development rights based on unique conditions in each jurisdiction, as long as the alternative transfer ratios are determined to generate equal or greater environment gain compared to the TRPA transfer ratios set forth in Chapter 51: Transfer of Development.

Notes

The TBAP does not propose alternative transfer ratios for development rights within a Stream Restoration Plan Area. The proposed amendment would not change alternative transfer ratios for development rights.

D. DEVELOPMENT STANDARDS AND GUIDELINES ENCOURAGED IN AREA PLANS

 Urban Bear St 	rategy
-----------------------------------	--------

 \boxtimes YES \square NO \square N/A

Citation 13.5.3.C.1

Requirement

In Area Plans, lead agencies are encouraged to develop and enforce urban bear strategies to address the use of bear-resistant solid waste facilities and related matters.

Notes

The TBAP includes policies to manage bear populations. The proposed amendments do not change these provisions.

2. **Urban Forestry**

 \boxtimes YES \square NO \square N/A

Citation 13.5.3.C.2

Requirement In Area Plans, lead agencies are encouraged to develop and enforce urban forestry strategies that seek to reestablish natural forest conditions in a manner that does not increase the risk of catastrophic wildfire.

Notes

The TBAP includes vegetative policies to support forest health and maintain healthy vegetation in urban areas. A proposed amendment encourages implementation of new or

expanded hardening, green waste, and defensible space incentive and/or rebate programs for residential and commercial land uses to expand these existing efforts. The efforts would aim to promote healthy urban forest conditions in a manner that does not increase the risk of catastrophic wildfire as per TRPA Code 13.5.3.C.2.

F.	DEVELOPMENT OF	N RESORT RECREATION	PARCEIS

1. **Development on Resort Recreation Parcels**

☐ YES ☐ NO ☒ N/A

Citation 13.5.3.D

Requirement In addition to recreation uses, an Area Plan may allow the development and subdivision of tourist, commercial, and residential uses on the Resort Recreation District parcels depicted on Map 1 of the Regional Plan and subject to the following conditions:

- The parcels must become part of an approved Area Plan;
- Subdivisions shall be limited to "air space condominium" divisions with no lot and block subdivisions allowed;
- Development shall be transferred from outside the area designated as Resort Recreation; and
- Transfers shall result in the retirement of existing development.

There are no Resort Recreation parcels within the TBAP plan area.

F. **GREENHOUSE GAS REDUCTION**

1. **Greenhouse Gas Reduction Strategy**

 \boxtimes YES \square NO \square N/A

Citation 13.5.3.E

Requirement To be found in conformance with the Regional Plan, Area Plans shall include a strategy to reduce emissions of Greenhouse Gases from the operation or construction of buildings. The strategy shall include elements in addition to those included to satisfy other state requirements or requirements of this code. Additional elements included in the strategy may include but are not limited to the following:

- A local green building incentive program to reduce the energy consumption of new or remodeled buildings;
- A low interest loan or rebate program for alternative energy projects or energy efficiency retrofits;
- Modifications to the applicable building code or design standards to reduce energy consumption; or
- Capital improvements to reduce energy consumption or incorporate alternative energy production into public facilities.

Notes

The TBAP amendments do not propose any changes to Greenhouse Gas (GHG) Reduction Strategy programs or air quality policies, which is currently in compliance with TRPA Code (See TBAP Section 2.5). Proposed amendments for complete streets, modified parking requirements, and emphasis on redevelopment projects in core areas would limit vehicle trips necessary in Town Centers and may reduce GHG emissions from vehicle trips in the plan area. Section 3.07, Parking and Access, has been revised to permanently adopt the parking pilot program for North Lake Tahoe Town Centers and provide more flexibility to encourage alternative transportation modes.

G. **COMMUNITY DESIGN STANDARDS**

To be found in conformance with the Regional Plan, Area Plans shall require that all projects comply with the design standards in this subsection. Area Plans may also include additional or substitute requirements not listed below that promote threshold attainment.

1.	Develo	nment	in A	II A	reas
- •	DCVCIO			<i>^</i>	

imes YES	S □ NO	□ N/A
----------	--------	-------

Citation 13.5.3.F.1.a

Requirement All new development shall consider, at minimum, the following site design standards:

- Existing natural features retained and incorporated into the site design;
- Building placement and design that are compatible with adjacent properties and designed in consideration of solar exposure, climate, noise, safety, fire protection, and privacy;
- Site planning that includes a drainage, infiltration, and grading plan meeting water quality standards, and
- Access, parking, and circulation that are logical, safe, and meet the requirements of the transportation element.

Notes

The TBAP amendments proposes minor changes in site design standards set by TRPA. Tourist accommodations would now require a design review to be reviewed for design standards and multi-Family dwelling units of less than 15 units would be exempt from design review. Amendments are proposed to reduce setbacks in mixed-use subdistricts to accommodate duplex style houses and limit distance of buildings from roadways if the changes would allow the area to remain in compliance with TRPA scenic standards (See Implementing Regulations 3.09).

Proposed amendment to Section 3.09.B.E would allow groundwater interception for mixeduse projects if the project mitigates all groundwater impacts. Section 3.07, Parking and Access, of the Implementing Regulations is proposed to be modified to permanently adopt the parking pilot program for North Lake Tahoe Town Centers. The changes support exemptions to parking and spur redevelopment in Town Centers and is a strategy to reduce VMT in the region. The proposed amendments are in compliance with Code Section 13.5.3.F.1.a.

2. **Development in Regional Center or Town Centers**

X	YES	П	NO	N	ľΑ
\sim	ILJ	ш	IVO	 1 1 7	$\overline{}$

Citation 13.5.3.F.1.b

Requirement In addition to the standards above, development in Town Centers or the Regional Center shall address the following design standards:

- Existing or planned pedestrian and bicycle facilities shall connect properties within Centers to transit stops and the Regional Bicycle and Pedestrian network.
- Area Plans shall encourage the protection of views of Lake Tahoe.
- Building height and density should be varied with some buildings smaller and less dense than others.
- Site and building designs within Centers shall promote pedestrian activity and provide enhanced design features along public roadways. Enhanced design features to be considered include increased setbacks, stepped heights, increased building articulation, and/or higher quality building materials along public roadways.
- Area Plans shall include strategies for protecting undisturbed sensitive lands and, where feasible, establish park or open space corridors connecting undisturbed sensitive areas within Centers to undisturbed areas outside of Centers.

Notes

The TBAP proposed amendments would not alter plans for a comprehensive network of existing and planned pedestrian and bicycle facilities that connect properties within Centers to other multi-modal transportation options (See TBAP Figures 5-3 through 5-5). Proposed amendments clarify complete street and frontage requirements that incorporate alternative transportation options (See Implementing Regulations 3.06).

The TBAP amendments would continue to include project requirements to comply with the TRPA threshold scenic requirements on Highways and for views of Lake Tahoe (See Implementing Regulations 1.04).

Detailed design standards are included in the TBAP, which addresses pedestrian activity and enhanced design features along public roadways in Town Centers. The standards address building articulation, street frontage landscaping, stepped heights, and other building form requirements. The exact standards vary by Town Center.

The amendments do not change the density or coverage allowances in the plan area. The proposed amendments do not change special planning area requirements for open space, restoring disturbed SEZs, or creating open space corridors connecting undisturbed sensitive areas within Town Centers to undisturbed areas outside of Town Centers (See TBAP Implementing Regulations Sections 2.09.B.1, 3, and 5).

3. **Building Heights**

\boxtimes YES	\square NO	\square N	/Α
-----------------	--------------	-------------	----

Citation 13.5.3.F.2

Requirement • Area Plans may allow building heights up to the maximum limits in Table 13.5.3-1 of the Code of Ordinances

- Building height limits shall be established to ensure that buildings do not project above the forest canopy, ridge lines, or otherwise detract from the viewshed.
- Area Plans that allow buildings over two stories in height shall, where feasible, include provisions for transitional height limits or other buffer areas adjacent to areas not allowing buildings over two stories in height.

Notes

The TBAP amendments would not change building height allowances from the approved TBAP, which are within the limits allowed in Table 13.5.3-1 of the Code. Within portions of Town Centers designated as core areas and overlay districts, building heights would comply with TRPA Code Ordinance Chapter 37 Section 37.7.16 (see TBAP Implementing Regulations Section 2.09.A & B). Existing TRPA height standards in Chapter 37 of the TRPA Code would continue to remain in effect outside of Town Centers (see TBAP Implementing Regulations Section 3.10).

In addition, TBAP Implementing Regulations sections 2.09.A.1,2, and 3, and section 3.09.A require that buildings in Town Centers shall meet the findings listed in Section 37.7.16 of the TRPA Code of Ordinances; and the project must continue to comply with the Design Standards and Guidelines and Noise Standards of the Tahoe Basin Area Plan and TRPA scenic threshold standards.

4. **Building Design**

 \boxtimes YES \square NO \square N/A

Citation 13.5.3.F.3

Requirement Standards shall be adopted to ensure attractive and compatible development. The following shall be considered:

- Buffer requirements should be established for noise, snow removal, aesthetic, and environmental purposes.
- The scale of structures should be compatible with existing and planned land uses in the area.
- Viewsheds should be considered in all new construction. Emphasis should be placed on lake views from major transportation corridors.
- Area Plans shall include design standards for building design and form. Within Centers, building design and form standards shall promote pedestrian activity.

Notes

The TBAP includes detailed standards for building design and form that have been developed to ensure attractive and compatible development. These standards address compatibility with adjacent properties, including scale and design for noise, snow removal, aesthetic, and environmental purposes (see TBAP Implementing Regulations Section 3.09). Section 3.09.A.2 requires the consideration of viewsheds in the design of buildings, and the TBAP. The proposed amendments would reduce setback requirements in some locations in order to promote more compact Town Center redevelopment. These amendments were evaluated in an IEC and are consistent with Code Section 13.5.3.F.3.

The proposed amendments to the TBAP would also defer to the Lake Tahoe Shoreline Plan (TRPA Code Chapters 80 through 85) for design standards for shoreline structures.

5. Landscaping

 \boxtimes YES \square NO \square N/A

Citation 13.5.3.F.4

Requirement The following should be considered with respect to this design component of a project:

- Native vegetation should be utilized whenever possible, consistent with Fire Defensible Space Requirements.
- Vegetation should be used to screen parking, alleviate long strips of parking space, and accommodate stormwater runoff where feasible.
- Vegetation should be used to give privacy, reduce glare and heat, deflect wind, muffle noise, prevent erosion, and soften the line of architecture where feasible.

Notes

The existing TBAP includes landscaping standards and guidelines that require the use of vegetation on the TRPA Recommended Native and Adapted Plant List, except for accent plantings. The standards require consistency with defensible space requirements, and encourages the use of vegetation to create and separate spaces, give privacy, screen heat and glare, deflect wind, muffle noise, articulate circulation, inhibit erosion, purify air, and soften the lines of architecture and paving (See PCTBAP Implementing Regulations Section 3.09.C). Additional design standards and guidelines require parking lot landscaping to screen parking, break up long strips of parking, and accommodate stormwater (See PCTBAP Implementing Regulations Section 3.07.C).

The TBAP amendments include policies supporting the expansion of building hardening, green waste management, and defensible space incentive and rebate programs (See TBAP Veg-P-7 and Implementing Regulations Section 3.09.C).

6. Lighting

 \boxtimes YES \square NO \square N/A

Citation 13.5.3.F.5

Requirement Lighting increases the operational efficiency of a site. In determining the lighting for a project, the following should be required:

- Exterior lighting should be minimized to protect dark sky views, yet adequate to provide for public safety, and should be consistent with the architectural design.
- Exterior lighting should utilize cutoff shields that extend below the lighting element to minimize light pollution and stray light.
- Overall levels should be compatible with the neighborhood light level. Emphasis should be placed on a few, well-placed, low-intensity lights.
- Lights should not blink, flash, or change intensity except for temporary public safety signs.

Notes

The TBAP Section 3.09.D "Lighting" includes detailed lighting standards that are more stringent than required by TRPA Code section 13.5.3.D.5. The TBAP proposed amendments do not change the standards related to lighting.

\square YES \square NO \boxtimes N/A 7. **Signing – Alternative Standards** Citation 13.5.3.F.6 Requirement Area Plans may include alternative sign standards. For Area Plans to be found in conformance with the Regional Plan, the Area Plan shall demonstrate that the sign standards will minimize and mitigate significant scenic impacts and move toward attainment or achieve the adopted scenic thresholds for the Lake Tahoe region. Notes The proposed amendments would remove Section 3.11, "Signs" from the implementing regulations. The amended TBAP would not include subsititute sign standards and would instead defer signage standards to the TRPA Code Chapter 38 "Signs" to streamline future regional signage updates. 8. Signing – General Policies ☐ YES ☐ NO ☒ N/A Citation 13.5.3.F.6 Requirement In the absence of a Conforming Area Plan that addresses sign standards, the following policies apply, along with implementing ordinances: Off-premise signs should generally be prohibited; way-finding and directional signage may be considered where scenic impacts are minimized and mitigated. Signs should be incorporated into building design; When possible, signs should be consolidated into clusters to avoid clutter. Signage should be attached to buildings when possible; and Standards for number, size, height, lighting, square footage, and similar characteristics for on-premise signs shall be formulated and shall be consistent with the land uses permitted in each district. Notes The proposed amendments would remove substitute sign standards and would defer to the TRPA Code which is consistent with TRPA Code Section 13.5.3.F.6. Н. Modification to Town Center Boundaries 1. **Modification to Town Center Boundaries** \square YES \square NO \boxtimes N/A Citation 13.5.3.G Requirement When Area Plans propose modifications to the boundaries of a Center, the

Boundaries of Centers shall be drawn to include only properties that are developed, unless undeveloped parcels proposed for inclusion have either at least three sides of their boundary adjacent to developed parcels (for four-sided parcels), or 75 percent of their boundary adjacent to developed parcels (for non-four-sided parcels). For purposes of this requirement, a parcel shall be considered developed if it includes any of the following: 30 percent or more

modification shall comply with the following:

of allowed coverage already existing on site or an approved but unbuilt project that proposes to meet this coverage standard.

- Properties included in a Center shall be less than ¼ mile from existing Commercial and Public Service uses.
- the use of Properties included in a Center shall encourage and facilitate existing or planned transit stops and transit systems.

Notes The proposed amendments would not modify a Town Center boundary.

l.	Conformit	Y REVIEW PROCEDURES FOR AREA PLANS				
1.	Initiation of	f Area Planning Process by Lead Agency	⊠ YES	□NO	□ N/A	
	Citation 13.6.1					
Requirement The development of an Area Plan shall be initiated by a designated lead age. The lead agency may be TRPA or a local, state, federal, or tribal government. The may be only one lead agency for each Area Plan.					• ,	
Notes	Notes Placer County is the lead agency for development of the TBAP and is the lead agency seeking the amendments that are the subject of this application.					
2.	2. Initial Approval of Area Plan by Lead Agency ⊠ YES ☐ NO ☐ N/A					
	Citation 13.6.2					
Requirement If the lead agency is not TRPA, then the Area Plan shall be approved agency prior to TRPA's review of the Area Plan for conformance with the Plan under this section. government(s) and other responsible public agencies, as applicable. jurisdictional authority within the proposed Area Plan boundaries, and TRPA staff.

Notes

The Advisory Planning Commission (APC) will review the amendments on December 8, 2023.

4. Approval of Area Plan by TRPA

☑ YES □ NO □ N/A

Citation 13.6.4

Requirement

For Area Plans initiated and approved by a lead agency other than TRPA, the Area Plan shall be submitted to and reviewed by the TRPA Governing Board at a public hearing. Public comment shall be limited to issues raised by the public before the Advisory Planning Commission and issues raised by the Governing Board. The TRPA Governing Board shall make a finding that the Area Plan, including all zoning and development Codes that are part of the Area Plan, is consistent with and furthers the goals and policies of the Regional Plan. This finding shall be referred to as a finding of conformance and shall be subject to the same voting requirements as approval of a Regional Plan amendment.

Notes

The TRPA Governing Board is scheduled to review the TBAP and act regarding a finding of conformance on January 27, 2024. Following review by the Regional Plan Implementation Committee and the Advisory Planning Commission. The Governing Board will need to find the amendment to the TBAP in conformance with the Regional Plan for it to take effect.

J. FINDINGS OF CONFORMANCE WITH THE REGIONAL PLAN

In making the general finding of conformance, the TRPA Governing Board shall make the general findings applicable to all amendments to the Regional Plan and Code set forth in Sections 4.5 and 4.6, and also the following specific review standards:

GENERAL REVIEW STANDARDS FOR ALL AREA PLANS

1. Zoning Designations

☑ YES □ NO □ N/A

Citation 13.6.5.A.1

Requirement The submitted Area Plan shall identify zoning designations, allowed land

uses, and development standards throughout the plan area.

Notes

The TBAP Implementing Regulations identify zoning designations (Section 2.01), allowed land uses (Section 2.02 through 2.08), and development standards throughout the entire Plan area (Chapters 2 and 3). The proposed amendments make targeted changes to support affordable housing developments and redevelopment in Town Centers but do not change zoning designations in the plan area.

2. R	egional Plan Polic	ies ⊠ YES □ NO □ N/A
	Citation	13.6.5.A.2
	Requirement	The submitted Area Plan shall be consistent with all applicable Regional Plan policies, including, but not limited to, the regional growth management system, development allocations, and coverage requirements.
Notes	and was approve growth, allocation amendments do streamline grow	dments and its components align with the Regional Plan goals and policies ed by TRPA in January 2017. The amendments do not propose additional ons, or coverage beyond that anticipated in the Regional Plan. The propose to develop an allocation tracking management system to the and development management. This proposed system, once ld require TRPA approval.
3. R	egional Plan Land	Use Map ⊠ YES □ NO □ N/A
	Citation	13.6.5.A.3
	Requirement	The submitted Area Plan shall either be consistent with the Regional Land Use Map or recommend and adopt amendments to the Regional Land Use Map as part of an integrated plan to comply with Regional Plan policies and provide threshold gain.
Notes	amendments to	dments would not change the Regional Land Use Map or adopt the Regional Land Use Map as a part of an integrated plan to comply with plicies and attain and maintain threshold standards.
4. E	nvironmental Imp	provement Projects YES NO N/A
	Citation	13.6.5.A.4
	Requirement	The submitted Area Plan shall recognize and support planned, new, or enhanced Environmental Improvement Projects. Area Plans may also recommend enhancements to planned, new, or enhanced Environmental Improvement Projects as part of an integrated plan to comply with Regional Plan Policies and provide threshold gain.
Notes	_	nizes and supports new, planned, and enhanced Environmental rogram (EIP) projects and the amendments do not propose to change EIP
5. R	edevelopment	⊠ YES □ NO □ N/A
	Citation	13.6.5.A.
	Requirement	The submitted Area Plan shall promote environmentally beneficial redevelopment and revitalization within town centers, regional centers and the High Density Tourist District.

Notes

The TBAP amendments promote environmentally beneficial redevelopment and revitalization within the Tahoe City and Kings Beach Town Centers and by allowing for more compact redevelopment, while continuing to comply with TRPA's coverage, height, and density limits. Regional centers and High Density Tourist Districts do not exist in the plan area.

New policies added to TBAP support and encourage adaptive reuse of vacant or underutilized retail and office space, support redevelopment of aging lodging products and encourage revitalization and creation of new high-quality lodging, allow multipurpose and flexible gathering spaces in private and public parking areas where events could be held during off-peak hours, expedite building permit processes, and support the development of new business innovation space and flexible light industrial spaces to diversify the local economy.

6	Established Residentia	1 4 4 4 4 4

 \boxtimes YES \square NO \square N/A

Citation 13.6.5.A.6

Requirement The submitted Area Plan shall preserve the character of established residential areas outside of town centers, regional centers and the High Density Tourist District, while seeking opportunities for environmental improvements within residential areas.

Notes

The TBAP amendments would not alter the zoning of established residential areas. The amendments would modify setbacks, articulation, massing requirements, and lot widths and minimum lot sizes in Residential Subdistricts to accommodate smaller dwelling units. The amendments would not change density or potential growth rates of the plan area (See TBAP Implementing Regulations Sections 2.09.A & B and 3.04).

7. **Stream Environment Zones**

 \boxtimes YES \square NO \square N/A

Citation 13.6.5.A.7

Requirement The submitted Area Plan shall protect and direct development away from Stream Environment Zones and other sensitive areas, while seeking opportunities for environmental improvements within sensitive areas. Development may be allowed in disturbed Stream Environment zones within town centers, regional centers and the High-Density Tourist District only if allowed development reduces coverage and enhances natural systems within the Stream Environment Zone.

Notes

No changes related to the above requirement for Stream Environment Zones (SEZs) are proposed with these amendments.

8. **Alternative Transportation Facilities and Implementation**

 \boxtimes YES \square NO \square N/A

Citation 13.6.5.A.8

Requirement The submitted Area Plan shall identify facilities and implementation measures to enhance pedestrian, bicycling and transit opportunities along with other opportunities to reduce automobile dependency.

Notes

The proposed amendments would clarify requirements for complete streets, eliminate parking minimums for additions up to 1,000 square feet in Town Centers, and support frontage improvement implementation plans to achieve area plan infrastructure such as sidewalks, curbs, and gutters, as well as implementing parking management plans (See Implementing Regulations 2.09, 3.06, and 3.07.A.4). These changes support strategies identified in the Resort Triangle Transportation Plan (RTTP), which was approved by the TRPA Governing Board in October 2020 and outlines strategies to increase mobility and reduce VMT in the Tahoe region.

11. A	Alternative Transp	ortation		⊠ YES	□NO	□ N/A
	Citation 13.6.5.C.2					
	Requirement	The submitted Area Plan	shall promote walking,	bicyclin	g, transi	it use and

shared parking in town centers and regional centers, which at a minimum

shall include continuous sidewalks or other pedestrian paths and bicycle facilities along both sides of all highways within town centers and regional centers, and to other major activity centers.

Notes

The TBAP amendments would include a policy that encourages the creation of a funding source for a comprehensive frontage improvement implementation plan, to include the construction of sidewalks (See TBAP LU-P-21). The proposed amendments are also designed to provide consistency in the plan area in identifying the street frontage improvement requirements (See Implementing Regulations Section 3.06 and Table 3.06A). The targeted amendments to promote redevelopment in Town Centers would concentrate services in Town Centers and reduce VMT in the plan area.

12. **Promoting Pedestrian Activity**

 \boxtimes YES \square NO \square N/A

Citation 13.6.5.C.3

Requirement The submitted Area Plan shall use standards within town centers and regional centers addressing the form of development and requiring that projects promote pedestrian activity and transit use.

Notes

Detailed design standards are included in the TBAP, which address pedestrian activity and enhanced design features and transit use in Centers. The standards address building articulation, street frontage landscaping, stepped heights, and other building form requirements. The exact standards vary by Center. See for example, the Greater Tahoe City Mixed Use subdistrict standards in Implementing Regulations Section 2.04.A.4. The proposed TBAP amendments include a policy that encourages the creation of a funding source for a comprehensive frontage improvement implementation plan, to include the construction of sidewalks (See TBAP LU-P-21). The amendments are also designed to provide consistency in the plan area in identifying the street frontage improvement requirements (See Implementing Regulations Section 3.06 and Table 3.06A).

13. **Redevelopment Capacity**

 \boxtimes YES \square NO \square N/A

Citation 13.6.5.C.4

Requirement The submitted Area Plan shall ensure adequate capacity for redevelopment and transfers of development rights into town centers and

regional centers.

Notes

The existing TBAP incudes height, density, and coverage limits up to the maximum limits allowed by Chapter 13 of the Code of Ordinances. These standards would provide adequate capacity for redevelopment of the existing Town Centers and transfers of development from sensitive and/or outlying areas. The TBAP amendments do not propose changes to height, density, and coverage limits. New policies support and encourage adaptive reuse of vacant or underutilized retail and office space, support redevelopment of aging lodging products and encourage revitalization and creation of new high-quality lodging, allow multipurpose and flexible gathering spaces in private and public parking areas where events could be held during off-peak hours, expedite building permit processes, and support the development of new business innovation space and flexible light industrial spaces to diversify the local economy. These standards would provide

	development from sensitive and/or outlying areas.

The proposed amendments were initiated by Placer County and are not the result of an amendment to the Regional Plan.

3. Conformity Review for Amendments Made by TRPA to the Regional Plan that Affect an Area Plan - Timing

☐ YES ☐ NO ☒ N/A

13.6.7.B Citation

Requirement If TRPA approves an amendment to the Regional Plan that would also require amendment of an Area Plan to maintain conformity, the lead agency shall be given one year to amend the Area Plan to demonstrate conformity with the TRPA amendment. The Governing Board shall make the same findings as required for the conformity finding of the initial Area Plan, as provided in subsection 13.6.5; however, the scope of the Governing Board's review shall be limited to determining the conformity of only those amendments made by the lead agency to conform to the TRPA amendment. If the Governing Board finds that the other government fails to demonstrate conformity with the TRPA amendment following the one-year deadline, then the Board shall identify the policies and/or zoning provisions in the Area Plan that are inconsistent and assume lead agency authority to amend those policies and provisions.

Notes

The proposed amendments were initiated by Placer County and are not the result of an amendment to the Regional Plan.

ADMINISTRATION

Effect of Finding of Conformance of Area Plan 1.

 \boxtimes YES \square NO \square N/A

Citation 13.6.8

Requirement

By finding that an Area Plan conforms with the Regional Plan pursuant to the requirements of this chapter and upon adoption of an MOU pursuant to Section 13.7, the Area Plan shall serve as the standards and procedures for implementation of the Regional Plan. The standards and procedures within each Area Plan shall be considered and approved individually and shall not set precedent for other Area Plans.

Notes

TRPA and Placer County entered into an MOU for the TBAP consistent with Code section 13.7 on November 13, 2017. The existing MOU would remain in place with adoption of the proposed amendments.

2. **Procedures for Adoption of Memorandum of Understanding**

Tracking Number	Compliance Measure Description	Affected Threshold Categories	Affected by Action (Y/N)	Comments
11	Limits on land coverage for new development: Goals and Policies: Land Use Element and Code of Ordinances Chapter 30	WQ, Soils/SEZ, Scenic	Z	The TBAP incorporates the existing land coverage provisions in Chapter 30 of the TRPA Code as well as the provisions that allow for high capability lands in Town Centers and the Regional Center to be covered up to 70%. It also includes provisions to protect and restore SEZs, maximize opportunities to remove or mitigate excess land coverage, implement EIP projects (including area wide water quality and erosion control projects), and accelerate BMP implementation. No changes are proposed with the amendments.
12	Transfer of development: Goals and Policies: Land Use Element and Implementation Element	WQ, Soils/SEZ	N	The TBAP includes Goals and Policies from the Land Use Element and Implementation Element of the Regional Plan regarding the transfer of development. The proposed amendments are consistent with the goals and policies in the TBAP. No changes are proposed.
13	Restrictions on SEZ encroachment and vegetation alteration: <i>Code of Ordinances</i> Chapter 30	WQ, Soils/SEZ, Veg, Wildlife, Fish, Rec, Scenic	N	The TBAP amendments will not alter existing restrictions on SEZ encroachment and vegetation alteration in the TRPA Code of Ordinances, Chapter 30.
14	SEZ restoration program: Environmental Improvement Program.	WQ, Soils/SEZ, Veg, Wildlife, Fish, Scenic	N	The TBAP benefits the EIP's SEZ restoration program through policies and provisions for the protection and restoration of SEZs. No changes are proposed with the amendments.
15	SEZ setbacks: <i>Code of Ordinances</i> Chapter 53	WQ, Soils/SEZ, Veg, Wildlife, Fish	N	SEZ setback requirements in the TRPA Code of Ordinances, Chapter 53, IPES, Section 53.9, were not altered by the TBAP. No changes are proposed.
16	Fertilizer reporting requirements: <i>Code of</i> <i>Ordinances</i> Chapter 60	WQ, Soils/SEZ, Fish, Rec	N	The TBAP maintains the Resource Management and Protection regulations in the TRPA Code, including fertilizer reporting and water quality mitigation requirements. No changes to fertilizer requirements are proposed with the amendments.

Tracking Number	Compliance Measure Description	Affected Threshold Categories	Affected by Action (Y/N)	Comments
17	Water quality mitigation: <i>Code</i> of <i>Ordinances</i> Chapter 60	WQ, Soils/SEZ	N	The TBAP maintains the Resource Management and Protection regulations in the TRPA Code, including fertilizer reporting and water quality mitigation requirements. No changes to water quality mitigations are proposed with the amendments.
18	Restrictions on rate and/or amount of additional development	WQ, Soils/SEZ, Wildlife, Scenic	N	The TBAP contains policies outlining the restrictions on rate and/or amount of additional development. While the proposed amendments may modestly increase the pace of development in the place area, no changes to the amount of development are proposed.
19	Improved BMP implementation/ enforcement program	WQ, Soils/SEZ	N	The TBAP includes goals and policies related to the BMP implementation/enforcement program. No changes to BMP requirements are proposed with the amendments.
20	Increased funding for EIP projects for erosion and runoff control	WQ, Soils/SEZ	N	The TBAP amendments do not affect funding for EIP erosion and runoff control projects.
21	Artificial wetlands/runoff treatment program	WQ, Soils/SEZ	N	The TBAP does not alter the artificial wetlands/runoff treatment program. No changes are proposed with the amendments.
22	Transfer of development from SEZs	WQ, Soils/SEZ, Scenic	N	The TBAP provides incentives for property owners to hasten the transfer of development rights from sensitive lands, including SEZs, or outlying areas to Town Centers and the Regional Center where redevelopment is better suited and will have beneficial or or reduced adverse environmental impacts. No changes to this provision are proposed with the amendments.
23	Improved mass transportation	WQ, Trans, Noise	N	The TBAP facilitates mass transportation within existing transit routes, supporting increased usage of the transit system. No changes to mass transportation are proposed with the amendments.

		Categories	(Y/N)	
24	Redevelopment and redirection of land use: Goals and Policies: Land Use Element and Code of Ordinances Chapter 13	WQ, Soils/SEZ, Scenic	2	One of the main objectives of the TBAP is to encourage the environmental redevelopment of the built environment and implement the Goals and Policies in the Land Use Element of the Regional Plan. New redevelopment policies are proposed that would support and encourage adaptive reuse of vacant or underutilized retail and office space, support redevelopment of aging lodging products and encourage revitalization and creation of new high-quality lodging, allow multipurpose and flexible gathering spaces in private and public parking areas where events could be held during off-peak hours, expedite building permit processes, and support the development of new business innovation space and flexible light industrial spaces to diversify the local economy.
25	Combustion heater rules, stationary source controls, and related rules: <i>Code of Ordinances</i> Chapter 65	WQ, AQ	N	No changes are being proposed that would impact these Compliance Measures. The existing TRPA Code of Ordinance provisions will remain in effect.
26	Elimination of accidental sewage releases: Goals and Policies: Land Use Element	WQ, Soils/SEZ	N	
27	Reduction of sewer line exfiltration: Goals and Policies: Land Use Element	WQ, Soils/SEZ	N	
28	Effluent limitations	WQ, Soils/SEZ	N	
29	Regulation of wastewater disposal at sites not connected to sewers: <i>Code of Ordinances</i> Chapter 60	WQ, Soils/SEZ	N	
30	Prohibition on solid waste disposal: Goals and Policies: Land Use Element	WQ, Soils/SEZ	N

39	Land use planning and controls timber harvesting: <i>Code of</i> <i>Ordinances</i> Chapter 21	WQ, Soils/SEZ, AQ, Wildlife, Fish, Scenic	N	The amendments will not alter the effectiveness of compliance measures relating to timber harvesting or outdoor recreation.
40	Land use planning and controls - outdoor recreation: <i>Code of</i> <i>Ordinances</i> Chapter 21	WQ, Soils/SEZ, Wildlife, Noise, Rec, Scenic	N	

Tracking Number	Compliance Measure Description	Affected Threshold Categories	Affected by Action (Y/N)	Comments
41	Land use planning and controls ORV use: Goals and Policies: Recreation Element	WQ, Soils/SEZ, AQ, Wildlife, Fish, Noise, Rec, Scenic	N	Regional Plan Policy R-1.5 states that "Off- road vehicle (ORV) use is prohibited in the Lake Tahoe Region expect on specified roads, trails, or designated areas where the impacts can be mitigated." The TBAP did not expand ORV use, and no changes are proposed.
42	Control of encroachment and coverage in sensitive areas	WQ, Soils/SEZ, Wildlife, Rec, Scenic	N	The existing TRPA Code provisions remain in effect, and no changes are proposed with the amendments.
43	Control on shorezone encroachment and vegetation alteration: <i>Code of Ordinances</i> Chapter 83	WQ, Soils/SEZ, Scenic	Z	The proposed amendments to the TBAP are intended to reflect the changes made to Placer County Code Chapter 12, Article 12.32, "Lake Tahoe Shorezone" adopted by the Board of Supervisors in February of 2021. In August 2019, TRPA amended its Code of Ordinances, including shorezone regulations contained in Chapters 80 through 85. While the existing TRPA code provisions related to the Shorezone will remain in effect, the TBAP implementing regulations have been updated to adopt and incorporate the current TRPA Shorezone Ordinances.
44	BMP implementation program-shorezone areas: <i>Code of</i> Ordinances Chapter 60	WQ, Soils/SEZ	N

Attachment H Table of Amendments

Table A. Amendments to Policy Document

1.	Scenic Resources	Policy to support for: TRPA Scenic Evaluation to direct private reinvestment into Town Centers
2.	Vegetation	Policy to support for hardening, green waste, and defensible space incentive and/or rebate programs
3.	Socio Economic	Policies to support for: High-speed broadband infrastructure capacity; Childcare facilities to meet the needs of the local workforce; Mechanisms to prevent ongoing blight
4.	Land Use	Policies to support for: Reservation and conversion manual for the allocation and conversion of TRPA development rights; Funding sources for infrastructure such as sidewalks, curbs, and gutters; Parking management plans; Community-wide snow storage plan
5.	Mixed Use	Policy to support to encourage mixed use, and residential components in business park, and light industrial space
6.	Town Centers	Policies to support for: Active ground floor uses; Mobile vendors and food trucks in Town Centers; Retention and expansion of businesses from the North Tahoe-Truckee region; Relocate industrial and public utility land uses in the Town Centers to free up Town Center sites; Parking maximums and creative parking solutions
7.	Community Design	Policy to support for Local public art in North Tahoe
8.	Redevelopment	Policies to support for Adaptive reuse of vacant or underutilized retail and office space; Revitalize and create new high-quality lodging; Multipurpose and flexible gathering spaces in private and public parking areas; Expedite building permit processes; New business innovation space and flexible light industrial spaces
9.	Housing	Policies to support for Streamline affordable, moderate, and achievable housing; Require that 50 percent of units converted from multifamily to condominiums be deed restricted to affordable, moderate or achievable housing; Monitor and track housing data in the region; Adaptive management of the short-term rental inventory to balance housing availability (each new lodging unit = decrease in STR cap); Allow local worker overnight camping in public and private parking lots; Build local worker housing above public and private public parking lots

Table B. Amendments to Implementing Regulations

(Zoning/Development Standards)

Town (Center – Land Use Regulations Changes	
1.	Allow small-scale uses	Small projects that generate low VMT would be allowed (projects "screen out" from TRPA VMT threshold); may require Design Review
2.	Allow Food Trucks & Mobile Vendors	No Discretionary Use Permit; no Design Review; would require permits from Environmental Health & cannot be parked in roadways
3.	Prohibit Real Estate & Property Management Offices	Do not allow on ground floor highway frontage
4.	Allow Small Scale Hotels/Motels/TAUs	Allow if 20 units or less; may require Design Review
5.	Prohibit NEW SF units	Allow existing SF units; new SF units only allowed if part of mixed-use project or if SF are deed restricted for affordable/workforce housing
6.	Prohibit ADUs	Allow existing ADUs; new ADUs not allowed on highway ground floor frontage

7. Allow MF, Multi-person, Employee Housing	Allow projects if 100% of units are deed restricted for affordable/workforce		
Units	housing; may require Design Review		

Table C. Amendments to Implementing Regulations

(Zoning/Development Standards)

1.	Clarified Streetscape/Roadway Requirements	Added references to County Code related to roadway standards
2.	Clarified Frontage Improvements	Added language to provide consistency with County Code related to sidewalk, curb, gutter requirements
3.	Shorezone Requirements	Added references to County Code "Lake Tahoe Shorezone Ordinance"
4.	Building Length	Added language to provide consistency/clarity; decreased length for commercial buildings adjacent to residential zone districts
5.	Building Height	Maintain allowed height of 56'; eliminated reference to number of "stories" allowed
6.	Setbacks	Removed rear setbacks when adjacent to residential zones with substantial rear setback addresses constraints of small town center lots

7. Ground Water/Snow Storage	Allow ground water interception for below-grade parking; require snow storage for			
	projects			

Table D. Amendments to Implementing Regulations (Zoning/Development Standards)

Other A	Other Amendments							
1.	Community Service Zone Districts	 Allow SF, MF, multi-person, employee housing and encourage deed restricted housing Allow mobile vending uses Modify/modernize development standards to encourage affordable housing 						
2.	Recreation and Tourist Zone Districts	 Allow employee housing within 64-Acre Tract Zone District Allow residential uses within Granlibakken Zone District if 100% deed restricted 						
3.	West Shore Mixed-Use Zone Districts	Allow mobile vending within Tahoma, Homewood, and Sunnyside Zone Districts						
4.	Parking	 Modernize/reduce parking requirements for residential uses Eliminate parking requirements for projects that add under 1,000 SF in town centers Allow parking management plans for projects in town centers to provide parking flexibility if project contributes to transit and mobility and commits to participating in community-wide parking management program 						
5.	Tiny Homes	Added Movable Tiny House uses and development standards						
6.	Signage	Removed sign requirements and refer instead to TRPA requirements						

7. Various Revisions	Modified areas of miscellaneous cleanup, typos, etc.

Table E. Amendments to Implementing Regulations

(Zoning/Development Standards)

Housing Related Amendments	
Allow MF, Multi-Person, Employee Housing	Allowed if in a residential district currently designated as preferrable areas for workforce housing and if 100% deed restricted; may require Design Review
Modified/Modernized Development Standards within Residential Zone Districts	 Matched minimum lot size to existing density maximums Reduced minimum lot width to match existing development patterns and encourage smaller scale development Deleted minimum lot area per dwelling unit (excessive restrictions, rely instead on setbacks and coverage) Allow for zero-foot setbacks to accommodate duplexes Cleanup: Matched multiple family density with existing employee housing density in Fairway Tract Northeast

Table F. Public Comment Summary

1.	Changes Triggering Supplemental Analysis	CEQA Guidelines Sections 15162-15164 (i.e., the CEQA Guidelines sections
		governing the need for supplemental environmental review)
2.	Setbacks	What is changing, where reduced, and why

Attachment K TBAP Implementation Report

ATTACHMENT K

2023 PLACER COUNTY AREA PLAN IMPLEMENTATION REPORT:

Efforts to implement the Tahoe Regional Planning Agency Regional Plan, the Placer County Tahoe Basin Area Plan, and to achieve Tahoe regional goals

Purpose

This report is intended to summarize achievements made in implementing the Tahoe Regional Planning Agency Regional Plan (TRPA) and Tahoe Basin Area Plan (TBAP), and in meeting Tahoe regional goals. Specifically, the report outlines the County's implementation efforts related to transportation and mobility, housing, Total Daily Maximum Load (TMDL), and the TBAP goals and policies, implementation plan, and mitigation measures identified in the TBAP environmental impact report.

Transportation and Mobility

Vehicle traffic has been one of the most impactful tourism effects experienced by visitors and residents in the Lake Tahoe region for decades. The County utilizes the Tahoe Basin Regional Transportation Plan, Placer County Resort Triangle Transportation Plan, North Lake Tahoe Tourism Master Plan, North Lake Tahoe Transportation Demand Management Plan and the Transient Occupancy Tax (TOT) Investments Policy as a guideline for planning and funding a variety of transportation, mobility, and recreational amenities that serve visitors and the local community. In addition, Placer has supported the formation of a Tourism Business Improvement District (TBID) which facilities additional investments to transportation based on County and community priorities. Placer County continues to address transportation impacts on multiple fronts, addressing both day and overnight visitors, as well as community transportation and mobility needs. The County focuses on transportation and mobility inside and outside of the basin, particularly the connections in eastern Placer that span from Tahoe City and Kings Beach to ski resorts and areas outside the County including the Town of Truckee, recognizing that tourism and transportation impacts are regional and not just local. To minimize impacts from congestion, at least in part caused by visitors, the County dedicates significant TOT revenue and staff resources towards these efforts.

- Class 1 Trails- (FY 21-22, \$2.58 million and FY22-23 funding will go to the Board of Supervisors in Jan. 2023) Funding continues to be dedicated to trail planning and construction. For FY 22-23, \$3.9 million was dedicated to trail planning and construction throughout eastern Placer County, most of which was dedicated to the "Resort Triangle Trail" which will ultimately connect Tahoe City, Kings Beach, and Truckee on a class 1 paved trail.
- Winter Trail Operations- (\$97,000 in FY 21-22 and budgeted \$100,000 in FY 22-23)- This funds clearing snow from paved trails in the region which allows for recreation as well as multi-modal transportation options in the winter.

- Park and Ride Service-(\$63,000 spent in FY21-22 and \$122,000 budgeted for FY22-23. This funds
 winter service to ski resorts as well as summer service at peak times. Program goals include
 reducing traffic congestion by concentrating person trips to a higher occupancy option which
 results in a reduction in vehicle miles traveled or "VMT" by encouraging use of public transit and
 improving the overall visitor experience to the region.
- Micro transit Service-(\$1.9 million in TOT spent in FY21-22 and \$2.5 million budgeted for the service in FY22-23) On-demand shuttle service for Kings Beach, Tahoe Vista, Dollar Hill, Tahoe City and the West Shore to town-centers has been implemented. There is additional weekend service in the peak seasons between Olympic Valley and Tahoe City and from Northstar to Kings Beach. Program goals included linkages of local trips to regional services such as Tahoe Truckee Area Regional Transit (TART) and removal of barriers to the regional transit usage. This service has proven to be utilized by visitors and locals in lieu of personal vehicle trips. With shared rides, the services achieve a higher vehicle occupancy per trip and eliminate the need for individual parking in key economic areas.
- Pedestrian Safety and Town Center Traffic Flow— (\$140,000 for crossing guards in FY21-22 and \$250,000 budgeted for traffic mitigation and pedestrian safety in FY22-23)- Pedestrian crossing guards are placed at heavily trafficked crossing in Kings Beach and Tahoe City. The goals of this program include pedestrian safety and reduction in traffic congestion. Additional funding can be utilized for other traffic mitigation programs and signage.

In addition to the transportation initiative mentioned above, Placer County is committed to achieving a highly functional regional transit system, the Tahoe Truckee Area Regional Transit (TART), implemented for almost two decades. The Board of Supervisors adopted the TART Systems Plan, recently updated in 2016 as a guiding document to achieve regional transit services goals. The Department of Public Works is currently working on an update of the TART Systems Plan to incorporate changes in recent years, including micro transit.

Highlights of the operations include:

- o \$12 Million Annual Operating Budget
- o 14 Transit Buses
- o 34 Employees
- o 400,000+ Riders for the last Fiscal Year
- Operating Hours: 5:30 AM -12 AM Summer & Winter, 6:00 AM-10:00 PM fall and spring

TART has expanded significantly over the years. In the last five y, TART has accomplished the following:

- o Initiation of SR 267 spring and fall Service
- o Initiation of SR 267 year-round service to Truckee
- o Expanded night service to include non-peak season service until 10:00 pm
- Initiation of winter early morning connections to Northstar

- o Implementation of TART website (<u>TahoeTruckeeTransit.com</u>) upgrade offering interactive user experience
- Initiation of winter peak AM & PM winter 30-minute service Hwy 89 (Tahoe City Olympic Valley)
- Initiation of winter peak AM & PM winter 30-minute service Hwy 267 (Crystal Bay Northstar)
- Initiation of Park & Ride service in partnership with the Truckee North Tahoe Transportation Management Association (TNT-TMA); specifically State Route 89 and 267 connections from Truckee, Tahoe City Transit Center, and Tahoe Biltmore/Crystal Bay
- o Partnership with Town of Truckee and Truckee Tahoe Airport District to initiate year-round night service connection to Northstar and Olympic Valley from Truckee
- o "Free to the Rider" system implemented on TART

Housing and Town Center Redevelopment

One of eastern Placer's primary challenges is how and where to house our local workforce. Much like the rest of the Tahoe Basin area, Placer County is facing increased challenges of housing affordability as well as housing availability for the workforce. Approximately 80 percent of Placer's housing units are used as second homes or short-term rentals. The region has experienced declining availability in the existing housing supply alongside increasing housing costs due in large part to the purchase of housing for second home or short-term rental use in the Tahoe area. This affects the local workforce and results in negative impacts to the community, businesses, and tourism. Per United States Census data, the North Lake Tahoe Basin has seen a reduction of 2,000 full-time residents between 2000-2020. Many of them would like to move back to North Lake Tahoe: per the Mountain Housing Council 2021 Regional Housing Implementation Plan, 63 percent of those who work in the North Tahoe region and reside outside the region reported that they would prefer to live in the region. Nearly 48 percent of employees who work in the North Lake Tahoe region reported that it was hard to find a home with affordable rent while only 6 percent did not experience any problems finding or securing housing in 2021.

To address the lack of available and affordable housing, Placer County is working closely with the Tahoe Regional Planning Agency, the Tahoe Truckee Workforce Housing Agency, the Mountain Housing Council, and the business community to collaborate, research, and adopt innovative approaches to workforce housing.

Housing Programs:

In the past few years, the county has launched the following programs and initiatives which have proven to be successful in the region:

 Workforce Housing Preservation - The program is to provide homebuying assistance for members of the local workforce to deed restrict existing homes for local workforce occupancy. The County has invested \$1,100,000 in the program since it started in 2021 and continues its effort to advance homeownership opportunities and preserve housing for the local workforce. Seven deed restrictions have been purchased under the program to date, retaining homeownership and rental opportunities exclusively for the workforce in the East County. Currently, 43 applicants have qualified for the program, and the County will continue to grow this qualified list as the program continues to be funded.

 Lease to Locals - Funding for this program goes to incentivize homeowners to convert vacation homes to long-term rentals for members of the local workforce.

The Lease to Locals Program pays homeowners to lease their homes to local workers and encourages long-term rentals utilizing existing housing stock. The Lease to Locals program has successfully encouraged 34 properties to house 79 people as of early Summer 2023. Property rents have averaged \$2,481 per month and provided much-needed rental opportunities for the East County workforce.

STR Program – This program aims to create a balance between short term rental opportunities
in a diversity of lodging types to both support opportunities for residential lodging and
encourage new or redeveloped lodging in town centers, and to address nuisances related to
short term rental properties.

On January 25, 2022: The Placer County Board of Supervisors introduced an ordinance to repeal and replace the existing short-term rental ordinance, Chapter 9, Article 9.42 of the Placer County Code, which expanded the eastern Placer STR program. The ordinance was adopted on February 8, 2022, and took effect on March 11, 2022. To preserve residential compatibility, the County has implemented several components to the STR program. The expanded program implemented a maximum cap on STR permits of 3,900 in order to maintain housing supply and attainable housing pricing for the workforce. The ordinance also requires a TOT certificate for all STR properties. To preserve multifamily developments for long-term rentals, the ordinance limits one STR per multifamily property. The County also initiated a Board-directed stakeholder working group to gauge the efficacy and impacts of the program. Additionally, the County has developed a code compliance team housed out of its Tahoe City office. The County sees the compliance/enforcement arm as a key component to address complaints and ultimately reduce the impacts of STRs and tourism, and views the compliance team as educators about the program and about being a good "guest" neighbor, data gatherers on what is/not working, and on-theground resources to identify new or adapted mitigations that should be implemented (both within the parameters of the STR ordinance and in the County initiatives as a whole).

Housing Projects:

Between now and 2040, eastern Placer County anticipates a demand for between 300 and 600 single family units and between 700 and 1,700 multifamily units¹, depending on a low growth or high growth scenario. One project the County has been working on for a few years, Dollar Creek Crossing, is currently undergoing environmental review and is expected to start the project entitlement process in the fall. The project would include up to 150 units of rental housing and for-sale housing targeted to meet regional housing needs. Additionally, the County is working with a private developer on the construction of up to 76 units of rental workforce housing on a County-owned parcel in Kings Beach. This housing project is part of a larger mixed-use redevelopment project, 39° North. The project is expected to start environmental review in the fall.

Town Center Reinvestment and Incentives for New and Renovated Lodging Amenities

No new lodging products have been constructed in the Placer County portion of the Tahoe Basin since the early 1960s. Placer County is working from several angles to spur reinvestment and promotion of mixed-use projects that include lodging in its Town Centers.

In March 2020, Placer County commissioned a study with Bay Area Economics (BAE) to determine why new and renovated lodging projects were not progressing in the North Lake Tahoe basin, and how to incentivize new or renovated lodging products. The study pointed to high costs of development, complex and prescriptive regulatory requirements, and a lack of high-quality lodging examples that would encourage new development. The BAE study determined that additional incentives were needed to help spur development consistent with community and County environmental and economic development goals and to achieve prescribed environmental standards by redeveloping the outdated built environment. Staff revised the existing North Lake Tahoe Economic Development Incentive Program to include a TOT rebate that could be utilized for newly constructed or renovated hotel/motel lodging products. The amendment to that program was adopted in 2020 and further refined in February 2021 after subsequent conversations with hotel developers in the area.

Additionally, to further the County's Town Center reinvestment goals, the County is working with a private developer on the construction of a mixed-use project, 39° North (aka Kings Beach Center), on a County-owned site in Kings Beach. The project involves a hotel component which would include up to 176 hotel keys/units, 38 townhomes, and 76 units of rental workforce housing. The project is expected to start environmental review in the fall.

Funding Tourism Mitigation

¹ Placer County Housing Strategy & Development Plan, BAE, 2018.

Placer County continues to be progressive and aggressive in identifying areas where the County can mitigate the impacts of tourism and improve the region's infrastructure, specifically with Transient Occupancy Tax (TOT) funding generated by our region's lodging and creative funding mechanisms that support these improvements and mitigation measures.

A critical step toward this funding is the newly created North Lake Tahoe Tourism Business Improvement District (NLTTBID) that was approved by our Board of Supervisors on March 9, 2021. The NLTTBID is a benefit assessment district that provides specific benefits to payors by creating a revenue stream to fund marketing, promotions, and special events; visitor services and visitor centers operations; business support and advocacy; economic development and transportation; and sustainability and mitigation of tourism impacts programs for certain North Lake Tahoe businesses. Under this program, lodging, restaurant, retail, activities and attractions are all assessed to create the revenue source. The NLTTBID is expected to generate approximately \$6 Million on an annual basis for stewardship and promotion of travel and tourism specific to North Lake Tahoe. The NLTTBID has freed up approximately \$4.1 million of County TOT funds each year that previously went towards funding North Lake Tahoe tourism and marketing promotions. Placer County has committed to use that \$4.1 million to fund housing and transportation initiatives throughout the North Lake Tahoe/East Placer region.

Additionally, Placer County continues to invest TOT dollars in transit/transportation and tourism mitigation projects. Our region continues to experience significant impacts related to trash and litter in our town centers and beaches. To mitigate this, Placer County increased the capacity of trash bins and the frequency of trash service in Kings Beach and Tahoe City through a partnership with Clean Tahoe. For example, enhanced litter and trash cleanup service was implemented the past two years, funded by TOT (\$150,000 in FY21-22 and \$150,000 in FY22-23).

Total Maximum Daily Load (TMDL)

Lake Tahoe was named an Outstanding National Resource Water (ONRW) by the Environmental Protection Agency (EPA). Since 1968, Lake Tahoe's water clarity trends have been monitored and are now demonstrating improvement from its historically declining condition. To continue this current trend, a TMDL was developed for Lake Tahoe, which recognizes the maximum load of specific pollutants that the lake can absorb while still functioning normally. The Lake Tahoe TMDL has an endpoint target of mean annual water clarity depth of 97.4 feet, which was the measured clarity during the period from 1967 to 1971. In 2011, Lahontan completed a TMDL analysis for Lake Tahoe and determined that an increased emphasis should be placed on controlling very fine sediment particles, which are less than 16 micrometers in diameter, from the urban areas surrounding Lake Tahoe. The Basin Plan Amendments (BPA) was then assumed by Lahontan, altering their existing water quality protection mandates to being aimed at controlling fine sediment in the Basin. In addition to the BPA, Lahontan adopted an updated NPDES

Permit, which requires the local jurisdictions to participate in the LCCP. The LCCP is a process to plan for, track, monitor and report on pollutants of concern.

Monitoring & Reporting Program Annual Report

A. Pollutant Load Reduction Report

On September 10, 2021, the County finalized and submitted its updated Pollutant Load Reduction Plan (PLRP) to Lahontan. Another update will be prepared and submitted by September 30, 2023. The PLRP outlines how the County intends to meet the five-year NPDES Permit requirements for reducing pollutant loading to Lake Tahoe. The NPDES Permit required the PLRP to describe the County's strategy to reduce its baseline fine sediment particle (FSP) pollutant load by 34%, baseline total nitrogen (TN) pollutant load by 19% and baseline total phosphorus (TP) pollutant load by 21% by September 30, 2026. The revised Baseline Load Report submitted to Lahontan in September shows the updated Baseline Pollutant and Allowable Loads for Placer County. Based upon the County's Baseline Pollutant Load Calculations, and the above-mentioned Permit requirements, the County is required to obtain 898 load reduction "credits" by September 30, 2026. A "credit" is defined as approximately 200 pounds of fine sediment particles less than 16 µm in diameter.

Table 1 – Baseline Pollutant Loads

Jurisdiction	Baseline	FSP	Baseline	TN	Baseline	TP
	FSP (# of	Allowable	TN	Allowable	TP	Allowable
	particles)	Load	(Ibs/yr)	Load	(lbs/yr)	Load
Placer County	2.64X E19	1.74X E19	8860	7177	2280	1801

The County's strategy to demonstrate compliance with this requirement is to register drainage area catchments through the LCCP. This is done through modeling the catchment in the Pollutant Load Reduction Model (PLRM) Version 2.1. Once the analysis is completed in the PLRM, the results are then submitted through the Lake Tahoe INFO (LTInfo) platform for registration. Placer County has a total of 567 credits, which includes 321 credits for registered BMP catchments within Kings Beach, Lake Tahoe Park, Lake Forest Highlands, and West Sunnyside Project areas. Additionally, 246 credits have been secured for the road registration for the Dollar Point to Tahoe Vista portion of the County.

The Dollar Point to Tahoe Vista road registration was submitted for a 5-year registration in 2017. It was updated and registration resubmitted and accepted in 2022. Additionally, the road condition score included in the submitted registration was a 3.0 compared to the 3.5 which was originally registered. The change in road condition score was a result of further monitoring and to provide a factor of safety for future years while still being able to meet the credit requirement for the permit term.

Table 2 – County's Registered Catchments

Catchment Area	Credit	WY22	Registration Type	Registration Establishment Date
	Potential			
Kings Beach	174	174	Treatment BMP	Oct 1, 2015
Lake Tahoe Park	34	34	Treatment BMP	Oct 1, 2015
Lake Forest Highlands	30	30	Treatment BMP	Oct 1, 2015
West Sunnyside	83	83	Treatment BMP	Oct 1, 2015
Dollar Point — Tahoe Vista	283	246	Road Operations	Oct 1, 2022

The LCCP requires that the condition of all treatment BMPs be shown to meet a 2.5 or higher BMP RAM score during the spring/summer period for the Urban Implementer to declare all expected credits in a given water year. As shown in Table 2, all key, essential, and supporting BMPs in the registrations were inspected and maintained according to their respective registration memos.

Tables 3 and 4 show the 2022 BMP RAM scores for registered treatment BMPs and Road RAM scores for registered roads in the County, respectively.

Table 3 – County's Registered Treatment BMP RAM Scores

BMP ID	, 1 -		Latest Score Date	3	Water Quality Importance

Table 4 – County's Registered Road RAM Scores

	Expected Condition Score	Average of all Observed Scores		Assessments	Assessments	Achieving Expected Conditions
Placer	3.0	3.6	WY2022	80	84	Yes
Roads						
	3.0	3.9	Fall/Winter	20	21	
	3.0	3.8	Fall/Winter	20	21	
	3.0	3.4	Fall/Winter	20	21	
	3.0	3.3	Summer	20	21	

As an active partner in the Tahoe TMDL, County staff continues to participate in the LCCP and the associated Tools Improvement Project. The current PLRM 2.1 version was used to register the Kings Beach, Lake Tahoe Park, Lake Forest Highlands, and West Sunnyside treatment BMP registrations and the Dollar Point to Tahoe Vista road registration.

The County also plans to implement the TMDL tools as designed for road maintenance monitoring and will continue to play a critical role in understanding and quantifying the benefits from these winter maintenance practices. With collaboration and assistance with partner agencies such as Caltrans and El Dorado County, the County continues to review TMDL strategies that both make sense and are cost effective.

<u>Tahoe Basin Area Plan Implementation</u>

As outlined in this report, there have been many achievements in implementing the Tahoe Basin Area Plan's policies related to transportation, mobility, housing, and TMDL efforts that are currently underway.

As such, a Local Government Coordination Report (Report) was developed by TRPA staff to inform the TRPA Governing Board on progress being made toward the development, adoption, and implemention of the TBAP and associated permit delegation Memoranda of Understanding (MOU). Specifically, the Report was prepared, pursuant to TRPA Code, Section 13.8: *Monitoring, Certification, and Enformcement of Area Plans*, to provide the Governing Board a recommendation to either certify, ceriffy with conditions or revoke all or part of the a permit delegation MOU based on audit results. Based on those results the TBAP was recertified by the TRPA Governing Board in December of 2022.

The recertification was determined based on the following. TRPA as a regional agency guides and oversees the implementation of its adopted Regional Plan, Local jurisdication through adopted Area Plans play a key role in meeting local community needs while accomplishing the broader goals for the Tahoe Region. The Regional Plan specifies TRPA will periodically review the implementation of adopted Area Plans and associated permit delegation MOUs for continuing conformation with the Regional Plan. As such, and as outlined in the Report, during 2021, 233 project applications were submitted to TRPA and 148 project applications were submitted to Placer County within the Placer County Tahoe Basin Area Plan. During the review of the project issued by Placer County on behalf of TRPA, TRPA found that the audit of those projects were in compliance with the MOU, and determined that the pursuant to TRPA Code, Section 13.8.4: Effect of Annual Review; Annual Report, that the Governing Board recertify Placer County's MOU.

<u>In addition to the 148 project applications submitted to Placer County, the Report highlighted the following Area Plan projects:</u>

- The Tahoe City Lodge Project, a redevelopment project in Tahoe City, has been approved and the original building demolished in 2021. The applicant delayed construction in 2021/2022 due to material and labor costs. An extension of time for the project was approved in October 2022. In In July of 2023, construction has commenced with the installation of foundations, vesting the permit.
- 39 North (formerly the Kings Beach Center Project), proposes the redevelopment of two noncontiguous project sites in Kings Beach, totaling 5.15 acres. The proposed project includes a 153 key hotel, 36 market-rate townhomes, 10,500 square feet of retail and restaurant space and a 74unit deed restricted achievable multi-family development. The project description is being refined in anticipation of a Notice of Preparation and scoping for a joint EIR/EIS in 2023.
- The Boatworks Redevelopment project is a joint EIR/EIS mixed-use project in Tahoe City. The
 project proposal includes 80 to 85 hotel units, 31 residential condominiums, conference facilities,
 full-service spa, swimming pool/hot tubs, fitness center, food and beverage outlets and retail
 space. The project description is being refined in antiicpation of a Notice of Preparation and
 scoping in 2023.
- Planning for the proposed Dollar Creek Crossing Affordable Housing Project, a multi-family affordable housing project, is underway with an application submittal anticipated in winter 2023.

- Lake View Development is a mid-size mixed use project including 10 market rate multi-family units, 10 tourist accommodation units and 1,455 square feet of professional office in Kings Beach. The project is undergoing a joint review with Placer County and TRPA.
- Tahoe Basin Area Plan Updates to accelerate the production and supply of affordable-achieveable housing in the North Tahoe-Placer area were adopted in February 2021.
- Current Tahoe Basin Area Plan updates are under review with the intent of providing more development incentives and flexibility to encourage economic redevelopment and housing in the North Tahoe-Placer area.
- <u>Several Placer County Department of Public Works projects that support Area Plan</u> implementationwere either started or completed in 2020/2021, including:
 - SR 28/Hwy 267 Roundabout project/Griff creek watershed restoration (in design)
 - o <u>SR 89 / Fanny Bridge Revitalization (second phase with roundabout at the "wye", Fanny</u> bridge replacement and complete streets improvements) (ready for construction)
 - o <u>TART Connect Micor-shuttle service pilot program was successful and extended for</u> another year.
 - o Free TRAT services pilot program was successul and extended for another year.
 - Resort Triangle Transportation adopted by Board of Supervisors as an ordinance to expand parking waiver and exemtpion opportunities with project contribution to transit, shared parking, etc.. Implementation of Adaptive Corridor Management and Parking Management continues.
 - o Dollar Creek Shared Use Trail (completed)
 - North Tahoe Bike Trail segments 1 and 3 (in design)
 - West Shore Pedestrian Improvements (completed)
 - Lakeside Trail Commons Beach to Fanny Bridge (in design)
 - Kings Beach Water Quality Project Secline Beach Project (in construction)

With regards to TMDL Load Reduction and Four-year Recertification, the Lake Tahoe TMDL Program 2022 Performance Report summarized TMDL Program accomplishments through 2021 and found that all local jurisdictions were meeting or exceeing the credit targets for 2021 further supporting the TRPA's Governing Boards action to recertify the TBAP. This recertification was based on the Lake Tahoe TMDL Program that is adminstered by the California Lahontan Regional Water Quality Control Board (Water Board) and Nevada Division of Enviornmental Protection (NDEP), together with Total Maximum Daily Load (TMDL) Management Agencies. The program is a long term process that guides efforts to restore Lake Tahoe's clarity to depths of nearly 100 feet. To meet this goal, the program aims to reduce fine sediment particles by 65 percent; total nitrogen loads by 10 percent; and total phosphorous loads by 35 percent. To ensure Area Plans are in comformance with the Lake Tahoe TMDL, TRPA Code, Section 13.8.5: Four-Year Recertification, requires TRPA use catchment data and all reports to inform the four-year Area Plan recertification. Specifically, Placer County exceeded the 2021 Credit Target of 554 by 13 credits, with a credit award of 567.

Source: Lake Tahoe TMDL Program 2022 Performance Report

The Report aslo addressed Housing, and acknowledged that in 2020, TRPA formed the Tahoe Living: Housing and Community Revitalization Working Group. This committee, made up of members from local agencies and organziations, housing developers and community members, has and continues to develop policy recommendations to address critical housing issues and futher the availability of affordable, moderate-income, and local achievable workforce housing.

Policy Document - Implementation Plan

In compliance with the TBAP goals and policies, several agencies have accomplished substantial progress or completion of the projects shown in the table below. The table reflects a status update on agencies' projects that are included in the TBAP Implementation Plan. (Updated as of 9/7/23).

Based on responses from lead or coordinating agencies, the following status updates were provided. Projects not shown in the table are pending a status update from the lead agency.,

Project status based on repsonses from agencies:

Completed: 21 In progress: 11

Not started: 9
Abandoned: 2

Completed Projects

Completed Projects						
C	onservation Projects – Water Quality, Soil Conservation and Stream Environment Zones	1				
Project Name	Project Description	Lead Agency				
West Sunnyside Water Quality Improvement Project, Phase I & II	The West Sunnyside area includes steep hillside terrain and a lack of improved drainage conveyance facilities. The project has re-evaluated and investigated effective ways to maximize source control, decrease potential for erosive surface flows, and infiltrate/treat stormwater runoff. The project includes rock-lined channels, piped drainage systems, asphalt dike, concrete curb and gutter, and vegetation. Drainage treatment facilities include sediment traps and detention basins. Phase 1 of the West Sunnyside project includes a large treatment basin for detaining storm water from the Talmont Subdivision. The second phase will include source control effort directly in the Talmont Subdivision to reduce erosion and storm water volume. Construction for Phase 1 is complete and Phase 2 is scheduled to be constructed in 2015 pending available funding.	Placer County				
Griff Creek Watershed Water Quality Project	Due to development in the urbanized area of Kings Beach, the once braided stream channel system with natural flood control zones has been forced into a single channel that has resulted in significant bank erosion and incised channels. In addition, the watershed currently has no urban water treatment facilities and the untreated urban runoff is contributing to nutrient sediment and deposition into the creek's outlet, Lake Tahoe.	Placer County				
Homewood Erosion Control Project	This project involves treatment of stormwater and slope stabilization through revegetation, rock slope protection, retaining walls, curb and gutter, and sediment basins. Catchment and treatment of sediment is needed. The project began in 2006 with an expected completion date of 2017. The project is located at San Souci Terrace and Sacramento Avenue between Fawn Street and Tahoe Ski Bowl.	Placer County				
Soil Erosion Control Planning- Water Fund	This project is funded by a grant from the CTC. The original project was for erosion control measures at the North Tahoe Regional Park. Due to certain aspects of the original scope, the project was changed to identifying high priority areas needing erosion control measures. Three areas were identified: Carnelian Woods Tanks Road, Kingswood West Tank Site, and the Dollar Cove area there the District's Dollar Main sere lift station is located.	NTPUD				
	Conservation Projects - Scenic Routes					
Wayfinding Sign Program	Implement the Placer County Wayfinding Signage Plan to improve the visitor experience and reduce auto trips.	Placer County				
	Conservation Projects – Vegetation and Wildfire Hazards					
North Tahoe Public Utility District Hazardous Fuels Treatment at North Tahoe Regional Park	The NTPUD has developed a forest management plan and implements and carries out fuel reduction on forested areas on District-owned properties.	NTPUD				
	Transportation Projects					
Dollar Creek Shared Use Trail	This project will result in the construction of a paved 10-foot wide and 2.2 mile long shared-use trail through the Dollar and Firestone properties extending the existing TCPUD multi-use trail (that currently terminates near the intersection of Dollar Drive and SR 28) north to the end of Fulton Crescent Drive. This project is the southern segment of an approximately 8-mile long North Tahoe Bike Trail corridor identified by TRPA to link Tahoe City to Kings Beach. Other connections off of this facility have also been proposed to extend northward to Northstar and Truckee.	Placer County				
Homewood Bike Trail Project	TCPUD has proposed improvements for the construction of 4,175 linear feet of Class I trail along the west side of SR 89 from Fawn Street to Cherry Street, with a short 885 linear-foot Class 3 connection between Silver Street and Trout Street along Sans Souci Terrace. The Class I bike trail will be a paved eight-foot wide path with two-foot compacted shoulders. This section requires a new bike and pedestrian bridge over Madden Creek and includes a portion of trail along the frontage of the Homewood Mountain Resort parking lot. The Class III connection along Sans Souci Terrace is a shared motor vehicle/bicycle route that will be indicated with a bike route sign. TCPUD is also leading the effort to fill the "Homewood Hole," a 0.9-mile gap in the west shore between Cherry Street and Fawn Street. Portions directly adjacent to the state highway are planned for construction as part of the Lakeside erosion project, while another portion is planned for construction as part of development of the Homewood Master Resort.	TCPUD				

Kings Beach Commercial Core Improvement Project	In addition to the SR 28 improvements noted above, the Kings Beach Commercial Core Improvement Project will result in the construction of sidewalks along SR 28 between SR 267 and Beaver Street, as well as along portions of Brook Avenue, Steelhead Avenue, Minnow Avenue, Fox Street, Coon Street, Deer Street, Secline Street, and Chipmunk Street.	Placer County		
	Recreation Projects (Also See Trail Projects in the Transportation Section)			
Tahoe Vista Recreation Area (TVRA) Phase 2	The North Tahoe Public Utility District acquired a 3.6 acre parcel with financial assistance from the California Tahoe Conservancy for completion of Phase 2 of the project. Phase 2 will include the addition of parking (24 vehicle with trailer pull-through spaces and 41 vehicle spaces, 65 total), bicycle trails, a bus pullout and transportation shelter, infrastructure for future 2,200 square foot concession space and restrooms, and landscaping. TVRA cannot be fully utilized by the limited parking that was permitted and constructed on the lakeside of the project. The project was approved with the understanding that project support parking would be built on the westerly side of National Avenue to serve the parking needs of the boat launch facility.	NTPUD		
	Public Service and Facilities Projects			
Zone I Water Storage Tank Project	This is a project in Kings Beach to install a new 1.3 million gallon water tank in Zone I to help meet storage deficiency in Zone 1, and install a booster pump station to boost potable water from Zone I to the Zone 2 water tank.	NTPUD		
Carnelian & Dollar Sewer Pump Station Design - Phase I	This project is for a rehabilitation design of the Carnelian and Dollar Main Sewer Pump Stations. Due to the direct relationship between the two stations, they need to be designed together, though construction will be done separately.	NTPUD		
Brockway ECP Sewer/Water Improvements	Relocations of some utilities is required due to the improvements proposed as part of the Brockway Erosion Control Project. Additionally, replacement of some District facilities due to their age and close proximity to the proposed improvements is also necessary.	NTPUD		
Base Facilities Site Design	This project is necessary to replace outdated buildings and involves the design of an office building to house District operations, recreation, engineering, and administrative staff.	NTPUD		
Dollar Pump Station Rehabilitation	This project involves the replacement of an intertie valve between the Dollar Main and Dollar Addition wet wells, demolition of HVAC appurtenances, installation of VFD, demolition of Q-cells and appurtenances, removal and replacement of the #3 pump discharge valve, installation of pressure tranducers, grouting floor voids, stabilizing the retaining wall, and SCADA integration.	NTPUD		
Kings Beach Watershed Improvement	This project involves the replacement of water and sewer mains as part of the Kings Beach Commercial Core Improvements and Watershed Improvement Projects.	NTPUD		
New Kings Beach Water Storage - Zone 1	This project will increase storage in the system, and increase system redundancy and operating efficiencies. It involves installing a new 1.3 million gallon water tank in Zone 1 to help meet storage deficiency in Zone 1, and install a booster pump station to boost potable water from the Zone 1 to the Zone 2 water tank.	NTPUD		
Rim Drive Emergency Water Main Replacement Project	This project will complete the emergency water main replacement project that was done in 2011 by replacing the lower portion of Rim Drive. On-going replacement of water mains increases system reliability and reduces leakage.	NTPUD		
Dolly Varden Water Main Replacement Project	This project will allow the District to abandon the mid-block water main between Cutthroat and Dolly Varden, and involves the replacement of water mains in Dolly Varden Avenue from Chipmunk to SR 267. The ongoing replacement of water mains increases system reliability and reduces leakage.	NTPUD		
Carnelian to Watson Creek Water Main Replacement	This area has deficient water pressure to support current needs and fire suppression. The project involves the replacement of approximately 2,400 linear feet of undersized water mains and the installation of fire hydrants along the south side of SR 28 from Carnelian Bay to Watson Creek.	NTPUD		
Tahoe Vista Recreation Area Phase 2	This is the second phase of Tahoe Vista Recreation Area Improvements. The project involves design and construction for the north-side parking area.	NTPUD		

In Progress Projects

Conservation Projects – Water Quality, Soil Conservation and Stream Environment Zones		
Project Name	Project Description	Lead Agency
Pollution Control Management Measures	New High Efficiency Street Sweepers (5.77%) Additional projects and measures will be identified in future Pollutant Load Reduction	Placer County

	Plans based on TMDL science and methodology. Details for each TMDL Project are described below. (Something seems to be missing here, there is nothing described below).	
Kings Beach Water Quality and SEZ Improvement Project	The Kings Beach Residential area includes a highly urbanized area with a lack of adequate drainage conveyance and stormwater treatment facilities. This project proposes to improve the quality of stormwater discharging into Lake Tahoe from the Kings Beach community by stabilizing exposed soils with vegetation and/or mulch; improving the existing drainage system with new curbs, gutters, earthen berms and underground pipes; and treating runoff with a variety of methods including fill removal, sediment traps and vaults, swales, infiltration and/or detention basins, and media filters.	Placer County
Tahoe Vista-Tamarack Erosion Control Project	This project involves water quality improvements and treatment of public right-of-way runoff. The project began is 2013 and expected completion is 2016.	Placer County
Tahoe City PUD Access Road BMP and Paving	Many TCPUD water supply and sewage transport facilities are accessed by dirt and gravel access roads. These roads are not surfaced and have no storm water treatment or BMPs. In addition, snow must be removed from these roads in winter. The project proposes to pave these access roads and install BMPs for the roadways.	TCPUD
Tahoe City PUD BMP Retrofits for District- Owned Facilities	The purpose of this program is to retrofit and update existing District-owned facilities through the installation of BMPs for the protection and/or restoration of water quality and attainment of minimum discharge standards. BMP implementation on district owned properties include: paving legally established roads, driveways, and parking areas; installation of drainage conveyances; treatment of surface runoff from land covered; vegetate denuded areas; restriction of vehicular access; and improved delineation of dedicated walkways or circulation paths within district-owned parks.	TCPUD
Transportation Projects		

This project is a roadway modification and community revitalization plan, approved in May 2015 and developed by the Tahoe Transportation District (TTD) and Placer County for the Fanny Bridge area in Tahoe City. It addresses existing traffic congestion and poor bicycle/pedestrian conditions with a new State highway alignment and bridge over the Truckee River to the south of the existing Fanny Bridge, along with significant pedestrian and bicycle improvements. Construction is scheduled to begin in 2016.

The project was approved with the Alternative 1, Option 2 design. New roundabouts are planned at the Tahoe City wye and at both ends of the new roadway segment. Bike Lane and sidewalk connections will be completed between the east and wve roundabout, the west and wve roundabout and the east end of the project area on Highway 28. Multi-use trail improvements will connect the east and west roundabouts and pass under the new bridge on both sides of the Truckee River.

SR 89 / Fanny Bridge Community Revitalization Project

It is the joint desire of TRPA, The Tahoe Metropolitan Planning Organization, Tahoe Transportation District (TTD)and Placer County to revitalize the Fanny Bridge and Tahoe City River District Special Planning Area into a pedestrian and bicycle friendly zone. After completion of construction of the SR 89 / Fanny Bridge Community Revitalization Project, the County shall consider special outdoor events and roadway closures of the old SR 89 / Fanny Bridge area thru temporary outdoor event permits, special event encroachment permits, and selected closures determined by Placer County. Potential impacts to local businesses and traffic impacts associated with special events shall be considered and accommodated where feasible on a case by case basis.

In order to monitor activity in the SR 89 / Fanny Bridge area, volume count stations will be installed with the SR 89/Fanny Bridge Community Revitalization Project. The County will make collected data from count stations available to local jurisdictional partners upon request. Initial peak and non-peak hour volume data will be obtained after completion of the SR 89 / Fanny Bridge Revitalization Project to establish a volume and mode baseline. Additional monitoring of bicycle and pedestrian activity, sales tax receipts, and other data will be coordinated with TRPA and TTD. Future volume monitoring will be performed consistent with the TTD County roadway monitoring practices and the

	Region's Lake Tahoe Bicycle and Pedestrian Monitoring Protocol.	
	The Tahoe City Mobility Plan is intended to	
Tahoe City Mobility Plan	further design for future connectivity and advance solutions for community cohesion in downtown Tahoe City. The Plan addresses pedestrian and bicycle corridor gaps in Tahoe City, including the "missing link" in the shared use path between Commons Beach and the wye. The Plan also provides complete street strategies to improve parking and circulation along SR 28 near Grove Street, and to establish a vibrant pedestrian-oriented downtown with safe crossings along SR 28 to Lake Tahoe, Commons Beach and the Truckee River.	Placer County
Regional Transit Improvements	Placer County is engaged with local stakeholders in developing the North Tahoe Resort Triangle Transit Vision. The Vision Plan would increase transit service by 70% for Placer County's Tahoe Area Regional Transit service by adding over 18,000 vehicle revenue hours of transit service.	TART
Bus Stop Improvements: West Slope and Tahoe	This project involves the addition or retrofit of public bus shelters for Placer County Transit (West Slope) and Tahoe Area Regional Transit (TART). This project represents an ongoing effort to replace or add shelters to enhance transit ridership throughout the County.	TART
The North Tahoe Bike Trail	This project is a northern extension of the Dollar Creek Shared Use Trail and will result in the completion of the eight-mile long multi-purpose	Placer County

	trail corridor identified by TRPA to link Tahoe City to Kings Beach.	
Public Service and Facilities Projects		
	This project is the result of field work and	
Satellite Station Bypass & Valve	condition assessments of all the satellite pump stations. It involves the installation of several	
Replacements - Phase I	check valves and gate valves at all satellite	
	stations and install bypass valve galleries at high-	
	flow satellite stations.	NTPUD

Not Started Projects

Conservation Projects – Water Quality, Soil Conservation and Stream Environment Zones		
Project Name	Project Description	Lead Agency
Tahoe City Golf Course Restoration	Wetland restoration on portions of the Tahoe City Golf Course is being evaluated and planned. Projects could be completed by public agencies and/or in partnership with Town Center redevelopment projects.	Placer County
Flick Point Erosion Control Project II	This project began in 2014 and involves water quality improvements and treatment of public right-of-way runoff.	Placer County
North Tahoe Public Utility District Erosion Control Projects	This is a combination of a variety of small erosion control projects: one at the District's Dollar Hill D-6 sewer pump station/water lake intake which is on the shore of Lake Tahoe; another at the Dollar Hill D-4 sewer pump station with a road that runs right to Lake Tahoe; and erosion control on the access roads for the two water tanks in Carnelian Bay, Kingswood West Water Tank Access Road. These projects began in 2011.	NTPUD
Tahoe City Snow Disposal Area Siting	The purpose of this project is to evaluate snow removal and disposal for the community, including community planning for snow management, disposal site selection, disposal site characteristics, and disposal site preparation in order to minimize the potential for negative environmental effects.	TCPUD
Transportation Projects		
Lake Forest Bike Trail Improvement	TCPUD is working to construct two short Class I trails in the Lake Forest area connecting the North Shore Trail with Skylandia Park.	TCPUD
National Avenue Bike Path	The National Avenue Bike Path will ultimately consist of a Class I facility along National Avenue from SR 89 to Donner Road. An initial segment	NTPUD

	adjacent to the Tahoe Vista Recreational Area parking area was constructed in 2012.		
Chipmunk to Secline Bike Path	A shared use path is planned along the south (Lake) side of SR 28 between Chipmunk Street and Secline Street, connecting bike lanes on the discontinuous segments of Brockway Vista Road with a separated facility through the State Beach area.	Placer County	
Recreation Projects (Also See Trail Projects in the Transportation Section)			
Lake Forest Beach Public Access Improvements	This project began in 2011 and involves the extension of water lines to provide for water service, fire protection, and permanent restrooms at Lake Forest Beach.	TCPUD	
Skylandia Park Public Access Improvements	This project involves the reconstruction of water lines to provide for fire protection and the construction of a picnic pavilion with ADA access.	TCPUD	

Abandoned Projects

Conservation Projects – Water Quality, Soil Conservation and Stream Environment Zones			
Project Name	Project Description	Lead Agency	
Recreation Projects (Also See Trail Projects in the Transportation Section)			
64 Acres Recreational Access Improvements	This project includes construction of permanent restroom facilities, construction of additional public parking, and installation of barriers to protect vegetation and reduce compaction of natural areas.	TCPUD	
Public Service and Facilities Projects			
CIP Sewer Projects Slurry Seal	Slurry seal of pavement to be done one year after CIP project completion as required by Placer County and Caltrans Encroachment Permits. This project fulfills requirements of Placer County and Caltrans linear projects.		

Tahoe Basin Area Plan EIR/EIS & Mitigation

The Tahoe Basin Area Plan EIR/EIS is a programatic environmental document that provides a regional scale analysis resulting in a framework for mitigation measures associated with future land use implementation. Subsequent private and public projects associated with both land development and infrastructure will be reguired to preform site-specific environemtnal reivew documents as they move through the planning, review, and decision-making process. Since certification of the EIR/EIS in 2017, staff have applied the TBAP EIR/EIS mitigation measures to land development/redevelopment projects that have been approved. However, while there are a number of projects that have been under review since 2017, there are only a limited number of small-scale projects that have been approved since 2017.

Attachment M Response to Comments

This document provides responses to comments raised during the October 16, 2023 Board meeting on the Tahoe Basin Area Plan (TBAP) amendments. The responses are categorized by topic areas for ease of reference.

The common remark from many commenters is that the TBAP amendments would increase density and therefore impact traffic congestion, wildfire evacuation, and lake clarity, among other things. However, the changes that are being proposed with the TBAP amendments do not add uses and do not increase density. Instead, what are being proposed are minor changes to the Area Plan that have been brought forward to encourage new workforce housing and to facilitate and encourage small-scale lodging and mixed-use development to fill vacant store fronts. These changes are intended to encourage lodging in Town Centers that could, in turn, reduce the number of STRs in neighborhoods. Also, with the redevelopment of derelict or vacant properties, County-required Low Impact Development projects would actually improve lake water quality. Additionally, the Placer County Sheriff's Office provided clarity on handling of wildfire evacuation responses, which assists in showing that these amendments do not negatively impact evacuation impacts. Responses on specific areas are explained further below.

COMMENTS ABOUT CEQA / ENVIRONMENTAL CONCERNS

1. TRPA Environmental Review, IEC and Findings

TRPA requires an Initial Environmental Checklist (IEC) that complies with federal environmental regulations. This was prepared for the TBAP addendum and errata and TRPA staff are currently reviewing it. The IEC is not required for Placer County Board of Supervisors approval, but will be available for public review with other meeting materials for the TRPA Advisory Planning Commission on December 13, 2023.

2. Implementation of Mitigation Measures

The Tahoe Basin Area Plan Environmental Impact Report (EIR/S) requires projects to implement and complete mitigation measures related to topics including but not limited to transportation, mobility, housing, and total maximum daily load/lake clarity. Limited projects have come forward since adoption of the TBAP in 2017; therefore, there haven't been as many opportunities for mitigation measure implementation as anticipated. To date, 21 implementation projects have been completed, 11 are in progress, nine haven't started, and two have been abandoned. Nonetheless, the current status of implementation of the mitigation measures are described in Attachment K to the staff report.

3. Changed Circumstances / New Information

Commenters expressed concern that circumstances have changed since the 2017 TBAP Environmental Impact Report / Environmental Impact Statement (EIR/S) which would require a subsequent EIR instead of the Addendum to the EIR (Staff Report, Attachment D) prepared for the project. CEQA Guidelines sections 15162 through 15164 provide the framework for when supplemental environmental review is needed after an environmental impact report is certified by

a public agency. Section 15162 states clearly that "no subsequent EIR shall be prepared ... unless the lead agency determines, on the basis of substantial evidence in light of the whole record" that one of three triggers have occurred (changed project, changed circumstances or new information of substantial importance). All three triggers have an underlying requirement that changes must be substantial or major to be considered for supplemental review. In addition, changes by themselves, do not result in a subsequent EIR unless those changes result in new significant environmental effects or substantial increases in already-significant environmental effects.

Changed Project

CEQA Guidelines section 15162(a)(1) states that a project change occurs when "substantial changes are proposed in the project which will require major revisions of the previous EIR" Considering subsequent review in the context of a changed project, the question is whether the proposed project modification would be expected to have a more severe or more significant impact than previously analyzed. The supplemental review is specifically looking at the increment of impact resulting from the amendments themselves, not the impact from the Area Plan as a whole, because the Area Plan's impact was already analyzed in the 2017 TBAP EIR/S.

Changed Circumstances

CEQA Guidelines section 15162(a)(2) states that changed circumstances occur when "substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR...." In the case of changed circumstances, it is critical that any changed circumstances must create new or more severe significant impacts than those considered in the original CEQA document. In addition, the phrase "significant effect on the environment" in sections 15162 through 15164 is specifically defined in a manner that does not include the environment's effect on the project. (*California Building Industry Assn. v. Bay Area Air Quality Management Dist.* (2015) 62 Cal.4th 369, 377–378 ["... it is the project's impact on the environment—and not the environment's impact on the project—that compels an evaluation of how future residents or users could be affected by exacerbated conditions."].) As a result, local agencies are not asked to analyze the impact of existing environmental conditions on a project's future users or residents, nor are they asked to analyze future unidentified environmental impacts on the project.

New Information

CEQA Guidelines section 15162(a)(3) states that new information is "information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete" When the Guidelines refer to new information, they specifically refer to new factual information, not regulatory changes or agency guidance. (Save Lafayette v. City of Lafayette (2022) 85 Cal.App.5th 842, 856 ["Courts analyzing whether new information necessitates an SEIR look to the physical characteristics of a site and the actual environmental effects of a project, not to mere regulatory changes"].) The key consideration is also whether the new information was not known, and could not have been known at the time of the prior EIR (here the 2017 TBAP EIR/S). Information that was known at any level, or could have been known at the time of the certification of the original EIR does not trigger the need for a Subsequent EIR.

<u>Analysis</u>

With the CEQA analysis the County has determined that none of the conditions for subsequent review under the CEQA Guidelines have been triggered, and an addendum is the appropriate

document to cover these minor changes. What this means is the amendments would not result in any new, substantially more severe significant effects than were identified in the Area Plan EIR/S. The framework identified here is explained with respect to specific issues in the sections below.

The changes to the Area Plan policies and regulations proposed with these amendments further support implementation of the land use pattern envisioned in the TBAP and analyzed in the Area Plan EIR/S, so they would not result in new or more severe impacts than what was analyzed in the Area Plan EIR/S.

As noted in the addendum for the amendments, no changes are proposed to the regional growth control system. In other words, the Area Plan and the Area Plan EIR/S have the backstop of TRPA's Regional Plan. The amendments will not increase the overall development potential in the Area Plan because the total number of residential units, tourist accommodation units, and commercial floor area is capped by TRPA's growth control system from TRPA's Regional Plan. County approvals will continue to be bound by the TRPA carrying capacity set by the TRPA Regional Plan.

Because the overall growth potential would not be changed, any increase in development in Town Centers, for example due to affordable housing incentives, would be offset with a corresponding decrease in development potential outside of Town Centers.

It's also important to note that the TBAP amendments would not approve any specific project, and future projects within the plan area would be reviewed pursuant to CEQA and TRPA requirements through project-specific environmental review.

The amendments still require that certain projects, such as projects that don't screen out for VMT, obtain project-specific permits to ensure there is no incompatibility with other land uses. Projects such as hotels/mixed use projects would still require use permits as well as project-specific environmental review (including consideration of evacuation plans/VMT analyses/TRPA scenic standards thresholds).

For the reasons set forth in the Addendum to the 2017 TBAP EIR/S and in this document, there are no changed circumstances or new information that would require subsequent environmental review pursuant to CEQA Guidelines section 15162.

4. Wildfire

Wildfire risks were identified and analyzed in the 2017 TBAP EIR/S, and therefore are not new information that would require subsequent analysis. (See 2017 TBAP EIR/S, Impacts 18-3 and 18-4). The 2017 TBAP EIR/S noted that projects would be required to comply with regional plan policies, local and state regulations for fire protection, as well as area plan policies for fuels reduction, fire resistant materials and defensible space. In addition, Mitigation Measure 18-3 was adopted requiring future projects to implement a traffic control plan in coordination with affected agencies that includes measures for notifying emergency service providers and providing adequate circulation. The 2017 TBAP EIR/S determined that based on the foregoing, the impact of wildfires was less than significant. The Addendum to the 2017 TBAP EIR/S (Staff Report, Attachment D) reviewed the earlier EIR with respect to the TBAP amendments, and determined the impacts would be the same as those previously analyzed in the 2017 TBAP EIR/S.

The 2022 document from the Attorney General titled "Best Practices for Analyzing and Mitigating Wildfire Impacts of Development Projects under the California Environmental Quality Act" is a guidance document, and therefore does not constitute new *factual* information under CEQA Guidelines section 15162. (*See Save Lafayette*, above.) Nonetheless, the guidance compiles readily available information to assist local governments with their consideration of projects in the context of wildfire and has been reviewed by the County.

Wildfire risk is also not a changed circumstance. The risk of fire in the Tahoe Basin was a concern in the 2017 TBAP EIR/S, and wildfire and anthropogenic climate change were issues analyzed within the document. In addition, prior Placer County EIRs acknowledged the potential for wildfires to cross the Sierra Nevada crest and the realistic threat of such an event was known when the TBAP EIR/S was prepared.

The proposed amendments would encourage affordable housing in Town Centers and incentivize compact redevelopment in Town Centers, which is consistent with policies and programs that were analyzed in the TBAP EIR/S. In the case of the TBAP and these proposed TBAP amendments, there would be no expectation that environmental climate conditions would be exacerbated by the project. In fact, there is an expectation that the project would reduce trips by focusing development in walkable town centers, which would have a corresponding beneficial effect on VMT, and thereby greenhouse gas emissions.

5. Evacuation

The 2017 TBAP EIR/S includes a master response related to evacuation and a hazard policy that addresses evacuation. Further, the TBAP EIR/S added a new policy to the TBAP noting that all new development projects within the Plan Area shall prepare and implement an emergency preparedness and evacuation plan (EPEP). Mitigation Measure 18-3 was adopted requiring that future projects implement a traffic control plan in coordination with affected agencies for purposes of notification and evacuation. The Addendum to the EIR (Staff Report, Attachment D) also determined the impacts would be the same as those previously analyzed in the 2017 TBAP EIR/S. Accordingly, there are no changes that would require subsequent environmental review.

Commenters have identified concerns that there is no comprehensive evacuation plan and that the amendments would increase population and therefore negatively impact evacuation. As noted in the TBAP, concern about wildfire and emergency evacuation is an acknowledged and legitimate concern, but the suggestion that the Area Plan and these amendments would exacerbate existing conditions with respect to emergency evacuation is not accurate. The amendments will not increase the overall development potential in the Area Plan because the total quantity of residential units, tourist accommodation units, and commercial floor area (collectively referred to as TRPA development rights) is capped by TRPA's growth control system from TRPA's Regional Plan; so County approvals are still bound by the TRPA carrying capacity set by the TRPA Regional Plan. The full buildout of the area was studied in the TBAP EIR/S. Accordingly, the proposed amendments would not result in uses or activities that would increase the risk of wildfire. Development under the TBAP would continue to require compliance with Regional Plan policies, local and state regs related to fire protection.

Emergency Response

Placer County maintains emergency evacuation plans as well as a notification system to alert the community in the event of an emergency or need for evacuation. Additionally, Eastside Unified

Command comprises a multi-agency emergency response approach that will direct all emergency event-specific evacuation procedures. Those evacuation procedures are not dependent on, nor are they confined by traffic circulation data because traffic control in an evacuation situation would not operate pursuant to normal traffic patterns. Specifically, traffic counts within the Kings Beach roundabouts are not indicative of the ability to evacuate the area in the event of a wildfire. The Placer County Sheriff's Office has provided the following written response to the concern for east Placer evacuation:

"My name is Lieutenant Ty Conners, and I serve as part of the Law Branch within the Placer County Emergency Management team. A growing concern has emerged regarding evacuations in the Tahoe Basin. Our office has undertaken various initiatives to address this issue, including providing information at the Tahoe Board of Supervisors meeting, hosting a public townhall in Kings Beach, engaging in social media outreach, and organizing community events. Additionally, we have conducted Eastside Unified Command Training involving all our mutual aid partners in the Tahoe Basin and neighboring counties. I have been tasked with documenting the evacuation plans for the Tahoe Basin and how we will manage mass evacuations and limited evacuation routes that could be severely impacted by high volumes of traffic.

Regarding the jurisdictional authority for evacuation, in accordance with California Penal Code 409.5(a), state, county, and city peace officers, along with other designated officials, are granted the authority to close public and private lands and order evacuations. This information is part of the 2015 update to the Placer Operational Area Eastside Emergency Evacuation Plan.

To illustrate the process of creating a mass evacuation plan, let's consider a fire as an example. A Unified Command involving both Law and Fire agencies would be established at the onset of the fire incident. Once fire behavior has been determined (including direction, rate of spread, and conditions), the fire department will advise which areas should receive the following notifications:

- Evacuation order
- Evacuation warning
- Shelter in place

The Placer County Sheriff's Office will then create a zone map, and public notifications will begin through Placer Alert. The creation of the zones (Order or Warning) is determined based on fire behavior, with the fire dictating the size, shape, and affected areas of the zones. This systematic approach aims to minimize the displacement of homeowners under an evacuation order, consequently reducing evacuation traffic on the roadways and facilitating smoother evacuation routes.

Evacuation routes will be established, once again based on fire behavior and the safest routes out of the affected area. During this process, incident command will coordinate with all mutual aid resources, such as the California Highway Patrol, Placer County Road Department, and Cal Trans, to implement the evacuation plan. Methods employed to manage traffic flow and direction include traffic control

points and contraflow, where vehicles traveling on a main road in one direction must use lanes typically designated for oncoming traffic.

Additionally, it is recommended to reduce traffic congestion by not waiting for an evacuation order if homeowners are concerned about the conditions. Having a plan, denoted as "READY, SET, GO," is advisable. Whenever possible, individuals should use a single vehicle to transport as many people as they can to minimize the number of single-driver vehicles on the road during an evacuation.

Furthermore, it has been noted in various meetings that there is a need for traffic studies, especially regarding construction and overall traffic congestion around the lake. Traffic congestion often arises because everyone adheres to basic vehicle code laws, such as stop signs, staying in one lane of traffic, and obeying traffic lights and construction site traffic control. However, all these considerations change during an emergency evacuation. Law enforcement's objective is to efficiently evacuate the maximum number of people from an area as swiftly as possible. Incident Command would halt all roadway construction, station law enforcement personnel at chokepoints and intersections to ensure traffic flow, and if necessary, implement contraflow methods to increase the number of lanes for outgoing traffic.

These evacuation methods have been tested in Placer County during incidents such as the Mosquito Fire and River Fire. The Placer County Sheriff's Office collaborates with allied agencies and is confident in the effectiveness of our methods. Regardless of the time of year when tourist traffic may be heightened, our methods and evacuation plans will remain consistent. Incident Command will call for sufficient resources to complete the mission effectively."

As a result, there is no new information with respect to evacuations that would require subsequent environmental review beyond the analysis provided in the 2017 TBAP EIR/S and Addendum.

6. Carrying Capacity / Density / Build-out

The key CEQA consideration relative to these amendments is that development will still be bound by coverage and density requirements, which are not changing. The Tahoe Basin Area Plan and its associated EIR/S looked at the allowed density and analyzed, at a program level, the impacts of projects developing under that framework.

With the exception of one cleanup in the Fairway Tract Northeast zone district in which the existing density was incorrect, the TBAP amendments are not increasing density. All remaining residential and mixed-use zone districts use the existing dwelling units per acre. The amendments would further encourage affordable housing in Town Centers and incentivize compact redevelopment in Town Centers, which is consistent with policies and programs that were analyzed in the TBAP EIR/S.

The amendments will not increase the overall development potential in the Area Plan because the total quantity of residential units, tourist accommodation units, and commercial floor area (collectively referred to as TRPA development rights) are capped by TRPA's growth control system from TRPA's Regional Plan. The TRPA Regional Plan established growth limits by setting

a maximum buildout amount of residential units, commercial square feet, and tourist accommodation units in its regional plan. To date, 3,525 residential units, 731,397 square feet of commercial floor area, and 1,340 tourist accommodation units remain for the basin. Because the overall growth potential would not be changed, any increase in development in Town Centers, for example due to affordable housing incentives, would be offset with a corresponding decrease in development potential outside of Town Centers.

The 2012 TRPA Regional Plan Update EIS cumulative analysis evaluated the effects of total build-out of the Tahoe Region, including the TBAP plan area. Because the TBAP must be consistent with the Regional Plan, including the growth limits established in the Regional Plan, the RPU EIS cumulative analysis provided a cumulative analysis of full build-out of the TBAP. The Area Plan EIR/S cumulative analysis supplemented the RPU EIS cumulative analysis by evaluating complete build-out of the Tahoe Region in combination with build-out of reasonably foreseeable land use plans and projects within the Tahoe Basin and in surrounding areas outside of the Tahoe Basin.

The Errata to the Addendum (Staff Report, Attachment E) describes the land use changes that have occurred since the TBAP EIR/S was completed. Because the 2012 TRPA Regional Plan Update EIS and Area Plan EIR/S already analyzed the cumulative effects of complete build-out of the Tahoe Basin and TBAP plan area consistent with the policies and regulations in both the Regional Plan and TBAP, and because the proposed Area Plan amendments would not alter the growth limits or other assumptions incorporated into these cumulative analyses; the existing analysis in the Area Plan EIR/S already accounts for the cumulative effect of new land use changes in the basin since adoption of the Area Plan EIR/S even though the specific projects were not identified in the Area Plan EIR/S. For this reason, there are not changed conditions within the Tahoe Basin that would cause the proposed Area Plan amendments to result in a new or more severe contribution to a significant cumulative impact than was previously disclosed in the Area Plan EIR/S. Land use changes outside the basin are expected to result in 655 fewer DUs and 7 acres less commercial area in areas outside of the Tahoe Basin than were evaluated in the Area Plan EIR/S. Thus, the Area Plan EIR/S provides a conservative analysis of the cumulative effects of future development in areas outside of plan area, and the cumulative effects of the proposed Area Plan amendments would be less than those disclosed in the Area Plan EIR/S.

7. Cumulative Impacts

Commenters raised concerns that the proposed amendments did not take cumulative impacts into consideration. The CEQA Guidelines and case law are clear that there is no intent to require continual re-analysis or updating of CEQA documents. One of the basic tenets of CEQA is that a lead agency can (and should) rely on past certified or adopted analyses and only update those analyses when there are issues that have not been addressed.

The 2017 TBAP EIR/S analyzes the Area Plan which anticipated future projects, up to and including *full* buildout of the Tahoe Basin Plan Area. So, anything short of full buildout of the Plan Area has been taken into account in the Area Plan's cumulative scenario. Because the proposed Area Plan amendments would not alter the growth limits or other assumptions incorporated into these cumulative analyses; the existing analysis in the Area Plan EIR/S already accounts for the cumulative effect of projects developing in the Basin (e.g., Tahoe Cedars Subdivision, Boatworks

at Tahoe, 39 Degrees North, and Dollar Creek Crossing) even though the specific projects were not identified in the Area Plan EIR/S.

Concerns were also raised over whether there were projects outside of the Basin that should have been included in the cumulative that were not. The Village at Palisades and Martis Valley West projects both have big development potential and were previously considered in the TBAP EIR/S cumulative analysis. As mentioned in the erratum (Staff Report, Attachment E), the County's rezone program to meet the County's Regional Housing Needs Assessment is considering possible rezoning of two candidate sites outside of the basin, but in proximity to the TBAP plan area. These two candidate sites could lead to an increase of 96 dwelling units outside the plan area that were not contemplated in the Area Plan EIR/S cumulative analysis.

As noted above, land use changes outside the basin are expected to result in 655 fewer DUs and 7 acres less commercial area in areas outside of the Tahoe Basin than were evaluated in the Area Plan EIR/S. Palisades is not proposing more development with its reapplication; therefore, its contribution to cumulative impacts is not changing. The Martis Valley West project included 760 dwelling units. That project was litigated, the court invalidated approvals, and the County rescinded those approvals. Placer County has not received a new application for the project. Regardless of whether the Martis Valley West developer comes forward with a new application, the up to 96 additional dwelling units would not be considered a significant change in the cumulative scenario since it would result in 655 less DUEs, and would not result in a new or more severe contribution to cumulative impact than was evaluated in the Area Plan EIR/S.

8. Lake Clarity

Commenters raised concerns over the analysis of lake clarity. Water quality is a resource category that Placer County has historically and currently analyzes in all CEQA documents. Microplastics are one type of pollutant that can affect water quality. The data related to the presence of microplastics in Lake Tahoe does not equate to new information or a changed condition under CEQA.

Lake clarity is addressed in the Tahoe Basin Area Plan EIR/S and the TBAP amendments addendum in the hydrology and water quality sections and was an objective of the Tahoe Basin Area Plan originally. The Area Plan EIR/S found that the TBAP would not alter the existing TRPA regulations related to discharge to surface and groundwater or water quality protection. It determined that the density and coverage limits within Town Centers were previously analyzed by the TRPA RPU EIS and were determined to have a less-than-significant effect on water quality. Additionally, redevelopment of Town Centers consistent with TRPA BMP requirements would result in a decrease in the pollutant load carried in stormwater runoff and an overall decrease in volume of stormwater runoff. Therefore, the TBAP was found to have a beneficial impact on water quality. The amendments include policies that would further support implementation of the land use patterns identified in the TBAP while maintaining regional water quality and would not result in any new or more severe impacts to hydrology and water quality.

9. Piecemealing

Commenters have raised concerns about decisions by the County to bring forward some TBAP amendments, while deciding to bring forward other amendments later, if at all. For instance,

possible future amendments include the amendments related to height/length that were removed out earlier in the process.

Piecemealing under CEQA occurs when portions of a singular project are brought forward at different times in an attempt to circumvent the CEQA analysis of the project as a whole. In general, no piecemealing occurs when projects serve different purposes and can be implemented independently. These minor amendments in no way trigger subsequent amendments. While subsequent amendments may occur, they are not a reasonably foreseeable consequence of these minor amendments. These minor amendments have their own independent utility irrespective of any future proposal to increase building height/length. In short, these minor amendments can stand on their own.

The amendments represent code changes and are not connected to any specific project, nor do they include any portion of a project. The amendments have independent utility as a regulatory document. They are not dependent on each other to move forward, they don't need to be analyzed together, and staff are not obligated to consider them together.

10. Vehicle Miles Traveled

The Addendum to the 2017 TBAP EIR/S (Staff Report, Attachment D) evaluated vehicle miles travelled (VMT) at pages 11-12 and determined that the amendments would not result in new or more severe environmental impacts. The TBAP amendments would encourage more concentrated development within the Town Centers with less development outside of the Town Centers. This land use pattern would result in residences in close proximity to commercial uses which would be expected to reduce the number and length of vehicle trips and corresponding VMT. VMT is calculated using standard trip generation rates set by the transportation industry.

Because the proposed amendments would not increase development potential but would promote compact land use patterns analyzed in the Area Plan EIR/S, the proposed amendments would be consistent with the prior analysis in the Area Plan EIR/S.

The TBAP EIR/S looked at full buildout of the Area Plan and noted that VMT in the cumulative setting would actually be reduced by focusing development in the walkable town centers. The proposed TBAP amendments would not alter the development potential within the Plan Area and would therefore not increase the potential for new development that would generate VMT.

Approval of projects through a Minor Use Permit (MUP) would only be allowed if the proposed use meets the TRPA VMT screening criteria (i.e., it must be clear that the VMT impacts are negligible and screenable). As a result, VMT is not increased by the amendments to a level that requires further environmental review.

COMMENTS ABOUT TBAP AMENDMENT LANGUAGE

11. Setbacks: Residential & Town Centers

The BAE study (Staff Report, Attachment G) acknowledged that improvements are needed to facilitate development, scale back requirements and better understand and alleviate constraints and challenges in the development process, including zoning and building requirements. As such,

the TBAP amendments considered the Development Standards of the Residential zone districts and those of the Town Centers have been identified as barriers for the development and/or redevelopment of these parcels. The TBAP amendments propose changes to the setback requirements of the Town Centers and Residential zone districts, as outlined below.

Town Centers

Rear Setback Modification

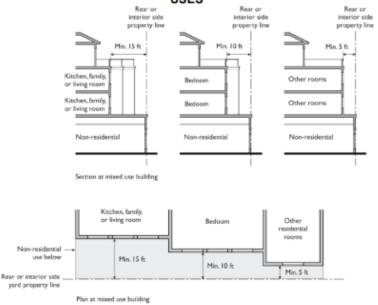

The amendments allow for a zero-foot (0') rear setback measured from the property line for those parcels in the Kings Beach – North Tahoe East Mixed-Use Subdistricts. The amendments align with the zero-foot (0') rear setback of for the Greater Tahoe City Mixed-Use Town Center Mixed Use - Town Center (MU-TC) and Mixed-Use - Neighborhood (MU-N) zone districts. The amendment took into consideration the existing parcel configurations, i.e. widths and lengths of existing parcels and existing development. The application of all the required development standards created hardships for already small and constrained parcels. For parcels adjacent to the zoning districts of the Town Center, the existing rear yard setback would remain and would provide a separation between the Town Center parcels and those adjoining the Town Center parcels, i.e. residential parcels will be required to provide a 10-foot rear yard setback measured from the property line.

Interior Side Setbacks.

The amendments eliminate the required "10-foot landscaped setback required adjacent to residential uses" in the MU-TC, MU-N and MUN-DH and MUN-LFG zone districts of the Village Center Subdistricts of the Greater Tahoe City Mixed-Use Subdistricts and Mixed-Use Mountainside Town Center (MU-MTC), Mixed-Use Lakeside Town Center (MU-LTC), Mixed-Use Residential (MU-R), Mixed-Use Tourist (MU-TOR) and Mixed-Use Waterfront Recreation (MU-WREC) of the North Tahoe East Mixed-Use Subdistricts. Specifically, the TBAP currently has a requirement for interior yards to provide light and air for residential units. The minimum setbacks were applied to any building wall facing an interior side or rear yard and when the site is adjacent to a residential subdistrict. Specifically, the side setback requires structures to not interrupt a line of a 1:1 slope extending upward from 25 feet above existing grade of the setback line adjacent to the residential district. Additionally, the standards of all interior yards required setbacks applied to that portion of the building wall containing residential windows and extending three feet on either side of any window shall comply with the following: (1) For any wall containing a living room, family room, or kitchen windows, a setback of at least 15 feet shall be provided; (2) For any wall containing sleeping room windows, a setback of at least 10 feet shall be provided. And (3) for all other walls containing windows, a setback of at least fire feet shall be provided. Please refer to Figure 2.04(B)(3) below, from the TBAP, for the application of the required setbacks based on adjoining uses.

FIGURE 2.04(B)(3): REQUIRED SIDE AND REAR YARDS FOR RESIDENTIAL USES

Rear or interior side property line reporty line property line reporty line re

The requirements of these setbacks created hardships for development, redevelopment and/or additions to existing buildings, in that, it was difficult to identify the uses of each floor in the adjacent structure and therefore difficult to determine what setback to apply. Additionally, uses could change over time resulting in non-conformities to the required interior side setback of the built environment. The TBAP amendments would allow for greater flexibility for development and reduce challenges known in the Town Centers.

Residentially Zoned Parcels

Front Setback.

The amendments clarify the required front setbacks by providing an additional footnote to alert the reader that when applying the front setback there may be other requirements relative to the planned streetscape and roadway improvements. The TBAP requires that when a road and/or road segment is identified in Table 3.06.A. "Future Streetscape and Roadway Design Characteristics," the front setback shall be considered from the ultimate road right-of-way width listed in Table 3.06.A. Placer County Department of Public Works maintains a Countywide Highway Deficiency Manual to plan for ultimate right-of-way and pavement widths, as well as sidewalk and bicycle land improvements, for specific County maintained roadways. Table 3.06.A provides planned design characteristics for specific streetscape and roadways to guide future development improvements. This amendment would ensure that the reader is made aware of the planned design characteristics for specific streetscapes and roadways and if applicable to the development of the subject parcel.

Street Side Setbacks

The TBAP amendments would allow for a street side setback of 10-feet measured from the property line and in accordance with the applicability limitations of the definition of "street-side setback" in the Placer County Zoning Ordinance. With the application of all the required setbacks for residential parcels, i.e. front, side and rear, it was acknowledged that corner lots or parcels

that abut two road frontages, including access easements, would be required to provide for two front setbacks. The TBAP amendments recognize the existing narrow parcels and the constraints of the application of two front setbacks to the parcel. As such, by applying a street side setback - a lesser setback then the required front setback, will reduce the need for a variance (a timely and costly entitlement process) to request deviation from the requirements of the required setbacks. This would address the concerns presented with constrained parcels and challenges with compliance with the required development standards.

12. Food Trucks

The TBAP amendments would bring the TBAP into conformance with California law regarding sidewalk vendors. On September 17, 2018, the Governor signed Senate Bill 976 (the "Safe Sidewalk Vending Act"), which establishes requirements for local regulation of sidewalk vending. The law became effective January 1, 2019. The purpose of SB 946 is to legalize and decriminalize sidewalk vending across the state. SB 946 defines "sidewalk vendor" as a person who sells food or merchandise from a pushcart, stand, display, pedal-driven cart, wagon, showcase, rack or other nonmotorized conveyance, or from one's person, on a public sidewalk or other pedestrian path. A sidewalk vendor can be "a roaming sidewalk vendor," which is defined as moving from place to place and stopping only to complete a transaction, or "a stationary vendor," which is defined as vending from a fixed location. SB 946 applies only to public sidewalks and paths, not private property. The law allows local authorities to adopt regulations governing sidewalk vending or amend existing regulations. If the local authority wishes to regulate sidewalk vending, then those regulations need to be consistent with SB 946. A local authority may adopt additional requirements regulating the time, place, and manner of sidewalk vending if the requirements are directly related to objective health, safety, or welfare concerns, including a sidewalk vending permit or valid business license, as well as a valid California Department of Tax and Fee Administration seller's permit. Placer County has not adopted additional sidewalk vending laws and current County Code is not compliant with SB 946.

Additionally, the TBAP amendments would also allow food trucks in town and village centers to support the entrepreneurial economy. Food trucks allow food businesses to start a business with much lower overhead and grow their business over time. In fact, the Truckee-Tahoe region has seen several brick and mortar restaurants that started as food trucks. All food trucks would require a business license and environmental health approvals, and could be conditioned to require them to park in specific places and during certain hours, provide and manage waste receptacles, etc.

13. Parking

The TBAP amendments would adopt the two-year pilot parking exemption program for the North Lake Tahoe Town Centers approved by the Board on February 9, 2021. Several potential applicants have expressed interest in the project, but no projects have moved forward in that timeframe. The purpose was to support exemptions to parking requirements to spur redevelopment in the Town Centers and support strategies identified in the Resort Triangle Transportation Plan (RTTP), which was approved by the Board in October 2020, and which outlines strategies to increase mobility and reduce VMT in the Tahoe region.

The TBAP amendments would make parking requirements for multi-family development more consistent with those of single-family development and reduce requirements for both to incentivize

production of workforce housing. A surface parking space can cost \$20,000 to \$30,000 per space which developers have told staff adds to the cost of a housing project and significantly reduces the feasibility of the project. The following changes are included in the amendments.

	Today's TBAP	Proposed TBAP
		amendments
Multi-Family Dwelling	1 space per bedroom for	1 space for first two
	first two bedrooms and	bedrooms and .5 per
	.5 per additional	additional bedroom
	bedroom	
Single-Family Dwelling	2 per unit	1 for first two bedrooms;
		three or more bedrooms 2
		per unit

Additionally, the amendments comply with state law, Government Code Section 65863.2, which mandates no minimum automobile parking will be required for a residential, commercial, or other development project (excluding any portion designated for use as a tourist accommodation unit) if the project is located within one-half mile of public transit unless the County makes written findings that not imposing or enforcing minimum automobile parking requirements on the development would have a substantially negative impact. The Tahoe Basin doesn't currently meet the definition of high-quality transit stop as specified in the code so this would not be applicable unless the region moves to 15-minute transit headways.

The TBAP amendments include a policy to explore opportunities to allow local worker overnight camping in public and private parking lots. This concept was proposed from the Mountain Housing Council as a potential interim solution to create a safe overnight parking framework for local workers. Some of the region's parking lots are already being used for overnight parking/camping by local workers but in an unregulated manner with no permitting, requirements, site improvements, or enforcement. The policy itself would not allow overnight parking. Staff would have to develop a program in coordination with other departments, including the Department of Public Works, Environmental Health, and the Sheriff's Office. The proposed program would then need to be adopted by the Board of Supervisors. Similar programs have been implemented in other mountain towns, such as the town of Telluride. Any program would need to consider and include requirements related to registration or permitting, noise and storage, proximity to restrooms, designated parking lot(s), etc. The policy simply allows staff to explore the concept.

14. School Enrollment

One commenter indicated that the area's population has increased, as evidenced by increased school enrollment in the Tahoe Truckee Unified School District, which therefore shows an increase in population within the Tahoe basin. However, the area's school enrollment data included below demonstrates there is no substantial change from 2016 to the current school year.

2016 - 2017: 3,941 2017 - 2018: 3,921 2018 - 2019: 3,955 2019 - 2020: 3,981 2020 - 2021: 3,945 2021 - 2022: 3,953 2022 - 2023: 3,960 2023 - 2024: 3,923

STAFF REPORT

Date: February 21, 2024

To: TRPA Governing Board

From: TRPA Staff

Subject: 2023 Annual Report

Summary and Staff Recommendation:

Staff presents the attached summary report of TRPA's strategic focus and accomplishments throughout 2023. This item is for informational purposes and no action is required.

Background:

TRPA carries out strategic initiatives that the Governing Board has identified as work program priorities for the agency. These initiatives align directly with implementation of the Regional Plan as well as accomplishing the agency's mission as directed by the Bi-State Tahoe Regional Planning Compact.

The attached annual report outlines accomplishments and progress made in 2023—. The report also highlights areas of special focus for agency teams going forward.

Contact Information:

For questions regarding this agenda item, please contact Julie Regan, at (775) 589-5237 or jregan@trpa.gov.

To submit a written public comment, email publiccomment@trpa.gov with the appropriate agenda item in the subject line. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting.

Dear Lake Tahoe Community, Governing Board and APC Members, and Stakeholders:

t is my pleasure to present this annual report on regional progress for Lake Tahoe's environment and communities. In 2023, the Tahoe Regional Planning Agency (TRPA) made major strides in addressing many of the

biggest challenges facing this treasured lake. And make no mistake, the basin is facing existential threats that we must rally to tackle head on.

The vision that took shape 55 years ago when the states of Nevada and California came together to preserve and protect Lake Tahoe is reflected in this report. The Lake Tahoe Regional Plan is building partnerships, restoring environmental quality, and harmonizing communities with our incredible surroundings. Science-based policies are not only helping achieve and maintain ambitious environmental goals, they are also increasing safety on Lake Tahoe roadways, reducing the threat of wildfire, and building the region's resilience to climate change.

It was also a big year for partnerships. TRPA joined 17 land management, destination management, and non-profit organizations to launch the first-ever destination stewardship plan for the greater Tahoe Region. Following a year of community and stakeholder input, the plan is already helping reduce the impacts of visitation and is promoting sustainable recreation. At the heart of the plan is the stewardship ethos of the Washoe Tribe of Nevada and California, the original and current caretakers of the Tahoe Basin.

The agency also worked with private property owners, scientists, and partner agencies to tackle two of the highest priority aquatic invasive weed control projects, in the Tahoe Keys and Taylor-Tallac marsh on the South Shore. The strength of TRPA's aquatic invasive species partnerships proved invaluable when New Zealand mudsnails were discovered in the lake in September. The agency's rapid response protocols helped to confront the first new invasive species detected in Lake Tahoe since the watercraft inspection program began in 2008.

Underlying much of our progress in 2023 is the incredible commitment and support around the Lake Tahoe Environmental Improvement Program, or EIP. Launched during the first Lake Tahoe presidential summit in 1997, the EIP has completed more than 800 restoration projects to repair damage done long ago to the watershed.

We are grateful for the leadership and support of the TRPA Governing Board. In December 2023, our board approved a package of affordable and workforce housing incentives that help address the housing crisis impacting Lake Tahoe's environment and communities. The changes will lower the cost to provide affordable and workforce housing while at the same time benefitting water quality.

I am proud of the hard work and determination of our entire team. Throughout 2023, our staff continued to excel in the challenging but rewarding work to achieve our mission to preserve and protect Lake Tahoe for this and future generations.

Sincerely,

Julie W. Regan

Executive Director
Tahoe Regional Planning Agency

TRPA **STRATEGIC PRIORITIES**

Approved by the Governing Board, these strategic priorities reflect the agency's commitment to protect Lake Tahoe's environment while improving regional transportation, increasing diverse housing options, and facilitating community revitalization.

Tahoe Living - Creating complete communities that provide housing for all, an appropriate mix of uses to support vibrant, walkable, transit-friendly neighborhoods, and the necessary infrastructure to protect our unique and precious environment.

Keeping Tahoe Moving - Improving the transportation system for local communities and the millions of annual visitors to the Tahoe Region.

Restoration and Resilience - Accelerating environmental improvement and transportation programs to restore our environment and bolster the region's climate resilience.

- \$34.3 million secured in EIP federal funding
- \$15.2 million granted through the Regional Grant Program to expand transit, sidewalks, bike paths, and EV charging stations
- \$635,000 mitigation funds awarded to local governments for environmental projects

5,667

boat inspections completed

1,169

tree removal permits issued totaling **4,440 hazard** trees

71.7 ft.

average lake clarity depth in 2022, compared to 61 feet in 2021

BMP certificates issued

52,789 miles cycled by Tahoe Bike Month participants

99% TRPA staff retention

- 3 Area Plan amendments
- **125 of 248 deed-restricted** affordable homes under construction as part of the Sugar Pine Village project in South Lake Tahoe
- 100-bed affordable housing dormitory project under construction at Lake Tahoe Community College
- **8 ADU** (accessory dwelling unit) permits issued
- 924 permits issued and investigated 97 code compliance cases

Tahoe Living: Housing and Community Revitalization

he Tahoe Living strategic priority implements the housing and community revitalization goals of the Regional Plan. It identifies key actions that TRPA can take to create complete communities that provide housing for all, an appropriate mix of uses to support vibrant, walkable, transit-friendly neighborhoods, and the necessary infrastructure to protect our unique and precious environment.

Key 2023 Accomplishments

- Engaged with the community to garner input on affordable housing needs and to shape policy amendments through nine public hearings, seven event pop-up booths, an online survey, eight newspaper columns, nearly 30 Enewsletters, and more than 20 meetings with community members and groups.
- TRPA staff and local government partners secured \$2.4 million in California grant funding to begin the next phase of the Tahoe Living strategic priority. This funding will support broad community engagement and comprehensive environmental review on potential policy changes to integrate housing, equity, and climate goals into key land use and water quality programs.

PROJECT SPOTLIGHT

Affordable Housing Policies Approved

In December, the Governing Board approved targeted policy changes to encourage affordable and workforce housing in town centers and areas close to transit, and achieve Regional Plan goals including walkability, improving water quality, and reducing vehicle miles traveled.

The amendments allow deed-restricted units within town centers and multi-family zones to be designed with more flexibility on height, land coverage, parking, and units per parcel, if they are made permanently affordable for working households and meet environmental standards.

Affordable apartments at the 248-unit Sugar Pine Village project in South Lake Tahoe will be open for applications in 2024. Photo by: Jeff Cowen

Keeping Tahoe Moving: Transportation and Destination Stewardship

ake Tahoe's \$5 billion recreation-based economy needs an interconnected and efficient transportation system. TRPA and partners will achieve that sustainable future with strategic investments in capital projects, transit, multi-use paths, and parking management. These critical projects will meet visitor, resident, and commuter demand while protecting the Tahoe Basin's unique natural resources. At the same time, the region has come together to better manage outdoor recreation and tourism through a shared destination stewardship plan that will balance the needs of the environment, businesses, visitors, and local communities. This new strategy will inspire all to take care of Tahoe.

Key 2023 Accomplishments

Transportation

- TRPA's one-of-a-kind Tahoe Metropolitan
 Planning Organization (TMPO) status was
 successfully audited and recertified. The independent auditors heralded the Tahoe MPO as
 a model of best practices, including our public
 engagement and outreach, and information
 tracking and management systems.
- Federal, state, local, and private partners secured more than \$23 million in new revenues to improve transportation at Tahoe. This shared "7-7-7" funding strategy is critical to close the annual funding gap to implement the Regional Transportation Plan.
- TRPA convened a coalition of partners to develop the first Tahoe Regional Trails Strategy. The Strategy applies a basin-wide perspective to trail planning and building and serves as a blueprint for a connected and accessible dirt trail network for Tahoe.
- The Vision Zero Safety Strategy and Active Transportation Plan were launched.

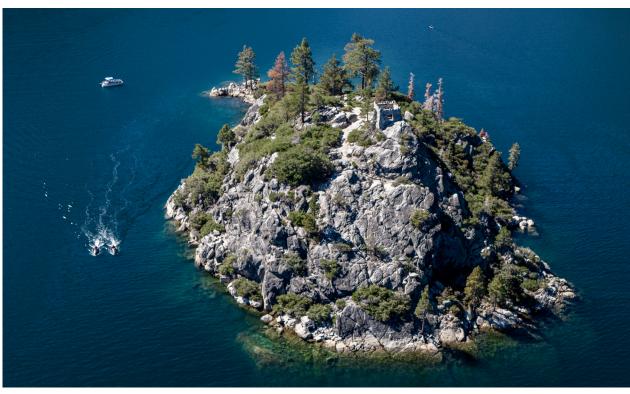

Transportation Funding

TRPA programmed more than \$100 million in transportation funding for our implementation partners in 2023. These funds support new microtransit operations, Tahoe Trail segments, roadway safety improvements, and other priority transportation projects.

Tahoe City roundabout. Photo by: Luxuri Media

Fannette Island, Emerald Bay, CA. Photo by: Generikal

Key 2023 Accomplishments

Destination Stewardship

- Played a critical role in the launch of the
 Destination Stewardship Plan. The plan's vision
 and actions were developed in collaboration with
 18 regional organizations and participation of over
 3,000 residents, visitors, and businesses through
 surveys, interviews, and workshops.
- Formed the first Lake Tahoe Destination Stewardship Council. The Council will advance the plan's 32 key actions to ensure outdoor recreation and tourism enhances community well-being, supports local businesses and workers, and protects the lake.

Restoration and Resilience: Environmental Improvement Program

The Restoration and Resilience strategic priority is grounded within the Lake Tahoe Environmental Improvement Program (EIP). This bi-state, cross-boundary restoration partnership of over 80 organizations has implemented more than 800 projects over the last 27 years to restore and protect the environment and revitalize Lake Tahoe communities.

To continue the program's success and to keep pace with new threats, partners must increase the scale of implementation of the EIP. This strategic priority focuses on acquiring sustainable funding for the EIP, updating and evaluating the basin's environmental thresholds, and finding program efficiencies to continue to build resilience to climate change and achieve the goals of the Regional Plan.

Key 2023 Accomplishments

- The EIP partnership completed 25 forest health, water quality, sustainable recreation, and transportation improvement projects.
- Secured more than \$34.3 million through the Lake Tahoe Restoration Act (LTRA), congressionally directed spending, and the Bipartisan Infrastructure Law for the Environmental Improvement Program. This high-water mark for Tahoe's federal funding is double where it was five years ago.
- Awarded \$5.1 million in Lake Tahoe Restoration
 Act funding to critical EIP projects through a
 new partnership agreement with the USDA
 Forest Service.

- Awarded \$635,000 in mitigation funds paid from development projects to local jurisdictions and land banks for restoration projects, new maintenance equipment, water quality improvement projects, and sensitive land acquisition.
- Advanced climate smart codes backed by research and stakeholder workshops to reduce greenhouse gas emissions and create a more resilient ecosystem to withstand climate change. UC Davis students assisted with these amendments.
- Continued the regional educational webinar series highlighting EIP projects. The South Shore webinar introduced 14 ongoing projects and initiatives by seven partner organizations.

West Shore of Lake Tahoe. Photo by: Drone Promotions

PROJECT SPOTLIGHT

Cutting the Green Tape

TRPA established and led a new multi-agency Cutting the Green Tape Working Group to identify permitting efficiencies, improve interagency coordination, and propose process changes for environmentally beneficial projects. Staff also provided leadership in the Cutting the Green Tape California state-wide initiative, serving as a lead facilitator for the CDFW/CA State Water Board workshop in December 2023.

Environmental Improvement Program

Watersheds and Water Quality

ake Tahoe's incredible clarity was severely impaired decades ago by unplanned development in sensitive areas. Regaining the lake's lost clarity is a fundamental goal achieved by restoring ecosystem health and resilience and reducing the flow of pollutants and fine sediment from urban areas. TRPA provides leadership, support, and funding for large-scale watershed restoration and stormwater treatment throughout the region. TRPA works with residents and business owners to improve Best Management Practice (BMP) compliance each year and supports local jurisdictions to implement projects that reduce stormwater runoff from neighborhoods and roads.

Key 2023 Accomplishments

- Local jurisdictions continue to exceed targets set by the Lake Tahoe Total Maximum Daily Load (TMDL) to reduce nitrogen, phosphorus, and fine sediment pollution.
- Led the Meeks Bay Ecosystem Restoration project team to include replacement of the Meeks Bridge. Replacing the bridge will help restore the natural flow of Meeks Creek and improve fish habitat.
- Led the implementation of Year 2 of the Taylor Tallac Ecosystem Restoration project in partnership with the USDA Forest Service. This project is removing 17 acres of invasive weeds from one of the basin's largest wetlands.
- Kicked off two green infrastructure projects: Ski Run "Mountain to Marina" and Tahoe Keys Tactical Green Infrastructure. These projects will elevate the role of natural water infiltration strategies within neighborhoods to remove pollutants from stormwater, reduce flooding, and adapt to climate change.
- Worked with home and business owners to issue 213 BMP certificates to reduce fine sediment and pollutants entering the lake: 177 for single-family residential (including 14 lakefront parcels), 5 for multi-family residential, and 31 for commercial.
- Re-issued 68 BMP certificates verifying maintenance and effectiveness.

PROJECT SPOTLIGHT

Lake Clarity

10

UC Davis Tahoe Environmental Research Center reported the lake's average water clarity in 2022 was the best it has been since the 1980s. The average clarity was 71.7 feet compared to 61 feet in 2021. The lake also fully mixed in 2023, a winter phenomenon when the lake essentially flips over and clear water from the bottom replaces the top layer where fine sediment and algae are suspended. Following the flip, water clarity jumped to an incredible 115 feet. Deep mixing is an important process for the lake's health, however it is happening less often. TRPA and our many science partners rely on longer-term trends to understand the effectiveness of water quality strategies. Climate change and other ecological threats continue to challenge lake restoration work.

Photo by: Generikal

Environmental Improvement Program

Forest Health

ne of the Environmental Improvement Program's central goals is to protect communities from damaging wildfires and improve forest health. As a founding member of the 21-agency Tahoe Fire and Fuels Team (TFFT), TRPA helps implement the Lake Tahoe Forest Action Plan through coordination and prioritization of forest treatments, including reintroducing the traditional practice of cultural burning by the Washoe Tribe. TRPA also works with local communities to implement defensible space around their homes and businesses through onsite inspections and issuance of tree removal permits. Partners are working collaboratively to identify renewable energy opportunities in and around the Tahoe Basin and to coordinate forestry workforce development and shared-resource crews.

Key 2023 Accomplishments

- Supported defensible space on private properties through 1,169 tree removal permits (for 4,440 individual hazard trees).
- Advanced review of a small-scale renewable energy project using local wood waste in the City of South Lake Tahoe.
- Supported Lake Tahoe Community College's new forestry program designed to build the local workforce and increase Tahoe's capacity to implement forest fuels treatments.
- Led a discussion at the Tahoe Science Conference about how to incorporate cultural burning in land management discussions.
- Contributed to the 2023 Collaborative
 Forest Landscape Restoration Program
 Federal Advisory Committee by evaluating national project proposals to reduce wildfire risk while improving environmental, social, and economic benefits.
- Partners treated 1,700 acres for forest fuels reduction.

PROJECT SPOTLIGHT

Forest Health Leadership

TRPA staff served on the National Wildfire Mitigation and Management Commission bringing Tahoe expertise to a diverse group of forest health experts. The group was charged with the ambitious task of creating recommendations that address nearly every facet of the wildfire system.

In 2023, the commission delivered a report to Congress with 148 recommendations to help lead the nation toward increased resilience to the impacts of wildfire.

Tahoe Regional Planning Agency **2023 ANNUAL REPORT**

Environmental Improvement Program

Aquatic Invasive Species

This fall, the Aquatic Invasive Species (AIS) Program was challenged with the discovery of the New Zealand mudsnail, the first new invasive species detected in Lake Tahoe since mandatory watercraft inspections began in 2008. TRPA leads the multi-sector AIS partnership at Lake Tahoe, and its accomplishments are the result of the collective contribution of many organizations and individuals. Control programs are working to reduce the spread of invasive species already established, and the watercraft inspection and Tahoe Keepers programs are keeping new aquatic invasives out of the Tahoe Region.

Key 2023 Accomplishments

- Provided leadership and independent monitoring to complete Year 2 of the Tahoe Keys Control Methods Test to find solutions to control aquatic weeds in the Tahoe Keys.
- Oversaw 5,667 boat inspections at regional inspection stations. 58 percent of inspected boats arrived Clean, Drained, and Dry, up 3 percent from 2022.
- Introduced new tools to combat aquatic invaders, such as a solar powered machine that allowed 500 users to Clean, Drain, and Dry their non-motorized vessels before launching.
- Translated AIS materials and videos into Spanish to ensure preventative messaging is reaching a wide audience of users.
- Removed 1.5 acres of aquatic invasive plants in Emerald Bay to preserve Lake Tahoe's famed clarity and improve water quality.

PROJECT SPOTLIGHT

12

New Zealand Mudsnails

TRPA led an interagency, science-based rapid response to the discovery of the invasive New Zealand mudsnail in Lake Tahoe. The incident team oversaw lake-wide surveys to determine the extent of the infestation. Staff convened a science team to develop recommendations, and sought new funding to strengthen the AIS prevention program for non-motorized watercraft.

Regional Planning

The Regional Planning Department fulfills the commitment to regional environmental planning, orderly growth and development, and partnership building as mandated in the Bi-State Compact. The Regional Planning team is the lead for two of TRPA's three strategic priorities: Tahoe Living and Keeping Tahoe Moving.

Key 2023 Accomplishments

- Funded nine transportation projects totaling \$15.2 million to expand transit, sidewalks, bike paths, and EV charging stations in the Tahoe Basin.
- Supported area plan amendments in Placer County to realize their housing and economic development goals in town centers, allowing condominium subdivisions in a part of Washoe County, and expanding housing opportunities in town centers and prioritizing equity in the City of South Lake Tahoe.
- Approved the 16-acre Waldorf Astoria project in Crystal Bay, NV. The project will add a Class I bike lane and reduce vehicle miles traveled, improve water quality treatment onsite, and add 38 deed-restricted affordable housing bedrooms for employees.
- Completed the Transportation Equity Study with significant public input from underserved communities. The study identifies barriers to accessing goods, services, and recreation opportunities at Lake Tahoe. Recommendations will be incorporated into the
- 2025 Regional Transportation Plan. The Sacramento chapter of WTS selected the study as the 2023 Rosa Parks Diversity Leadership Award winner.
- Finalized the SR 89 West Shore Tahoe Trail Feasibility Study as part of the Highway 89 Corridor Management Plan to complete a world-class bikeway around iconic Emerald Bay and parts of the West Shore.

PROJECT SPOTLIGHT

LTCC Student Housing

In March, the TRPA board unanimously approved the Lake Tahoe Community College (LTCC) Student Housing Project, which will provide up to 100 students with affordable on-campus housing. The project broke ground this year and is anticipated to open in 2025. Environmental benefits include reduced vehicle trips to and from campus and heated sidewalks that reduce the need for snow removal equipment and de-icing.

Lake Tahoe Community College student housing.

Tahoe Regional Planning Agency **2023 ANNUAL REPORT**

Permitting and Code Compliance

The Permitting and Compliance Department reviews, permits, and inspects projects in a timely and consistent manner to serve the public and help facilitate environmental improvement and economic investment in Lake Tahoe communities.

Key 2023 Accomplishments

Permitting

14

- Exceeded expectations on permit process improvements to enhance public service, realign resources to focus on the highest environmental priorities, and improve cost recovery on filing fees.
- Approved major projects representing hundreds of millions of dollars of investment in Lake Tahoe's restoration and community revitalization.
- Issued 924 permits and met the 120-day performance measure for 92.7 percent of reviews, despite record-breaking snowfall and difficult conditions for projects.
- Formed a new team devoted to public service and transformed the front lobby into a service-oriented, efficient, and welcoming space.
- Launched a new online permitting appointment system.

Code Compliance

- Investigated 97 code cases within one week of complaint intake.
- Completed 172 pre-grade inspections and 257 final inspections to ensure development projects meet TRPA environmental protection requirements. 90 percent of final inspections were performed within 15 days of request.
- Completed 50 audits of projects reviewed and permitted by local government MOU partners. Local governments met requirements between 88-99 percent of the time.
- Invested 1,300 watercraft team hours on the lake. Assisted in the identification and tagging of over 80 illegal moorings. Issued 650 verbal corrective actions, most related to no-wake zone violations. Interactions remain positive and focus on use of the Lake Tahoe boating app to increase safety and compliance.

Shoreline Plan Implementation To date, more than 92 percent of the existing moorings evaluated in the Shoreline Plan have been registered. Since the Governing Board approved the plan in 2018, TRPA has issued 338 mooring allocations from the annual mooring lotteries and 6 pier allocations from the pier lottery

The TRPA watercraft crew educating a paddleboarder at D.L. Bliss State Park. Photo by: Generikal

Research and Analysis

¬RPA continuously tracks the progress and effectiveness of Regional Plan policies and environmental programs by monitoring hundreds of environmental threshold standards, performance measures, and management actions. The Research and Analysis team collaborates with the science community and provides the best possible information for policy decisions, operations, and accountability.

Key 2023 Accomplishments

- Analyzed 2020 Census data to support the agency's long-range planning work in the transportation, housing, and destination stewardship initiatives with updated regional demographics.
- Transformed 10,000 paper files, including more than 300,000 pages, into a digital format with funding from Nevada.
- Upgraded permit tracking software and GIS mapping tools.
- Conducted plankton tows in Echo Lakes, Fallen Leaf Lake, and Lake Tahoe to sample for aquatic invasive species and support permit requirements. Teams found no new detections.
- Expanded mobile data collection systems to improve field monitoring and dashboard metrics.

2023 Field Monitoring

- Collected noise monitoring data for 8 plan areas, 6 transportation corridor segments, and 9 shoreline sites.
- Managed an advanced network of 31 bike and pedestrian counters.
- Worked with agency partners to complete basin-wide osprey, peregrine falcon, and bald eagle surveys to assess nesting success and populations.
- Maintained air quality and visibility monitoring
- Assessed 72 stream environment zones for overall quality and threshold attainment.
- Collected data at 25 sites to measure physical and biological stream health using benthic macroinvertebrates.
- Funded weekly human health monitoring at 10 popular beaches throughout the summer.
- Photographed designated locations for the scenic threshold assessment.

Upper Truckee River in winter 2023. Photo by: Sarah Underhil

Tahoe Regional Planning Agency **2023 ANNUAL REPORT**

COMMUNICATIONS AND GOVERNMENT AFFAIRS

RPA supports a culture committed to public education, outreach, and community engagement to implement the Lake Tahoe Regional Plan. The communications and government affairs teams lead initiatives in collaboration with many agency and nonprofit partners.

Key 2023 Accomplishments

Public Outreach

- Organized a series of TRPA Talks around the lake for community members to meet TRPA's new Executive Director and discuss critical issues affecting our diverse communities, such as affordable housing, traffic, environmental restoration, and emergency preparedness.
- Produced two issues of the agency's award-winning environmental newspaper, Tahoe In Depth, featuring more than 40 news stories from a variety of authors. The paper is mailed to 36,000 Tahoe Basin property owners and is distributed around the lake to reach other residents and visitors.
- Facilitated three Spanish workshops focused on transportation equity and housing changes with 63 participants.
- Engaged hundreds of community members with bilingual project materials through public meetings, webinars, booths at farmer's markets and events, and via social media.

TRPA Talks with Julie Regan on the South Shore. Photo by: Sarah Underhill

16

The cover of the Summer 2023 issue of Tahoe In Depth.

Delivered presentations to more than 50 local, national, and international delegations about Destination Stewardship, the Environmental Improvement Program, and current projects.

Environmental Education

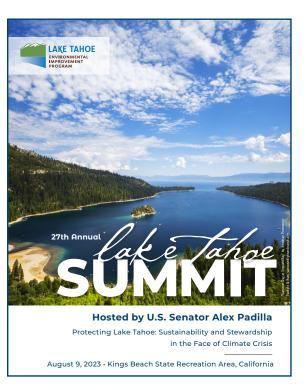

- Organized the Heavenly Snowshoe field trip for 268 local eighth graders and educated 233 fourth graders on bike safety. TRPA led additional programs as part of the South Tahoe Environmental Education Coalition, which cumulatively reached 10,246 students and individuals through 17 programs.
- Teamed up with the Lake Tahoe Bicycle Coalition to organize the 18th annual Tahoe Bike Month. A record number of participants cycled 52,789 miles throughout the month of June. More than 400 students also rode their bikes to school.

Recognized six individuals who have shown exceptional commitment to protecting Lake Tahoe as this year's Lake Spirit Award winners. The recipients include one North Shore and one South Shore recipient for each of the three categories of Citizen, Agency Representative, and Lifetime Achievement.

Government Affairs

 Provided testimony to congressional leaders in Washington D.C., including Sen. Jacky Rosen (D-Nev), about the importance of Destination Stewardship to Lake Tahoe and the nation.

• Led the partnership in organizing the 2023 Lake Tahoe Summit featuring U.S. House Speaker Emerita Nancy Pelosi (D-CA 11th District). Also led a Summit staff field tour showcasing top Environmental Improvement Program projects to 30 key legislative staffers and elected officials.

2023 Lake Tahoe Summit poster (left), TRPA booth at the Lake Tahoe Summit at Kings Beach State Recreation Area (top right), and TRPA Governing Board Chair Cindy Gustafson addressing the audience (bottom right). Photos by: Corey Rich

FINANCE, LEGAL, AND HUMAN RESOURCES

In addition to fiscal services, grants management, and budgeting and forecasting, the Finance and Facilities Team provides and maintains modern Information Technology resources to support a hybrid work environment, disseminate information to the public, and encourage effective public participation in online meetings. The finance team adheres to the highest financial standards to support Lake Tahoe and TRPA's mission.

In 2023, TRPA retained 71 of 72 staff members by making headway on staff retention goals. Seventeen staff members received merit-based promotions, bringing the entire staff up to appropriate percentiles in their salary ranges. The Human Resources and Finance teams also implemented a merit-based salary review process, raised the agency's retirement contributions, and maintained competitive health and dental benefits.

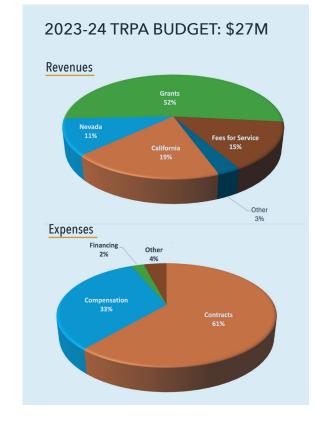

Key 2023 Accomplishments

Finance and Facilities

- Executed a \$5 million agreement with the USDA Forest Service to award federal Environmental Improvement Program funds to partner agencies requiring an outstanding audit record and broad financial expertise.
- Received an unqualified audit opinion, the highest possible, for Fiscal Year 2023 financial statements.

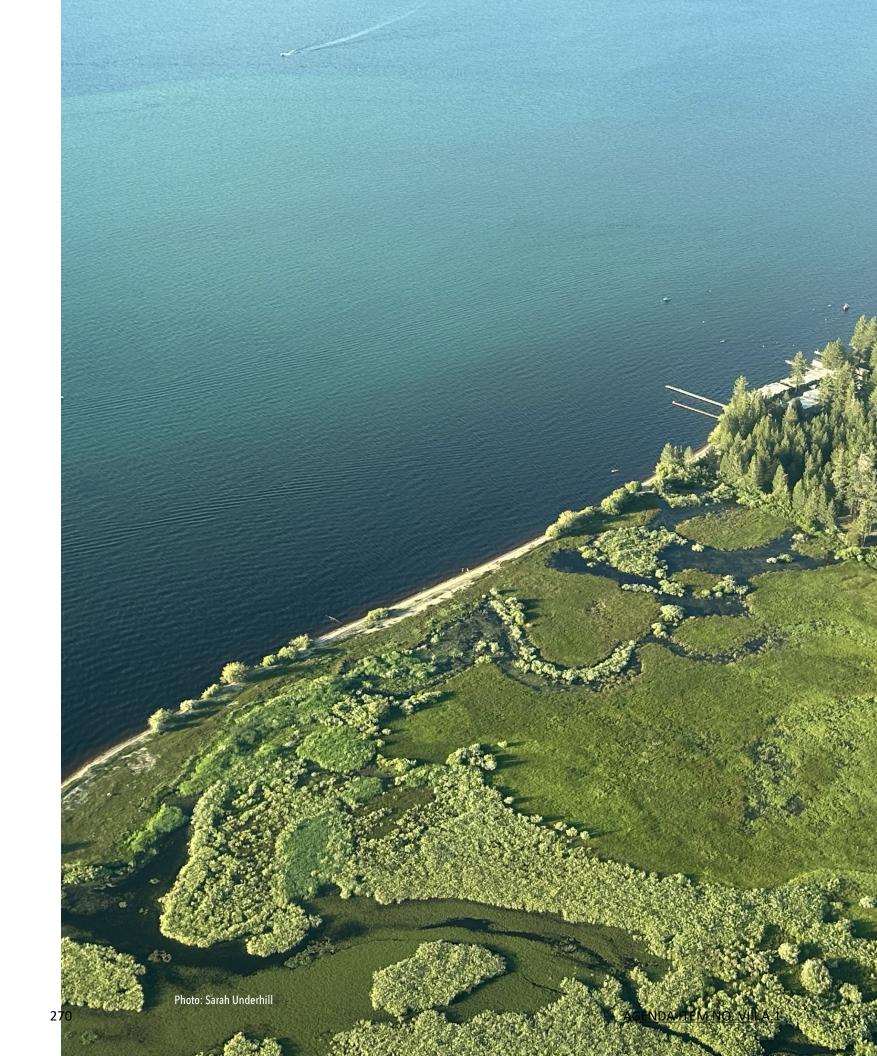

Legal

- Received favorable decisions and findings in five lawsuits, and navigated an additional successful settlement.
- Responded in a timely manner to 50 public records requests, and provided invaluable support to housing and permitting code amendments.
- Improved the public engagement process by creating a written public comment policy for Governing Board meetings.

Human Resources

- Implemented the Diversity, Equity, and Inclusion Strategic Plan to ensure policies are equitable and inclusive.
- Added a language translator on TRPA's website and permit application software.
- Worked with the Washoe Tribe of Nevada and California to display a land acknowledgment in the newly created Da ow Room, where a map is framed of the Tribe's ancestral lands.
- Delivered new training programs such as the Learning Lab, supported organizational changes, and integrated hybrid and inperson work successfully by sponsoring field tours, staff outings, and in-person team activities.

STAFF REPORT

Date: February 21, 2024

To: TRPA Governing Board, Transportation Planning Committee

From: TRPA Staff

Subject: Transportation Committee Strategy Session

Summary:

Staff will provide background on TRPA's transportation program and will facilitate a strategy session, seeking input and direction on focus areas for the committee.

Project Description/Background:

The TRPA Governing Board Transportation Committee was created at the November 15, 2023 Governing Board meeting. The following month, December 2023, TRPA staff provided a brief overview of TRPA's transportation planning activities to help orient the committee on the roles and responsibilities of TRPA in the transportation arena and upcoming topics coming to the committee. At the meeting, Committee Chair, Alexis Hill, asked that the committee identify goals for the next year.

Next Steps:

At the February meeting, staff will provide an orientation on the transportation program including TRPA's role in transportation planning and policy as well TRPA's coordination role in funding and implementation. The committee will review proposed short, medium, and long-term priorities the committee could potentially focus on to advance transportation priorities. The committee will also review future programs and plans that will be requiring committee feedback and support.

Contact Information:

For questions regarding this agenda item, please contact Nick Haven, MPO Director, at (775) 589-5256 or nhaven@trpa.gov, and Michelle Glickert, Transportation Planning Program Manager, at (775) 589-5204 or mglickert@trpa.gov.

To submit a written public comment, email publiccomment@trpa.gov with the appropriate agenda item in the subject line. Written comments received by 4 p.m. the day before a scheduled public meeting will be distributed and posted to the TRPA website before the meeting begins. TRPA does not guarantee written comments received after 4 p.m. the day before a meeting will be distributed and posted in time for the meeting.
