

Tahoe Regional Planning Agency
128 Market Street
Stateline, NV 89410

Dear Tahoe Regional Planning Association:

On September 1, 2022, I attended EKN Development's presentation outlining the criteria and programming for their upcoming TRPA submittal for the former Tahoe Biltmore site. For many years the corridor at Crystal Bay, and the north shore entrance to the states of Nevada and California, has been an eyesore, environmental hazard, and long overdue for revitalization. Throughout the presentation, I learned about the numerous economic and environmental benefits the project will provide for my community and visitors. With that said, I fully support their vision for the rebirth of Crystal Bay, Nevada, and encourage the TRPA to approve the plans now to expedite the project as soon as possible.

Dear Tahoe Regional Planning Association:

On August 31, 2022, I attended EKN Development's presentation outlining the criteria and programming for their upcoming TRPA submittal for the former Tahoe Biltmore site. For many years the corridor at Crystal Bay, and the north shore entrance to the states of Nevada and California, has been an eyesore, environmental hazard, and long overdue for revitalization. Throughout the presentation, I learned about the numerous economic and environmental benefits the project will provide for my community and visitors. With that said, I fully support their vision for the rebirth of Crystal Bay, Nevada, and encourage the TRPA to approve the plans now to expedite the project as soon as possible.

Dear Tahoe Regional Planning Association:

On September 28, 2022, I attended EKN Development's presentation outlining the criteria and programming for their upcoming TRPA submittal for the former Tahoe Biltmore site. For many years the corridor at Crystal Bay, and the north shore entrance to the states of Nevada and California, has been an eyesore, environmental hazard, and long overdue for revitalization. Throughout the presentation, I learned about the numerous economic and environmental benefits the project will provide for my community and visitors. With that said, I fully support their vision for the rebirth of Crystal Bay, Nevada, and encourage the TRPA to approve the plans now to expedite the project as soon as possible.

Dear Tahoe Regional Planning Association:

On September 28, 2022, I attended EKN Development's presentation outlining the criteria and programming for their upcoming TRPA submittal for the former Tahoe Biltmore site. For many years the corridor at Crystal Bay, and the north shore entrance to the states of Nevada and California, has been an eyesore, environmental hazard, and long overdue for revitalization. Throughout the presentation, I learned about the numerous economic and environmental benefits the project will provide for my community and visitors. With that said, I fully support their vision for the rebirth of Crystal Bay, Nevada, and encourage the TRPA to approve the plans now to expedite the project as soon as possible.

Stateline, NV 89410

Dear Tahoe Regional Planning Association:

On October 5, 2022, I attended EKN Development's presentation outlining the criteria and programming for their upcoming TRPA submittal for the former Tahoe Biltmore site. For many years the corridor at Crystal Bay, and the north shore entrance to the states of Nevada and California, has been an eyesore, environmental hazard, and long overdue for revitalization. Throughout the presentation, I learned about the numerous economic and environmental benefits the project will provide for my community and visitors. With that said, I fully support their vision for the rebirth of Crystal Bay, Nevada, and encourage the TRPA to approve the plans now to expedite the project as soon as possible.
