#### To: Regional Agencies and the California Department of Transportation

#### 2021 Report of State Transportation Improvement Program Balances County and Interregional Shares

The California Transportation Commission's (Commission) twenty-fourth annual report of State Transportation Improvement Program county share and interregional share balances is provided with this letter for your review. Streets and Highways Code Section 188.11 mandates that the Commission maintain a record of balances and that it makes the balances through the end of each fiscal year available for review by regional agencies not later than August 15 each year.

This year's report of share balances includes allocations approved through the June 30, 2021 Commission meeting. The balances in this report are based on capacity identified through 2024-25 in the 2020 State Transportation Improvement Program fund estimate, adopted in August 2019. The balances also include all current cash commitments made for Assembly Bill 3090 reimbursements.

State Transportation Improvement Program project listings are included in the report for the primary purpose of documenting the use and availability of county and interregional shares. The Commission breaks down the programming of State Transportation Improvement Program projects into two distinct categories: (1) highway projects; and (2) rail and transit projects. Although these listings provide a useful summary of State Transportation Improvement Program projects, the project descriptions are brief and should not be regarded as complete and authoritative. The California Department of Transportation maintains a database with more complete project descriptions, and final authority rests with specific Commission actions and corresponding supporting documentation.

Please direct any comments or questions regarding this report to the Commission's Associate Deputy Director, Kacey Ruggiero, at (916) 653-1503 or by email at Kacey.Ruggiero@catc.ca.gov.

Sincerely,

1W-

MITCH WEISS Executive Director

#### EXPLANATION OF SHARE BALANCE SUMMARIES AND INDIVIDUAL SHARE BALANCE SHEETS

The information in this report is provided in four statewide tables, followed by individual balance sheets for each county and for the interregional share. The statewide summary sheets include:

- <u>Summary of State Transportation Improvement Program Share Balances</u>. This summary table displays the total share amount, the amount programmed, and unprogrammed balance or balance advanced for each county and the interregional share, drawn from the individual share balance sheets.
- <u>Summary of State Transportation Improvement Program Share Programmed Amounts</u>. This summary table displays the total amounts programmed through June 2021 for each county and the interregional share. The amounts are drawn from the project listings on the individual share balance sheets.
- <u>Summary of State Transportation Improvement Program Share Total Amounts</u>. This summary table, with reconciliation to the 2021 Report of Share Balances, includes amounts drawn from the top of the individual share balance sheets.
- <u>Summary of Mid-Cycle State Transportation Improvement Program COVID Share Balances.</u> This summary table displays the total COVID share amount, the amount programmed, and unprogrammed balance for each county and the interregional share, drawn from the individual share balance sheets. These shares are not part of the regular county shares and targets. These will be tracked separately

The individual balance sheets are presented in alphabetical order by county (including the separate share for the Tahoe region), followed by the interregional share. Each sheet includes the following:

- <u>Total State Transportation Improvement Program County Share, June 30, 2020 (from 2020 Report)</u>. This amount, carried forward from the 2020 Report of State Transportation Improvement Program Balances, is the share balance as of June 30, 2020.
- <u>Less 2019-20 Allocations and Closed Projects</u>. This is the sum of the 2019-20 allocations that were listed in the 2020 Report of State Transportation Improvement Program Balances, including Caltrans project support components that were closed without allocation. These allocations and closed project components are dropped from this year's project listing.
- <u>Less Projects Lapsed, July 1, 2020-June 30, 2021</u>. This is the sum amount of the funds that lapsed because projects were not allocated before the end of the fiscal year or by the time of any extension granted. This amount will be added back in the 2022 State Transportation Improvement Program fund estimate for the share period that begins 2024-25.
- <u>Total County Share, June 30, 2021</u>. This is the total share available before deducting currently programmed projects, including projects voted since July 1, 2020.
- <u>Project Listing</u>. This is a listing by project of the amounts currently programmed from the county share, including project allocations made during the 2020-21 fiscal year. The <u>Voted</u> column indicates the month a project was allocated funding or if the project is otherwise closed. The Extension (<u>Ext</u>) column indicates the month to which a project has received an extension of the deadline for allocation. This column is also used to indicate State-Only-Funds and to indicate receipt of Senate Bill 184 notifications (Senate Bill 184 allows for reimbursement of expenditures incurred prior to allocation). The project listing is in two parts, with subtotals for each part and a total for all:
  - <u>Highway Projects</u>. These projects will be funded from the State Highway Account or federal funds.
  - <u>Rail and Transit Projects</u>. Rail and transit projects eligible for Public Transportation Account funding. With limited availability of Public Transportation Account funds, these projects should also be eligible for State Highway Account or federal funds.
- <u>Balance of State Transportation Improvement Program County or Interregional Share</u>. For each county and the interregional share, this is the current unprogrammed share balance or the share balance advanced or overdrawn.
- <u>Balance of COVID Programming</u>. For each county and the interregional program, this is the current programmed and unprogrammed balance from COVID shares.
