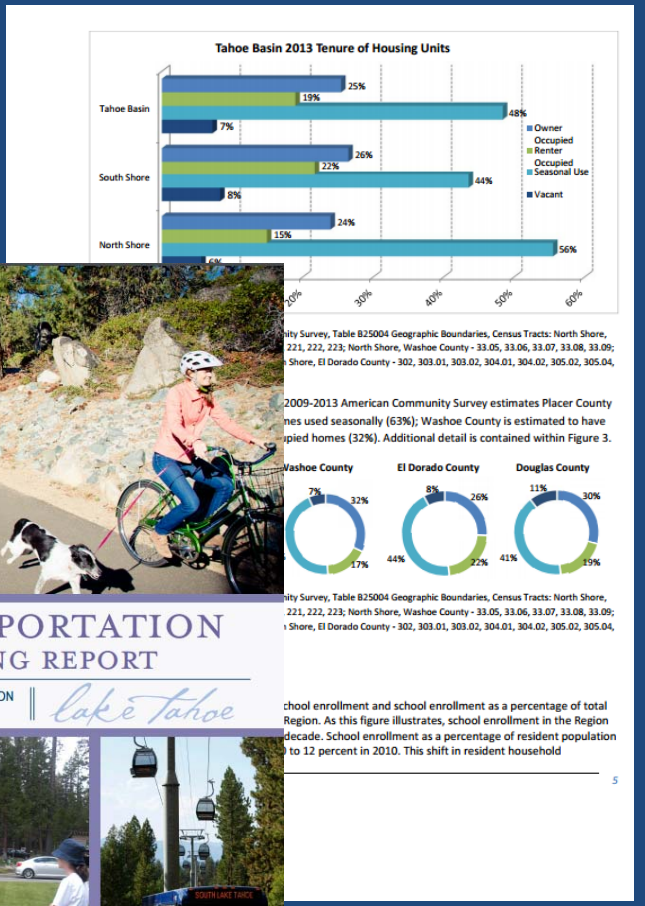
for Planners Scientists, Data Geeks

Future Integration



What's Next?

Lake Tahoe INFO

- Enhance Parcel & Commodities Tracker to streamline data flows
- Build-out the data center to support ad hoc analysis, interpretation, and visualization
- Add tools for self-service

"Everyone over here who is using the tool LOVES it and is finding it really easy to use and useful."

Elizabeth Kingsland | Nevada Division of State Lands (NDSL) | December 2014

"This [Commodities Tracking Program application implementation] is about the easiest thing I've ever done with the TRPA."

Don Knight | El Dorado County | 13 November 2013

"With the EIP Project Tracker, the average citizen has the opportunity to better understand how public dollars have been spent to restore the lake. Transparency like this is critical to maintain the public's trust and the goodwill we'll need to secure long-term public funding to adequately Keep Tahoe Blue for years to come."

Jesse Patterson | Deputy Director, League to Save Lake Tahoe | 7 December 2015
