STAFF REPORT

Date: May 15, 2019
To: TRPA Environmental Improvement, Transportation, & Public Outreach Committee
From: TRPA Staff
Subject: 2020 Regional Transportation Plan Schedule and Implementation Update

Summary and Staff Recommendation:

This item is for Informational purposes and may result in direction to staff.

Background:

The Environmental Improvement Program, Transportation and Public Outreach Committee plays an important role in steering and shaping transportation in Tahoe. Staff will present an overview of the Transportation Program including a briefing on implementation activities in response to identified Bi-State consultation priorities supporting the 2017 Linking Tahoe: Regional Transportation Plan (RTP) and the schedule for the next RTP slated for approval in 2020.

In addition to discussing implementation activities, staff will review the RTP update schedule that includes a series of regular check ins with the committee during the development of the 2020 RTP over the next 12-months. The focused RTP update will zero in on reviewing priorities, policies and projects to reduce reliance on the automobile, reduce mobile source greenhouse gas emissions and address regional congestion.
