

Errata Sheet – Summary of corrections made to the October 24, 2012 version of the Final 2011 Threshold Evaluation (December 12, 2012).

- Corrected aggregation figures representing overall status and trends for six indicator reporting categories (Figures 3-1, 3-2, 3-3, 5-2, 8-1, and 12-4). Corrections were needed because figures got corrupted when converting the word version of the final draft document to .pdf format - resulting in incomplete figures/graphics.
- Corrected page number references in List of Figures, List of Tables and Table of Contents. Corrections were needed because page numbers got corrupted when converting the word version of the Final Draft Document to .pdf format - resulting in an offset of page numbers.
- Correction were made in the final document to make consistent the reporting icon with the narrative determinations for: 1) Vegetation Preservation, Uncommon Plant Community, Freel Peak Cushion Plant Community, 2) Water Quality Chapter, Tributary Water Quality Introduction (indicator aggregation in Figure 4-3), and 3) Noise, Cumulative Noise Events, Urban Outdoor Recreation.
- Corrected Table 12-1b in the Implementation and Effectiveness Chapter, Development Right Utilization Summary to correspond with correction made for the RPU EIS Documents and Response to comments, Master Response 9.
