Green Building Toolkit Resources**

| CATEGORY | AREA | NAME | CONTACT | TYPE | STATUS | DESCRIPTION | MAIN QUALIFICATIONS |
|-------------|--|---|--|---|--------------------------------------|---|--|
| Residential | Douglas County, NV | Renewable Energy Incentives, Douglas County | For more information contact Lani Collins, 775-782-6224, lcollins@co.douglas.nv.us | Permitting rebates for renewable energy systems | Current | Douglas County offers a 50% discount on all building related fees for the inclusion of renewable energy systems (such as wind, solar, geothermal, and photovoltaic systems) in development projects. | |
| Residential | Douglas County and Carson City, NV | Low Income Weatherization Assistance Program, Nevada Rural Housing Authority, Carson City, NV | http://www.nvrural.org/energy-efficiency/weatherization-services and Nevada Rural Housing Authority, 3695 Desatoya Drive Carson City, NV 89701; Phone: (775) 887-1795, ext. 124; weatherize@nvrural.org | Installation of energy efficiency home improvements | Current | Provides income-eligible residents (below either 150% or 200% of poverty line with energy conservation measures and assistance free of charge. In Carson and Douglas County, the program is administered by Nevada Rural Housing Authority. Assistance is provided for those living in single-family homes, multi-family units and mobile homes. Following is a list of typical services provided through Nevada Rural Housing Authority Weatherization Assistance: Attic, floor and duct insulation, Duct leakage sealing, Window replacement, Water heater and water pipe insulation, Furnace replacement, Refrigerator replacement, Installation of low flow shower head, and Carbon monoxide alarm installation. Contact Nevada Rural Housing Authority for more information. | Residential (Low-Income) |
| Residential | Douglas County, Carson City, and Washoe County, NV | Wood Stove Change-Out Program, Bureau of Air Quality Planning, Nevada Division of Environmental Protection (NDEP) | Program Administered by John Handzo of the Business Environmental Program (BEP) with any questions or concerns; (775) 834-3674, Jhandzo@unr.edu; http://www.unrbep.org/wood-stoves/ | Rebate for installation of a new EPA Phase II certified wood stove, fireplace insert, or pellet stove. | Available until funding is depleted. | In partnership with the the Business Environmental Program at the University of Nevada Reno (BEP, UNR), NDEP is implementing a program that offers rebates for the replacement of a non-EPA certified wood stove with a EPA certified wood stove, or pellet stove, or gas appliance. Rebate amounts vary. Please contact BEP to find out if you are eligible prior to any removal or installation. | |
| Residential | All NV Jurisdictions | Green Building (LEED) Tax Abatements, Nevada Governor's Office of Energy | For more information: contact the Energy Program staff, Kevin Hill or Kevin Johnson at 775-687-1850, http://energy.nv.gov/Programs/Green_Building_(LEED)_Tax_Abatements/ | Green building tax rebates | Current | Grants partial property tax abatement from 25% to 35% for non-residential and multi-family residential new construction or existing building retrofits that are certified USGBC LEED Silver, Gold or Platinum. The level of tax abatement depends on the certification level and number of Energy Conservation points earned in certification. Retrofits can gain up to 5 years of tax abatements and new construction can gain up to 10 years of tax abatements. | Residential (Multi-family, greater than 4 housing units) |
| Residential | All NV Jurisdictions | Energy Fit Nevada | http://www.energyfitnevada.org/ ; Northern Nevada: 775-230-7133, info@homefreenv.org | Provides resource info for homeowners, discounted energy efficiency audit, & rebate for qualified homeowners who achieve at least a 20% energy reduction. | Current | Provides rebates, incentives and low interest financing to homeowners and contractors for energy audits and retrofits including a discounted \$199 EnergyFit Assessment. (Energy Audit). A rebate of \$2000 is offered for a 20% energy reduction or greater, which is calculated using the energy modeling software. This is an instant rebate that is listed on the signed invoice with the contractor, so you do not have to wait for reimbursement. EnergyFit Nevada's purpose was to offer homeowner's ways to reduce their energy usage and live in more comfortable homes. | |
