

LAND CAPABILITY VERIFICATION INFORMATION PACKET

I. OVERVIEW

Prior to applying for a permit to modify or expand the footprint of development on a property, you must first determine the land capability, or the property's potential for development. This application will result in a determination of the land capability districts and percent of base allowable coverage for a property. The land capability verification will assign a score(s) ranging from 1-7, based on an evaluation of soil type and slope. This score correlates to a percentage of base allowable coverage (ranging from 1-30 percent).

To learn more about land capability and coverage, visit TRPA.gov.

For any questions regarding information within this packet, please call 775-589-5333 to speak with a permitting technician.

II. PROCESS FOR LAND CAPABILITY VERIFICATIONS

Step 1: **Look up existing property information.** Visit the [Parcel Tracker](#) and use the location address to determine what records are available relating to your property, such as: general permit records, verifications, compliance status, applicable fire district and local plan, and more. In some cases, your local building department may have land capability and coverage data in their records.

If the land capability or land coverage have already been verified on your property (or was approved as part of a past permit), there is no need for another evaluation. Please note, only stamped plans approved after July 1, 1987 can be used to verify land capability and coverage in lieu of a site assessment.

Step 2: **Determine what type of evaluation you need.** If coverage or land capability information is not available on your property, one of these evaluations will be needed:

1. **Land capability verification:** Verification of land capability only for residential and non-residential properties.
2. **Full Site Assessment:** Verification of both land capability and existing coverage for single-family residential properties built before 1987. Visit [TRPA's Applications and Form webpage](#) for more information.
3. **Verification & Banking Application:** Verification of land capability, existing coverage, and existing uses on multi-family and non-residential uses. Visit [TRPA's Applications and Form webpage](#) for more information.

4. **Individual Parcel Evaluation System (IPES):** Most vacant single-family residential parcels were evaluated under the IPES system starting in 1987 and were assigned a score and percent of base allowable coverage. A site assessment is not needed for properties with an IPES score. If you have a vacant residential parcel that has not yet received an IPES score, you can apply for an [IPES evaluation](#).
5. **Land Capability Challenge:** If a land capability verification has already been issued for your property, you may appeal that decision through a land capability challenge. Visit [TRPA's Applications and Form webpage](#) for more information.

Step 3: **Determine where to apply.** If your property is in El Dorado County (outside city limits) or Placer County, submit your land capability application at the building department office. For properties in the City of South Lake Tahoe, Washoe County and Douglas County, as well as all lakefront properties, submit your application to TRPA.

Step 4: **Prepare existing site plans.** The application checklist included in this packet lists all elements that must be included on these plans. There are sample plans available [online](#).

Step 5: **Complete and submit your online application to TRPA via the [Accela Citizen Access Database](#) available at www.trpa.gov.** Each project category has a [TRPA Application and Form](#) listing specific items that are required at the time of submittal. TRPA created [sample plans](#) to help applicants determine what site plans should look like. Application [filing fees](#) are also due at the time of submittal.

Step 6: **Completeness review.** Once an application is received, TRPA will complete an initial review of materials within 30 days. The initial review ensures all checklist items, correct fees, and the correct application was provided, as well as ensuring the application was submitted to the correct agency. If the application is missing any checklist items, TRPA will send an incomplete letter to the applicant listed on the application.

Step 7: **Application assignment and review.** Once your application is complete it will be assigned to a planner for review. This planner will be the lead on the project, meaning the primary point of contact and the person completing project review and issuing the permit. You can view who is assigned to your project by visiting the [Parcel Tracker](#) and typing in the TRPA file number received when the application was submitted.

TRPA holds itself up to the standard of issuing a permit in 120 days or less, determined from the time that all information needed to review the project is provided (i.e. once the completeness review is final).

Review times vary based on application volumes and staffing. The planner will review the project to ensure it meets the requirements of the TRPA code of ordinances and local plan.

If additional information is required to ensure the project meets code requirements, the planner will send an email requesting the additional information. When additional information is requested, the time for review is paused until the applicant is able to provide all required information.

Step 8: **Receive your results.** Upon completion of review, the results will be sent to your mailing address. If you are planning a project on your house, share your results with your architect to help guide the design process.

III. LAND CAPABILITY VERIFICATION CHECKLIST ITEMS

To submit an online Land Capability Verification Application, click [here](#). The following section contains a checklist of items to be submitted with your application.

- ☐ **Completed and signed application form.**
- ☐ **Application [filing fee](#).**
- ☐ **Site plan (minimum size 24" x 36") prepared by a licensed professional (i.e. surveyor, engineer, architect) showing the following:** (Sample plans are available [online](#).)
 - a. Property lines, easements, building setbacks, parcel area in square feet.
 - b. Map scale and north arrow.
 - c. Assessor's Parcel Number (APN), property address and property owner(s) name(s).
 - d. High and low water line, if adjacent to lake.
 - e. Trees greater than 14" dbh and rock outcrops.
 - f. Existing topographic contour lines at two-foot intervals.

LAND CAPABILITY VERIFICATION APPLICATION

Some applications can be submitted to your local building department. To streamline the permit process, TRPA has entered into agreements with other agencies to carry out environmental review on our behalf. [Use this guide](#) to know where to apply.

Applications to TRPA can be submitted online through [Accela Citizen Access](#). For assistance submitting a form or application online, please call 775-589-5333 or visit the TRPA front lobby.

SIGNATURES

DECLARATION

I hereby declare under penalty of perjury that this application and all information submitted as part of this application is true and accurate to the best of my knowledge. I am the owner of the subject property or have been authorized in writing by the owner(s) of the subject property to represent this application, and I have obtained authorization to submit this application from any other necessary parties holding an interest in the subject property. I understand it is my obligation to obtain such authorization, and I further understand that TRPA accepts no responsibility for informing these parties or obtaining their authorization. By submitting this application, I agree to all TRPA regulations regarding Project Review as stated in Article 5 of the TRPA Rules of Procedure and other TRPA regulatory documents, including the TRPA application fee refund policy. I acknowledge that once the application is submitted, if I withdraw it for any reason, I will not be entitled to a full refund, and the amount of any refund will be determined by TRPA.

I understand that should any information or representation submitted in connection with this application be inaccurate, erroneous, or incomplete, TRPA may rescind any approval or take other appropriate action. I hereby authorize TRPA to access the property for the purpose of site visits. I understand that additional information may be required by TRPA to review this project.

AUTHORIZATION FOR REPRESENTATION

Complete this section only if an agent or consultant is submitting this application on behalf of the property owner.

The following person(s) own the subject property (**Assessor's Parcel Number(s)** _____)
or have sufficient interest therein (such as a power of attorney) to make application to TRPA:

Print Owner(s) Name(s): _____

I/We authorize _____ to act as my/our representative in connection with this application to TRPA for the subject property and agree to be bound by said representative. I understand that additional information may be required by TRPA beyond that submitted by my representative, to review this project. Any cancellation of this authorization shall not be effective until receipt of written notification of same by TRPA. I also understand that should any information or representation submitted in connection with this application be incorrect or untrue, TRPA may rescind any approval or take other appropriate action. I further accept that if this project is approved, I, as the permittee, will be held responsible for any and all permit conditions.
