
LOT LINE ADJUSTMENT & RIGHT-OF-WAY ABANDONMENT INFORMATION PACKET

I. OVERVIEW

This packet is for lot line adjustments and right-of-way abandonment projects only.

For information on lot consolidations or mergers, see applicable information packet available [online](#). For projects involving the division of land (i.e.) the creation of new lots of record including condominium lots), see the [subdivision application](#).

Please be advised, TRPA will not approve a lot line adjustment that increases development potential or results in a parcel becoming more non-conforming.

II. PROCESS FOR LOT LINE ADJUSTMENTS & ROW ABANDONMENT

Step 1: Determine if land capability and land coverage have been verified for each affected parcel. Visit the [Parcel Tracker](#) and use the location address to determine what records are available relating to land coverage and land capability. In some cases, your local building department may have land capability and coverage data in their records.

If land capability and land coverage have not been verified on your property, you will first need to apply for a site assessment (single family residential properties only) or a coverage verification and land capability verification. Please note, if adjusting a lot line between an IPES and Bailey lot, you must have a land capability verification completed for the IPES parcel prior to submitting this application.

Step 2: Prepare a topographic survey for all properties involved. The application checklist details all elements that must be included on the site plan.

Step 3: For right-of-way abandonment projects, complete the enclosed “Supplemental Form A”.

Step 4: Complete and submit your online application to TRPA via the [Accela Citizen Access Database](#) available at [www.trpa.gov](#). Application filing fees and all checklist items applicable for your project will be required at the time of application submittal.

Step 5: Work with a Planner. Once your application is received it will be assigned to a planner for review. Visit the [Parcel Tracker](#) and use the location address to check the application status or to see which planner is assigned to your project.

- Step 6:** **Receive your conditional permit.** Upon completion of review, a conditional permit will be issued with conditions that must be satisfied before the permit can be “acknowledged” (i.e. finalized). Such conditions could include posting a security deposit and providing copies of the map to be recorded with the county. Once you have met all the conditions, contact your Planner to set up an appointment to acknowledge the permit.
- Step 7:** **Record the lot line adjustment in accordance with County requirements.**
- Step 8:** **The security will be released once a copy of the recorded map and new parcel numbers are provided to TRPA.**

III. LOT LINE ADJUSTMENT & ROW ABANDONMENT CHECKLIST ITEMS

Project Description/Proposal:

Request EXPEDITED REVIEW as a minor application: **YES** **NO**

TRPA offers an expedited review process for certain lot line adjustments under a “minor application”. (TRPA Rules of Procedure 5.4.) Minor applications will have shorter review times. For more information and to see which activities are eligible as a minor application, see the “[Minor Applications Information Packet](#)”.

Request CONCURRENT REVIEW as a bundled application: **YES** **NO**

TRPA offers a concurrent review process for lot line adjustments if the activity is necessary for a proposed project and if the proposed project application will be submitted at the same time as the lot line adjustment application. (TRPA Rules of Procedure 5.5.) Project applications submitted to local jurisdictions are not eligible for concurrent review. For more information and to see which activities are eligible, see the “[Bundled Applications Information Packet](#)”.
