

DRAFT Descriptions of Project Alternatives

Summary of Goals, Policies and Implementation Measures

Pathway Vision Statement: In 2027, the Lake Tahoe Basin is an exceptional place where communities thrive in harmony with the natural environment. The overwhelming presence of nature is apparent. The Lake is blue and clear, the air is clean, the region's ecosystem healthy, and natural sounds evident. Within communities, the economy is strong and sustainable; the population diverse and vital, the richness of everyday life is obvious. Based on mutual respect and the integration of human and natural communities, a balance exists that inspires and motivates residents, businesses, visitors, and governments alike to work together to maintain the Lake's value as a national and international treasure. Lake Tahoe is a truly unique and special place.

Pathway Desired Conditions: None

| Ref# | Type | Alternative 1 | Alternative 2 | Alternative 3 | Alternative 4 | Alternative 5 |
|-------|------|----------------------------------|---|---------------|---------------|---------------|
| 1.1.1 | IM | Existing Implementation Measures | Amend Chapter 27 to modify the waiver for fire water supply on new single-family dwelling permits in those areas where the existing water systems have inadequate water supply, pressure, and/or hydrants to allow for alternative fire protection designs that adequately comply with the intent of the adopted fire code. | | | |
| 1.1.2 | IM | None | Amend Chapter 27 to require that new development in urban areas be adequately served by fire hydrants (to be determined through consultation with the applicable local fire district and in compliance with the adopted fire code). | | | |
