SEA BEE HYBRID

## Sea Bee Hybrid

Due to the changing ways that we look at transport of all kinds, and due to the fact that by utilising previously underused waterways worldwide there is an ecological benefit just by getting some traffic away from the roads . see [www.worldwatertaxis.com](http://www.worldwatertaxis.com)

A new ECO Sea Bee water taxis is about to become a reality

Hybrid diesel power fitted to the 9 mtr sea Bee water taxi has the effect of a lower fuel usage of a round 30% with negligible emissions and very quiet operation

The system is also non redundant upgradeable to future power plants such as Hydrogen Fuel Cells

Call us today to make a difference to the world
